NEWS OF GANANOQUE

CONCRETE WALKS CONTRACT AWARDED.

An Old Resident of Union Dead—The Steamer Whenow is Very Unlucky—She Had a Second Break-Down Yesterday.

Gananoque, May 7.—The choir of Christ church went down to Lansdowne, yesterday afternoon, to render Stainer's "Crestation," for the benefit of the Anglican church in that village, by request of the pastor, Rev. Mr. Leach. Besides the choir a goodly number of the young people's club went down. The solo parts were rendered by the Messrs. Skinner and Britton.

William Earl, an old and highly respected resident of Union, well-known throughout this section, passed away at his home at an early hour, yesterday morning, in the seventy-ninth year of his age, after a short illness. The Gananoque-Clayton ferry steamer Whenow arrived here, yesterday noon, from Kingston, where she had been undergoing repairs, and started out for her regular trip to Clayton during the afternoon, but after proceeding a few miles eastward from here, had another breakdown and had to send for a launch to bring her passengers back here, all arriving safe about five o'clock.

George B. Magee, of Merrickville, grand superintendent of chapters, paid an official visit of inspection to Leeds chapter, No. 201, Royal Arch Masons. A complimentary banquet was held in honor of the visitor.

W. A. Dolan has been awarded the contract for the laying down of some 50,000 square feet of granolithic walks here during the coming season. Mr. Dolan's tender of 13 1/2c. being the lowest, was consequently accepted. He has had a number of men at work for some weeks getting out stone to be used in the work.

F. X. Bellois, King street, was awarded a second prize in a competition for a suitable name for a park, inaugurated by the Canadian Resort and Extension company, of Montreal. Staff Capt. Macgillivray, of the Salvation Army's immigration department, was in town for a short time this week. Joseph Glass, Stone street, spent a couple of days this week with Kingston friends. George Keeworth, of Burlington, who has been spending the past two weeks with his parents, Mr. and Mrs. William Keyworth, of Osborne street, has returned home. George Dustin, of the Wesleyan Theological College, Montreal, is holidaying with his parents, Mr. and Mrs. W. G. Dustin, Garden street.

WHAT CORRESPONDENTS SAY.

Dairy Herds and Prospective Output in East.

Reporting on the extent of the herds and prospective output in butter and cheese in the east, correspondents of the Toronto Sun say:—
J. H. Singleton, Leeds, says a large number of farmers reduced their herds last fall, selling at very low prices. David Boyle, Lanark county, says the reduction of herds in that section amounts to about forty per cent., quite a number of cows having died during the early spring.

W. B. Leavens, Prince Edward county, reports a reduction of one-third. The cheese and butter output may equal that of last season if summer conditions are favorable for grass, is the report of Mr. Singleton, Leeds. James Aylesworth, Lennox and Addington, expects a small decrease.

Mr. Boyle, Lanark, says in his opinion there will be a decrease both in butter and cheese, as many new calves cows have died. Good grass will help quite a lot, but as a rule cows in his section are in poor condition now and giving very little milk.

Mr. Leavens, Prince Edward, considers twenty-five per cent. a conservative estimate of the decrease in butter and cheese output of his section.

Mr. Fox, Dundas, is of opinion that there will be a decrease in output of butter and cheese.

What Is Herpes?

It's a type of irritating skin disease that's becoming quite common. It spreads rapidly and effects disagreeable parts of the body. If your skin is itchy and irritable, use a quick acting remedy like Dr. Hamilton's Ointment; it penetrates the skin, allays the itching, gives relief at once. For any skin irritation, roughness or chapping, there is nothing so certain as Dr. Hamilton's Ointment. Sold by all dealers, in 50c. boxes.

Using The Telephone.

It was the first time she had ever used a telephone and the drug clerk detected the fact by the nervous way in which she held the receiver. "Dear me," she exclaimed, timidly, "why are all those sixpences in the mouthpiece?" "They are there for a purpose," replied the drug clerk very solemnly. "What purpose?" "Why, so you can strain your voice."

Why Have Dandruff.

All scaly humors of the scalp are annoying and they indicate a condition that commonly leads to baldness. Wade's Ointment is a certain cure for scaly humors, and all these affections: Eczema (Salt Rheum), Cold Sores, Farns, Piles, Blotches, Sore Feet, and all scaly or itching eruptions of the skin. In big boxes, 25c., at Wade's Drug Store.

One Short.

Success Magazine. She asked him if he was the photographer. He said he was. She asked him if he took children's pictures. He said he did. She asked him how much he charged. He said, "Four dollars a dozen." "Then I'll have to go somewhere else," she replied. "I only have eleven."

William H. Ketcheson, better known as "The Honest Farmer," of Sidney township, died in Belleville hospital, Wednesday.

COST OF TEXT BOOKS.

Facts That Mr. Whitney Does Not Give Out.

Brantford Examiner. The public are being misled by the statement that the cost of school readers has been permanently reduced by the present government. It is true that after a commission had made enquiries under the present government, of which commission J. A. Cooper, present editor of the Canadian Courier, was the practical man, the government issued an announcement that after a year and a half from that date the old Ontario readers would cease to be authorized. Then the department advertised for the publication of the Ontario readers during that year and a half, but it did not follow the specifications and requirements set out in the advertisement, but gave a contract to the old publishers, who had large stock of these books on hand at a low price, to furnish the readers for that year and a half. The old publishers found themselves in this position that they had a heavy stock on hand and unless they got a contract this stock would be dealt waste. By getting the contract, they, during the year and a half, could work off all readers on hand in a ready or semi-ready state. Hence the prices now being paid are prices on the basis of a remnant sale and not permanent. Mr. Cooper, a conservative in politics, in the Canadian Courier, speaking of the reduction in prices, says: "This reduction in price may last one and a half years. What will happen then is only a matter of conjecture. The probability is that if the new set of readers is prepared and the printing and binding brought up-to-date, the price will go back to the old price, if not higher." So that when the whole truth is stated and the facts fully understood the deception practised in this cry of cheap Ontario readers becomes quite apparent.

COMMERCIAL MATTERS.

What is Going on in the Business World—The Markets.

Practically all of the cotton mills in Fall River have decided to curtail production.

The Pressed Steel Car company has about 4,000 stockholders, the largest number it ever had.

Gross earnings of the Toronto railway for the four months of 1908, were: \$1,075,494; increase, \$60,909.

Grand Trunk railway system traffic earnings from April 22nd to 30th were: \$316,773; 1907, \$1,166,617; decrease, \$249,844.

C.P.R. traffic earnings for the week ended April 30th, 1908, \$1,463,000; for the same week last year, \$1,993,000; decrease, \$530,000.

Toronto railway earnings for April show an increase of \$11,320. The increase for the week ending May 2nd, however, was less than a thousand dollars. It is to be remembered, however, that earnings at this period last year increased at a phenomenal rate.

The Hidden Secret mine, in Australia, yielded \$200,000 of gold in a few days and was sold for \$2,500,000. It was then called the Golden Hole. The entrance was sealed and a stock company formed with \$3,750,000 capital. When it was re-opened the mine proved to be a pocket. All the gold was gone.

NEWS OF DISTRICT.

The Tidings From Various Points in Eastern Ontario.

Mrs. James Merrill, Belleville, died, on Wednesday, after a few weeks' illness. She was a daughter of the late James Reid, of Thurlow, and was thirty years of age.

Miss Florence J. Bell, daughter of Mr. and Mrs. Joseph Bell, Tyendinaga township, died, Wednesday. Deceased was nineteen years of age and had been ill for some time.

Rev. S. and Mrs. Card; Moultonette, are taking up their residence in Brockville, with their daughter, Mrs. W. I. Maley. Mr. Card is retiring from the active ministry of the Methodist church, after a service of fifty years.

At Arranrior, Wednesday morning, fire broke out in No. 5 sample room of the Campbell house, occupied by Mr. Robert J. McCall & Co., Toronto. It quickly spread to No. 6 sample room, also occupied by a millinery man, Mr. Pearson, of Goldwing, Toronto. The samples of both men were badly damaged.

Swan Olson, Swede, employed as an ironworker at the Leitch Portland cement plant, Belleville, met with a very painful accident, on Monday. In the erecting of the iron work, the rivets are tossed to the men red-hot, and in this case Mr. Olson missed one which struck him on the chin burning the flesh seriously.

Hints To Traders.

Lippincott's Magazine. (Cadd)—Whenever one of the big magazines says to buy stocks I always say, "That's the way to fool 'em." (Cadd)—I don't. When they say to buy I always buy, Gadd—but don't you know they never express their private opinions in public? They always say just the opposite of what they think. (Cadd)—No; that's solemn. When they say to buy they know you will think they believe it is really time to sell. So now they say just the opposite of what they expect to do. They say the right thing because you will think it is the wrong thing. By the way, Gadd, did you ever make any money in stocks? (Cadd)—No. (Cadd)—Neither did I.

Some bachelors are romantic, but most of them are more antic than anything else.

Black Watch

The Chewing Tobacco of Quality.

A GENTLE EUPHEMISM.

Hon. Mr. Whitney Sinned Against Light.

Toronto Globe. "Granted, for the sake of argument," says the Kingston News, "that Mr. Whitney has made mistakes. What man is there in or out of politics who does not? It is a mark of skill to give a bad thing a soft name. When the News, therefore, calls the \$2,500,000 guarantee to the Mackenzie & Mann project merely "a mistake" it certainly deals with the matter very gently. The difference between a mistake and a deliberate doing of evil is marked enough to be patent to the least discriminating eye. Does the News suppose that Mr. Whitney wandered up to the point of guaranteeing Mr. Mackenzie's bonds thoughtlessly? The mere period of the session that he was brought down his proposals precludes such a supposition. At the close of the session of 1902 he declared he would oppose railway grants in future unless "specific information as to each grant were brought down ten or twenty days after the opening of the house." The man who makes that declaration once, but many times, and who as frequently asserted that he would not consent to bonuses to railway projects other than colonization lines, did not agree on the last two days of the session to guarantee bonds for a railway already constructed between Toronto and Parry Sound without a wrench of conscience. He made no mistake; he sinned against light. Why did he do it? "Hark! the Gaul is at your gate." Were the whip and the organizer at his gates telling him that it was an unpleasant pill, but had to be swallowed if the boys were to have the usual bundles on election day?

POLITICAL POINTERS.

The Anxiety of the Premier Well Understood.

Barrie Examiner: In view of the Mackenzie and Mann guarantee deal, the anxiety of the premier to close the session abruptly is fully understood. Not even his huge majority could have withstood the force of adverse public opinion against the deal had the people known and understood what he proposed to do.

There is trouble in the conservative party in West York and unless Dr. Godfrey can give some satisfactory assurances to the temperance party there will be another independent conservative candidate who will seek election to the legislature as a general supporter of Mr. Whitney.

There is a revival of an old feud in Grenville where G. H. Ferguson and his rival, R. L. Joynt, are debating in violent letters which should be the conservative candidate. There is a chance of a liberal getting elected, though the constituency is strongly conservative.

H. C. Tomlin, the independent conservative candidate, is getting busy in West Toronto. An organization meeting he announced he was in the fight to stay. The liberals will support him if the independent Tories will support their candidate against Hon. Thomas Crawford.

"MAIL" CAUGHT NAPPING.

Not Correct on Subsidy Question—Whitney's Gfants.

Toronto Weekly Sun. The Mail and Empire, in reviewing the record of the Whitney government, says:

"The policy of giving vast sums of money or huge grants of land to railways has been abandoned."

The statement is not quite in accordance with the facts. In the session of 1906, \$265,000 was voted for the construction of a railway from the town of Little Current to a point about thirteen miles from Sudbury. In that same session a subsidy of \$3,000 per mile for thirty-eight miles, or \$114,000 all told.

At the session of 1907, again, an entirely new grant of \$5,000 was made to assist in meeting the cost of connecting Thessalon with the Soo branch of the C.P.R. The Canadian Northern was, at the same time, allowed an extension of the period granted within which to earn the cash subsidy of \$2,000 per mile for a branch from Sudbury to Lake Abitibi.

Extensions of time were also given for the earning of the subsidy granted the Ironbridge, and Duncraft, and Toronto, Lindsay, and Pembroke lines.

Finally, at the session of 1908, not only was a guarantee to the extent of \$2,500,000 voted to the Canadian Northern, but a land grant of 575,000 acres was made to the Ontario, Huron Bay and Western railway.

The Whitney government has not gone so far in this respect as the Ross administration, but it has come very much further than it should have done.

As Viewed By A Friend.

Goderech Star (Con). This measure (the C.N.R. guarantee) and the time chosen for its introduction, has brought on the government perhaps more criticism than any other act of the session. Premier Whitney has since published a statement in defence of his action, and condemning the hypocrisy of the opposition leader and press who have been censuring the government for his action. We think his defence is good, so far as the wisdom of granting the aid is concerned, as it certainly enhances to a great degree the value of the security already held by the province for its aid to the road. But every well wisher of Mr. Whitney, and those who admire his consistent course on all public questions heretofore, must have felt regret that this very great responsibility was not announced and discussed some weeks ago. It was by such tardy legislation, giving room for mischievous which were too often justified by results, that the Ross government deserved and received the condemnation which fell upon it. When a measure is right as a matter of principle it will stand the fullest discussion and the most candid and open presentation.

If a man has enough push he'll manage to pull through.

Chase & Sanborn's

HIGH GRADE COFFEE

Of course, there's a lot in making coffee right. But do your part right, and you need have no fear of the results as long as you use Chase & Sanborn's Coffee.

Quite a problem, Buying clothes, Using care In where one goes
