Are Pretty, Becoming And Bewitching.

. More of daintiness, stylishness, prettiness and low priceness was never embodied in Waists. So many charming styles - so many fabrics are represented -so much of perplexing variety-so much of beauty and value. It would be difficult to choose from them if it were not that your choice will be right no matter what you choose.

Every Waist we show is of perfect stylethat will be apparent on sight, but the number of styles we are showing is surprising. We scoured the market Waists - viewed

them al and selected only the best. Our assemblage is the cream of the season's Waist styles.

And in our quest for beauty, style and variety we never overlooked the important matter of price. We have attended to that too _you will avow that you never saw such Waist values.

At a meeting of the ratepayers held of the Parliamentary Wars in the council chamber on Saturday in England is presented at which the policyholdere have for might, to consider matters of lighting in England is presented at the town and supplying electricity to run enterprises, W. C. Scott addressed the gathering, advising that the day. town secure energy for lighting and manufacturing purposes. A scheme was read by Dr. Ward, from the Hydro-Electric Power company, for supplying the town with 200 horse power, at \$25 per horse power, and a les-ser rate offered for a large horse power. The proposition is for Trenton, Belleville, Deseronto, Napance and Kingston to enter into a compact to secure power from Trenton, where un-limited energy is obtainable, and could be procured. It was decided at the mosting to further investigate the the meeting to further investigate the proposition and confer with individuals and manufacturers as to the robable horse power required, and also to hold out inducements to outside manufacturers to come to Napance. It was also said that the Bay of Quinte contemplated the electrification of its system Letween Napan e and Deseronto. W. C. Scott said that in his travels he had not met with a town that could offer such inducements to manufacturers as Napan e, and all that was required was a little boosting to make this one of the test manufacturing and residential towns in Ontario. AN INDEPENDENT OPINION.

Stronger Opposition Desired. Montreal Star.

In both Ontario and Quebec, an un- Sc. concerned outsider would probably advise the strengthening of the oppositions. Both governments have too large majorities. In this province the opposition practically committed suiof pique, with the result that the egislature has not represented anything approaching the mind of the for a whole term. Indeed, so strong were the liberals that they had to get up an opposition amongst themselves in order to keep things interesting, and they even carried the "sham fight" out in so realistic a

Thus, if the conservatives put candidates in the field at all, this time, they cannot very well escape making some "gains." And it is in the publie interest that they should. There ought to be in every deliberative assembly an opposition strong enough in numbers, in vigor and in talent to call the policy of the government senously in question. Our system of government depends upon a virile opposition quite as much as upon a trusty government; and we have been suffering during the last few years from feeble and ineffective oppositions at Quebec, Toronto and Ottawa. If the liberals were to make gains in tario and the conservatives were to make gains in Quebec on June 8th next, the people would be the gainers on

in both provinces. Premier Gouin's record has been progressive one. He has given this rovince good government in many firections, and has shown a commendable desire to meet the public needs in such vital matters, as education, good roads, usury legislation and the like. When it comes to the proper could wish for a more patriotic policy criticism in this regard, and there a growing feeling amongst us that no group of politicians has yet realized Dandruff Germ Thrives In It.
