Rheumatism

I have found a tried and tested cure for Rheumatism. Not a remedy that will strengthen the muscles, but one that will draw the rheumatic growth back to flesh again. That is impossible, I can now surely kill the pains and pains of this terrible disease.

In Germany, with a Chemist in the City of Darmstadt, I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made.

This is a decomposed protein. When this last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it seems to have disappeared. I have never seen such a dread disease. These sind-like granular wastes, found in Rheumatic blood seem to dissolve and disappear, and the patient is cured.

When we sell you our Java and Mocha blend of coffee we know it is good coffee. The best that money can buy. It will please you. J. S. Henderson, Brock Street.

EXCHEQUER COURT AND R.R. COM. AMENDMENTS.

Important Developments Expected in Regard to the Battle Over the Manitoba Lists—Mr. Cyr's Letter in Answer to Mr. Foster Arouses Vehement Objection.

OTTAWA, May 14.—There was a cessation of hostilities over the election of the lists yesterday, not because of any rapprochement on the Manitoba issue, but simply in order that the government might dispose of several non-controversial bills standing on the order paper, and allow the opposition time to reflect on their present impossible position. It was a truce by courtesy, and as matters developed it only served to emphasize the nasty temper of the opposition. Any suggestion of amicable relations was quickly dispelled by Mr. Foster, who affected great concern because of the possible protraction of the inquiry into the charge affecting the marine and fisheries department owing to Justice Cassels' decision to give first attention to his court duties. A few weeks ago Mr. Foster's chief desire seemed to be to discredit the inquiry about to be undertaken by Justice Cassels and to place obstacles in its way, but now he appeared to be consumed with anxiety because it was not proceeding fast enough. Apart from this incisiveness, his criticism of what he called the government's inaction laid itself open to censure on other grounds, and the premier did not fail to take advantage of the opening. The member for Vancouver, B.C., at the Methodist conference, Rev. John Robson, of Wallace street church, Nanaimo, was elected president.

Rev. James R. Mann, B.A., Sturgeon Falls, has received a call from the Presbyterian congregations of Burnham and Smith's Falls.

The committee of members of the Danish and Icelandic parliaments, having the matter in charge, recommends the federal union of the two countries.

PINCHED HIM IN LUNG.

Left-Handed French Swordsman Wounds Opponent.

PARIS, May 15.—That rare incident, a serious French duel, occurred yesterday, when a youthful left-handed swordsman of the name of Raveneau poked his opponent, named Villette, dangerously in the lung. They quarrelled some time ago, but Villette, who is one of the most experienced swordsmen in Paris, and who has fought fifteen duels, refused to fight until Raveneau attained his majority. This happened a few days ago, and the duel was arranged. The novice who was the pupil of the famous sabreur Kyphoffer proved to be markedly superior to his opponent. His blade pierced Villette's lung several inches. The latter was taken to an hospital vomiting blood. His recovery is doubtful. The combatants are highly connected.

This was the opportunity Sir William wanted. For days, he said, the government had been endeavoring to get ahead with some of the bills on the order paper, and among these was a bill amending the exchequer court act and providing for Justice Cassels' court whenever deemed necessary. Time and again the government had attempted to proceed with these bills and to secure the appropriations necessary to carry on the business of the country, and at every step, they had been met with the most obstinate opposition. If there had been delay in connection with the Cassels inquiry the responsibility rested, not on the government, but on the opposition, for the bill which would expedite the investigation was ready and would be gone as soon as the opposition provided the opportunity.

Mr. Foster's chief desire was a sharp check, however, to Mr. Foster and Mr. Jackson, of Selkirk. The former had charged Mr. Jackson, the member for Provencher, who is absent on account of ill-health, with having secured his election by fraudulent means, and when Mr. Jackson attempted to read a letter from Mr. Cyr denying the allegations in various terms, the members for Nickel Plate, Toronto appealed to the speaker for protection, which was granted. As the result of the true several bills, including the bill respecting the board of railway commissioners and the exchequer court bill were passed.

Important developments in the political situation are expected within the next few days. It is the government's intention to move the house into supply to-day and a strong effort will be made to impress upon the opposition the necessity of assenting to the appropriations necessary to meet the demands of the civil service and government works.

It is understood, however, that the conservative party are disposed to continue their obstructive tactics, regardless of the consequences, although a section is agreed with being in favor of a more conciliatory course.

The government, on the other hand, are determined not to submit to the dictation of a minority, and will spare no efforts to press through supply. If they fail in this grave responsibility, it is recognized, it may then be found advisable to leave the issue in the hands of the people.

A LAKE CAPTAIN.

WATERTOWN, N.Y., May 15.—Capt. H. Mills, aged forty-eight, one of the best known captains on the upper lakes, died suddenly, yesterday, of acute indigestion. He had sailed between Buffalo and Duluth practically all his life. Last season he was master of the steamer Wilbert L. Smith, and this year was booked to sail the F. D. Roosevelt, both United States Transportation company freighters.

He will pay his first visit to Hamilton in his official capacity and probably a prominent Mason.

LADY COOK IS ILL.

NEW YORK, May 15.—Lady Francis Cook, who before her marriage was Miss Tennessee Clifton, of this city, has sailed for Europe on the steamer Baltic. Failing health has compelled her to give up all active work and upon the advice of her physicians she is going abroad for a period of complete rest and quiet at one of the European health resorts.

A HEAVY DOCKET.

HAMILTON, Ont., May 15.—The spring session which opened here on Monday, promises to be a record breaker. There are forty-six civil cases entered on the list, the largest number in eleven years. Added interest will be also lent by the presence of Chief Justice Mulock who will pay his first visit to Hamilton in his official capacity and probably a prominent Mason.

THEY PICKED PARK FLOWERS.

THIS morning about eleven o'clock Superintendent of Parks Phillips, who was in the office of Alderman Kent noticed five boys at work in Clarence Park picking tulips from the centre bed. He immediately made a dash for the park, followed by the chairman, but they took to their heels and got away, leaving some of the tulips on the ground. This was no "steal" act—it was too deliberate for that. It was simply a case of "appropriate" in sight of all who passed. The superintendent says he'll certainly prosecute any person he catches taking flowers out of any park here.

Football Match Saturday.

An association football match has been arranged and will take place, weather permitting, Saturday, at 2:30 p.m., on the cricket field, between the R.C.A.A. and Wanders. Wanders will be minus some of their regular players, but otherwise a good team will be on hand, and will likely be: Stokes, Carey, Hart, Batty, Watts, H. Bigham, Wilkinson, White, A. Bigham, Johnston, Kirshaw. A good hard game is expected, and a close result looked for, as both teams have been hard at practice.

To Hold Labor Meeting.

It is probable that the labor men of the city will hold a big mass meeting on the evening of May 25th. A large number of prominent labor speakers will be in the city on Victoria day, to attend the Labor Educational Association, and an effort will be made to get them to stay over for the meeting. It was the intention to hold a meeting some time ago, but it was found impossible to secure the speakers.

A Whimsical Editor.

CHRISTIANIA, May 15.—It is believed that Belle Guinness, the Leproso, Ind., murderer, is the daughter of Peter Paulsen, formerly a well-known sword swallower at Norwegian fairs, where Mrs. Guinness, when she was a child, assisted him in his feats and appeared as a rope dancer. Paulsen has been dead for some time.

Baby Burned To Death.

ELM CREEK, Man., May 15.—The infant daughter of Thomas Cook was burned to death, on Wednesday evening, in a fire which caught from the cook stove during the absence of its mother, who stepped outside for a minute or two.
