

STREET CAR STRIKE

NON-UNION MEN ATTACKED BY STRIKE SYMPATHIZERS.

The Police Called Out to Disperse the Gathering—Cars Run on Some Lines Without Trouble.

Cleveland, Ohio, May 16.—Cleveland's street car system was tied up at five o'clock, to-day, by a strike. A large crowd gathered at the Lake View barns, this morning, when an attempt was made to start several cars. Strike sympathizers attacked the non-union crews and a sharp melee followed in which a score of men are reported to have been clubbed. Chief Koplir and a number of officers were rushed to the scene and dispersed the crowd. Chief Koplir was struck with a stone but was not seriously hurt. Cars were run down town on several lines without trouble. Ten lines, at least, were unable to send out a car. The unionized suburban lines carried passengers only to the city limits, then ran in as mail cars without passengers.

HER ORDEAL TERRIBLE.

Restored to Life By Husband's Kiss.

London, May 16.—A woman named Mrs. Carton, of Tonbridge, has been through one of the most terrible ordeals ever known. She fell into a trance after a short illness, and was placed in a coffin in the belief that she was dead. She lay silent, unable to move or speak, with preparations for her funeral were going on all around her. Mrs. Carton's husband, who is an emerald dealer, was distracted with grief when, a few days ago, he found her apparently dead after a few days' illness. All arrangements were made for the funeral, a coffin was brought and the woman was laid in it. Then, just as the coffin was about to be screwed down, Mr. Carton asked to be left alone, with the body for a moment. He bent over his wife to kiss her for the last time. The check on which his lips rested was warm. His wife was alive.

Told in Twilight

The use of the word "party," by the Croquet Club, for its Tuesday events, through June, revives fragrant memories of old-time happy gatherings. The word has so completely gone out of fashion that it sounds quite like "Cricket" to the ears of the younger generation. The club is to be congratulated on rising superior to the fad of the day which has wiped the old word out and substituted "tea," "bridge," "affair," "dance," and so on. May the party succeed. Floreat! Floreat! which we hope is good classical Latin.

There was a Kingston gathering in Rome, lately, when Mrs. George Richardson and her daughter met Mr. and Mrs. W. J. Crothers accidentally. All were enjoying themselves to the utmost.

Letters from Miss Ethel Waldron say that she and her sister have been lucky enough to come in for the cherry blossom festival, the gay season in Japan. The trees are one mass of flowers, each blossom larger than a geranium. These travellers have met many old friends, and also met the Rev. Charles Short, cousin of the Misses Muckleston, attending service in his church.

COMMONS IN SUPPLY.

Items to the Amount of \$400,000 Passed.

Ottawa, May 15.—It is an open secret that parliament is progressing between the prime minister and the leader of the opposition, which may solve the intricate problem now facing parliament over the election bill.

By 11 p.m. \$400,000 of public buildings in Manitoba and Saskatchewan had been passed. This was done quietly and without any publicity. It is interesting to note that the following departments have received the full vote for civil government, and consequently their employees got their full pay envelope to-day: Governor-general's privy council, finance, Indian affairs, auditor-general, finance, customs, inland revenue, agriculture, marine and fisheries, public works, mines and trade and commerce. The departments which received half pay were justice, militia, printing, interior, mounted police, railways, post office and labor.

Little Girl Burned To Death. Parrsboro, N.S., May 16.—At Green Hill, about two miles from Parrsboro, Clarence McAlcise had been burning brush piles near his home, and had gone to a distant part of his farm. His two little girls went into the field and were playing with the burning heap when the dress of one of them, a child of about six years of age, caught fire. Their mother heard their screams and ran to their assistance, but when she reached the unfortunate child its clothes were all consumed. Surgical aid was procured as quickly as possible, but the doctor pronounced the case hopeless and the child died.

BODY CLEANING EVERY SPRING MORE URGENT THAN HOUSE CLEANING.

Many Women Have Discovered That a Course of Treatment With Pe-ru-na Cleanses the System of the Accumulations of Winter.

MRS. ALICE BRADLEY.

Mrs. Alice Bradley, Thorold, Ont., Can., writes: "Two years ago I became weak and rundown and as time passed I gradually failed until a year ago, when I experienced a stroke of paralysis, which affected one side and I was helpless. I called in professional medical treatment, but steadily grew worse. I had decided I never would rise again from my bed, but when Peruna was brought to me and after having taken four bottles of it, I was able to be out and a wonder to myself and friends. I consider Peruna a great blessing to the afflicted. I may add that my daughter has also used Peruna and has been blessed with renewed health. I believe Peruna saved our lives."

Clean Up Once a Year. CLEANING up the body in the spring is a duty everyone owes to himself. Face powders may hide a rough skin, but Peruna helps to produce a skin that need not be hidden. The source of good blood is good digestion. Peruna aids digestion. Those people who have regular bodily functions have a clear and delicate skin. Peruna helps to restore these functions. Most skin deformities depend upon systemic derangements which cannot be corrected by local treatments. Peruna is a systemic remedy, reorganizing and regulating the whole body.

Mrs. N. P. Lawler, 423 1/2 N. Broadway, Pittsburg, Kas., writes: "Last spring I caught a severe cold which developed into a serious case of catarrh. I felt weak and sick and could neither eat nor sleep well. A member of our club, who had been cured of catarrh through the use of Peruna, advised me to try it and I did so at once. I expected help, but nothing like the wonderful change for the better I observed almost as soon as I started taking it. In three days I felt much better, and within a week I was well. I continued taking the entire bottle and within two weeks I was in fine health."

Peruna is a wonderful medicine. Mr. Lee King, R. F. D. No. 4, Farmersville, Tex., writes: "My health has been better generally this spring and summer than it has been for four years and I have worked nearly every day. I suffered with dysentery and bowel trouble. Your remedy also cured my wife of constipation. I wish you continued success with your great medicine, Peruna."

Health and Complexion, Strength and Beauty Depend Upon Clean Blood and Good Digestion.

Mrs. Daniel Passmore, Welland, Ontario, Can., writes: "For three years I was severely afflicted with stomach trouble, and for days at a time I could not eat anything. I grew thin in flesh, had headaches and was the picture of despair. I was attended by three doctors, but got no good results. Finally I began the use of Peruna. I soon noticed an improvement and after using three bottles, I was able to relish a meal, in fact, could eat anything. To-day I feel well and strong. I consider that Peruna has saved my life and I shall always praise it."

WOMAN IN THE GANG.

Paris, May 16.—A band of notorious thieves which has terrorized the north-east of Paris for six months, has been broken up by the police. The prisoners captured comprise twenty-five men and a woman.

The principal members of the organization lived in a stylish villa at Pontoise. They were under the leadership of an ex-convict named Legain. At night they operated in the neighborhood of their headquarters, and stole everything upon which they could lay hands, including horses, bicycles, furniture, cars, and telephone wires. In one night they removed about a mile of overhead wire paralyzing telephone communication between the city and the north-east suburb. Legain and his associates also carried out an extensive series of burglaries.

The police watched the villa at Pontoise for a week without cessation, and caught six members of the band returning just before daybreak, laden with the proceeds of a burglary. Legain was among the prisoners. Finding himself the inmate of a prison cell, he immediately denounced his accomplices, including the receivers of the stolen property, with the result that now they are all in custody.

Are All of One Mind. London, May 16.—The Times, referring to the Mansion house meeting for the Wolfe and Montcalm memorial, says that Canadians, "when they learn that we, in England, are all of one mind on this matter cannot but feel that the heart of the motherland beats in unison with their own, and that their fellowship in the British empire is as Mr. Bryce said in New York, 'Established and consecrated forever.'"

Race For Life On Skis. Rome, May 16.—Two Austrian brothers, named Schindler, who crossed the Italian frontier from the Engadine on skis in order to catch a train, were fired at by customs guards in mistake for smugglers. Shot after shot followed them as they skied down the mountain side at a great pace, one bullet grazing the younger brother's knapsack, but they soon outdistanced their pursuers.

Heavy Fighting. Algiers, May 16.—The French force under Gen. Vigy lost thirteen men, killed, and sixty-five wounded during a fierce engagement, yesterday, with the fanatical Arabs. Three officers are among the French killed. The Arab losses are described as heavy.

Road Crumley's special for to-night. The eight hat manufacturers in Orange, N.J., closed their doors on Friday, throwing about 2,800 operatives out of employment, because of a failure to reach an agreement with them as to wages and labor conditions.

LONGLEY A TROUBLER.

British Press Comments on His New York Speech.

London, May 15.—The Financial News referring to Justice Longley's speech at New York, says it is not the first time would-be politicians have made vain glorious boasts of the independence of colony, which were regarded as quite the proper thing in some small little towns of the dominion, forgetting what the country owes itself the immense capital and enterprise which in future have to owe to British warships.

The Standard says it is probable Justice Longley knows a good deal more about law than the political ideals of Canadians. At any rate he ought to adequately fill his position on the bench. With the present gives the speech some prominence, there is little comment. Official Canadian circles here deprecate any tendency to exaggerate its importance.

Silence Drove Her To Death. San Bernardino, Cal., May 16.—Miss Caroline Tibbets, aged twenty-three, of Toledo, Ohio, overcame with loneliness of the desert station of Danby, where she was recently assigned to duty as a railroad telegraph operator, committed suicide by shooting herself. Miss Tibbets, who had been ill, was unused to the quiet of the desert, and for several days had been in a restless frame of mind, declaring repeatedly that it was better to be dead outright than buried alive.

At Concession the wharf has been wrecked and much of the timber floated ashore at Wellington, where once was a good sand beach, nothing but a body of water can be seen at Concession; the wharf is almost inundated. It will be raised. The shore road is under water and people have to wade to reach the wharf.

The proposed advance in freight rates, by the United States railways, east of Chicago, means, it is calculated, an increased taxation to every man, woman and child of \$1.75 a head.
