STORY OF THE POLICE COURT.

Two Indians Drink "Fire-Water" and Have Trouble.

Two Indians from Garden Island landed up on "fire-water," in the city, last night, and then started in to paint the town. At the corner of Montreal and Princess streets they commenced a war dance, which started passersby. A police officer appeared on the scene, and the offenders were taken to the lock-up. "We got fellow to go in store and get whiskey," said one of the Indians. He did not know the man. He was a stranger. A fine of \$1 and costs was imposed in each case. "I had a little, but not enough to hurt," was the explanation given by another drunk. "Enough to turn your head," said the magistrate. The accused said that he had been living in Kingston twenty-one years, and this was the first time he had been charged in the police court. The court looked upon this as a good record, and gave him a chance. Another offender who indulged too freely was taxed \$2 and costs or twenty days.

Boys Play "Hokey." Boys who play "hokey" from school, had better keep clear of Constable Samuel Arieul. The officer rounded up four offenders yesterday, and handed them over to their teachers. Three belonged to St. Mary's school, and the other attended one of the public schools. Bibby's \$1 suits are beauties.

SHE ENDED HER LIFE.

BY JUMPING INTO WATERS OF CLAY CREEK.

Another Death As a Result of the Notre Dame De La Sallette Landslide—The Victim Was the Mayor's Sister. Special to the Whig.

Ottawa, May 16.—The list of dead, resulting from the landslide at Notre Dame La Sallette now reaches thirty-three. As an indirect result of the pathetic scene occurred there, yesterday, when Emilie Morrissette, aged forty years, sister of the mayor of La Sallette, threw herself into the waters of Clay Creek and was drowned. The woman was almost demoralized for the last year. The loss of life at the landslide affected her father's health and her brother lost a child. Yesterday she was found dead in the circumstances pointed to suicide and the woman was buried this afternoon. This thirty-third victim of the landslide and only seventeen bodies have been recovered. One man, Jules Lamoureux died in his chair from the shock of relatives' deaths, and that of Morrissette makes the thirty-third victim.

The remains of the late Cadet George Jackson arrived to-day noon, from Montreal. They were taken to Stella for burial. The flags on the Royal Military College buildings were flying at half-mast to-day. Robert M. Rev. Charles A. Sykes, of Sydenham Street Methodist church, went to Montreal, to-day, to preach anniversary services in the Fairmount and Avrore Methodist church on Sunday, and also to give an address Monday evening. He returns to the city on Tuesday.

THE HIGH WATER.

What the United States Survey Says of It. In a report dealing with the present high water in Lake Ontario and the St. Lawrence river the United States Lake Survey ascribes the unusual conditions to four causes: An abnormal rainfall in the Ontario basin; the choking of the lower St. Lawrence with ice which held back the water; the building of the international dam at the head of the Galop Rapids, between Big Island and Prison Island, which closed one of the river's natural outlets; and the largely increased flow entering from the Niagara river, due to the high stage of Lake Ontario. Lake Ontario shows the highest April stage since 1886, when it was five inches higher. It is fourteen inches higher than last year, a foot higher than in 1891, twenty-two inches above its average April stage for the past ten years, and thirty-eight inches higher than in April, 1895. Lake Ontario will probably go on rising until July, and by that time be four inches higher than during April. Excessive rainfall may make this rise six inches or a foot. After July it should recede, reaching the April stage in September.

Killed In Toronto. James Imrie, a married man, living on Sward street, and employed by the Toronto Electric Light company, met with an accident, from which he died shortly after. Imrie, employed cleaning out the engine-room, got caught between a pulley and back pulley and belt. Electrical Engineer Black said: "I don't know how it occurred. He must either have been sitting close by the belt and fallen back, or had been lying on it when it started. He did not go around the wheel, but was crushed by the forward motion of the belt." Drs. King and Roberts said death was caused by the heart being crushed. There was not a scratch on the body. He was a big, stalwart man, weighing about 200 pounds.

Miners Must Not Drink. Pittsburg, May 16.—The H. C. Erick coal company, a subsidiary of the United States Steel corporation, has ordered into effect a new code of rules governing its mines and miners, the most remarkable provision of which is the prohibiting of the company's miners from drinking, whether on duty or off.

CITY AND VICINITY.

How They Lined Up. The Victorians lined up as follows against the Irishmen at the cricket field, this afternoon: H. Dick, c.; G. Dick, p.; Haslett, lb.; W. Dick, 2b.; Poulad, s.a.; Gillespie, 3b.; Duffy, 1b.; H. Nicholson, c.f.; Evans, r.f.

A Square Deal! Mr. Hanna forgot to tell his audience last night, that the great increase of revenue of the province was due to wise liberal legislation in years past. To do so would have been a square deal!

Flower Thieves Abroad. Flower thieves are getting in their work in Kingston. Last night, some person or persons visited the garden of School Inspector Kidd, on Harris street, and robbed one of the tulip beds of its best offering. Several citizens have suffered in this respect.

Another Assault Case. Assault cases are becoming quite common in the Kingston police court. The latest to come before the notice of the police is one in which two brothers, living on Queen street, are involved. One claims that he was beaten by the other, and will have a warrant issued for his arrest. The whole affair is said to be a family quarrel.

Y.M.C.A. Ladies' Auxiliary. The annual meeting of the Ladies' Auxiliary of the Y.M.C.A. was held on Friday afternoon. Those officers were elected: President, Mrs. John Wright; vice-presidents, Miss H. Booth and Mrs. George Lee; secretary, Mrs. O. Chow; treasurer, Mrs. E. Meek. Mrs. Toye, who retired from the presidency after fourteen years of active and faithful service, was presented with a large bouquet of roses.

Married In Ottawa. In Ottawa, on Thursday evening, the marriage took place of Miss Violet, youngest daughter of E. B. Brown, to Alfred Palmer, of the firm of Henry Birks & Sons, and formerly of Kingston. Rev. W. A. McIlroy, of Stewart Presbyterian church, performed the ceremony in the presence of the immediate relatives and friends. Mr. and Mrs. Pannell left on Friday for Montreal and other cities. They will reside on Gladstone avenue, Ottawa.

Had A Fine Time. The Daughters of Rebekah gave a very pleasant progressive euchre party in their lodge rooms, Princess street, on Thursday evening. About twenty tables were in play. Mrs. W. Hartman and Louis Langdon won the first prize, and the booby prizes were awarded to Mrs. M. Wilshire and William Pogue. After the cards daily refreshments were served by the ladies, after which a short dance brought the pleasant evening to a close.

Dr. Spankie At Glenburnie. Dr. William Spankie, the independent candidate in Frontenac, was greeted by a large audience at Glenburnie on Friday evening. The hostile criticism of J. S. Gallagher, M.P.P., for allowing fine opportunities to legislate in the farmers' interests to slip away, particularly in regard to educational matters. He spoke of his educational policy, and what he would endeavor to do to improve existing conditions. He was elected. Dr. Spankie addressed five meetings in Frontenac during this week.

A Faithful City Employee. There is at least one employee of the city who deserves an increase in salary, and that is the superintendent of parks, Mr. Phillips. When one looks around and sees the splendid work he has done and is doing in connection with the parks, it almost seems a shame that he is given only \$300 a year. Mr. Phillips has been parks superintendent for fourteen years, and should have had an increase in salary long ago. The parks committee would like to give Mr. Phillips a bonus if it had the money. No doubt it will if there is a surplus at the end of the year.

The Bills Considered Large. A special meeting of the board of health was held, yesterday afternoon, at the instance of Mayor Ross, who desired to make enquiry into a couple of grocery bills passed by the board at its last meeting on the recommendation of the health officer. It was thought that the bills incurred in connection with some contagious disease cases which were isolated in March and April at the expense of the city, were rather large, a number of "luxuries" such as guns, tobacco and raising appearing in the tabulated lists. The bills were gone over, but nothing was done in the way of reconsidering their passage. The cases in question cost the city much less than previous ones of a similar nature in years past.

The lecture on "The Renaissance in Venice" was given in the classroom, but it was uncomfortably crowded, and it has seemed best this time to use the larger hall.

Slack Has Arrived. To Spend Rest of His Life in Penitentiary. Sheriff Jarvis and deputy arrived from Toronto at noon to-day, with the prisoner, George Slack, who will spend the rest of his life in prison for criminal assault. Slack is a young man of good physique, and has red hair. The convict had dinner at the British-American Hotel, before being moved to the penitentiary.

"I'm innocent of this charge, so help me God," exclaimed Slack, bursting into tears, when Justice Anglin sentenced him to life imprisonment in Kingston penitentiary—the heaviest sentence since George Chambers, the highwayman, got twenty years last winter.

Slack was convicted nine years ago of assault and robbery, and sentenced to twelve years. He was released recently on parole, the requirement being that he report on the 23rd of each month to the chief of police.

The assault on Mrs. Davis was committed on March 20th. Slack reported himself on March 20th. He had been working as an elevator man. Mrs. Davis was positive in her identification. Slack's own family were positive in swearing to an alibi for him. He himself said he was home sick in the house, except while he was out posting a letter.

GIVEN SPEEDY TRIAL. Pedlar Fined For Working Without License. Simon Jacobson, a stranger in the city, arrested at noon by Constable John Naylor, was given a speedy trial. He was arrested, arraigned before the court, and his case disposed of all inside of twenty minutes. Jacobson was taken in charge on Baglan Road, by Constable Naylor, on a charge of peddling without a license.

Magistrate Farrell held a special session of the police court, the accused pleaded guilty, and a fine of \$15 and costs, or twenty days in jail was imposed. Jacobson paid his fine. He came from the east, and said that he was on his way to Toronto.

A Chery Lookout. Winnipeg Free Press. Sir Thomas Shaughnessy is a cheerful optimist. Asked in London by a Standard reporter about Canadian prospects, he answered: "They were never brighter, and certainly the financial troubles in the states have done us no lasting injury. Passing events of that sort cannot check Canadian development, any more than they can check the rise of the tide in the Bay of Fundy. I think there is every likelihood of 1908 being a year of remarkable prosperity, even by comparison with the recent years of wonderful progress." If Sir Thomas' optimism were to take the form of carrying out the railroad-building programme for the west originally planned for this year, it would be very agreeable to the people of this country.

At Robert Hartman, barrister, Toronto, has offered himself to the care of Carleton county. He is a native of Carleton.
