Summer Cottage For Sale
That beautiful summer cottage built two years ago by an American on "Chub Point," Wolfe Island, opposite Channel Grave. There is about 200 feet on the river, running back about 300 feet.
The house is nicely situated in a grove of beautiful shade trees within a few feet of the water. It contains six rooms and bath.
It has an acetylene gas plant, water tank, boat house and dock.
There are also two new fishing boats. The house is furnished in every detail. See photo at this office. Will be sold at a bargain.

CITY COUNCIL SESSION
ALD. NICKLE DECLARED HE WOULD NOT SPEAK

On Street Railway Matters in Council—Kirby & Co's Road Paving Offer Accepted—Option Granted to R. E. Cushman.

The city council met last evening. The principal business transacted was the acceptance of the Kirby company's offer as to street paving and the granting of a three months option on the smelter site to R. E. Cushman. In attendance were: Mayor Ross, Alds. Angrove, Carson, Couper, Elkhott, Free, Givens, Graham, Hanley, Hart, Henderson, Hoag, McCann, Nickle and Robertson.

These communications were referred to committees:
E. Folger, asking council to reconsider income assessment.
Board of education, asking council to pass two by-laws: (A), \$2,400 for fire escapes and improvements to the public schools; (B), \$800 for fire escapes and improvements to the Collegiate Institute.
W. Irwin, asking for the removal of trees on Beverly street.
W. Irwin, and E. J. Campbell, opposing construction of cement walk on Beverly street.
Agnes M. Gibson and Sarah Gibson, opposing removal of two trees at the corner of University avenue and Union street.

Noel Keat, asking to have two trees removed from in front of his property on George street.
W. Teller, asking to lease the fair grounds for one year, with the privilege of five.
W. H. Godwin, asking privilege to remove a house from 361 Johnson street to the west side of Nelson street.
J. B. Cooke and others, asking for electric light on corner of Frontenac and Union streets.
Ontario Municipal Association, asking council to petition the government to erect, equip and maintain one or more institutes for the care of indigent and other consumptives in the province, and to send delegates to interview the government in this behalf.

E. J. Campbell, asking the removal of a tree from premises on Beverly street.
E. R. Beckwith, offering to present two concrete lawn vases for the boulevards alongside the market buildings.
J. McKee and others for waterworks extension on Barry street.
Martha Young and others for a sewer on Rileau street.
James McAmmon and others for water works extension on Victoria street, between Brock and Park streets.

More Light Dangerous.
Regarding the city council's request for more light at the government dry-dock, F. S. Rees, government dock master, reported to Eugene D. Lafleur, chief engineer of the public works department, that no further lighting is required at the Kingston dry-dock, as dry-dock property should be considered the same as private property. At the dry-dock, when repairs are being made, lights are all on. Mr. Rees points out that the Kingston County, England, and the city water works wharves adjoining do not have any lights at night. He says he considers a light on the dock wharf would lead to accidents, as it would attract boys and children. At present when the dock lights are going there are so many boys, that he is afraid some of them would tumble in and get hurt. There have not been any accidents from vessels coming to the dock in his time as dockmaster.

This letter was sent the council as a reply to its request. It was referred to the board of works.
Wants The Fair Grounds.
W. Teller wants the city council to grant him the use of the fair grounds for one or five years, at a rental of fifty dollars a year. He proposes to use the grounds for a summer fair, and to draw outside to the city during the summer. Mr. Teller was present and explained that his proposal was to have entertainments two or three times a week that would draw people from surrounding points. His lease would not interfere with the Kingston Gentlemen's Driving Club which applied for the track several weeks ago. In fact, he would rather have the driving club there. He proposed expending money on portions of the ground, and wanted to get them in shape by June 10th.

Ald. Angrove moved that the matter be left to the city property committee, with power to act. This caused some discussion, it being pointed out that it was inadvisable to take action without due consideration. Finally it was decided to have the property committee report to council.
Fire By-Law Amended.
On the recommendation of the Board of Works by-law No. 21, respecting the prevention of fires, was amended as follows: By inserting the following clause as section 11 (e), page 117:—"When built of concrete all"

OUR NATIONAL DANGER.
Time to Cry a Halt Before Complete Wreck Results.
There are thousands, both men and women, who do not take time to eat properly. They rush through life, and as a result we have an age of indigestion, nervousness, irritability, sleepless nights, and a morose disposition. Our national danger is stomach weakness, due to the strenuous life.
Mino-na tablets strengthen the walls of the stomach and stimulate secretion of the digestive juices. They make the stomach comfortable and cure indigestion.
Sick headaches, palpitation, yellow skin and coated tongue are a few of the many distressing results of indigestion that Mino-na never fails to cure.
G. W. Mahood sells Mino-na in 50 cent boxes, and guarantees to refund the money if it does not give complete satisfaction.

external and enclosing walls shall be nine inches in thickness up to twenty-two feet in height, the foundation walls to be four inches thicker than the walls of the first story, and the material to be used shall consist of one part of Portland cement, two parts of sand, and five of broken stone; or of one part cement, two parts sand and four parts of screened gravel; or one part Portland cement, two parts sand and five parts of slag; and no stone shall be used in any such concrete that will not pass through a one and a half inch ring. No broad strips or other timbers built into such concrete walls, other than hangers over doors or windows, or the plates on finished walls, shall be of greater size than one-half inch by two inches.

By inserting the following clause as section 11 (e), page 117: "In fire limits A and C, where roofs are to be erected with shingle roofs, such shingles shall be laid in hair mortar not less than one-quarter of an inch in thickness, or laid on fire-proof felt, or laid on at least one thickness of asbestos paper, weighing not less than fourteen pounds per one hundred square feet."
The city auditor reported these committee balances on May 22nd: Board of Works, \$5,111.24; fire and light, \$2,068; city property, \$2,171.55; parks, \$1,000.32; printing, \$851.25; contingencies, \$1,662.93.

Street Paving Question.
The board of works recommended that the offer of Kirby & Co., Ottawa, to begin asphalt road paving here on condition that they be allowed to come in and canvass under the local improvement plan, within a district mapped out by the city engineer, be accepted, subject to the approval of the city council. The area covers 32,000 square yards.
Ald. Elliott wanted to know what the cost was going to be. How much would the property owners have to pay for the pavement a square yard or a block. The board of works, he held, should first give this information. It would save trouble on all sides, if the cost was known beforehand.
Ald. Graham stated that if an agreement was entered into with the Kirby company, everything had to be satisfactory to the board of works and the city engineer, including the question of price. The price could not yet be fixed until measurements had been made. Before any work was done, the agreement between the city and the Kirby company had to be ratified by the council.

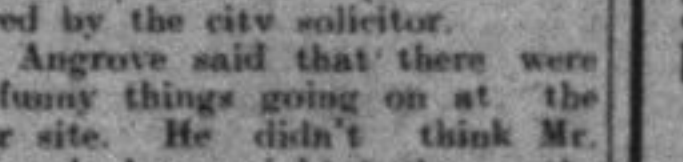

Ald. Elliott said the explanation was satisfactory, and he was in favor of the report of the board of works.
There was considerable discussion as to whether the city engineer and the board of works should have the final approval of the specifications and prices. It was finally decided on motion of Ald. Henderson that the city council should have this power, and a motion was passed making this quite clear.
Ald. Hoag reported the loss to the department of the horse "Sam," at No. 2 station, which had to be shot as it was beyond recovery.

Ald. Nickle's Statement.
When the light, heat and power report was before the council, Ald. Nickle took occasion to read the article in the Whig of May 14th, relative to an interview with Ald. Toye. The paragraph read by Ald. Nickle was as follows: "Ald. Nickle, who is a large stockholder in the street railway company, jumped on me on Monday night," said Ald. Toye, "because I had succeeded in having gas reduced to one dollar. This, he claimed, was done at the expense of the electrical consumers. But he has stopped to consider that the street railway company is getting its power at the expense of all the city. His company is actually paying less than cost for power to run the cars. He should have spoken on this side of the light plant question as well, and shown the great benefits his own corporation is reaping at the expense of the citizens in general."
Ald. Nickle also referred to a Whig editorial in the issue of May 18th upon the same question. He stated that at the first meeting of the council, this year, he intimated that he would not discuss in council matters which involved the street railway. However, he would be pleased at the opportunity to meet Ald. Toye on any platform, and discuss with him the street railway agreement with the city. He would never discuss street railway matters at the council board.
The council adjourned the recommendation of the light, heat and power committee, that the Kingston Milling company be granted privileges similar to those granted in the original agreement of December 19th, 1904, for a period of ten years. A by-law will be passed at the next meeting of council.

Option On Smelter Site.
The following report of the industries committee was, on motion of Ald. Elliott, seconded by Ald. Couper, adopted:
That upon the application of R. E. Cushman for the option to purchase the smelter property, it is agreed that whereas \$3,000 is the amount mentioned in the matter of the Stanley Smelter Works by-law, April, 1907, for that portion of land the said works or company propose to occupy, the city council be given the option for ninety days at \$3,000 each, it being understood that the terms and agreement relating to said by-law shall be carried out by R. E. Cushman in all other respects, and that upon payment of the said \$3,000 a new agreement in similar terms to that of April, 1907, be entered into between the city and R. E. Cushman or his company, and that a by-law giving effect to this be passed by the city council. The said option to be given to the city collector.
Ald. Angrove said that there were some funny things going on at the smelter site. He didn't think Mr. Cushman had any right to be on the property, and less to sub-let portions of it and rent the houses. The city should get any benefit there is to be got. The property committee is making arrangements to get the revenue.

TOYE VS. NICKLE.
Ald. Toye, who was unavoidably absent from the City Council meeting last evening, called at the Whig office to-day and stated that he would be delighted to meet Ald. Nickle on the platform at any time and discuss the street railway power agreement with him. He would show him that his company was getting its power from the city below cost and at the expense of the people.
The Chairmanship Decided.
At the city council meeting last evening, Ald. Carson raised the question as to who is chairman of the board of works. He claimed that the minutes of council showed that Ald. Henderson had been appointed to take the place on the board occupied by the late Ald. Gaskin. Hence Ald. Henderson and not Ald. Graham was chairman, as a previous motion had designated him as such. The motion Ald. Carson referred to had merely placed Ald. Henderson on the board as a member.

Dyspepsia Is A Crime.
Nearly all conditions that in breaking down of health have their beginning in chronic indigestion or dyspepsia.
These troubles can be effectively cured at any stage by use of Day's Dyspepsia Cure. This preparation has digestive, tonic and laxative properties. Each bottle contains sixteen tablets. For sale only at Wade's drug store.

The Store With Big Variety.

BROWN HATS.
Brown soft and stiff hats are more popular this season than ever before. Our variety of brown hats is larger than you would find in all the other hat stores in town combined and each style is a good one.
Stiff Hats \$2, \$2.50 \$3.
Soft Hats 50c to \$6.
See Our Window display of brown hats.

CLOSE OF THE RACES
TWO FINE EVENTS ON TUESDAY AFTERNOON.

Record Was Broken in the Free-For-All Class—Meet One of the Best Ever Held in the City.
The meet of the Eastern Ontario circuit at Midland Park track closed yesterday afternoon under most favorable conditions. Then the races were held, a fine track, a good attendance, a fine track, the races were, exceedingly good, in fact the events were classed among the best ever pulled off on a local track. There were two events, the 2:35 class and the free-for-all. The latter was the feature of the day.
Early in the afternoon it looked as if rain would mar the proceedings, but the shower that came was a very light one, and had no effect on the track.

The 2:35 class was won by a Belleville horse, Jim K., owned by Lee Ketcheson, and the free-for-all was captured by The Donna, owned by J. O. Kelly, of Pembroke. In this race the record of 2:14 1/2 made at the races held on Victoria Day a year ago was broken, being lowered to 2:14 1/2. W. B. Renaud, Ottawa, the official starter, handed the races in first-class style, his work bringing forth many favorable comments.
There were four heats in both events. In the first heat of the 2:35 class Baby Breaker, owned by C. Roy, Montreal, captured first place, but in the other three was compelled to fall back to second place, Jim K., taking on a fairly good lead. Cassie Pointer, owned by George Darragh, Kingston, secured third money, and for its first trial on the local track did exceedingly well. There was some difficulty experienced in getting the horses off in the free-for-all. Capt. Sphinx, owned by P. Perrigo, Eastville, being the principal offender.
All the events were entirely free from accidents, and everything passed off in the best order.
The story of the races is told in the following summary:

2:35 Class, Purse \$300.
Jim K. (Lee Ketcheson, Belleville) 2:14 1/2
Baby Breaker (C. Roy, Montreal) 2:22 1/2
Cassie Pointer (Geo. Darragh, Kingston) 3:34.3
Sylvia Direct (C. Horn, Kingston) 4:34.4
Time—2:29 1/2; 2:29 1/2; 2:29 1/2; 2:29 1/2.

Free-For-All, Purse \$300.
The Donna (J. O. Kelly, Pembroke) 4:11.1
Little Sandy (C. Garrow, Pembroke) 4:25.2
Capt. Sphinx (P. Perrigo, Eastville) 4:34.3
Jerry Dillard (W. Acton, Gananoque) 4:43.3
Sam Rysdyke (L. Gilmore, Renfrew) 5:45.5
Time—2:20 1/2; 2:18; 2:17; 2:14.

WHO MME. NAZIMOVA IS.
The Most Wonderful Actress in America.
Who is Mme. Alla Nazimova, who appears at the Grand Opera House here this evening, has been frequently asked. The opinion of some leading theatrical critics is that Mme. Nazimova is the greatest actress in America to-day. This is all the more wonderful since it is only two years ago that this young Russian woman learned the English language, which she mastered in six months. Since that time she has been the wonder in the American theatrical world. One critic says:
"It is all so amazing. This woman's career, for instance, her tremendous success in a tongue foreign to her birth, and her ability to use it with historic intellectuality, surpassing many to whom the language came as a gift of nature. That in itself is wonderful, but more wonderful yet is the picture this woman presents, and yet again more wonderful is the marvellous portrayal of the character which she gives on the stage."
Mme. Nazimova comes of a race which is given to live life in a blood-red way, a race of emotions, not always expressed, but when given way to, expressed with fullest feeling. She took Montreal by storm, and in the production of Ibsen's "A Doll's House," captivated the largest audience of the season there. Her audiences are confronted with a living picture of the woman she portrays. Mme. Nazimova has two pre-eminent qualities—intelligence and expression. She has the brains, and her interpretation of Ibsen's plays is vastly different to that of English players, who put too much of the funeral quietude into their rendition. "She is audacious," says a critic, "but always correct and successful." She doesn't play to an audience. She is entirely oblivious to the thought that she is on a stage, and thus she portrays something truly real.

Received To-Day
