### CANADA'S MISFORTUNE

#### HAVING EDUCATIONAL SYSTEM RUINED.

What Hon. A. G. MacKay, the Liberal Leader, Has to Say—The Whitney Party's Fake Action on the Text Book Matter.

It is the premier's boast that he is "turning the educational system upside down." It is the country's misfortune.

**Model Schools.**  
The immediate abolition of the model schools, except as to New Ontario, is a mistake. It will lead to a dearth of teachers. Our normal schools are now training teachers for the west and the far west, because they are qualified to go directly there and teach. At least twenty-five per cent. of the graduates of our normal schools for the past five years are now teaching in the west. Not so with the model-trained teachers. They are all in Ontario. Again, compelling intending teachers to leave their own homes and go to one of the cities to attend a normal school for one year, with the consequent expense, is hard on the poor man's son or daughter who intends entering the teaching profession. It is common knowledge that all over this province, as soon as this regulation was promulgated, many young men and women, unable to bear the expense, quit the idea of attempting to enter the teaching profession and took up other work. Two sessions ago, and last session, upon the floor of the house, I entered an emphatic protest against the abolition of the model schools. The premier, last session, stooped to humiliate the people of the province by denying the point flatly. Will the people of the province read the circular post-card issued April 30th, stating that model school examinations will be held in the districts only, none in the counties of Old Ontario? The premier's promises are so contrary, which he has never withdrawn, the model schools are being done away with. The premier should be above such deliberate humbug.

**Teachers' Examinations.**  
Another fool regulation says that at the normal examinations, that is, the non-professional teachers' examinations, there will be no examination in such important subjects as arithmetic, grammar, etc., but there will be in physics, algebra, geometry and Latin. The head master of the "approved" schools pass all candidates in reading, writing, spelling, arithmetic, grammar, geography, history, bookkeeping, but he is not allowed to pass them in physics, algebra, geometry and Latin.

These are placed on a higher plane, and the government says by its regulations, that physics, algebra, geometry and Latin are more important to public and separate school teachers, and, therefore, to the public and separate school pupils, than thorough, accurate, complete and methodic work in reading, writing, spelling, arithmetic, grammar, etc. I say that the boy who is trained to read intelligently and intelligibly, to write legibly, to figure accurately and rapidly, with a fair knowledge of English and business training, will be a thoroughly manly man at work that he undertakes, will go out into the world more sure-footed, and will make a stronger man mentally and morally than the boy who has received a slipshod training in the elementary work, with a subsequent veneer of physics, geometry, algebra and Latin. Truly, the brilliant educationists are turning things upside down!

**Teachers' Salaries.**  
The law which said that a teacher's salary should be gauged not by the experience, not by the ability, not by the usefulness of the particular teacher, but by the assessment of the particular school section he happened to be in, is another illustration of the manner in which these brilliant educationists are "turning things upside down." The premier boasts that he is doing these things. His responsible minister says to those who object, "Go to the devil and shake yourselves." It is for the people of this province, regardless of politics, to say whether these domineering autocrats shall be left any longer or not in a position where they may haughtily, both by deed and act, tell the people of this province to "go to the devil and shake themselves." Is it any wonder that Public School Inspector Scott, of Henfrey, in his report to the county council, condemns most emphatically what the premier pretends to boast about?

**Price Of Text Books.**  
The government's fake action in this matter is now well understood, and the trust respecting it. The conservative campaigners the province over decline to discuss the matter. They are in this and many other respects absolutely ashamed of the misleading campaign document issued by the government.

#### MI-O-NA MEANS STOMACH COMFORT.

It's of Special Value to Many Here in Kingston.

A notable discovery, and one that appeals especially to many people in Kingston is the combination of stomach help in the Mi-o-na treatment. This preparation works wonders in case of indigestion or weak stomach.

It acts directly upon the walls of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten without distress or suffering.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by George W. Mahood under an absolute guarantee to refund the money if it fails to cure. A St. Mary's, Ontario, will do the good the stomach needs, which is simply to make it do its own work.

### THE SPORT REVIEW.

#### Interesting News From the Various Sporting Fields.

Over two hundred horses have been shipped from Toronto to Montreal for the Blue Bonnet's races, which commence Saturday afternoon.

From all appearances the spring meeting of the Hamilton Jockey Club, which opens next Tuesday, will be the best in the history of the club. Some pretty fast horses are expected. Manager Kelly is a big disappointment in Toronto. The baseball team is losing steadily and the manager has been playing poorly himself. "Sandow" Mertes has also been a failure.

Five clubs in the Eastern baseball league are reported to pay over \$5,000 a month for salaries to players. Toronto and Montreal are of these.

Henry Farman, the British aeronaut, has renewed his challenge to the American aeronauts, the Wright brothers, for a match for \$5,000.

The Cornwall Lacrosse Club has bought a site for their new lacrosse grounds southwest and including a portion of the present grounds for \$3,000, under the name of the Cornwall Athletic Association. The club is seeking incorporation as a joint stock company, and by the sale of stock hopes to raise sufficient funds to fit up the grounds with a modern stand, etc.

#### REYNOLDS A WINNER.

The liberals have every hope of winning Frontenac with Howard W. Reynolds as their standard-bearer. There is general dissatisfaction with J. S. Gallagher, who is going to have the fight of his life this time. Mr. Reynolds is stronger than ever, and the people have every confidence in him. If the Frontenac liberals work faithfully from now till next Monday evening, they can elect Mr. Reynolds. Portland promises to do well for him, and the front of the country is in his favor. Let the Frontenac liberals get to work and secure every possible vote for Mr. Reynolds.

**Married At Portland.**

Smith's Falls News.

At high noon, Wednesday, in Emmanuel church, Portland, Rev. Mr. Stanton united in marriage Miss B. Helena, the popular daughter of W. H. Bolton, of that village, to Rev. John Lyons, Plevins Ont. The edifice was crowded to the doors with villagers and invited guests who had the pleasure of witnessing a pretty function. Following the ceremony a reception was held at the home of the bride's parents where congratulations beyond measure were showered upon Mr. and Mrs. Lyons who were subsequently escorted to the B. W. & N. W. R. train on which they left en route to Kingston thence to their home.

**Cab Case Settled.**

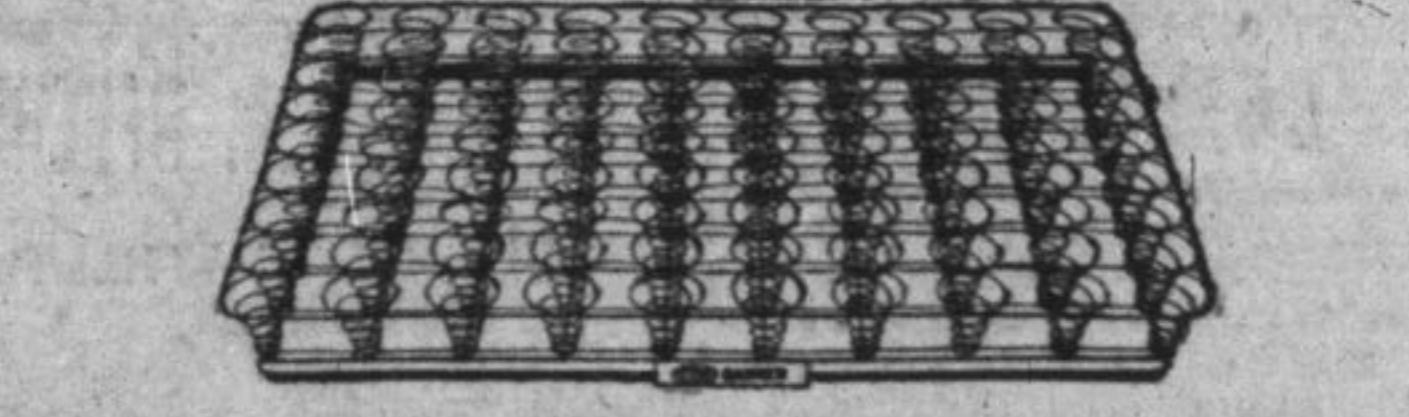

Late yesterday afternoon, Magistrate Farrell gave his decision in the case of the two cabs, which occupied the attention of the court the biggest part of the day. On the evidence submitted, the magistrate found one cabman guilty of driving at an immoderate rate and doing damage to the other man's cab, and imposed a fine of \$5 and costs, and also called upon him to pay \$5 for the damages done the cab, as the result of the collision.

**Tipped Out Of Canoe.**

Nearly every day accidents in canoes are reported, and the carelessness on the part of those who use these frail crafts will have serious results if more care is not taken. On Thursday afternoon a young man was tipped out in the vicinity of Cedar Island. There was no one near him at the time, and he had to swim to the shore, dragging the canoe with him. He was quite exhausted when he arrived at the shore, he could not have held out much longer.

**Mr. Kirby Away From Ottawa.**

The city clerk has received word from Kirby & Co., Ottawa, that the head of the firm has been away, and that Kingston's offer regarding street paving has not yet been considered by him. The city council may receive an answer before it meets next Tuesday evening.
