Divorce To Be The Bride Of Nobleman.

SECURING A DECREE

REVEALS ROMANCE OF THE GREEK COURT.

Mrs. E. F. Brewster is Free-Wife of Rochester Millionaire May Become a Lady in Waiting to the Queen of Greece.

St. Louis, S.D., June 10.—Mrs. Franklin Brewster, whose husband is a millionaire, of Rochester, N.Y., was granted a divorce here and has left for the home of her son-in-law, Senator Frelinghuysen, of New Jersey.

Mrs. Brewster has said here that she might marry an attaché of the King of Greece. Her daughter, Mrs. Ashton Knight, Paris, and Mrs. Frelinghuysen were present at the Greek court, and at that time Mrs. Brewster met the court official. If she marries him she will become a lady-in-waiting to the queen.

Leader in Rochester Society.
Rochester, N.Y., June 10.—Mrs. E. Franklin Brewster was the wife of E. Franklin Brewster, head of the wholesale drug firm of Brewster, Gordon & Co., of this city. The Brewsters are wealthy and have undiminished social standing.

Mrs. Brewster, before she was divorced, was a leader in Western New York society. She made several trips abroad, and soon after her first trip, two years ago, it became rumored that she was desirous of getting a divorce. Later the rumor became a fact, when the Brewsters separated and Mrs. Brewster left this city about a year and a half ago to get a divorce after legal residence at Sioux Falls, S.D. It was then hinted that after her divorce she would marry a foreign nobleman, but the name of the nobleman was kept a profound secret.

The divorce is a daughter of the late Sylvanus J. Macy, of Rochester, whose family was related to R. H. Macy, New York, and who was a coal operator of wealth.

A SERIOUS SITUATION.

Turkish Troops Crossing Into Persian Territory.
St. Petersburg, June 10.—Special dispatches received here indicate a serious situation on the Turko-Persian frontier. Turkish troops, which hitherto have been massed on the Russian side of the vicinity of Erzerum, are in full movement towards Persia. Detachments already have invaded Persian territory. The Turkish occupation of the district of Azerbaijan, west of Urumik Lake, has been asserted in a systematic manner, and the administration of this territory is similar to the administration in regularly annexed territory, which would seem to indicate the Turks intend to remain permanently. Bodies of Turkish troops, which have followed in the wake of the Turkish tribesmen, have commenced to collect revenues. In spite of the proverbial Turkish sloth a customs house has been established at Kehr, some miles inland from Urumik. The Turks have seized salt mines belonging to the Persian crown and have expelled the shah's officials.

Has Been Repaired.

Montreal, June 10.—The Dominion line steamship Ottawa, which was held by battered about the bow, in a collision with the collier Trol, in the Gulf, some time ago, is coming out of dry dock at Quebec, to-morrow evening to take on cargo and sail Saturday for Liverpool.

WIFE STRICKEN DUMB.

The Husband Makes Up For His Silence.

Jacksonville, Pa., June 10.—Arriving at the conclusion that his wife could not do it, enough for both of them, Isaac Heller, after a quarrel with her, fifteen years ago, vowed never to speak to her again, so for that length of time he kept silent.

He was moved to change his mind a few days ago, only after a distressing accident which happened to his wife. While she was in an excited frame of mind and was engaged in reminding him of his shortcomings, her tongue suddenly became paralyzed, so that in a second she became speechless.

Mr. Heller at first could not believe it was true; it seemed too good. Then when he saw that there was no chance of a come-back he addressed a few remarks to Mrs. Heller. He rose to heights of oratory and in an impassioned manner he made up for all the golden opportunities he had neglected. All his wife could do was to make motions.

WILL SERVE FIVE YEARS.

Vigorous Treatment For a Desperate Criminal.

Stratford, Ont., June 10.—William Pepper, who pleaded guilty to a charge of indecent assault upon Miss Kennedy near the latter's home, was sentenced to fifteen months in Central Prison.

As Pepper is a ticket-of-leave man with three years, ten months and twenty days to serve, and having broken his parole, Judge Barron decreed that the prisoner should serve out that period at Kingston penitentiary, which practically means a five-year sentence.

Pepper (who is an old pal of "Foxy" Smith) pleaded that he was drunk when he committed the assault, which was heinous in design. Miss Kennedy, the victim, still suffers from nervous prostration.

LEFT NO CLUE.

Another Sensational Murder in Paris.

Paris, June 10.—Another mysterious murder, following closely upon the killing of the artist, Steinheil, and his brother-in-law, has caused a sensation here. The victim was a rich retired stock broker, named Romey, who was stabbed in his bedroom, in his large residence in the Populaire, Jewelry, valued at 30,000 francs, and some money, were stolen. There is no more trace of forcible entry than there was at M. Steinheil's house. The murderers left no clue.

THE MODUS VIVENDI.

It May Have to Have Newfoundland Land's Consent.

London, June 10.—It is stated that the reference of the Newfoundland fisheries question to The Hague is still unsettled, and a renewal of the modus vivendi is probable. The Morning Post strongly protests and hopes there is no reason for the American apprehension that the British government may follow the principle, asserted in the recent arbitration treaty and refuse the renewal without the consent of Newfoundland.

Entered A Store.

Canfield, Ont., June 10.—The general store of Moodie & Co., was entered, last night, and a quantity of jewelry, tobacco, fruit and some clothing stolen. The burglars entered by taking out the glass of the front window. Nothing was known of it until opening of store this morning.

BILLIK MUST DIE

NO PARDON FOR BOHEMIAN FORTUNE-TELLER.

Convicted at Chicago of Murdering Man and His Four Children to Get Life Insurance—Priest Has Declared Condemned Man Innocent.

Springfield, Ill., June 10.—Governor Deneen, on the recommendation of the state board of pardons, decided not to interfere in the case of Herman Billik, under death sentence in Chicago for murder. The execution, accordingly is expected to take place on Friday, June 12th.

Billik is a Bohemian fortune-teller, whose conviction was declared from the pulpit of St. Mary's church by P. J. O'Callaghan, of the Paulist Fathers, of Chicago, to be the result of perjured testimony, due to suggestion and intimidation on the part of the prosecuting attorneys and police.

The accusation against Billik was that through the agency of a Mrs. Yeast, who afterwards committed suicide, he murdered in Chicago the woman's husband and four of the Yeast children. The alleged motive was to get life insurance money.

FOR CABINET

It Is Likely That Monteith Will Drop Out.

CHANGES PROPOSED

CARNEGIE MAY GET THE AGRICULTURAL PORTFOLIO.

Said That Ferguson, of Grenville, May Go Into the Cabinet Without Portfolio—Beck Likely to Be Made Minister of Power and Ganev May Go in Also.

Toronto, June 10.—If Mr. Monteith retires to private life the portfolio will likely go to J. E. Carnegie, Victoria, who was elected by acclamation, and who is the only qualified O.A.C. graduate to be re-elected this year.

Findlay G. Macdonald, West Ligon, was said to have envious eyes for the portfolio in 1908, but he has hardly strong enough hold upon the government to get it.

G. L. Ferguson, Grenville, is mentioned for the cabinet position with out portfolio, which was held by the late Dr. Willoughby. He may get it, though hardly of cabinet calibre.

More interest centres about the over-hanging rumor of a division of the portfolio of lands, forests and mines. Mr. Hearst, of the Soo, is said to have been promised a share of this portfolio, if he defeated C. N. Smith.

It seems more likely, however, that Mr. Ganev will thus be recognized. At any rate, a solidly conservative New Ontario will have other claims upon cabinet positions than are satisfied by Mr. Cochran's position in the cabinet.

There is little doubt but what Hon. Adam Beck will have to be made minister of power, with a department of his own, this is bitterly opposed by some members of the cabinet.

The redistribution gave Whitney four new seats in New Ontario and four in Toronto. It helped to increase John H. Fisher's majority in North Brant, it smashed John Auld's majority in Essex South and left him out in the cold. If there had been no gerrymander he would have been over seventy-five votes to the good. It gave the government two out of three representatives from the Hurons. It helped "Sam" Charters to win Perth. To the tune of over sixty votes it assisted John Thompson to win East Peterboro. It won an Ottawa seat for the government.

In West Kent, which has not returned a conservative since 1872, the provincial assembly in twenty years, G. W. Sulman is victorious by over 400. This unexpected victory, however, is saddened by the news of the death of his son, who had been an invalid for some time. The boy was in the West Indies for his health.

Can Get No Statement.

The official returns for Lennox will not be announced before Monday next, meantime the returning officer will not make any statement. The conservatives make a claim that Carrallen, conservative, the liberal majority, while the liberals assert that there have been no returns from Storms' Corners, so far made public.

Two Years' Penitentiary.

Vancouver, B.C., June 10.—Daniel Fryer was sentenced at New Westminster to two years in the penitentiary, for embezzling eleven thousand dollars of government funds, while in office two years ago. Fryer was collector of customs at Huntington and three years ago his accounts were checked and found to be \$5,000 short.

Subsequently he hoisted his son, who had been forced to return \$5,000. Another investigation was ordered and it was found that he was still \$6,000 short. He made restitution, was prosecuted, found guilty and sentenced.

Gold Mine Sold.

Pembroke, Ont., June 10.—Patrick Shannon, of this town, has sold the Crystal gold mine in Lake Wanapitoc to a syndicate of Toronto and London capitalists. Mr. Shannon bought out the interests of the late Thomas Mackie, M.P., the late Hon. Peter White and other Pembroke capitalists just before the death of Mr. Mackie, and has since had caretakers on the property to prevent prospectors and others carrying the rich gold quartz off the dumps.

In conformity with the suggestion of Rear Admiral Sperry no alcoholic liquors will be served at the entertainments of the men.

ACCOMPLICES SUSPECTED IN M'CORMICK CASE.

Railroad Officials Believe Watertown Claim Agent Worked in Collusion With Others.

Watertown, N.Y., June 10.—That at least one other and possibly more persons will probably be implicated with W. J. McCormick, the former New York central claim agent, who is charged with having obtained from the company thousands of dollars, was the statement made by a lawyer, the stipulation going with the statement being with the understanding that the railroad push matters to the veriest Superintendent Christie has promised that there shall be no let up in the case, and if the lawyer's assertions bear fruit the entanglement may become greater. Probably not until fall will the true condition of affairs become known. To search out each of the claimants, and their story, verify the check, with many little details, is a labor which must require months.

It is suspected by the railroad officials that in one instance there must have been collusion between McCormick and the party to whom the check was made out. Just what settlement was made between McCormick and the claimant is not known to the railroad company.

In the first place, it is stated, the claimant received something over a hundred dollars, which he had not received considerably more. The check was forged, the railroad officials say, yet when the officials saw the check he stated that he had signed the check and received the money, though in the first place he was not paid the amount by McCormick.

A further investigation into McCormick's affairs was continued this afternoon, with the result that another case was discovered which involves about \$1,000.

The facts, according to Superintendent Christie, are that while \$20,000 or so has been accounted for as missing, many hundreds of claims are yet to be examined, and they may amount to much more than the \$20,000.

On Monday a son was born to Mrs. McCormick at her home in Padlock street. It was for this birth that the arrest of the father was delayed three weeks or more, and would not have occurred until to-day had it not been that McCormick, it was believed, was about to leave town.

SET IT ON FIRE

While The People Prayed, Church Burned.

COOLNESS OF CLERGY

PREVENTED A TERRIBLE DISASTER IN BERLIN.

Big Congregation Left Church in Orderly Manner, Marshalled By Priests—Was Work of An Incendiary.

Berlin, June 10.—An attempt was made, yesterday, to burn down the old St. Paul's Catholic church, at Moabit, belonging to the Dominicans which was crowded with people assembled to hear a sermon by the famous Dominican monk, Bonaventura.

About 1,500 persons were present, including more than a thousand women and children, to hear the minister.

While the congregation was kneeling in silent prayer some one informed Friar Bonaventura that the church was on fire. Without alarming the congregation, he coolly stepped over to the priest, who was celebrating the mass, and requested him to close the service. The priest left the altar and spoke to his six assistants, who walked down the aisles and whispered to the pew-holders that an insignificant blaze had broken out, and that they had better leave the building as soon as possible.

All this time the entire roof of the church was a mass of flames and the fire-buildings were hurrying to the burning building. Those in the church, not knowing the extent of the fire, fortunately did not realize their peril, and on the clergy's request made their exit rapidly and in an orderly manner.

The fire-fighters discovered that nearly a dozen fire-brands soaked with petroleum, had been distributed about the roof. The flames were extinguished with difficulty after great damage had been done. The police suspect a gang of incendiaries, who, it is stated, set fire to the Old Garrison church, which was destroyed on April 14th last.

The firemen declare that only the coolness of the clergy, to-day, prevented a great disaster.

She says that she was in Cleveland during the trial of Bowin and kept out of sight with her. The next morning after he was said to have killed Mrs. Welch the previous night and had her jewelry with him at the time.

Mayor McCammon filled the chair, and Ford McCartney was appointed secretary. After a lengthy discussion on the lateness of the date, and of Brockville and Napanea having decided to celebrate at that time, it was finally left in the hands of a committee, composed of F. J. Skinner, Neil McCartney, W. A. Bullock and A. Robertson, to look into the matter and report on Thursday evening.

A very pretty wedding took place at the residence of Mr. and Mrs. Allan Sweet, Sweet's Corners, Monday evening, when their daughter, Miss Jennie Sweet, was united in marriage to George Chapman, of Smith's Falls. The ceremony was performed by Rev. Thomas Meredith, in the presence of about eighty invited guests. The bride was attended by her sister, Miss Emma Sweet, while Mr. H. Trodden, which sad event took place at the residence of her sister, Mrs. A. Legrand, on Wednesday last, at the tender age of twenty-one years. Deceased came here to visit her sister, and in hope of regaining her health, but death came as a welcome guest to relieve her of her sufferings, which were borne with patience and hope. The passing away of such a young life, barely standing on womanhood's threshold, is irrepressibly sad and the deepest sympathy is extended to her friends and relatives. The funeral took place at the Sacred Heart church, Bedford.

TO DISPEL THE FOG

AN IMPORTANT INVENTION BY A CALIFORNIAN.

Carbide Generator Forms Gases Which Explode on Coming In to Contact With the Air—A Muffled Blast at Intervals.

New York, June 10.—A dispatch to the Herald from Washington says Senator George C. Perkins of California has brought the attention of the navy department to a new fog-dispelling device invented by one of his constituents. He requests that the department arrange to give the device a thorough test on Goat Island, San Francisco Bay.

The hopes of the inventor are realized if the device will dispel fog at a radius of three miles in all directions by means of a carbide generator. The details of the invention are kept secret but it is divulged that the only noise connected with the device is a muffled blast at intervals.

The device, with some modification, may also prove a valuable aboard ship as the explosion is so muffled as to be scarcely perceptible.

The carbide generator, by means of a chemical process, forms gases which explode upon coming in contact with the air. These explosions, it is said, continue with decreasing force for a considerable distance from the apparatus.
