CANAL IS WIDENED

GERMANY TO HAVE NEW NAVAL PORT.

Extraordinary Activity Prevails in All Preparation-for-War Departments.

Berlin, June 16.—The German government has decided to establish a new war port and naval station in the Baltic, at Apenrade, a small town of 6,000 inhabitants at the mouth of the Apenrade Firth, in Schleswig-Holstein.

The first upon which the town stands is a very fine one, and admits vessels of the largest size. The decision of the government is based on the lessons of the combined naval and military manoeuvres of last year, coupled with the appeal of the municipal authorities, who have offered to defray part of the cost of the necessary works. The new naval station will be known as Prinz Heinrich Haven.

This is only one instance of the extraordinary activity which is prevailing in all the preparation-for-war departments of Germany.

Prinz Heinrich Haven is on the Baltic, but at Beutin, on the North Sea coast, a new and extensive dockyard is being constructed, with two docks capable of taking the largest warships yet designed, and the works are being pushed forward with such rapidity as to insure the completion of the station long before 1918—the date fixed by the admiralty for the completion of the preliminary works at Rosyth. Further, the canal itself is being widened at a cost of about \$50,000,000.

At other ports large extensions are being made, notably at Wilhelmshaven, where two Dreadnought docks will be completed this year, and at Emden, where a first-class torpedo base is being prepared. Additional fortifications are being erected on the islands round the mouth of the Ems, and at Emden itself barracks for the accommodation of troops and quays for the quick embarkation of soldiers are being rapidly pushed forward.

In addition to this, the small canal between Emden and Wilhelmshaven, known as the Ems-Jade canal, is being widened so as to allow the largest destroyers to traverse it, and a beginning has been made with the construction of a direct line of railway between the two ports, via the town of Aurich.
