LETTERS TO THE EDITOR.

School Of Mining.

Kingston, June 19.—(To the Editor): A paragraph in today's issue of the Whig confuses the School of Mining and Queen's University in a way that might mislead some of your readers. The School of Mining is a distinct institution with a charter and governing board of its own, not only connected with Queen's University by affiliation. The School of Mining is in no way connected with the Presbyterian church, and the action of the general assembly does not affect the school in any way. The grant of the Ontario government is given to the School of Mining as an independent, un-denominational institution. Queen's University has no control over this grant, nor over the endowment which is being raised for the school. Of course this separation of the business of the two institutions does not in any way prevent cordial and effective co-operation educationally.—I am, yours sincerely, W. L. GOUDWIN.

MANY WANT PORTICOS

APPLICATIONS BEFORE THE BOARD OF WORKS.

City Granted Use of Water Lot at the Foot of O'Kill Street—New Walks Asked For.

The chairman, Ald. Graham, presided at the meeting of the Board of Works, yesterday afternoon and also present were Aids. Givens Free and Nickle.

William Mundell appeared before the board on behalf of J. B. Carruthers and asked that no sidewalk be placed in front of his property on William street, Sydenham to Bayport streets. It was pointed out that there was no use for the same. The engineer was of the opinion that there should be a walk. No action was taken.

There is evidently a great rush for the erection of porticos, as three applications for permission to erect them were received from B. Campbell, Ordinance street, ex-Ald. James Johnston, University avenue, for houses on Clergy street, and from the Cain property, at the corner of William and Clergy streets, the latter request being brought to the notice of the board by Ald. Kennedy. There was some discussion over the porticos making an encroachment on the street line and Givens said that he would be firm in his stand that no person erecting a new portico should be allowed to go beyond the old line. It was decided to let the requests stand over until the opinion of the city council on the matter was secured.

The Warren Paving company, Toronto, wrote, offering to send representatives to the city in reference to street paving, but as the city has now a deal on St. S. Kirby & Co., Ottawa, the letter was filed. The engineer stated that Mr. Kirby would be in the city on Monday and would have a couple of propositions to make. The Board of Works will hold a special meeting on that occasion.

Thomas W. also asked for removal of trees on Bagot street between William and Earl streets, west side. It was agreed to have the chairman and the engineer see to the proper thinning out of the trees in that district. Men are at present engaged with this work.

C. W. Clement and others, petitioned against street watering on upper Earl street. The board will recommend that the service from Frontenac street to Alfred street, be cut off.

Several petitions for concrete walks will be referred to the assessment commissioner. In regard to the petition for a new walk on west Chatham street, First street to Colborne street, Ald. Free will interview the residents and ascertain whether they are in favor of putting down a plank walk under the local improvement plan.

Hon. William Hartly wrote the board in reference to the street lot at the foot of O'Kill street, against Macdonald Park. The city engineer wrote some time ago asking that the government give the land over for the use of the city. Mr. Hartly referred to this matter, and submitted a letter from Hon. Frederick Borden, in which the latter stated that the government had approved of the granting of the lot to the city.

The pay sheet, for two weeks, which amounted to \$1,852, was passed, and the board adjourned.

CHILD TAKEN AWAY.

A Kidnapping at Cleveland—Secured at Napanee.

A despatch from Cleveland says that Mrs. Chloe Emberley, formerly of Kingston, accuses James M. Keller with kidnaping her three-year-old daughter, Josie, because of jealousy. Once Keller was engaged to Mrs. Emberley. The parties do not belong to Kingston, but to Arden, on the C.P.R., near Sharbot Lake. Emberley was a school teacher with a handsome wife. They had troubles and Emberley left his wife. Keller was a close friend of the Emberleys. Last week Keller and his wife were at Arden, with a little child, which may be the kidnapped one. The trio left Arden last Tuesday and it is not known where they went.
