SOFT, GLOSSY HAIR.
It Can Only Be Had Where There
is No Dandruff.
Any man or woman who wants soft,
glossy hair must be free of dandruff,
which causes falling hair. Since it has
become known that dandruff is a germ
disease, the old hair preparations that
were mostly soap irritants, have been
abandoned, and the public, barbers
and doctors included, have taken to
using Newbitt's Herpicide, the only
hair preparation that kills the dan-
druff germ. Dr. D. D. Dickinson, N.D.,
says: "Herpicide not only cleanses
the scalp from dandruff and prevents
the hair falling out, but promotes a
new growth. Herpicide keeps my hair
very glossy. Sold by leading drug

CASTIGATING THE MEMBERS.
What is done at a party caucus is
usually a profound secret, but some-
thing has leaked from the last con-
servative heart to heart talk in Ot-
tawa, and it is refreshing. The lead-
er of the party, Mr. Borden, under-
took to say a few plain things to his
political friends. Some of them
needed a reprimand, for their excesses
during the current session have
brought the party much discredit.
Mr. Foster has assumed the direc-
tion of affairs, and it is remarkable
that when obstruction has occurred
the leader of the party was absent.
This would lead one to infer that he
is ashamed of it, that he does not
contenance it, and that it would
not be in order if he were present.
And yet the only time he referred to
the matter in the House his language
implied an apology for or justification
of the obstruction.

At the caucus it seems he called
to account the obstreperous members
of the party, those who will occa-
sionally show their fretfulness, their
irritability. There have been two or
three sharp raps of late from mem-
bers who have tolerated the annoy-
ances of the party to the limit. They
have had enough of nonsense, of tum-
ult, of wasted time and effort.
What they said when Mr. Borden up-
braided them for publicly expressing
contempt for the party tactics can
only be imagined. The talk was not
on one side and it is a healthy sign
when the party of obstruction begins
that strife among themselves which
will eventually lead to results. In the
face of this rebellion there is a rum-
or of further obstruction, and it can
be taken at the usual trade dis-
count.

The New York World, independent
democrat, is of the opinion that Mr.
Taft will defeat Mr. Bryan in the
presidential campaign. It reasons that
the people have had enough of Mr.
Bryan. A new man is in demand,
one with some new ideas and a new
platform, and he has not yet been
found.

THE DIFFICULTY REMAINS.
The Winnipeg Free Press says the
Manitoba government passed a useless
thing when it authorized the issue of
a regulation to the effect that the
county judges could adjourn from day
to day during the registration of the
voters. "If the law is to be observ-
ed," says our contemporary, "adjourn-
ments will be impracticable for lack of
time, since all the county court judges
have their time for the present month
fully taken up and could only ad-
join to a date in July. Assuming,
however, that the law can be ignored,
the power to adjourn given to the
judges will be of little value to the
public unless the judges are given the
further power to adjourn from place
to place upon evidence being forthcom-
ing that this is called for in the public
interest."
Judge Prudhomme, for instance,
holds court of revision for Assiniboia
at St. Francois Xavier, on June 27th.
If he adjourns the court, say to July
15th, what benefit will this be to the
hundred or more electors disfranchised
at Weston? They will no more be
able to attend the court of revision at
St. Francois Xavier on July 15th,
than on June 27th. In La Verandrye,
there are nearly an hundred electors
on the White Mouth river who were
given no opportunity to register; they
will not be able to attend the court of
revision at Ste. Anne's if given three
months time to appear. In half the
constituencies in the province a case
could be made out for an adjourn-
ment to localities where the facilities
for registration have been defective or
non-existent.
"If the judges are given the power
to adjourn from time to time and
from place to place," adds the Free
Press, "the concession will be of very
considerable value, and might be con-
sidered as affording a possible basis
of compromise, though it would still
leave many just grievances unredress-
ed. But the proposition put forward
in this latest proclamation is a "gold-
brick," pure and simple."
It is this revelation that has stiffen-
ed the government at Ottawa and
made its members feel that they
should go on with their Election bill.
It guarantees a full and fair voters'
list in Manitoba, and it is the only
measure which offers the people the
protection they desire.

Alberta and Saskatchewan lead the
west of the dominion with regard to
business legislation. They are giving
lessons on law-making to the older
provinces.
The London Free Press advocates
civil service reform in Ontario, and
our contemporary, being a faithful
supporter of the Whitney government,
is not talking for effect.

EFFECT OF THE COLLAPSE.

There may be an appeal to the
house on the Hodgins railway scan-
dal, but the committee which under-
took the enquiry will be warranted in
reporting, as the majority have agreed
that there is no occasion for further
service. The more one considers the
case the more decided becomes the
mistake that the major made the
mistake of his life when he made
charges which had little or no founda-
tion. Piece by piece the whole fabric
fell away until there was nothing left.
The scandal began with a newspaper
interview, which he approved when
printed, and repudiated at Ottawa.
He was understood to say that he had
laid the alleged frauds before the pre-
mier, and without effect, as Sir Wil-
frid had been hypnotized by Mr. Par-
son, chairman of the commission.
It turned out that no complaint had
been made and so notice could not be
taken of it. The overclassification re-
ferred to in section F of the contract
existed only in his mind. The differ-
ences that occurred with reference to
it, were honest and friendly, and so
far as Inspector Grant was concerned
originated with a spirit of pique be-
cause the appointment had not gone
to Hodgins.

The suggestion that the major see
how things were done in Quebec was
due to the fact that greater progress
was made in Quebec on the work, not
that he might get pointers in rescali-
ng, and he made no discovery there
to the disadvantage of the govern-
ment and the commission. Finally the
Grand Trunk Pacific company was as
much interested in the contracts as
the government, and had its own en-
gineers to see that the cost was kept
down and that the 3 per cent. rental
would be as low as possible. These
made sure that there was no waste
upon over-classification and as a mat-
ter of fact there is no evidence of
waste to the extent of one dollar,
much less \$2,500,000 as the major
originally charged.

The surprise is that the scandal held
a place in the public eye as long as it
did. Hardly had it been put under the
light than the weakness of it became
apparent, and it was only kept
"alive" by the most careful nursing
of the conservative members of the
special committee and Major Hodgins'
counsel. Again and again it was on
the verge of collapse, and finally the
smash came suddenly and unexpected-
ly. Cross-examination the major could
not stand, and worried beyond ex-
pression in an attempt to make good
what he alleged in a moment of weak-
ness he threw up his hands and con-
fessed his failure.

What could the committee do but
drop the whole despicable business?
The conservative members of the com-
mittee may be disappointed and crest-
fallen, but they are getting their des-
erts in their hunt for scandal. Men
with a love for evil smells will neces-
sarily get something they do not want
or appreciate.

EDITORIAL NOTES.
Mr. Borden is said to have disciplin-
ed some of his supporters in a re-
cent caucus. Was Col. Hughes one
of them?
Mr. Whitney has been again asked
to join the federal opposition—us lead-
er? Could he be expected otherwise
to abandon his position and the emolument
he now enjoys?

There is trouble among the opposi-
tion members at Ottawa. No wonder.
There is a limit to the follies of Mr.
Foster and Mr. Taylor. They have
wasted enough time in useless talk.

The Toronto News condemns the pe-
troneage list and the political appoint-
ment in the dominion. Are they more
tolerant in Ontario because con-
tained by a conservative govern-
ment?

In Saskatchewan the term of the
legislature will be five years. The peo-
ple want elections as seldom as pos-
sible. Only the politicians favour ap-
peals at short intervals, and even
among these there are dissidents.

LIVE STOCK MARKET.
The Prices Paid at the Various
Centres.
Montreal, June 22.—About 500 head
of butchers' cattle, 49 calves, 110
sheep and lambs and 523 fat hogs
were offered for sale at the Point St.
Charles stockyards. This forenoon
limited supplies had a hardening ef-
fect on prices of all kinds of stock,
the advance on hogs being nearly one
quarter cent per lb. Prime hogs sold
at 5 1/2c. to 6c. per lb.; pretty good
cattle, 4 1/2c. to 5 1/2c., and the common
stock, 3 1/2c. to 4 1/2c. per lb. Calves sold
at \$3 to \$5 each. Shippers paid 4 1/2c.
per lb. for good, large sheep; the
butchers paid 4c. to 4 1/2c. per lb. for
their supplies. Lambs sold at \$1 to \$5
each. Good lots of fat hogs sold at
6 1/2c. to over 6 1/2c. per lb.

14TH REGIMENT ON MARCH.
Parade to Cricket Field on Mon-
day Night.
The 14th regiment had another fine
march out to the cricket field, on
Monday evening, where the members
were put through their paces for an
hour or so.
The regiment was out in strength
and made a very fine appearance,
numbers turning out in very large
citizens to see them. The brass band
and bugle band also turned out and
played along the line of march. The
cricket field was crowded with people.
The regiment made a particularly good
showing on the return march.

The Glean Of Purity.
Note the glasses in which we serve
soda. After each time used they are
thoroughly washed with hot water,
rinsed, dried and polished. It is of

drink from a glass like that and it is
also visible evidence of the cleanliness
that we enforce in every detail of
soda making. Wade's Drug Store.

Exchange. It seems we all have our weaknesses.
Thomas Ryder says the marine

The White Plague.
Hamilton Times. The report of Dr. Millman, supreme
physician of the I.O.E., states that
17.55 per cent. of the deaths in the
order are due to tuberculosis. That is
a reminder of the prevalence of the
great white plague. And the proportion
is not excessive, as statistics go.

Three-Fifths Clause.
The Pioneer. Of course it cannot last. Even Mr.
Whitney does not think that. The ques-
tion is not, Will the law be repealed?
but, When will it be repealed? The
most such reactionary effort as the
two-fifths minority clause can do is
to retard progress and the question
is, How long?

EARL GREY'S GIFT

THOUSAND ISLAND PARK.
The Season Has Now Fairly Be-
gun.

Thousand Island Park, June 22.—
The electric storm on Friday night,
accompanied by a gale of wind did
little damage here, but destroyed the
boat livery boat house at Murray Hill
Park.
The steamer Arundel remains hard
and fast on the rocks between here
and Fine View, where she has been
since Thursday morning. The what at
Fine View is finished.
All the Folger steamers are on their
regular routes. The steamer Night-
ingale commenced running on her re-
gular route between Clayton and Fine
View on Saturday. Quite a large
number of cottagers are arriving
daily.
The hotels are getting quite a
number of guests. W. H. Sheppard of
Skenateles, has arrived and has
opened the boat livery. The express
office at the wharf is also open. W.
W. Collins, of Omar, assistant cus-
toms officer, has arrived for the sea-
son. The bakery will be located in
the stone block this season, with
Morris & Kendall as proprietors. J.
R. Geramanian, of Birmingham, has
arrived and is putting in his stock
of Oriental rugs, etc. Services
were conducted in the chapel yester-
day, and next Sunday will be held in
the Tabernacle for the first time this
season.

Mrs. Edward Webster has left to
spend a few days with friends at
Bath.
Several complaints have been made
about the weeds on many of the side
streets.

Lieut.-Col. John Hughes, of Clark
Ont., in command of the 6th infantry
brigade, is in the city making ar-
rangements for troops to go to the
Quebec ter-centenary.
A large crowd from the city will go
down to Kingston Mills, to-morrow af-
ternoon and evening, to attend Rev.
Father Kingsley's picnic, which pro-
mises to be a great event.

In regard to the peanut and pop-
corn men, the city council merely de-
cided that they could not stand their
waggons on Princess street. It will be
in order for these men to petition to
be allowed to stand on other streets.

STOLEN BRASS RECOVERED.
Large Quantity Has Been Taken
From Local Firm.

The police have recovered a quantity
of brass, valued at \$35, which was
stolen from the Locomotive Works
some time ago. The brass was stolen
from one of the storerooms at the
Locomotive Works, and disposed of at
a local shop.
The police have been working on the
case and succeeded in tracing up the
affair. According to report consider-
able brass has been stolen from
various places and disposed of. The Lo-
comotive Works, so it is understood,
have suffered to the extent of \$100.
The stealing of brass and selling it
is an old game, but one in which the
thief manages to make good in until
he falls into the clutches of the law.

SUNSHINE FURNACE

And Coal Economy.

COMBUSTION taking place in the dome or
top chamber of furnace fire-pot is the
result of air and heat mingling with
fumes. This combustion produces heat-energy,
which the radiating surfaces above and around
fire-pot absorb or draw in and then deflect or
throw off. Incoming cold air receives this heat-
energy, the result being heated air. Now, if the
combustion takes place at a faster rate than the
radiating surfaces can absorb and deflect, the
surplus heat-power will pass up the chimney or
into cellar—a waste of coal.

There is no waste of coal in "Sunshine" Furnace.
Circuit of radiator is so complete, and air-
circulating space so large, that every bit of
heat-energy is quickly absorbed and quickly
deflected on the circulating cold air, which
is thus quickly heated and ascends through
the hot-air pipes to rooms above.

The check-draft of a furnace is situated on
the smoke-pipe. When this draft is closed—
especially on an "ordinary" furnace—heat
particles can escape up chimney. When check-
draft is opened the incoming cold air from the
cellar drives all heat particles back into furnace
proper. If the grates and fire-pot of furnace are
not constructed properly, there's a clogging and
gathering of ashes, and fire does not burn up
readily. If no provision is made for gas escape,
the check-draft must be left closed indefinitely—
a waste of coal.

There is no waste of coal in "Sunshine" Furnace.
No clogging can take place in the 4-piece
grate, no ashes can gather on the straight
fire-pot walls, and the Automatic Gas
Damper makes every provision for the
escape of gas; consequently, check-draft
can be opened shortly after coaling and all
heat-energy saved for radiation.
