A MOON STORY

Claims Made On Old London Street.

HEIRS TO MILLIONS

W. C. MOON, SYDENHAM, IS INTERESTED.

He and His Son Have Left For London to Take Legal Advice—The Grandfather Left England and His Possessions For Family Reasons.

Montreal, June 24.—In the heart of Old London, where land is said to be of such worth that a sovereign land on the ground covers earth equal to its own value, is a piece of property estimated at several millions, in which a Montrealer is interested.

W. T. Moon, principal of the Business school on St. Catherine street, is the lucky man. His father, W. C. Moon, Sydenham, Ont., is even more directly interested, through being a generation nearer the original owner of the property which they claim to be heirs to.

W. C. Moon and Mr. and Mrs. W. T. Moon sailed last week from New York by the S.S. "Imbria," of the Canadian line, for London, to engage legal advisers and lay their claims before the proper authorities, in the hope that they may secure a share of the millions which it is said another branch of the family has already established to belong to the Moons.

Queen Victoria street, from the Mansion house westward, some little distance, is the locality in which the millions of dollars' worth of property referred to is situated. Just what it is worth, or even its extent, is not yet known to the prospective Canadian heirs. A Kingston paper, not long ago, published an advertisement inquiring for the heirs of the grandfather of W. C. Moon, whose Christian name and occupation could not be learned in the absence of the Canadian representative. It is understood that the grandfather above referred to came to Canada many years ago—for reasons not known outside of the family—leaving his possessions, at that time comparatively modest, all behind. He left very meagre information behind regarding his former possessions, but it is said that he frequently told his children and grandchildren that though not rich in his day, some time they would be wealthy. Believing the proper time to take action has arrived, the Messrs. Moon have decided to see the matter through.

CHILD BURNED TO DEATH.

Saved From Drowning Perished in Flames.

Charlottetown, P.E.I., June 24.—On board the A. W. Perry, when she stranded recently at Hawkesbury were two little children, including a girl three years old, who were sent in charge of the ship's officers by their father, from Boston, addressed to their grandmother, Mrs. John Hughes, St. Patrick's Road, near Mount Stewart. They made the trip all right and since have been living with their grandmother. Yesterday the little girl was burned to death in the fire which destroyed her grandmother's farmhouse while all the other occupants were out in the field washing wool.

"The Mouse Trap" postponed till Thursday, 8 and 9 p.m.

GO ON PERMANENT STAFF.

One Important Effect of New Civil Service Law.

Ottawa, June 24.—One of the most important features of the new civil service bill, from an Ottawa point of view, will be in the large addition it will make to the numerical strength of permanent civil service. At the present time there are some 899 temporary officials, with salaries ranging from \$300 to \$3,000, and some of these have been in the government employ for twenty and thirty years without even having been put on the permanent list. But under the new civil service these will all be in the permanent service and will be classified therein according to the work in which they are engaged and the salaries which they receive. Some will go into the second division under the new classification, and a great number into the third division, with salaries ranging from \$900 to \$3,000. None of these officials who have not passed the civil service examination will be called upon to do so, since many of them have already passed the age limit of thirty-five, and would find it most difficult to take the form of qualifying examination which has heretofore been in use.

AMERICAN INDIGNITY.

Will Draw Attention of Dominion Government.

Toronto, Ont., June 24.—Edmund Bristol, M.P., will draw the attention of the Dominion government to an episode at Niagara Falls, N.Y., on Thursday. Fifty excursionists from Toronto, Hebrew citizens carrying Canadian naturalization papers, were detained by a United States immigration officer when they sought to cross the river for an hour.

They showed their papers and return tickets, and offered to go back to the Canadian side, but were forced off the street car, marched through a couple of miles to the inspector's office, kept for three hours, and finally allowed to return.

Mr. Bristol will seek to get some explanation for the indignity to which these citizens of Toronto were subjected.

Betrothal Of Miss Fallieres.

Paris, June 24.—The Figaro announces the engagement of Miss Annie Fallieres, daughter of the president, to Jean Joseph Edmond Lams, secretary-general of the president of the republic.

Cheese Markets.

Lindsay, June 22.—At the cheese board 1,159 boxes of colored were offered, all sold at 11 1/2.

Farnham, Que., June 22.—Six hundred and forty-five boxes butter offered and sold at 22 1/2.

BRAVE YOUNG LADY

RECITED DURING FIRE AND AVERTED TRAGEDY.

Miss Florence Chubbuck, of Ottawa, who was Artist at Concert, Began to Recite and Held Audience When Centre of Hall Was Filled With Flame.

Carp, Ont., June 24.—An exciting interruption startled the listeners at the concert given by the Young Ladies' Club, of the Wesleyan church at Carp, on Monday evening. The programme consisted of a three-act play, "Maidens All Forlorn," with a recitation by Miss Florence Chubbuck, Ottawa, daughter of C. E. D. Chubbuck, of the department of railways and canals, and songs by Mr. Thomas, also of Ottawa.

A large audience was present, and the concert was in full swing when in the interval between the second and third acts a large oil lamp, suspended from the ceiling over the centre of the hall, fell to the floor, burst, and scattered oil over the neighboring seats and occupants.

Instantly the flames caught on the ceiling, the floor, and the adjoining seats. The centre of the hall was filled with flame, and those near the danger spot at once made a rush for the doors, which were already blacked out despite the assistance of the chairman, Rev. Mr. Tangill, that there was no danger.

Ladies screamed and fainted, and the excitement was intense. At this point the bravery of Miss Chubbuck was conspicuous. Quickly calling that there was no danger, she continued her recitation, and the audience, in view of her voice thus assured discontinued the rush and a panic was averted.

The blazing lamp was thrown out, and with their coats the men smothered the flames. By this time water had arrived and the blaze was quickly extinguished.

PUBLIC LANDS

There Are An 100,000,000 Acres Left.

IN THE NORTH WEST

AND GREAT AREAS STILL FURTHER NORTH.

An Interesting Statement Made in the House of Commons—Likely a Bonus Allowance For the Whole Public Civil Service.

Ottawa, June 24.—The minister of the interior in the House of Commons, in moving the second reading of his bill to amend and consolidate the Dominion lands act, made an interesting statement in regard to the remaining public lands of the North-West.

The area of land available for agriculture in the Canadian North-West was estimated at 170,000,000 acres, of which 32,000,000 acres have been given to railways in the form of land grants and an equal area of 32,000,000 acres of homesteads.

This means that more than 100,000,000 acres still remained in the cultivable portion of the North-West, to say nothing of the immense area further north, whose possibilities for agriculture no one can yet estimate.

In addition to the classification clauses of the civil service bill which involve considerable increases in the maximum and minimum salaries of the several classes of civil servants, the supplementary estimates of the present session will probably contain a bonus allowance for the entire public service based upon the increased cost of living throughout Canada. The extent amount of the bonus has not been agreed upon but it will not be less than ten per cent. This is a question which will have to be dealt with apart from the civil service act. But it is practically assured that the bonus will be granted and that it will be of sufficient amount to be heartily appreciated.

A number of amendments to the customs act will be offered by the Hon. William Paterson. One will be offered making it necessary that the conductor of every freight train arriving in any part of Canada from any foreign port shall, when making his report, if required by the customs officer, produce to him the way bills of all goods on board his train, or copies thereof. Provisions are also to be made which will impose a duty of twenty-five per cent. on the expenses of vessels, on the equipment, on the equipment, including boats, provided such vessels arrive within one year after the repairs have been executed or the equipment purchased or supplied, and is destined for use in the Canadian coasting trade. The duty upon repairs executed to vessels on equipment of the vessel to enable her to reach her port of destination may be refunded by order of the minister.

All officials of the department of customs are to be carried free on railways and steamboats in Canada when carrying property on a special committee of parliament. Hon. S. N. Parent, president of the Quebec Bridge company, declared that it would be impossible for the company to go ahead with the enterprise without more funds owing to the delay in August last and the clause in the legislation of 1903 which gave the government power to take over the work at any time.

FIGHTING IN PERSIA.

Bloodshed Marked Clash Between Cossacks and Clubmen.

Berlin, June 24.—News has just been received here that the troops of the Shah of Persia, have stormed and captured the parliament buildings in the Teheran. The city is being bombarded by artillery. The square in front of the parliament buildings is said to be heaped with corpses.

After a bloody fight, which waged around the parliament buildings, the city was comparatively quiet to-day although the Cossacks were camped in the streets and squares. Cossacks and soldiers early in the morning surrounded the parliament buildings and demanded that a number of persons whose arrest the shah had ordered be forthwith handed over to them.

The shah refused to comply with this demand and shots were fired at the troops, several of the soldiers being killed. Eventually the halls of parliament were cleared, but not before many persons had been killed and wounded. The number of casualties is unknown, but it will be very large.

Gen. Liskoff, a Russian, employed by the shah, directed the troops and now holds the town. Foreigners are in no danger. Those wounded in the fighting number seventy, including several deputies. Twenty-five persons were killed. The nationalist leaders are being destroyed in the parliament building and the mosque, the troops looted and partly destroyed Prince Zill-Eussultan's palace and the neighboring houses. The destruction of the mosque horrifies the public. The shah will have extreme difficulty in coping with the situation.

Baseball On Tuesday. Eastern League—Jersey City, 2; Montreal, 1; Toronto, 5; Newark, 2; Baltimore, 5; Newark, 2; Baltimore, 2; Buffalo, 1.

American League—Detroit, 6; Chicago, 1; Boston, 3; Washington, 2; Philadelphia, 9; New York, 6; Cleveland, 3; St. Louis, 5.

PITH OF THE NEWS.

The Very Latest Culled From All Over The World.

Fruit prospects in the Niagara district are very promising. A couple of Frenchmen have invented fireworks that can speak.

The labor unions of the United States refuse to support Taft. The Cataract company offer Hamilton power at the price the city likes. A British millionaire chartered the cabins on an ocean liner for his sole use.

Oscar Kinsman was overcome by heat at London, Ont., and died in the hospital. The Shah of Persia has overcome the constitutional party in the fight at Teheran.

It is rumored in political circles that Hon. Nelson Monteith may return from politics.

Trade Commissioner Chesley reports that Canadian trade is replacing all others in South America.

It is proposed to send a detachment of Toronto police to Chicago, under the command of Chief Constable John Patterson, Yarmouth Centre, section foreman on the Grand Trunk, was struck and killed by lightning.

Mrs. H. Halley was instantly killed by falling down the stairway in the residence of a friend in Chicago.

For defrauding Toronto merchants, Adolphus Baker, an Englishman, was sentenced to three years in penitentiary.

T. W. Crothers, K.C., St. Thomas, was appointed a member of the board of governors of the University of Toronto.

Henry McElin, while sailing above Niagara Falls, was struck by a cyclone, his boat upset, and carried over the Falls.

The funeral of the late Harry A. Collins, Toronto, which was largely attended, was conducted under Masonic auspices.

A Snowdon, N.H., writer says that 101 of the sons of that town fought in the revolution and fifty in the civil war.

Miss Annie McKenna, aged twenty-three, of Pawtucket, R.I., was bitten on the lip by a poisonous insect, and died the next day from the effects.

Henry Holgate, C.E., chairman of the Quebec bridge commission, proposes that the government rebuild the bridge, employing the service of three of the best expert engineers that can be secured to control the work.

At Prince Albert, a petition is being circulated asking the minister of justice to commute the death sentence from Harry Barrett to life imprisonment. He was convicted of murdering a woman, and is to be hanged July 17th.

TWO GREAT POWERS

AMELIORATOR OF THE HUMAN RACE.

A. J. Balfour Looks to Science—Discussion By Delegates at Pan-Anglican Congress.

London, June 24.—"Christianity and Science" was the principal topic before the Pan-Anglican Congress, yesterday, and attracted an audience of 8,000 persons. The Bishop of Massachusetts presided.

Dr. S. M. Kelly, New York, appealed to all church people not to be their brother's keeper, but to be their brother's helper, and was applauded, and it sums up the general trend of the debate, nearly all the speakers emphasizing the necessity of the church's co-operation in removing the obstacles leading to the present day socialism.

The delegates filled Albert Hall, last night, to hear ex-Premier Balfour in a discussion on "Christian Truth and Other Intellectual Forces."

Mr. Balfour said that he could not conceive of human society being permanently deprived of the religious element, but he looked to science more than to anything else as the great ameliorator of the human lot in the future. If he had to believe that all church people were to be their brother's keeper, but to be their brother's helper, and was applauded, and it sums up the general trend of the debate, nearly all the speakers emphasizing the necessity of the church's co-operation in removing the obstacles leading to the present day socialism.

PASTOR SHOT

He Was Insane With Desire To Kill

THOSE HE HAD LED

HIS WIFE RAISED ALARM AS HE USED GUN.

The Parishioners Used Their Weapons Upon the Crazy Clergyman and He Fell Wounded By Many Bullets—He Had Hit Others.

Herrmann, Mo., June 24.—Insane with a desire to slay Rev. Valentine Strauss, St. Paul, armed himself and started out to murder members of the church he had led for years. Before him ran his wife giving warning, at the peril of her own life to the neighbors. She saved them only by sacrificing her husband.

As the minister fired shot after shot at her, his former parishioners turned their guns against him, and he was shot down, the charges of a dozen or more guns entering his body.

Mortally wounded, he crawled under the tree beneath which he had held his service in Gasconade county fifteen years ago. Then his reason returned, and, dying, he asked those who slew him to gather about. His last words were these:

"Father, forgive them for they know not what they do."

The death of the minister ended a two months' reign of terror in the neighborhood. After having been head of the German Evangelical faith in this district for years, he became insane two months ago, and sought to slay all who he met. He ordered rifles and shotguns from St. Louis, and his house became an arsenal. In addition, he had guns and ammunition hidden in the church.

He began roaming the country at night with a shotgun in his hands and a rifle slung over his shoulder. From crags and tree-tops he fired at men, women and children. Most of the time he missed, but on four occasions his aim was good and three men and a woman were hurt, but not seriously.

WOLFE ISLAND NEWS.

The Damage Done By Monday Night's Storm.

Wolfe Island, June 24.—Quite a number attended the Presbyterian picnic in W. L. Allison's grove on Tuesday. The baseball game between the foot of the island and the village boys resulted in favor of the villagers by fourteen to seven. Dr. P. J. Kingsley and wife, of Boston, are spending their summer months on the island. Mr. Ringold and sister, New York, are spending their holidays here.

Donald McEneaney was married to Miss Maggie McEneaney, of Watertown, last week. The bride was attended by her sister, Eva. The groom was supported by John Kane of the island. They left for Toronto on their wedding trip. On their return they will take up residence on the island.

The electric storm did considerable damage on Monday night. The barn of Silas McEneaney was struck, and struck and burnt to the ground. Farm implements and a new top buggy and single and double set of harness, belonging to Rodney Yott, were burned in the fire. Mr. Yott had no insurance. The barn was insured for \$300. Richard Polk was killed by lightning August last and killed by lightning. A number of sheep were also killed throughout the island. Hugh Horn's barn was struck, but not burned.

Truman Betow and John Briggs, Watertown, spent Sunday in the village. E. Gettes has greatly improved his house by adding a new veranda. Miss Sadie McArthur, teaching in Belleville, has returned home for her holidays. Mrs. Melville, Howe Island, who spent a few days on the island, last week, has returned home. E. Polk is home from Ottawa. John Cuff, Watertown, N.Y., is visiting his aunt here.

TO KEEP AWAY.

Roosevelt Will Devote Himself to Literature.

New York, June 24.—President Roosevelt does not desire and would not accept election to the United States senate from the state of New York. While the president has found public service and office most congenial he will have had, on March 4th next, enough of service of this particular character for the present. It would take some contingency now unforeseen to put him in the United States senate.

The president's determination was learned by friends who are closest to him as soon as the campaign for the nomination of Taft was over. There is one point upon which those who have been given the confidence of the president are not absolutely clear. It is the decision which he would make should he at some time in the future be again nominated for the presidency. They do not regard this possibility as having been included in his renunciation, nor was it specifically excluded. They feel that the result of the coming election might be such as to exert a great influence upon him in this connection.

In his decision to decline further public service for the present, the president by no means shuts himself out of the party councils. He expects to retain an active interest in American politics.

After his return to the United States from his hunting trip in Africa it is his plan to do considerable writing.

BATTERSEA WEDDING.

Miss Mabel R. Keeler Married to Ernest S. Hutton.

Battersea, June 23.—One of the prettiest house weddings seen in this neighborhood for a long time took place at the home of Mr. and Mrs. William Keeler, last Wednesday evening, when their only daughter, Mabel R., became the bride of Ernest S. Hutton, of Woodburn, Pittsburg, youngest son of Frank Hutton. About sixty-five guests were present. At 8:30 p.m. Mrs. Wesley Merriman struck up the beautiful wedding march and the bridal party entered the drawing room, the bride leaning on the arm of her only brother, Frederick, who gave her away. The happy couple, who were unattended, took their places under a pretty evergreen arch, trimmed with cream roses, and from the centre of which was suspended two artificial white doves. The pretty bride was attired in white duchesse silk, trimmed with Irish point lace and six valenciennes. She carried a shower bouquet of white carnations and maiden hair ferns. The ceremony was performed by Rev. Mr. McQuarrie, Pittsburg. The groom's gift to the bride was a handsome gold bracelet. The lower part of the house was trimmed throughout with evergreens and roses. About 10:30 o'clock the guests repaired to the dining-room, where the tables were trimmed with pink and white and beautifully set under the supervision of Miss Arthur, caterer, from the city. Ample justice having been done the delicious repast the usual toasts were proposed, including the health of the bride by the Rev. Mr. McQuarrie, and responded to in feeling terms by the groom. About twelve thirty the newly married couple departed, amidst the inevitable shower of rice, for their future home near Woodburn, where the groom is a prosperous farmer. The bride wore a travelling suit of blue silk velvet and a pretty picture hat of white silk moiré, trimmed with tulle and evergreen. Many beautiful gifts were received, some coming from friends in Kansas, Manitoba, Alberta and London.

A DIAMOND ROBBERY.

Firm Robbed of Diamonds Worth \$12,000.

Nelson, B.C., June 24.—Word has been received from Rossland that the firm of Stone & Knight, diamond drill importers, have had \$12,000 worth of diamonds stolen from their office, under the Centre Star office on Red Mountain. On Saturday night, at 1:30, the men went off shift and left \$12,000 worth of black carbon diamonds in a hole in the wall in the office. The diamonds were found to be missing later, and the matter was reported to the police. No arrests have been made so far.

WHAT ABOUT JAPS?

WHEN DOES THE COUNT OF IMMIGRANTS START?

Six Months Expire Since Agreement was Reached, and Number is Already Exceeded.

Vancouver, June 24.—Did the count of Japanese entering Canada start when the agreement between the government of Japan and Commissioner Lemieux was ratified, or did it commence Tuesday?

This is a matter of much conjecture because of the point now raised at the time of the ratification of the agreement, Sir Claude Macdonald, British ambassador to Japan recommended that six months should be allowed to elapse before the count should start.

If the tallying of Japanese entering Canada started from the time the agreement was reached, viz: December 23rd, 1907, the limit on Japanese immigration has been reached and exceeded and yet the Japanese continue to come.

MARRIED.

ANGLOVE-PAIKIN.—In Kingston, on Tuesday, June 23rd, 1908, by Rev. Sproy, Miss Laura Paikin, to Frances Angrove, both of this city.

HUTTON-KEELER.—At the home of Mr. and Mrs. Wm. Keeler, Sunday, on Wednesday, June 17th, 1908, by Rev. Mr. McQuarrie, their only daughter, Mabel R., to Ernest S. Hutton, of Woodburn, Pittsburg.

DIED.

FRANKS.—In Picton, on June 20th, Elizabeth Franks, widow of the late Harry Franks, aged sixty-nine years.

BRONX.—In Hamilton, on June 20th, Mary Georgina Brown, beloved wife of W. J. Langdon, aged nineteen years.

POTTER.—On June 24th, 1908, at 35 James St., Kingston, Mary Patterson, beloved wife of John Potter, died twenty-seven years.

Funeral at 2 o'clock on Friday, Friends and acquaintances respectfully invited to attend.
