

Anty Drudge's Horrible Dream.

Anty Drudge-"Mercy sakes! !!!! I'm glad there's no danger of that dream ever coming true. I dreamed there was no such sozp as Fels-Naptha and I had to wash clothes in the old way of boiling in hot water with ordinary laundry soap and hard-rubbing. Nothing could be more awful."

Fels-Naptha has changed everything on washday.

Instead of a hot fire, little or no fire. Instead of boiling, just a short soaking in cool or lukewarm water.

Instead of steam and smell through the house, no steam nor odor at all.

Instead of all day over the wash, a half

Instead of hard-rubbing, only a little rubbing.

Yes, Fels-Naptha has completely changed washday!

pan, drafts opened and coal fire started. Fire soon burns up brightly, drafts are closed and checkdraft opened. Immediately heat-power begins to penetrate dome and radiator surrounding dome. The incoming cold air immediately receives the energy of this heat-power, and by natural law ascends up the hot-air pipes, thence to rooms. No gas escapes into cellar or rooms because there is an automatic gas damper providing for its escape up the chimney.

In the morning a gentle rocking of the lever removes all ashes from grates. No dust in operator's face, for he first opened damper into ust-pipe leading from ash-

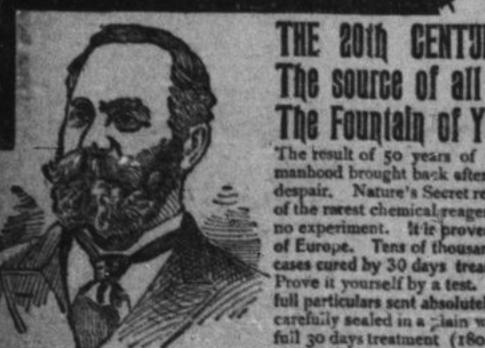

pit, then direct draft at smoke-pipe entrance, and all dust passed up dust-pipe to dome, then out chimney.

No need to shovel any ashes away. All nicely settled in ash-pan ready to be quickly and easily removed from pit. On coming upstairs operator finds that he requires no whisking off, and his wife don't cold him for "making everything white."

REPUBLICAN NOMINEE FOR U.S. PRESIDENCY.

Career Was Judicial For Sphere of Influence.

The reader who would confess need of an introduction to the personality and public services of William Howard Taft must be prepared to plead com-plete ignorance of American progress in the new century. No man, with the possible exception of President Roosevelt, has been more conspicuously in the public eye during the past half decade than the ex-secretary of war. Taft is a big man physically, and he has been a man for big tasks. The intricate problems of the establishment of civil government in the Philippines; the re-organization of the United States army; the unravelling of the tangle of Cuban affairs; the digging of the Panama canal, and now the presidency-all these the tactful Taft has faced with never a ripple of his equanimity.

The administration candidate for president on the republican ticket in 1908 is a native of Ohio, the state which has succeeded Virginia as the "mother of presidents:" The house in which he was born is still standing in the outskirts of the city of Cincinnati, but the school buildings where he re-

He went in for athletics in which his father encouraged him and the same attributes which mad him so successful in later years handling men were manifest in those early years, and won him the leadership of his juvenile play-fellows, who dubbed him "Lub"-just why not even Taft was ever able to explain.

At college Taft made a very unusual record. He was an excellent "mixer" -the best sort of hail-fellow-well-met -who was at once the most democratic and most popular man in his class, and at the same time he was an exceptionally industrious and conscientious student. He put in the hardest kind of licks in study hours, and the results showed in the fact that he was almost invariably at or near the head of his class. Secretary Taft has always been a very loyal college man He is seldom absent from an alumni banquet, and many of his most intimate personal friends are men who were his chums at Yale. His sentiment is reflected also in the keen interest he now takes in the career of his eldest son, who is at present in col-

IN LA ROSE PROPERTY.

Sensational Find Made at This Mine After Two Years' Work in Close Proximity.

Cobalt, Ont., June 24 .- A wonderful discovery has been made in the La Rose mine at the intermediate level or at the depth of therty-five feet, when a blind vein, twenty inches in places and running parallel to the main vein, was encountered. It is a mass of count and silver and carries thousands of ounces of

silver to the ton. this discovery was made sixty feet southwest of the main shaft and forty feet north of old discovery shaft, sunk where Fred. DEATH FOR A SUSPECT.

Assassin in Remorse Betrays Accomplices. Rome, June 27.-Twenty members of the Sicilian Matia death tribunal were arrested by the police, yesterday, at

a seminary near Catanzaro, in the following circumstances: One of the higher grade brethren, a certain Vincenzo Polito, was suspected of treachery. Since he was the sharer of many delicate secrets of the dread organization its death council terminated a three nights' debate of his case with the unanimous vote for his assassination. Alfonso Campanella, a youthful novice of seventeen, was chosen by lot to deal the death blow. Lest he should waver at the supreme moment, three associates were assigned him, one who was to deliver him a dagger, and the other two to see that the vendetta was thoroughly well carried out and at

the hour fixed by the tribunal The quartette supped together, and toward midnight, while the companions watched the development of the tragedy from a hiding place, young Campanella knocked at Polito's residence, gave the watchword and bade he him descend, as he had an official mandate to deliver him.
