**CITY COUNCIL MEETING**  
**THE WATER SUPPLY IS ALL RIGHT.**

Fireman John Lemmon Resigns From the Brigade—Waterworks' Coal Shed Question—Council Adjourns Till Sept. 14th.

At the city council meeting last evening, Mayor Ross and Aldermen Angrove, Chown, Carson, Couper, Craik, Elliott, Free, Givens, Graham, Hong, Hanley, Henderson, McEann, McCartney, Nickle, Rigney, Robertson and Toye were present.

These communications were referred to committees.

From Mayor Ross asking to be relieved from income tax.

R. J. Diack calling attention of council to the dangerous condition of the gratings in the sidewalks.

C. Livingston asking for the removal of trees in front of Devonshire Terrace, Sydney street.

Ardoulean Macmorine re water from the street backing into his cellar.

Andrew Maclean re defective drain at foot of Queen street.

J. C. Swain protesting against the payment of local improvement tax on walk on York street.

Kinnear & D'Este, re fruit stand at corner Princess and Wellington streets.

John Lemmon resigning from the fire brigade.

R. Meek re agreement House of Industry and county council.

Frank Hays applying for the position of fireman.

Edward Lefebvre asking for wages during time of illness.

C. W. Litton and others, asking for street watering on Earl street, from Alfred to Frontenac street.

Recommendations Adopted.

These recommendations of the finance committee were adopted:

That the request of Rev. Father Mea for remission of taxes on the lot in front of the Hotel Dieu Hospital, amounting to \$51.93, less two per cent, be granted.

That an amount not exceeding \$150 be placed at the disposal of parks committee for the purpose of re-erecting the flagpole in Macdonald Park.

The council adopted the board of works report recommending that no notice be allowed to be hereafter constructed as an encroachment on the street excepting as re-erected, and then only on the lines of the old portion.

On this question there was no discussion.

Counter-Petitioner Speaks.

C. W. Litton was present to ask that Earl street, between Frontenac and Alfred streets be watered. At the last meeting of the board of works it was decided, on a petition of C. Clement to cut off this block from the street watering area. Mr. Clement also addressed the council and asked it to discontinue the watering. His petition included the names of all but one ratepayer interested. That of Mr. Litton was signed by residents not on the block in question, but who were indirectly interested, by reason of being in the line of dust if there was no watering.

Mr. Litton said that the original petition was merely a piece of spite on the part of some residents against him. He had been blamed for having the blocks above Alfred street added to the street watering area, but he was not responsible, the city council had ordered the watering.

Ald. Chown moved, in amendment to the board of works, that the petition of Mr. Litton be granted. He said that the council had to look at the matter in a broad way, and not cut off a block here and there when other citizens as well as those residing on the blocks in question were affected. The amendment of Ald. Chown was decided, and the block in question will be struck off the street watering area.

Waterworks' Coal Shed.

Ald. Nickle said he would oppose the recommendation of the waterworks committee to build an open concrete coal shed, as he was well informed that if spontaneous combustion occurred, the damage would be as great as by an explosion of gunpowder.

Ald. Givens didn't think a coal shed was needed at all. Coal lying in the open air was not harmed.

Ald. Henderson held that coal would be better with a roof. The weather so doubt, had some deteriorating effect upon coal. He favored a roofed building. All the coal merchants had covered sheds.

Ald. Nickle moved, seconded by Ald. McCartney in amendment to the waterworks committee recommendation that an unroofed concrete shed be built, that the matter be referred back to the committee for further consideration.

Ald. Craig said he had considerable experience with storing coal. If the waterworks property was large enough, he would advocate piling the coal, without enclosure. It was necessary to have an enclosure because there wasn't enough ground space. He didn't think a roof was necessary. The building recommended would cost about \$2,300. With a roof the cost would be over \$4,000.

Ald. Nickle thought that if the weather didn't affect the coal, it might be piled on the waterworks wharf now leased to the Donnelly company. Ald. Henderson suggested building only two sides to the shed.

Ald. McCartney said it was a piece of extravagance to build a concrete shed. The locomotive works used four times as much coal as the water-

works, and its coal was all exposed. Ald. Carson advocated a building with four walls and without a roof.

Ald. Couper said that Superintendent Hewitt recommended the building of a shed, 65 x 56 x 16, because in a few years it would be urgently required, in view of increased pumping.

The amendment of Ald. Nickle referring back the coal shed question was carried on this division:

Yes—Mayor Ross and Alds. Angrove, Chown, Free, Givens, Henderson, McCartney, Nickle, Rigney, Robertson, Hoag—11.

Nays—Ald. Carson, Couper, Craik, Elliott, Graham, Hanley, McCann, Toye—8.

Condition of The Water.

Ald. Givens drew attention to reports about the water not being good. He said he had been approached by several people who said the water had a bad taste. The matter should be looked into.

Ald. Henderson said he had received a number of similar complaints.

Ald. Rigney said that the water might be tested. He had met people during the past week, who declared that Kingston had the best water in the country. Ald. Hanley spoke likewise, and was satisfied the water was all right. Dr. W. T. Connel examined it regularly.

The mayor said the matter should be drawn to the attention of the board of health. Regular tests of the water were made, he said.

Before the council adjourned, Ald. Hanley announced that he had seen Dr. Connel and the medical health officer. Dr. Connel said that he had tested the water within ten days and found it all right. He would make another test at once and report.

The medical health officer stated that there had been only one case of typhoid originating in Kingston in the past year, and, therefore, the water could not be bad. Ald. Hanley said he believed the water was all right.

The Kingston Milling company was given franchise of thirty years for use of certain streets which it was to bring an electric wire from Kingston Mills to its flour mill on Ontario street.

The fire by-law was amended, making it unnecessary to sheet coal sheds with metal, when such sheds were used for the storing of anthracite or hard coal.

Several construction by-laws were passed, providing for the expenditure of money.

General Business.

The council, on motion of Ald. Rigney, decided to accept the resignation of Fireman John Lemmon, and authorizing the fire captain to temporarily appoint a man to fill the vacancy.

On motion of Ald. Rigney, the council authorized the payment of accounts incurred during the summer, if signed by the chairman of the various committees, the city engineer and the city auditor.

On motion of Ald. Graham, the fine of Alfred Buck, convicted of illegally building a portico on city property, was remitted, in view of the decision of council to allow old porticos to be erected on the former lines. Ald. Elliott said that H. Cambridge, Ordnance street, should also have his fine remitted, as his case was similar. The council agreed to remit Mr. Cambridge the amount he had paid.

Ald. Elliott moved that during vacation the city property committee consider the question of providing playgrounds in Catarauqui, Rideau and Frontenac wards. The motion was adopted.

The clerk was instructed to write, at the instance of the mayor, thanking the heads of certain institutions for courtesies extended to the council and its visitors, the Watertown, N.Y., officials, on June 29th.

On motion of Ald. Angrove, the thanks of the council was extended to E. R. Beckwith for his gift of four concrete vases.

On motion of Ald. Givens, to reduce the light plant assessment from \$227,000 to \$177,000, was lost.

On motion of Alds. Rigney and Nickle, the council adjourned till the second Monday in September. It was eleven o'clock when the council arose.

**THE SCORES MADE**

In the Inter-School Rifle Competition.

An inter-school rifle competition, open to all schools in the dominion, whether possessing cadet corps or no, was started a year ago, and the results of the first competition may be of interest.

The ranges were 300, 500 and 600 yards—seven shots with one sighting shot at each range, Bisle targets.

The competition took place on the first Saturday in June, the range used being that most convenient to the school concerned.

There were four in each team. The following is the order of merit with scores made:

Bishop's College School, Lennoxville 184.  
Highfield School, Hamilton 183.  
Coaticook Academy, Coaticook 164.  
St. Albans School, Brockville 152.  
Yarmouth County Academy, Yarmouth, N.S. 128.  
St. Johns School, Montreal 113.

The competition was originated at the Royal Military College, and all information regarding it can be obtained from the commandant R.M.C.

It is hoped that next year a much greater number of schools will take part, and it is also hoped that some public spirited citizen will present a challenge shield to be held for the year by the winning team.

More Playgrounds Needed.

Ald. Elliott's play ground scheme is a good one, and is instantly commended itself to the city council last evening. The mover was twitted, by Ald. Angrove, as to whether, like Ald. Rigney, he intended to enter upon the turbulent sea of matrimony, and Ald. Elliott only smiled at this piece of inquisitiveness. He claimed that Frontenac, Rideau and Catarauqui wards should have play grounds for the youth in those sections, and that the city council should see that such grounds were provided. The city property committee will, no doubt, make some report upon the matter when the council meets in September.

From 5c. a pound box to \$1 a pound, McCann's high class candy, at Gibson's Red Cross Drug Store.

**DID SPLENDID WORK**  
**CONSTABLES MAKING THE YARD INSPECTIONS.**

Board of Health Will Take Action Against All Citizens Refusing to Comply With Regulations—Trouble With the Scavengers.

The regular meeting of the board of health was held yesterday afternoon. Chairman S. S. Corbett presided, and also present were Mr. J. G. Evans, Frank King, John Lemmon and Dr. Bell, medical health officer.

In regard to the cellar of Mr. Zacks, Princess street, it was decided that the special report be received, and the committee discharged. It was found that the trouble had been caused by a break in the drain, and this had been repaired.

Ald. Rigney and the chairman, at a recent meeting, were appointed a committee to interview Hon. William Hartly, in reference to the securing of the old stone building on the penitentiary farm, for the use of an isolation hospital. Hon. Mr. Hartly wrote the board, stating that he had forwarded a letter to G. W. Dawson, inspector of penitentiaries, so that he might bring the matter before the minister of justice. Mr. Hartly will notify the board as soon as the matter is dealt with.

Complaints were made about the filthy condition of cellars on the property of Mrs. Brown, on the west side of Barrie street, next to the Imperial laundry. The board will notify Mrs. Brown, that the cellars must be cleaned at once, and that she must also erect a cove-trough at the rear of the building, so as to allow water to be carried off properly.

Dr. Evans wrote the board lodging a complaint against the city scavengers for not calling at the police station every morning before ten o'clock for orders. Some time ago, it had been arranged for the scavengers to have boxes placed in the police station, so that the police, who received all the orders, could leave them in the box for the men. Dr. Evans, in making his complaint, said that if he did not bring the matter before the board, he would not think that he was fulfilling his duties, as a member.

The scavengers worked on this system mentioned, from May 15th to November 1st. Dr. Evans complained about a case in which he himself was interested. An order had been given by him to the police, for the removal of a dead cat from his back yard. The order had been placed in the box by Sgt. Snodden at the police station, but three days passed and neither of the scavengers called for the order. When Mr. Lewis, one of the scavengers, did call at his house, Dr. Evans claimed that upon that occasion, he (Mr. Lewis) placed abusive language, and conducted himself in a disorderly manner. The rules of the board required that the scavengers should call for their orders every day, and Dr. Evans said that the men should be made to carry out the instructions.

Mr. Lewis was present and desired a chance to explain, but the board considered that there was no need of hearing him.

Dr. Evans, in explaining why he had sent the letter to the board, stated that days would pass before the orders were taken out of the box by the scavengers. The medical health officer had had considerable trouble in getting the men to do their work properly.

Dr. Bell said that the day the complaint had been made to him by Dr. Evans, he had found several orders in Mr. Reeves' box, but none in Mr. Lewis'.

All the members of the board were of the opinion that the orders should be attended to every day, and upon motion of Mr. King and Dr. Evans, it was decided that scavengers must call every day at the police station, for orders, and that they must also obey the orders of the medical health officer and the sanitary inspectors.

Dr. Bell explained to the members the trouble he had had with the scavengers and also informed the board that one of them had been summoned to appear in the police court.

Dr. Bell referred to the house-to-house inspection of the city, which has just been made of the city by Constables Timmerman and Filson, stating that the work had been done far better than in any previous year. The constables had carried out their duties well, and were deserving of great credit. In all there had been a total of 1,033 violations of the by-law let.

**THE SPORT REVIEW.**

Baseball Next Saturday—Notes on Various Sports.

Next Saturday afternoon, one of the best games of the senior city league series will be pulled off at the Cricket field, when the Victorians and C. L. C. will come together for the second time. The C. L. C. won the first game by a narrow margin, but the Victorians think they can turn the tables this time. The C. L. C. are at the head of the league, and are certainly a fine team, the best that has ever been together to represent the locomotive works.

The junior schedule will soon be completed and the Victoria II have it just about won. Another game will put them in good running, and two wins will give them first place.

Sporting Notes.

Toronto Star. The Ottawa police depend on the N.L.U. to punish Taylor, of the Caps. Taylor should get his mind rest easy now. Police justice in Ottawa does not always wait like this for other hands to apply the punishment.

The International Baseball League went out of business, Saturday, but attempts will be made to revive it. The trouble was largely caused by the fact that there were not enough cities represented in the league. The clubs are nearly all behind in the salaries of the players.

Reverend Walsh had this to say after the Nelson-Gans fight: "Nelson won a clean-cut victory. I do not, however, think that Gans of to-day was the Gans of old. He seemed to have lost some of his cleverness, and to my eye his blows did not seem to have the same vim behind them. Nelson was too strong and it was a case of youth having its fling."

Mertes, released by Toronto baseball team, has been one of the prominent figures in big league baseball for a number of years. He was at the height of his fame and usefulness as a member of the New York Giants, of the National League, and was one of the idols of Gotham. He was a .300 hitter year in and year out, and a terror to anybody who tried to stop him on the bases. Mertes has seen his best days as a player. Youth must be served, and he is having trouble with his legs. His arm is as good as ever, but he has lost his batting eye.

A London despatch says: The cry of "Good Luck" went up from hundreds of throats as Longboat started his fourteen miles run from Kilmarnock, on by Ballinara crannery to Kilmarnock, then to Kilmarnock and then to Kilmarnock. Quite a big procession of cars and cyclists followed Longboat, but when four miles was reached not half a dozen of the original number was to be seen. When twelve miles had been covered, he negotiated a steep hill as if he had not travelled half-a-mile that day. He finished the last ten miles with swiftness that was amazing and which provoked a scene of unbounded enthusiasm.

Pain will depart in exactly twenty minutes if one of Dr. Shoop's Pink Pain Tablets is taken. Pain anywhere. Remember! Pain always means congestion, blood pressure—nothing else. Headache is blood pressure; toothache is blood pressure on the sensitive nerve. Dr. Shoop's Headache Tablets—also called Pink Pain Tablets—quickly and safely coax this blood pressure away from pain centres. Painful periods with women get instant relief. 20 Tablets 25c. Sold by all druggists.

Bishop Weidon's article, "An Impressive Conference" of the Church and its Significance," reprinted in the Living Age for July 4th, from the Nineteenth Century, is an effective presentation of the meaning of the great ecclesiastical conference and congress now taking place in London.
