LETTERS TO THE EDITOR.

Concerning the Use of Dynamite at

Desert Lake, July 4 .- (To the Editor): I have seen in your issue ci July 2nd a letter written by Andrew Leeman, complaining of the way that powder is handled at Cobalt. Now, Mr. Editor, a man that is capable of running a machine drill is capable of

loading and firing the holes that are drilled by him, and it is the custom in most of the mines in Canada for drillers to load and fire the holes. As for the inspection of mines by mining inspectors, Mr. Leeman overstepped the mark, for the mines could not be looked after any better than they are Verona, July o .- verona cheese fac- by the mining inspectors of Ontario. lbs. for May Mila average price per inspectorship, then he might be abte of milk, 10.93 cents. Average to regulate the loading of holes and rest until the muck is partly cleared The Sabbath school picnic was well away. Mr. Leeman also states in his chool teacher, Barriefield, arrived ing report he would find that there mines about as carefully as it can be,
