FIRE

It is the most destructive element in the world.

The most modern, approved fire apparatus, in the hands of highly trained fire-fighters, often proves helpless in the face of a blaze that has had a five-minute start.

But there is one kind of fire protection that always and absolutely protects and that is insurance in a reliable old-line company.

Are you assuming any risk? Do you want to be wholly safe? Do you want to safeguard yourself against the ever-possible destructive visit of the fire fiend?

If so, see us about a policy without delay.

THE ACACIA WRECKED HAD TO BE BEACHED AT SACKET'S HARBOR.

Capt. William Simmons Had a Hard Time Reaching Land—Schooner Was Coal-Laden For R. Crawford & Co.

The schooner Acacia, owned by Capt. William Simmons, of Kingston, lies beached at Sacket's Harbor, near Sacket's Harbor, N.Y., and is practically a total wreck. She was laden with coal from Oswego for R. Crawford & Co.

Late on Wednesday afternoon Mr. Crawford received a telephone message from Capt. Simmons, shortly after he landed with his crew at Sacket's Harbor. He said that he had left Oswego Tuesday afternoon for Kingston, but the Acacia had sprung a leak, and he had to run back. He had difficulty in piloting his vessel through the gale and reaching Sacket's Harbor, where he could beach her. He ran her on a

CAPT. WILLIAM SIMMONS.

very shallow place in hopes of at least saving her cargo. It was Wednesday afternoon before he and his crew landed, being taken off by the life-saving station crew. His wife and grandchildren had accompanied him for trip and had quite an experience. As soon as Capt. Simmons reached land he telephoned to Kingston.

As stated in yesterday's Whig a Canadian schooner was reported wrecked somewhere near Oswego, but the name of the vessel was not known till the afternoon.

The Acacia is quite an old vessel, but was once rebuilt at a big cost. She is worth \$2,500 at least.

This is the celebrated schooner that was the centre of attraction at Charlotte, N.Y., on July 4th, 1905. Capt. Simmons had hoisted a Canadian flag on his masthead in honor of the glorious fourth. A rabid customs official came along and egged on by some irresponsible citizens of that town, the stranded schooner ordered Simmons to haul down the objectionable flag. Capt. Simmons refused and threatened to shoot the first "foreigner" who came aboard his vessel to interfere with the flag. Capt. Simmons later protested to the authorities at Washington over the incident, and the offensive customs officer was removed to some place where he would be less liable to cause harm to his country.

The crew of the schooner Keewatin which arrived here Wednesday, from Oswego, saw the schooner Acacia running back the previous evening.

A Watertown, N.Y., despatch, yesterday afternoon said: A Canadian schooner, name unknown, was blown ashore near Sacket's Harbor last night, in a gale that raged on Lake Ontario, and is rapidly going to pieces. The stranded schooner is flying its flag at half-mast, a sign of distress, and the life-saving crew from Big Sandy, which was summoned at nine o'clock, is momentarily expected. The waves are dashing over the craft. The point where the schooner is known as Bull Rock, on the Hillar Point shore, about two miles from Sacket's Harbor, and beyond communication.

(More details on page 8).

Schooner Blain Wrecked.
Word reached the city, this morning, to the effect that during a heavy storm the schooner James C. Blain came ashore off Oswego, and pounded to pieces on the beach. Her crew of seven, including a woman cook, were rescued by life-savers after a terrific battle with the waves.

It is reported that the schooner went to pieces within fifteen minutes after it struck the beach. The Blain was laden with coal, and tons of coal were scattered along the shore.

The Blain is owned by the George Hall Coal company, of Ogdensburg, Samuel Lamm, Oswego, is the captain, and he is well-known in marine circles in Kingston. A few weeks ago the schooner discharged a cargo of coal at the Kingston & Pembroke railway wharf.

Marine Notes.
The schooner Mary Ann Lydon cleared for Oswego, to-day.

The steamer Missisquoi was up from river points, to-day.

The barge Quebec entered the government dry-dock, to-day.

The steamship Mary Louise arrived from Sacket's Bay, with a cargo of brick for the R.M.C.

The steamer Fairmount called at the M. T. Co's wharf on her way to Sydney.

M. T. Co's wharf: The tugs Thomson and Henry P. Hall cleared for Montreal each with two grain barges. Owing to the rough weather the

Take Hall's Family Pills for constipation.

A SERIOUS BLOCKING THE WATERWORKS NEEDS A COAL SHED.

But the Committee's Recommendation Was Thrown Out—Ald. Craig Does Not Think Much of the Action of the City Council.

Ald. Craig, chairman of the waterworks committee, is quite disgusted at the action of the city council, last Monday evening, in referring back the question of building a shed for the waterworks coal, to replace the one destroyed, last fall, by fire. The committee carefully considered the matter, and brought in a report recommending that a concrete shed, without a roof, be erected, at a cost of \$2,300, of which the committee has about \$1,500 in insurance for the one burned.

Everything was considered, and the opinions of coal men were secured. The superintendent also advocated the shed. Now the matter is thrown back on the committee and the council has adjourned for two months. The committee wished to get the shed under construction right away, but is blocked by the council. Ald. Craig says, by not doing so, they are not only delaying the matter to go over, but there is no place to put the coal. Supplies will have to be purchased in small lots at higher prices.

Ald. Craig says he won't take any steps to bring the matter before his committee again. It's recommendation went to council, and was balked, because some aldermen talked about the coal exploding in a roofless concrete shed, while others thought the coal didn't need any shed, but could be allowed to lie piled on the wharf, and slide into the water or disappear by other means. There isn't room at the waterworks for the piling of a large quantity of coal. If there was, Ald. Craig wouldn't advocate building a shed at all. There must be a shed, and the sooner one is built, the better it will be for the waterworks. Ald. Craig says that the advice of the committee should have been taken, for it was sound. Coal men say the committee was right, but the "experts" of the council, not the committee, advocate delay. It is up to the mayor to make the next move in the matter. Ald. Craig will not issue a "round robin."

Gannaque On Friday.

The lacrosse game at Queen's athletic grounds on Friday should draw a large crowd of spectators. Gannaque has one of the best teams in the east, and have put up some fine games during the season. They have quite a few old-time players down in the Factory Town, and these fellows have been giving the team all the aid they can in getting into shape.

"Billy" Dalby's bunch has also been working hard and faithfully. A larger number were out to practice last evening than there has been lately and they should turn out even better as every man on the team is needed for the last few weeks before a game. It is quite a long time since the full team has worked out on the local practice grounds. The team will be picked after the practice this evening.

C. L. C. And Victorias.

The baseball game Saturday afternoon between the Victorias and the C.L.C., in the senior series, is arousing considerable interest among the players and their many friends. Both teams are working well all week. The C.L.C. have won most games and are at the head of the league, but if they do down on Saturday, the Victorias will have a chance of harboring the silverware for one season. Quite a few bets have been placed on the outcome and a large crowd will likely be present to see the game.

Sporting Notes.

The Canadian touring bowlers were beaten to-day by South London, the latter having a majority of fifty-eight shots.

Battling Nelson has accepted an offer to fight Gans for a purse of \$30,000 at Ely, Nevada, on Labor day. Gans is expected to sign in a few days.

George Hackenschmidt, the Russian wrestler, has completely recovered from the effects of the operation to his knee which he underwent recently at Berlin.

New York horsemen received a big blow when it was announced that the Brighton Beach Racing Association had declared all its big stakes off. This includes the Brighton handicap, one of the biggest fixtures of American racing.

The San Mateo Talagoos, a picked lacrosse team from all along the Pacific coast, has planned a tour of Eastern Canada and the United States, leaving San Francisco July 28th and returning September 30th. They play in Toronto and vicinity. They play in Toronto and vicinity. They play in Toronto and vicinity. They play in Toronto and vicinity.

Stop The Eruption.

The appearance of pimples or other eruptions on the skin should always lead to the immediate use of Wade's Ointment. Don't wait for skin affections to develop into serious conditions. This remedy, Equally effective for Eczema (Salt Rheum), Bitch, Impetigo, Old Sores, Scald Heads, Piles, Dandruff, and all stony or itching eruptions of the skin. In big boxes 25c., at Wade's Drug Store.

Miss Knapp's Pupils.

The following pupils of Miss Knapp have passed the examinations of the Toronto Conservatory of Music: Honors in primary rudiments and harmony, Miss Victoria Letherland, Glenvale; primary piano and primary harmony, Miss Gertrude Murton, Portmouth.

Pain will depart in exactly twenty minutes if one of Dr. Shoop's Pink Pills is taken.

Pain: Remember! Pain always means congestion, blood pressure—nothing else. Headache is blood pressure; toothache is blood pressure on the sensitive nerve. Dr. Shoop's Pink Pills—also called Pink Pain Tablets—quickly and safely cure all such pressure away from pain centres. Pain-relief periods with women get instant relief. 20 Tablets 25c. Sold by all druggists.

Would a rose by any other name have as many thorns? All ready-to-wear clothing, twenty per cent. off. Livingston's.

The Balance Sheet.

Not as an answer to its critics, or with the hope of satisfying the constant persistent demand for lower rates, but just as a matter of news, the interesting fact has been given out that the Grand Trunk has, within the past few years, expended \$15,000,000 in double tracking the main line from Montreal to Chicago, that they have now over a thousand miles of double line—the longest continuous double track under one management in the world.

At the same time they have been laying down eighty-pound steel where in former days there was sixty-five and seventy-two-pound rails. And now, having set a new and heavier standard, they are replacing the eighty-pound steel with new rails weighing one hundred pounds to the yard. In other ways they are bringing the system up to a standard which will make it, in all respects, a first-class railway. Every new bridge put in is made to carry the heaviest load.

All this money, or the most of it, finds its way back to the pockets of the people, for the work is done largely in Canada, and the materials entering into the work are largely the products of Canadian mills and Canadian hands.

And all over the vast system, from Niagara on the south, North Bay at the north—from Portland to Chicago, they are building new shops, round houses, stations and other buildings. In the double track alone the company have provided additional safety that no mere block system could secure. No doubt as business justifies, other lines will be double tracked, especially the lines leading down from the great lakes, the outlet for the wheat of the North-West.

By Lydia Pinkham's Compound at Gibson's Red Cross Drug Store. Twenty per cent. off boys' wash suits. Livingston's.

ALL OVER A ROOSTER.

French Bargesmen Rescued Him From Drowning.

A very amusing incident happened, near Cataract bridge, on Wednesday afternoon, and a hearty laugh was afforded all who stood near enough to see the fun. Tied up below the bridge were a few barges, and as is usual on barges in this part of the country, they were manned by Frenchmen, they were not dumb Frenchmen either. On one of the barges was a large rooster, the pet of the camp, and master of all other mascots in the party. On the afternoon in question the bird was perched on the stern of the barge, giving orders to the crew, whom a heavy gust of wind came along, and the next thing, the chief of the feathered family knew he was in the cold waters of Cataract Bay, making a desperate struggle for land. The bird tried to use its wings, but they were wet and too heavy for him to use.

He had been in the water a few minutes before any of the crew saw him, but when they did see him, the fun started. Every possible and impossible way was tried to rescue him, and all proved of no avail. Every one on the boats, men, women and children, were all talking at once, and no one knew what the other was saying. Finally one of the men jumped in. It is not known whether he jumped in to save the bird or to get out of the noise of the talkers. A large number of people on the bridge had a good laugh at the proceedings.

TICKET-OF-LEAVE-MAN.

George Bouchard Removed to the Penitentiary.

George Bouchard, who has just been removed from Ottawa to the penitentiary, is a ticket-of-leave man, who was sent to the prison for forgery in 1905. He was returned for an additional period of four years. Eighteen months of his unexpired term are also tacked on, so that now he will have five years and a half to serve.

Bouchard was employed at the New Arlington hotel, in Ottawa. He passed a forged cheque, purporting to be signed by a man named McBride, at a butcher shop. The amount was \$10, and a Royal bank cheque was used. Bouchard worked this trick all right, but fell down when he presented a Crown bank cheque for \$15, supposed to be signed by a prominent citizen. At the store where he endeavored to pass the cheque, the clerk became suspicious, and went to the telephone to ring up the citizen. Bouchard then disappeared from the store, and was arrested by the police a few days later.

IS PROGRESSING NICELY.

The Work on the O'Kill Sewer Sewer.

Work on the O'Kill street sewer is progressing nicely, under Contractor Leslie. Three lengths of the sewer have already been put down, and the drilling has been done for the other three lengths. Six men are employed on the job. It was expected that the work would be completed by the end of the month, but now it is believed that it will take up to the first week in August before everything is complete.

There is considerable drilling, and this takes up a great deal of time, and work of a class which proceeds very slowly at times. The best of progress has been made under the circumstances, and Contractor Leslie is well pleased with the way the work has been done so far.

B. A. Hotel Arrivals.

Revive Your Hair.

If your hair is dry, brittle, faded or lusterless the hair glands lack vitality. Restore health and proper growth and vigor by toning up these glands by the use of Dr. Dawson's Hair Restorer. Restores gray hair to its natural color. In bottles 50c., at Wade's Drug Store.

Will Represent Queen's.

Dean N. F. Dupuis left, to-day, for Kingston, to represent Queen's University and the School of Mining at the funeral of the late Prof. Norman R. Carmichael. The latter was one of the most brilliant students of Dean Dupuis in mathematics, and was afterwards his assistant.

Heat prostrates the nerves. In the summer one needs a tonic to offset the customary hot weather Nerve and Strength depression. You will feel better within forty-eight hours after beginning to take such a remedy as Dr. Shoop's Restorative. Its prompt action in restoring the weakened nerves is surprising. Of course, you won't get entirely strong in a few days, but each day you can actually feel the improvement. That tired, lifeless, spiritless, feeling will quickly depart when using the Restorative. Dr. Shoop's Restorative will sharpen a failing appetite; it aids digestion; it will strengthen the weakened Kidneys and Heart by simply rebuilding the worn-out nerves that these organs depend upon. Test it a few days and be convinced. Sold by all druggists.

PRICE TWO-FIFTY.

We are sole agents for Kingston.
George Mills & Co.
Importers of Fine Hats.

DIDN'T RACE AFTER ALL.

First Ladies' Day Was Unusually Successful.

Fathers and brothers decided that Lake Ontario was too frisky, on Wednesday, to allow our daughters and sisters to try and see what they could do in the matter of handling the yachts, on its white-capped bosom, as some of the maidens proposed doing. However, nothing daunted, they have asked leave to try again, on Saturday, if a sufficiently gentle breeze is blowing.

Ladies' day was unusually successful, the number present being greater than at any time last year. Mrs. Francis Strange, Mrs. James Gilder, Mrs. F. W. Albee, with Miss Mabel Dalton and Miss Kathleen Kirkpatrick, all officially connected with the yacht club through husbands or brothers, had charge of the tea and welcomed all comers.

1,000 Islands—Rochester.
