THE SPORT REVIEW

PROGRAMME OF SPORTS FOR LABOR DAY.

Baseball Matches To-Day Cancelled on Account of the Weather—Kingston and Belleville Again to Play Lacrosse.

On Labor Day, Monday, September 15th, there will be a big picnic here, the best of sports and the best of games will be put on.

All Baseball Postponed.

The heavy rain of Friday afternoon and Friday night killed both horse races and baseball matches in the city.

SIMPSON, THE RUNNER. Who is going fast in the Olympic trials.

players to get out to play, or try to play, on a day like this. The matches will be held at a later date, along with the ball games.

To Break The Tie.

Manager Dally expects to have the Belleville down here for another game on Civic holiday. These two teams have met twice and each time the score was three goals each.

Sporting Notes.

England maintains a lead of twenty points over the United States in the Olympic games.

"Rube" Washell is again proving himself one of the greatest pitchers in the American Baseball League.

Toronto papers say the championship fight in the National Lacrosse Union will be between Capitals and Teumseh.

The Marathon will be run at London on Friday, the 24th, at three o'clock in the afternoon, or about 10 a.m., Kingston time.

New Westminster lacrosse team has arrived in Montreal, where it plays Shamrocks, on July 21st and 28th. The Teumseh are trying to get it to play in Toronto on August 1st.

Jack Wilkinson, considered by many to be the strongest man in the Connecticut League, has been engaged by President Powers to handle the indicator in the Eastern League.

When told of Longboat's accident, Manager Crocker, of the Canadian Olympic team, said that it would save him from defeat, as Simpson is going strong. He did ten miles in fifty-six minutes, the other evening, in a heavy rain.

Toronto Star: No professional in the American team, eh? What about Ralph Rose? and Martin Sheridan? and Edwin Slaughter? and John Flanagan? and about fifty others of the United States that can be named who make a living on their athletic skill!

At a meeting of the Vancouver Rugby Football Union, it was decided to accept the offer of the British rugby team now touring in Australia, to play a game in Vancouver on its way home in September. The British team will leave Australia on September 2nd, and will arrive in Vancouver about September 24th.

The athletic tourney in connection with the Winnipeg exhibition developed a promising Marathon runner in the person of Cree, the Indian from Gravel, who has already done some running which attracted attention. His supporters believe that in him they have another Longboat. In the three-mile handicap he was scratch man, but finished twenty-two seconds ahead of any competitor, covering the distance in fifteen minutes fifty-six seconds, and running in mocassins.

Postponed Till Monday.

A meeting of the board of works was to have been held yesterday afternoon to consider the road paving question, which has been hanging fire for the past two months; but as some of the members of the committee were unable to be present, it was postponed until Monday afternoon, when it is hoped that some definite action will be taken so that the Kirkby company may go ahead and canvass property owners in the business section.

KEPT NAME A SECRET

PRISONER DIES WITHOUT REVEALING HISSELF.

Hung Himself in His Prison Cell—Dead Only a Few Minutes When Guard O'Neil Made the Discovery.

At 5:45 a.m. Friday the body of Frank Hogan, a convict in the penitentiary, was found hanging from a pipe in his cell, by Guard O'Neil. The prisoner was confined with a number of prisoners in the isolation ward, owing to the main part of the building being over-crowded.

The prisoner was sentenced to Parry Sound on August 30th, 1906, for three years in the prison for burglary. The suicide was about twenty-seven years of age. He was supposed to have come from Switzerland, and Hogan is not his correct name, but the name he was sentenced under. His correct name is not known.

At the time the man took his life he may not have been in his right senses. He was of a sullen, morose disposition, and was very irritable at all times. He was of a very weak mentality, and at times since his sentence he had been confined in the insane ward at prison, but during the past month had been enjoying fairly good health.

Coroner Mundell was notified of the suicide and decided to hold an inquest. At 7:30 o'clock Friday evening the inquest opened with the following jury: John Smith, foreman; Thomas Cunningham, Michael Dolan, Edward Thomas, Richard Bennett, A. McLean, R. Robinson, J. Johnson, Thomas McCammon and William Welburn.

The above jury was summoned by P. C. Bateson, Warden Platt, Dr. Phelan, Hospital Steward, Chief Keeper Atkins, Chief Watchman Holland and Guard O'Neil all gave evidence. The magnetic clock disc was produced, and showed that the guard on duty in the corridor where the prisoner was confined had visited the cells in his charge sixteen times during the night. The last two visits were only half an hour apart, and the prisoner could only have been a very short time dead.

After hearing the evidence and viewing the remains the jury brought in the following verdict: "That Frank Hogan came to his death by hanging, the case being clearly one of suicide, and that the evidence showed that there was no neglect on the part of any official of the institution." The remains will be buried in the prison lot in the cemetery.

Prof. James Elliott, Ph.D., of Wesley College, Winnipeg, Bible school, 12:15 noon during July and August. Mid-week service, Wednesday, 8 p.m.

An Automobile In Tow.

A funny sight was witnessed late yesterday afternoon, while the rain was descending in torrents. A fine big automobile, completely enclosed, came slowly down Princess street, in the rear of a farmer's wagon. It had become disabled out in the country and the old stand-by, a team of horses and a wagon had to be secured to convey the stranded tourists to town.

A HARD TIME LANDING

STR. TORONTO SMASHED INTO SWIFT'S WHARF.

Broke Most of Her Starboard Fenders—A Tug Had to Pull Her Out—Capt. Booth Had a Difficult Task to Perform.

The steamer Toronto experienced a most difficult time in making a landing at Swift's wharf, Friday afternoon. There was a strong south-west wind blowing, and the waves were washing over the wharf when the big steamer came in. Capt. Booth knew he had a difficult task to perform in effecting a landing at all. He kept well out on approaching the wharf, hoping to slowly work in broadside. The wind and waves, however, caught the steamer, and pitched her against the wharf with awful force.

The vessel crashed into the wharf timbers. Those aboard and in the vicinity watched the Toronto would be pitched over the wharf, but fortunately this did not occur. The wharf received a severe shaking up from the vigorous collision. On leaving the Toronto experienced more trouble. A tug had to aid her in getting clear of the wharf and in starting her on her course for the harbor. One of the immense harbor posts was jerked out when the Toronto pulled on one of the ropes. Swift's wharf is in need of rebuilding and lengthening, and this will no doubt be done before next spring.

LABOR IN THE WEST.

The Opinions of A. Flett, the General Organizer.

A. Flett, general organizer for Canada for the American Federation of Labor, who paid a visit to Kingston labor men, early in the summer, is now in Ottawa, organizing a cabinet men's union. Since being here he has made a trip out to the west, and when asked as to the progress of the labor movement in the west, said, that laborites there exhibited a more radical spirit than in the east, some tendency towards socialism. Farmers were following the example of the artisans, and organizing as a Canadian section of the American Society of Equity, which has a powerful influence in the United States.

MOTOR BOAT RULES.

Those Published Yesterday Should Be Carefully Studied.

Every motor boat owner in Kingston—and the owner of skills as well—should procure a copy of the regulations governing the propelling of small craft, as published in the Whig, yesterday, and paste them in his boat. Then he should get another copy to stick up in the boathouse, and still another to frame and hang up beside the steering wheel. There are boats in the Kingston harbor that seem to run themselves, for from their erratic movements it would appear that no intelligent brain is directing their course. There is bound to be a fearful disaster some day if greater precautions are not taken by boat owners. Even the proverbial "right of way" is disregarded by many, and they keep erroneously their craft to the left when approaching another boat. That every passage should be made to the right is an old and simple rule that all should know and adopt.

The rules and regulations, according to the marine law of the Dominion, and as published in yesterday's Whig, should be thoroughly mastered by every lover of the water. These rules were published at the request of several motor boat owners, and it is hoped that they will be studied with profit. A careful observance of them may possibly be the means of averting some fearful disaster, which will surely occur if the present reckless running of boats is persisted in.

HEAVIEST RAIN IN YEARS.

The Streets Were Like Rivers on Friday Evening.

Friday's rain was the heaviest and the longest in duration in years. The down-pour was something terrific towards evening. The rain began to fall gently at 8 a.m., and continued till 11:30 o'clock. For the next hour or so, the rain fairly tumbled. All afternoon there was a heavy and continuous fall, but the climax was reached about 6:30 o'clock, when the clouds seemed to burst and let down rivers of water. From 5:30 till after seven o'clock, canoes could almost be run on the sides of the streets. The grates seemed to be in better condition than usual, and there were not so many overflows as is usually the case when heavy rains come.

The tremendous down-pours placed business at a standstill. Few people cared to wend their way through the streets, and the thoroughfares were high deserted at night. After 7:30 o'clock the rain eased off, and little fell till Saturday morning, when there was another gathering of clouds and more heavy showers. The day's business and pleasure were spoiled.
