SOME MORE GOODS

Discovered in Dickson's Home in Brockville.

A Ring Returned by a Young Lady--Some of Accused Have Suddenly Left Brockville.

From Our Own Correspondent.

Brockville, July 20.—And still it comes. Another visit to Dickson's house, by the local officers, with Dickson in company, effected the discovery of a further quantity of the missing jewelry. Previous visits only showed up a small portion of the stolen goods. The officers passed over the boxes in which the jewelry was hidden on their previous visits. Dickson confessed to the theft and promised, if taken to the house, he would unearth the other goods which he had securely hidden. He went upstairs to his mother's room and in an old rag box he unraveled the contents and out dropped five valuable rings stolen from J. Lane's store during the spring. Another diamond ring was returned from a lady friend of Dickson's who had accepted the ring in good faith. She voluntarily returned it when it was believed to be stolen. Also the \$85 bracelet watch was discovered. This is the property of the Canadian Express company and was stolen from the express car during the extensive operations of the organized band. It is believed all of the goods will yet be recovered. Goods are turning up which were taken from other stores burglarized during the past spring. Other warrants are still waiting execution. The offenders, being warned, have left town although strong hopes are held

out for their capture. The preliminary hearing is still held over waiting the further recovery of the goods.

During Saturday forenoon three respectable young men of Belleville, attempted to board the fast freight train No. 30, when one of the young men fell from the car and had his face badly cut and ground in cinders, also his left ankle badly sprained. They stated they were on their way to Quebec to the tercentenary.

Perhaps Belleville papers may have an advertisement calling for a stray cat. One of the latest travellers to arrive in town, although he did not state he was on his way to Quebec, was a Maltese cat taken from the top of the truck of the tender of engine 978, arriving here on the fast train No. 4. The engine stated that when making his engine ready, at Belleville, he noticed the cat around the engine and was much surprised to find the cat still with him. Needless to say the cat was all dirt and dust and much frightened after his ride under the tender, but it is a mystery, how he hung on. The cat is now in charge of Car Inspector Kelly, who found him and Kelly states he will be willing to give him up on payment of his board bill. Kelly says he has the cat which rode the longest distance on the truck of an engine.

A DISTINGUISHED VISITOR.

He is the Premier Peer of England.

DUKE OF NORFOLK.

The duke, one of the distinguished visitors at Quebec for the tercentenary, is the premier peer of England. He is sixty years of age.

The duke owns a large slice of Sheffield, England, and has mansions near the city, but his principal residence is at Arundel Castle in Surrey. He was mayor of Sheffield in 1895, and first lord mayor of the city in 1896, and has taken great interest in the establishment of Sheffield University. His gifts to the Catholic church have been enormous. It is not generally known, for instance, that for years he has been building a great cathedral at Norwich at a cost of half a million.

Samuel Gompers, president of the Federation of Labor, denies that he sent a cablegram to William R. Hearst, urging the latter to have the Independence League support Bryan for president.

FROM THE OLD WORLD

Turkey to Be Included in the Triple Alliance.

A Paper Takes a Poll on the Question of Woman Suffrage--Stadium Prices Cut in Two.

London, July 20.—There has been much making of great alliances in the European press during the past week. It is announced, from Paris, that Emperor William's reply to the Anglo-Russian entente is to be the inclusion of Turkey in the triple alliance. This assumes a willingness to commit himself upon the Sultan, Abdul Hamid, which is quite inconsistent with all his previous policy. He has preserved his political independence, heretofore, largely by his skill in playing off first one and then another of the great powers against its neighbors. He is far too shrewd a statesman to have any confidence in the disinterestedness or permanency of the Kaiser's affection for him. It is with regard to the serious situation which may arise at any moment that Austria would like to have an understanding with Turkey and the other powers. Austria's long standing ambition in regard to the Servian territory is not particularly keen at the present moment and the other powers would not look with favor on any movement to take aggressive advantage of the Servian troubles.

The executive committee of the Olympic games has finally come to the conclusion, reached by the Americans here some time ago, that the prices charged for seats in the stadium are altogether too high, and have made the reduction of fifty per cent. in the prices of 35,000 of the seats. It is hoped that this will result in the drawing of a much larger attendance than has hitherto marked the progress of the games.

The Express polled its readers on the question of woman suffrage with the following results: 60,043

men and 49,942 women voted against it and 33,316 men and 37,962 women supported it; 25,885 men and 29,524 women voted for a limited franchise for women.

That Rudyard Kipling should have been taken for a German spy in Lincolnshire is his Nemesis in the best merited form, as he has done more than any one else to stir up the anti-foreign feelings of which the ridiculous spy scare is the most recent consequence. Kipling was inquisitive about a new light railway line running to the coast, his spectacles, his sombre appearance and his gruff manner were sufficient to forward a report to the war office. The local chief constable made enquiries and elicited the fact that the suspected person was none other than the ultra-ingo imperialistic poet. Kipling does not relish being made ridiculous, as he takes himself with extreme seriousness, but everyone except him is hugely amused.

The unionist whips are warning local agents that the general election will be fought on this year's register. There is a fresh register every year, and consequently this official tip is a forecast that parliament will be dissolved this year. It is accompanied by the intimation that the licensing bill will be summarily rejected by the lords and the education bill also if it comes to them, and that the government will appeal to the country rather than face another budget.

The Irish party will oppose unamously all efforts to remove the Canadian Ireland in bankruptcy. They say it would involve Ireland in bankruptcy. The weekly despatch puts the question before the people as cheap meat or die.

TORONTO GIRL DROWNED.

Grace Holland Was in Bathing at Kirk's Ferry.

Ottawa, July 20.—A sad drowning accident occurred at Kirk's ferry, Grace Elsie Holland, a little girl sixteen years of age, was in bathing with another companion, Dorothy Anderson, when she got beyond her depth. The two were all alone, and before the screams of the other girl attracted attention the little one had gone down. She was a niece of Col. and Mrs. Anderson, of Ottawa, and was here on a visit from Toronto, where her parents reside. The body was not recovered until last night. A number of rivermen from the Cascades grappled for it and succeeded in locating it.

HE SUDDENLY EXPIRED.

The Death of a Grocer in Napanee on Saturday.

Napanee, July 20.—On Saturday morning death came, very suddenly, to Peter Gould, Centre street. He was about in his usual health in the early morning, and opened up his grocery store adjoining his home, in preparation for the day's business, and returned to the house for his breakfast, when, upon entering the hall, he was seen to stagger and fall to the floor, and before medical aid could be summoned he had expired. Heart failure was the cause of his death.

Deceased was one of the oldest and most respected residents of Napanee. He was aged seventy-two years and six months. He leaves a widow and one daughter. The funeral will take place, this afternoon, at three o'clock, to Riverside cemetery.

A. S. Kimmery, Henry Savage and N. M. Cambridge left, yesterday, for Quebec, to play in the 14th Regimental band.

Mrs. J. M. Lapin and family, of Scranton, Pa., are guests of her parents, Mr. and Mrs. Sperry Rockwell, John street.

Funeral services for the late Mrs. M. J. M. Lapin will be held at the residence of her daughter, Mrs. J. M. Lapin, on Saturday, July 25th, at 11 o'clock.

ELEVATOR FATALITY.

Ottawa, July 20.—Mrs. Lyons met instant death in the Cross Company's store on Saturday. The woman had gone up in the elevator to the fourth floor and after the elevator had proceeded up half way she opened the door from the elevator and stepped out. She fell under the elevator and dropped down the shaft, landing on the hydraulic tank at the bottom. She was instantly killed.

Take Over The Plant. Sault Ste. Marie, Ont., July 18.—Following on the heels of the closing of the plant of the Algoma Steel company, comes the story that it will be taken over by the Canadian Pacific railway in addition to the Algoma Central railway. The pending deal is one of the largest in many years. It is said that the Canadian Pacific railway will take over the plant so that in the future it will be independent of the steel rail manufacturers. The plant manufactures nearly fifty per cent. of the rails made in Canada.

Killed At Guelph. Guelph, Ont., July 20.—Frederick Anderson, an employee at Hooper's livery stable, driving a four-horse tally-ho with printers to play baseball at Pishing Lake with Galt printers, was jolted from his seat, and both the front and hind wheels ran over him, injuring him so badly that he died within a short time. His mother is a resident of Wyoming, Ont.

Struck By Lightning. Columbus, Ohio, July 20.—Mrs. C. F. Guegle, aged thirty-five and Earl Vigor, aged nineteen, were killed by a stroke of lightning on Friday evening, while in camp along Big Walnut Creek, seven miles south of Columbus. John Guegle, aged four, only child of the dead woman, sustained severe injuries from the lightning, but will recover.

Booth's Prison Scheme. London, July 20.—General Booth, referring to his acceptance of the control of a Canadian prison, says he sees great possibilities in the way of prison reform. "In a model prison I should hope to reform and save as well as punish."

DIVIDEND IN A YEAR

Will Probably Take a Year to Dispose of Vast Amount of Clerical Work.

Toronto, July 20.—A staff of fifteen is busily engaged at the National Trust company on the mass of clerical work that is necessary before the rights of the various York County Loan claimants under the judgments of Official Referee Kaye can be ascertained. In a month it is expected that a statement will be possible as to how long it will be before this work is completed.

"I think it will be a year yet," declared R. Home Smith, of the National Trust.

"The real estate is going very well," he added, "though I expect it will be three or four years before it is all disposed of."

This means that though the first dividend may be declared in perhaps a little over twelve months from now, the final payment completing the forty per cent. which the liquidator expects to be able to pay, will not be made for perhaps more than four years, or some time in 1912 A.D.

HOUSETOP GRAND STANDS.

Made Home Run and Fan Broke His Neck.

Chicago, July 20.—When Joe Tinker smashed out a home run on Friday, winning the game from the Giants, William Hudson, West Madison street, witnessing the play from the top of a four-story flat just outside the park, became so enthusiastic that he fell off the building and his neck was broken.

The incident may result in stringent legislation forbidding the house-tops "grand stands" which hang around both parks. The owners of the houses sell seats at reduced rates and reap a large harvest every season. The park owners have so far fought them unavailingly, but the death of Hudson is likely to bring results.

SHOOTING AT SYDNEY.

Charged With Attempting to Shoot Her Husband.

Belleville, Ont., July 20.—Mrs. William Day, of Sydney, was arrested, charged with attempting to shoot her husband. A few days ago Earle Fox was arrested, charged with attempting to shoot Day, but it is now alleged that the latter's wife, who was mixed up in the row, did the shooting, but missed her husband. The woman was released by the magistrate and released on \$1,600 bail.

Says It's Chinese Revenge.

Hamilton, Ont., July 20.—Thomas Lee Sing, Chinaman, was arrested on a charge of breaking into Lee Hing's laundry and stealing \$9.50. The prisoner claims he was enticed into the place by Chinamen who desired to have revenge on him because he gave evidence against them in a gambling case two years ago. He says they broke open their own till, put the money in his pocket, tied him with a rope and called the police.

Wants Leases Cancelled. Chatham, Ont., July 20.—In May, 1906, Michael Egan, Canadian oil man, obtained leases on the farm of Joseph Simpson, in Tilbury East. Simpson has issued a writ to set aside the leases, claiming that they were now invalid, as no development work was done by Egan. The leases are valuable because adjoining them a big gas well was struck last week.

Booth's Prison Scheme. London, July 20.—General Booth, referring to his acceptance of the control of a Canadian prison, says he sees great possibilities in the way of prison reform. "In a model prison I should hope to reform and save as well as punish."

TO GUARD THE PRINCE.

Militia Are to Have Busy Time of It.

Quebec, July 20.—Precautions for the protection of the Prince of Wales while at the citadel are going on apace. Wires are being strung up all the way from the foot of the cliff so as to enable a fire alarm to be rung in direct from the quarters he will occupy should occasion arise. Two his neck was broken.

The incident may result in stringent legislation forbidding the house-tops "grand stands" which hang around both parks. The owners of the houses sell seats at reduced rates and reap a large harvest every season. The park owners have so far fought them unavailingly, but the death of Hudson is likely to bring results.

Two thousand yards of street line have to be protected, and about thirty-six hundred troops will be used. The rest of the fourteen thousand troops, composed of composite companies, compose the regiments and composite battalions which have never co-operated in drill before, being small sections of various corps, will, during the prince's arrival, be getting used to one another's company in military manoeuvres.

Fourteen guards of honor will be used during the celebrations, representing as many city regiments. The regulars won't get much of a show at this.

The Prince of Wales has asked that a field day be held upon the Plains of Abraham, and the crews of the eleven battleships will take part. As for the military parade Gen. Otter has decided to leave it with the 12,000 troops to decide whether there is to be one or not. The route as proposed will cover Lower Town (the old French section), and Upper Town, and would mean a walk of twelve miles for the men. In some respects and for some people the festivities mean a gamble.

Off On Suspended Sentence. Harvey Campbell, was tried before Col. Hunter, at the court house, on Saturday afternoon, and was let off on suspended sentence. He was placed on the "Indian list" in both the county and city, for one year. Campbell's trouble is all through drink. When sober he is a hard working ship carter, but when drunk he is a bad man. Twice he has appeared for beating his wife, and both times he has been let off on a promise of good behavior.

Clever Ruse Worked to Effect Capture. Mexico City, July 20.—Details of the killing of the famous bandit, Gen. Obispo Rodriguez, "El Jorahedo," and his two companions, Antonio and Policarp Reis, have just reached here. The bandits, charged with killing H. S. Jones, an American, and with many other crimes, were shot while sleeping.

Three ruffians, sent out to capture the trio, made a mock attack on a hacienda near which the robbers were camped. The latter took the supposed recruits in, who travelled with the bandits for five days, awaiting the chance to catch the real robbers of gold.
