## WILL LOSE LEFT ARM

### AWFUL ACCIDENT TO GANANOQUE MACHINIST.

John Murchie the Victim—He was Whirled With Machine to Ceiling—Brought to the Kingston General Hospital.

Gananoque, July 21.—A very serious accident occurred in the machine shop of the Britton, Hage and Hesp Works about 2:15 yesterday afternoon, whereby one of Gananoque's most highly esteemed young men, John Murchie, son of Mr. and Mrs. Robert Murchie, John street, will lose his left arm near the shoulder. The details of the sad affair show it to have been purely accidental. Mr. Murchie is the company's machinist and was at work on an elevator for R. McRoon's warehouse. He had the large main for the cones and all to pieces of shafting habituated, and found it worked tight; he set it up and attached a belt to a pulley on the shaft to run it for a short time to ease the bearing. He did not, however, bolt it to the floor. Some difficulty was experienced in getting the belt (an old one) to stay on, and whether he got on top of the machine to hold it down or to put the belt on is not known but the belt wound round the shafting above, catching in its left arm in its folds, and taking him, machine and all, to the ceiling. The young man threw out his right arm and braced himself against a beam on the upper floor, his head meanwhile striking against a brace and cutting an ugly gash in the left forehead. The machine was falling to the floor, and the young man, in an effort to ally the sufferer's pain, had him placed on the train at 2:35 o'clock for Kingston General Hospital. The bone of the left arm protruded between elbow and shoulder, and was broken between wrist and elbow. The young man's father, Robert Murchie, left a few weeks ago for a visit at his old home in Ayrshire, Scotland. His sister is a nurse in Waterton, N.Y., and his mother was visiting in Leeds township at the time of the accident.

The injured young man is a prominent member of the I.O.O.F. and C.O.P., and also a member of the quarterly official board of Grace church, also assistant librarian in Grace Sunday school, and the greatest sympathy is felt for him and the family.

At an early hour Monday morning Walter Lash, River street, while trolling in the waters adjacent to the town, had a strike from a large mackinaw, which he successfully landed. The fish was four feet six inches long and weighed a little over thirty-nine pounds. It was placed on exhibition at W. J. Bell's, King street.

Gananoque Inn, which during the past few weeks has been crowded to overflowing with guests, some seventy new arrivals having registered during the past week, is offered for sale by its owner and proprietor, A. A. Welch, Montreal.

The old model school room in Stone street school is to be renovated and refitted for use as a regular class room. This will help to some extent as the rooms have been greatly overcrowded there being no less than ninety in the primary room.

E. H. Hurd, Charles street, has disposed of his gasoline launch to Gordon Scott, Stone street. Mrs. Forsythe, of Montreal, is the guest of Mrs. and Misses Douglas, of Montreal, at their summer residence, near White Cliff Island.

Mr. McNeenan, of New York city, arrived here the latter part of last week to enjoy a short outing at the camp of Mr. and Mrs. Alexander Lattimer, a short distance east of the town. Mr. and Mrs. Westcott, of Albany, N.Y., are enjoying a short outing here with the latter's parents, Mr. and Mrs. Charles K. Wright, at their summer residence, Tremont Park. Mrs. Hensley, of Ottawa, arrived during the past few days to spend some time with her daughter, Mrs. E. D. Baker, at her summer cottage on Tremont Park. Mrs. E. P. Stoll, of Ashabula, Ohio, is spending a few weeks in town with her mother, Mrs. Wythe, John street. John LaRose, of Toronto, spending the past two weeks here with his parents, Mr. and Mrs. John LaRose, River street, has returned home. Arthur Rogers, manager of the branch of the Bank of Toronto, at Dorchester, Ont., is spending his vacation here with his parents, Mr. and Mrs. C. B. Rogers, Stone street. Mrs. William Tremont, King street, is spending a short holiday season with relatives and friends in Lyn and Brockville.

**Furniture Repairing.**  
Upholstering, repairing and repolishing furniture. A specialty of hotels, barber shops and store fixtures. W. H. Whittingham, corner Bagot and Queen streets.

Lord Clampton, of the Royal Horse Guards, was fined £5 and costs at London, for driving a motor in Regent's park beyond the legal speed. A motoring party is planned for Cincinnati, to be called the Mail. A company capitalized at \$250,000, has Felix S. Goldsmith as prime mover.

**A Good Nerve Tonic.**  
Will act, not so much directly upon the nerves as upon the digestive fund of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferronase arises from its action over the digestion and assimilative processes. When you take Ferronase the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferronase. Price 50c, or six boxes for \$2.50, at druggists or Polson & Co., Kingston, Ont.

### HIGH UP ON BULL ROCK.

#### Gale Did No Damage—Schooner Taken Off.

Sackets Harbor, N.Y., July 21.—The schooner *Acacia* is now high and dry on Bull Rock Point, so that the waves did not reach her during the gale of wind on Thursday and Friday. The wind blew from the north-west and the sea was very rough on the opposite shore. Her cargo of coal is intact, and the vessel is in as good a condition as when she went ashore on the rock. The captain had purchased the coal from the insurance company, so it is reported, and he has sold a part of it to E. M. Stearns, coal dealer of this village, to be delivered at his dock.

Capt. Cummings is positive that the schooner can be taken from the rocks with but little damage to her, which he will do as soon as the coal is lightered out. But for the unfortunate accident to the barge *McDonald*, which was engaged in lightering the wrecked craft, presumably there would have been some arrangements made towards the removal of the *Acacia* by this time. The *McDonald* is practically destroyed. The fire, it is thought, originated from the boilers.

### Baseball On Monday.

### SUPERIOR WATER ROUTES.

Nature Has Given Canada Many Advantages.  
Canada has the best natural means of transport to be found on the western continent, says a writer in the Paris Weekly, *Tour de Monde*. She needs them, for, like Argentina, she is one of the greatest grain-producing countries of the world and will soon surpass the United States in the foreign market, as the latter will only grow sufficient for the needs of her teeming population. While Canada's mineral resources are not yet fully explored, she has coal in abundance, although her mines are situated at the extremities of her territory. The Rocky Mountains produce copper and lead. But there are two particulars in which the dominion excels—the production of hydraulic force and the means of water communication with the outside world. On these points we

Nature has gifted Canada with admirable means of transport. The great lakes give her the finest inland waterways to be found on the globe. To tell the truth, this navigation of the great lakes by steamers of thousands of tons burden resembles much more closely the navigation than the ordinary navigation of rivers and canals, and is just as cheap. Canada has one advantage over even the United States in that she can utilize not only the great lakes, but their outlet to the sea through the St. Lawrence. Here is the navigation, at certain places interrupted above Montreal by the rapids; but this solution of continuity is easily remedied. The Ottawa, a powerful affluent of the St. Lawrence, is eventually to be directly connected by a canal with Lake Huron. The only obstacle in the way is the employment of these waterways is that they are frozen up in winter, and the vessels that arrive from Europe are obliged to stop at Halifax or St. John. But generally, instead of employing these ports of the maritime provinces, routes are had to the American harbor, which are situated nearer to the centre of Canadian life. In fact, it is during the winter that most of the trade between Canada and the old world is carried on. The hindrance to navigation created by the frost of winter is certainly a disadvantage, but fails to check the industrial progress of the country, a great part of which enjoys seven months of uninterrupted water communication at an exceptionally low cost, which is supplemented by a system of railroads that, thanks to the nature and necessity of the ground, are not expensive to build.

### SMELLING SALTS EXPLODED.

Girl Seriously Injured By Odd Accident.  
McKeesport, Pa., July 21.—Miss Lida Dull, was horribly burned about the face and hands by the explosion of a bottle of smelling salts, while attending the funeral of her friend; Miss Hazel Penny, who died from the effects of carbonic acid, swallowed, apparently, with suicidal intent.

### Caught In A Chain.

Quebec, July 21.—The first serious accident during the celebration happened upon the French cruiser, *Leon Gambetta*. The chief gunner, Guedes Quartier, was lowering an anchor, when his arm was caught in a chain which almost wrenched it from its socket. The injured man was landed and conveyed to the hospital in an ambulance.

### Cooling Drinks For Hot Days.

With Sovereign Fruit Syrups and Sovereign Lime Juice in the home, you can instantly prepare any number of delicious, cooling and refreshing summer drinks. Sovereign Fruit Syrups have the flavor of the fresh fruits, and come in all the popular flavors. About half a teaspoonful of Sovereign Lime Juice, added to a glass of iced water, with Sovereign Fruit Syrups, improves the flavor and gives a more healthful drink.

### Sealed Tenders Addressed To

the undersigned and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until 4:30 p.m. on Monday August 24, 1908, for the supply of coal for the Public Buildings throughout the Dominion.

Combined specifications and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Tenderer, for ten per cent (10 per cent) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tenderer has not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By Order,  
R. C. DESROCHERS,  
Asst. Secretary,  
Department of Public Works,  
Ottawa, July 15, 1908.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

To bridge the gap of a need and its filling is an easy matter if you use a Whig Want Advertisement. The seller can reach the buyer, the employer the employee, the lessor the lessee, in short, no matter what the need, it can be filled quickly by prompt use of a Whig Want Ad. The cost of a want advertisement in the Whig is but 1c a word first insertion and 1/2c each successive insertion; minimum charge, 25c.

C. S. KIRKPATRICK, ISSUER OF Marriage Licenses, 42 Clarence St.

## THE PARAGRAPH PULPIT

Unitarian.  
REV. C. W. CASSON.

The Power That Saves.  
This is the clear distinction between the liberal faith and all others, —it holds that man has within himself the power by which he may overcome all evil and attain unto all good. It does not hold that a man must be saved by any external or supernatural power, but that he holds within his own human grasp the instrument whereby he may become sovereign over sin. He is his own savior, and needs no other. He can have no other. No one, not even Christ, can do more than to stir into action the inherent spiritual force of a man. And this not only Christ, but any other man, can do. Therefore, know yourself as savior of yourself and others.

Address, Rev. C. W. Casson, at 25 Beaton street, Boston, Mass., for the literature.

### SEALED TENDERS ADDRESS TO

the undersigned and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until 4:30 p.m. on Monday August 24, 1908, for the supply of coal for the Public Buildings throughout the Dominion.
