

THUNDER OF CANNON SHIPS SALUTE FORT AND NAVY HONORED NAVY.

Representatives of Three Nations Met on Scene of Their Former Conflicts and Fraternized.

Quebec, July 20.—Fleets of three nations joined, today, in saluting the real opening of the three hundredth birthday of the Dominion of Canada, and during the whole afternoon the banks of the St. Lawrence have reverberated with the thunder of cannon.

There was a touch of historic poetry in the scene, to-day, when the United States battleship New Hampshire arrived. The three nations most intimately concerned with the wars of this continent were represented.

Mounted patrols now clatter up and down the city streets in every direction. The main portion of the city has been marked off in districts, and each has its band of mounted men to aid in preserving order.

The town of Levis will give a reception next week in honor of the French Marquis, whose family name is borne by the municipality on the other side of the river. The Marquis de Levis visited Canada in 1832, and was there made a citizen of Levis, the town adopting his crest as its official insignia.

The arriving throngs to-day contained more of a United States element than has been noticed so far. Small parties of Americans were seen springing up about the city, are working to full capacity. At least ten thousand persons were added to the floating population during the day.

Lord Roberts was entertained at a brilliant banquet by the members of the Garrison Club this evening. About 150 were present. The tables were laid out on the lawn in the rear of the club, the scene, in its pretty setting at the foot of Citadel Hill, being one of picturesque beauty.

Among those present were the Duke of Norfolk, General Sir R. Buller, Rear-Admiral Jellicoe, Vice-Admiral Jauquith, Admiral Cowles, Col. Dennison, General Otter, Colonel Scott, Colonel Turnbull, Major Panet, General Buchan, Judge McCormick and General Cotton.

Sir Wilfred and Lady Laurie are among the distinguished guests who will arrive in Quebec in the morning. The officers of the English fleet will entertain at a ball to be given in the Parliament House to-morrow. A like function will be given by the officers of the French warships next Monday, the latter also having issued invitations for a luncheon on board the flagship next Saturday.

The most interesting of the naval ceremonies so far will be carried out on Wednesday morning, when Vice-President Fairbanks arrives. He will be met at the 7.55 train in Levis, by the launch of the New Hampshire. The launch, flying the flag of the United States, will be saluted by the guns of all the warships as it crosses to the Quebec shore.

The landing of the Prince of Wales will take place Wednesday afternoon, when the display of naval ceremonies will be brought to an imposing climax. The indomitable and her escort have been reported passing Belle Isle. The final rehearsal of the pageants was held this afternoon, on the Plains of Abraham, and was attended by over fifteen thousand people, the immense grand stand being crowded.

The city really put on its gala clothes to-day. The military camps were practically complete, most of the warships had arrived, and the city was crowded with visitors from far and near.

The scene was much more brilliant in the evening, when, for the first time, the electric illuminations were turned on. The results revealed a scheme of decorative illumination on a scale greater probably than has ever been attempted in Canada.

It is likely that a definite announcement of a street military parade will be made some time to-morrow. Gen.

HER IDENTITY REVEALED HAD BEEN MASQUERADING IN MEN'S CLOTHES.

Was Looking For Husband, Who Deserted Her Years Ago—She Was a Hamilton Woman.

New York, July 21.—Mrs. Augusta Healy, a Hamilton woman, who was arrested here last week for wearing men's clothes on the street, her sex being discovered at Roosevelt hospital where she, a supposed man, was taken when found on West Sixty-third street, was released from the hospital, five days, to which, after serving by Magistrate Corrigan, in Jefferson Market night court. After her release she told reporters she had worn men's clothes and worked as a man waiter in hotels and restaurants for over five years. She had learned to smoke, drink beer and wear a little, and had even shaved. She said she married her husband, a railroad man, who he worked on the Grand Trunk railway, but three months after marriage he deserted her and ran away with another woman. In order to follow his tracks from city to city to find him she put on men's clothes, not only as a disguise, but because it was easier for men to travel and secure work than for a woman. She had worked as male waiter here in several prominent Broadway hotels and was out looking for a job when she wouldn't promise not to again wear men's clothing, the judge gave her five days' sentence, offering to let her off if she would promise.

The Clay team, of London police, which won the Olympic tug-of-war, has issued a challenge for a match with the American team, the members of both teams to be in their stocking feet in any given time, may prefer, and the match to be for love or for a charity.

America came to the fore again in to-day's Olympic contests, capturing two gold medals. O. M. Daniels, N.Y.A.C., won the 100 metres swim handily, and Ray C. Ewery, his swim mate, was victorious in the freestyle broad jump. Daniels' time shatters all Olympic records. The Americans also captured a number of men for finals in the 100 and 200 metres flat and the 400 metre hurdles.

C.P.R. AND UNIONS BOARD MAKES A MAJORITY AND MINORITY REPORT.

Men Upheld in More Important Issues—Changes Recommended in Management Favor Company.

Winnipeg, July 21.—The finding of the arbitration board to adjust differences in the dispute between the C.P.R. and the unions has been made public by the minister of labor, there being a minority and majority report.

Sommerville, for the men refused to sign the majority report. In the more important issues of the case, the men have been upheld, the changes recommended being chiefly with regard to details of shop management, and these are largely in favor of the company.

Taken as a whole, each side gains, and loses about in the same proportion. One feature of special interest to eastern employers is the rule of both majority and minority that the decision is binding throughout the system. The contention was bitterly fought by the company.

While the men are not satisfied, they assert that they will stand by the verdict unless the union is threatened with disruption.
