CHILDREN NEGLECTED

BY THE FATHER WHO WAS ARRESTED.

Had Not Been Home For Several Days—Neighbors Looked After Children Whose Mother Died a Year Ago.

About five o'clock, Thursday afternoon, Frederick Bristow, laborer, residing at No. 3 Cherry street, was arrested by Police Constable Timmerman, and after his arrest a very pitiful tale was unfolded to the police from many sources. Bristow has been on a very bad drunk and has not been home for many days. A little less than a year ago, his wife died, leaving two children, the eldest one, a girl not fifteen years old, and the youngest of very tender years, to the care of their father. Their home life has not been the happiest, and all the trouble has been caused through liquor.

On Thursday last, about six o'clock, in the morning, Bristow was seen by a policeman trying to get a drink, but found nearly all the hotels closed. The policeman told him that he had better go home, and Bristow said he had just got back to the city, but would go home as soon as he got a drink. Nothing more was heard of him until Monday, when some one telephoned to the station to enquire as to his whereabouts, saying that he had not been home since Sunday evening, and his children were greatly worried about him.

On Thursday morning, a neighbor of the Bristows came down to the station enquiring for Rev. Mr. McCallum, secretary of the Children's Aid Society, to see if they would be anything for the children, as they were in a very pitiful state. They did not have anything to eat, and were terribly worried about their father, who had not put in an appearance since Sunday evening. The neighbors were very kind to the children, but thought that something more should be done for them.

Police Constable Naylon saw Bristow early Wednesday morning, and asked him when he had been home last. Bristow said he was home the night before, but he had not. His appearance also showed plainly that he had not slept at home. He was informed that he had better get home and get straightened up, but would not heed the advice.

He proceeded to get drunk, good and proper, later in the day, and at five o'clock Police Constable Timmerman arrested him. The only charge laid against him was that of being drunk, but something will likely be done with the children by the Children's Aid Society.

Bristow appeared before the magistrate, this morning, and pleaded guilty to being drunk, and pleaded that there had been reports about him not attending to his family and the charge was changed to one of not providing the necessities of life to his children. The magistrate said that it was a very pitiful case, to go and leave two children, one sixteen and one seven years old, without any means of getting along. "The little girl came to me," said his worship, "and asked me if she could sell some of the stuff in the house to buy boots for herself. Do you think that is doing right by your children?"

"I have been good to my family," replied the prisoner, "and I have not been here before in seventeen years. I know I have not done right during the past week, but will do better. If you will let me go I will put myself on the Indian list and will not take any more liquor."

The magistrate said that he would suspend sentence, on the charge, but if he was found drinking again he would be brought up and tried. Bristow leaving the station, Bristow promised faithfully to go right over and get papers out against himself. He was very thankful to the magistrate for giving him a chance to redeem himself and he promised to do so.

Return Fare to Watertown.

Good going Saturday, 5 a.m., or 2 p.m., Sunday, 7:30 a.m., or 4:30 p.m., returning up to and including Monday afternoon. Only \$1.65.

Made A Good Record.

In the recent entrance examination, held in Lennox county, Miss Ellen Hall, of the Bath public school, obtained the highest number of marks in the county, 560, out of 600.

Excursion to Ogdensburg.

Steamer Aloha will leave Swift's dock, at 8 a.m., Tuesday, July 28th, giving two hours at Ogdensburg. Fare, 35c.

Back To Nature.

By taking the steamer America you can see the islands in their primitive state, Saturday, 2:30 p.m.; 50c.

Two tramps sought protection at the police station on Thursday night.

One was a native of Jamaica, a man with a college record, and the other was an Englishman, a surveyor in his own country. Both left this morning and continued their way east.

Yes, Alonzo, it is possible to get a pair of pinchers at a shoe store.

The important event in many a man's life is an accident—the accident of birth.

BAND CONCERT GIVEN

BY THE SALVATION ARMY BAND.

The Concert a Complimentary One—It Was Enjoyed By a Very Large Crowd.

The Salvation Army made quite a hit by its concert in Macdonald Park last evening. It filled in an evening for the 14th Regiment band, which is this week in Quebec, and delighted a very large crowd of people on shore and water. The army band has a fine collection of instruments, purchased last winter at quite a cost, and it has some good players. To Bandmaster Christmas is due the great advancement made by this army organization, whose playing on the streets on Sunday evenings especially, is listened to by hundreds with great pleasure.

The programme rendered last evening, was a popular one, in that most of the selections were favorite airs. "The Songs of Scotland" was a well-rendered selection and brought forth applause. The well-known hymn, "O' hildie," sung to "The Church's One Foundation," was rendered as an extra by request, and was played with very marked feeling. The effect was organlike, and the band was complimented by various musicians for the excellent rendering of this fine old tune. It takes a good Salvation Army band to render simple, sacred music. A military band cannot do it with the same feeling. Bandmaster Christmas's organization gives promise of much greater things during the next year, when its repertoire will be enlarged. It can become a fine concert band.

The people were so pleased with the concert that the bandmaster was asked to give another next Tuesday evening, and it is likely the request will be acceded to. If the army band could during the rest of the summer, give Sunday evening sacred concerts in Macdonald Park, it would be very much appreciated by the crowds that congregate there on these warm summer evenings. The army's regular work might be made even more popular by such concerts.

INCIDENTS OF THE DAY.

Newsy Paragraphs Picked Up By Reporters On Their Rounds.

To-day, about three miles of concrete walks have been laid this season.

The steamer Mojiska, of Hamilton, entered the government dry dock to-day for an overhauling.

The steamer America took about three hundred passengers to Ogdensburg, this morning, at eight o'clock.

Mrs. Morrison and her little daughter, left to-day, for South Manchester, Conn., where she will spend a few weeks with her brother.

Some of the asphalt crossings along Bagot street where the roads have been rebuilt, have been demolished, and will have to be replaced.

To-day, docking began again at Davis' dry dock, after an interval of over three weeks. The repaired dock was tried yesterday, and was found to be all right. A number of boats are awaiting their turn to enter.

Quite a few of the 14th P.W.C. Rifleman have returned from Quebec, and they are very enthusiastic over the good time they had. The treatment was excellent. Every soldier of the regiment had a good view of the Prince of Wales.

The extreme length of the government dry dock is 330 feet. Fully fifteen feet additional could be gained by cutting out a row of stones near the front. Without enlargement of the present space occupied, the dock could be made to hold a vessel 360 feet long.

He Who Runs May Read.

The new dial placed in the city buildings' clock on the King street side is the plainest figured that has ever been in the tower. He who runs may read. The hands on all four dials are to be painted black when the painters get to work on the dome, and this will make a wonderful difference. There will no longer be straining of the eyes to learn the time, or the borrowing of telescopes. The city property committee is the only live committee of the city council this year. The people can behold the places where their money has been spent on the city buildings and are pleased, for they are getting their money's worth in viewing the improvements every day.

A Delightful Picnic.

An enjoyable picnic was held at Lake Ontario Park, yesterday afternoon, under the auspices of the home and cradle roll departments of the First Baptist Sunday school. The weather was ideal. J. E. Jones, the general manager of the park, and Mrs. Jones, kindly arranged for the comfort of the large party. Tea was served at six o'clock, by seventy or more members of these two departments of the school, and their friends. The superintendents of the departments, and their band of willing workers, came in for much deserved praise for the delightful entertainment.

Production Of Dairy Goods.

J. A. Ruddick, in an address recently given before the committee on agriculture, of the House of Commons, stated that while exports of butter and cheese have fallen off to the extent of some seven millions since 1903 the increase in home consumption is sufficient to more than offset this. Mr. Ruddick places the total annual production of dairy goods in Canada at nearly \$100,000,000. Of this total \$36,000,000 is made up of creamery and cheese, \$22,000,000 of home dairy butter; \$23,000,000 milk, in direct consumption, and \$1,000,000 condensed milk.

Home To-Morrow Morning.

The 14th Regiment will leave Quebec at nine o'clock, this evening, and should reach Kingston shortly after eight o'clock, to-morrow morning.

It's Now On.

Campbell Bros' slaughter sale of summer hats.

RACES AND BASEBALL

AT THE FAIR GROUNDS TO-MORROW.

Two Y. M. C. A. Events to Be Contested at Queen's Athletic Grounds This Evening—Civic Holiday Sports.

Weather permitting on Saturday afternoon a fine list of races and baseball games will be put on by the Gentlemen's Driving association at the fair grounds. Four races are scheduled, and they are all filled up. All of the best local racers are entered and the events should all be keenly contested. The baseball games themselves should also draw a large crowd as they will be good games. The postponed game between the Locomotive Works and the Irishmen will be played and should be one of the best of the season. The C.I.C. have not lost a game yet this season and are at present at the top of the league. The Irishmen have not had a game in two or three weeks, but should be in fine shape as they have been working faithfully. This game may affect the standing of the league as the Irishmen have a chance of winning out, if they can manage to hand a lemon to the Locos. The game has aroused considerable interest and many small wagers have been placed on the outcome.

Y. M. C. A. Events.

Two more events will be pulled off at the athletic grounds this evening in connection with the local Y.M.C.A. The broad jump and 220 yards dash will be contested. Physical instructor Thompson is taking an active interest in local sporting circles and is doing all in his power to aid the boys.

Civic Holiday Sports.

Every thing is progressing favorably in connection with the old boys' celebration. The sporting committee have not been idle by any means and a fine line is being arranged for the day. There will be sports for all kinds of people, old and young, including lacrosse and baseball matches, association football and all kinds of running races. The driving association will likely put on a few horse races during the day.

A Long Felt Want.

A few minutes in the creamery of Kirk & Lee is all that is required to make one realize the importance of caring for milk before it is delivered to the general public. The fresh morning's milk is carefully filtered, pasteurized and properly cooled, then put in clean, air-tight bottles ready for street delivery.

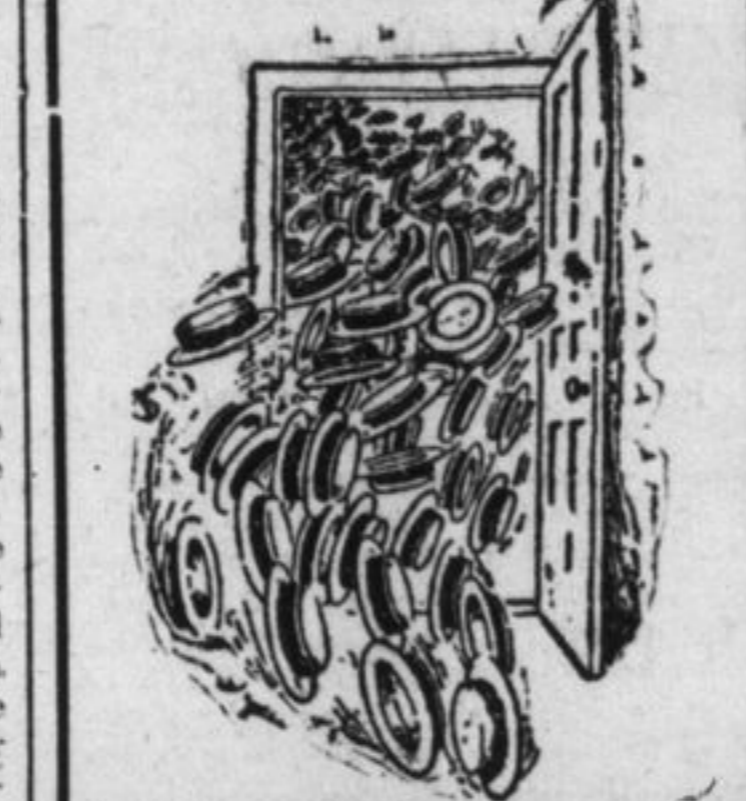

The night's milk is separated and made into butter, which is considered by all who have used it to be the best butter on the market. In connection with this is their splendid grocery, which is being largely patronized by the general public, showing that the people of Kingston appreciate an effort to be up-to-date in every respect.

1,000 Islands—Rochester.

Steamers North King and Capitan leave daily, except Monday, at 10:15 a.m., for Thousand Island ports, and at 5:00 a.m. for Bay of Quinte ports and Rochester.

"Kingston's Famous Fur Store."

IT IS DEMORALIZING

THE WITNESSING OF A DARING ACT.

Rev. S. G. Bland Writes Warmly About a Performance Permitted By the Winnipeg Exhibition Directors.

Rev. S. G. Bland writes to the Winnipeg Free Press, criticizing the Winnipeg exhibition managers for permitting "an unmanly and demoralizing feature," i.e., the double somersaulting automobile performance. He writes: "This is obviously a direct and unredeemed appeal to the vilest of all feelings, but one, and the pleasure some find in witnessing pain is less human than the pleasure of watching a human being run a great risk. "Danger is an inevitable element in life. It must be disregarded at the call of duty. One should not, perhaps, object too absolutely to an exhibition of it in a form which involves skill and presence of mind and which shows the resources of the wonderful human mechanism and mind. But to strap a woman in an automobile and hurl her somersaulting through the air is no feat. It demands no skill. The commonplace mechanism of an automobile, by an empty automobile and in themselves would interest no one. The performance reveals nothing except the inconsiderateness of the directors eager to draw a crowd or their belief that a Manitoba crowd is very much on the level of the crowd that seeks its thrills in a Spanish bull fight, or such as found its pleasurable excitements in the bloody fights of the Roman arena. "I should be pained beyond measure if I thought such an estimate correct of our kindly and chivalrous western people. I believe on the contrary that such spectacles are to most of our people distasteful, and that so excellent and useful an enterprise as the Winnipeg industrial exhibition would lose nothing by excluding from its programme such unworthy attractions. "It may be said in defence that the performance is not as dangerous as it looks. To this I would answer: First, that it is after all dangerous and an accident would almost certainly result in grave injury or death, and, secondly, that even if all danger could be eliminated the appearance of danger remains, and it is on that appearance the performance trades. The interest of it, so far as it has any interest, is the greivous interest of seeing a human being exposed to the risk of a horrible death. "But I do not see how anyone could attempt to defend the performance unless he were willing his own sister or daughters should be the subject of it."

MARINE NOTES.

What is Transpiring About the Wharves.

The schooner Mary Ann Lydon cleared for Oswego, to-day. The government tug Loretta is at the Kingston foundry for repairs. The schooner Troutwind, cleared for Sudus, to-day, to load coal for the city. The steamship Kenair cleared on Thursday, on her way from the Rideau to Oswego for coal. The tug Thomson will enter the government dry-dock, on Saturday, to have a new wheel shipped. The schooner Mace cleared, Thursday, for Brighton, to lay up, as there is no work for her to do. The M. T. Co. steamer Bothnia arrived in the city on Thursday and paid off her crew. A few days ago the steamer Edmonton, of the Canadian freight line, collided with her in the Saultaug canal, and serious injury resulted. The damages will be at once repaired.
