Mrs. William Henderson.

A SERIOUS ILLNESS

"I was troubled with very serious internal weakness, which exhausted me so that I feared I would lose my mind. "I suffered agony with my back, the pain extending down my left leg. The welcomed death as a relief. "Peruna cured me of this trouble,-

no wonder I recommend it so highly. "It will soon be two years since I sign of it has returned.

"I am glad that there is a way in which I can speak of this, as many a sufferer may read my testimonial, and not only read, but believe."

Had Given Up All Hope. Mile. Albina Chauvin, No. 50 Rue Agnes. St. Henri, Montreal, Canada,

"I consider Peruna better than any other remedy, as it cured me when nothang else could. "I suffered for years and years with

heart trouble, headaches and weakness. I never expected to find anything to cure me. "I tried Peruna and am entirely cured."

LAW ENFORCEMENT WHAT A STRANGER RE-

PORTS OF KINGSTON. The Liquor Laws Openly Violated in Kingston-Complains of the

License Inspector-The Com-

ments of the Pioneer. The Toronto Pioneer. The accompanying letter, evidences a state of non-enforcement of the law which is a disgrace to the province and the administration. The writer does, not live within bundred miles of Kingston. Let us pose the actual facts are greatly exaggerated; yet the letter sets forth what was quite apparent to a singly casual observer, and he a stranger.

conditions in Kingston are a disgrace. Here is the letter written last Sunkingston, Ont., July 12th, 1908 .-Travelling about a great deal I have to live in hotels very considerably and down into the offices. In the treasury it. A United States fireman, who often find that the licensing act is a department many things of value were witnessed the fire, said it was dead letter as regards closing, parti- removed to safe places from the wa- finest cut off he had ever seen, and he

There were then but two fire engines battle hopeless even were there not a laghan, Garden Island wild snowstorm which fanned the flames, it seemed, as never before. They shot up like strenks of the aurora of a northern sky. The dropping of the stone tower into the midst of the fire was a sensational view, and an involuntary shout, a real pang The city officials on the ground foor of sorrow, went from the vast crowd. architectural sense the market square was robbed of its redeeming feature.

Will the city council of 1908 be big enough to be recognized as the successors of the public spirited men of the forties? Will they have the spirit and independence to go to London or Boston to really great architects in the best centres, and procure a plan that will be an improvement upon the old dome? Or will local favor and political conditions keep us in the old rut? The planning of a tower is the most difficult of professional work, and the best is none too good for Kingston's central building. It takes no bread from local architect to procure an outside plan. He gets his commission all the same.

Visit To The Ruins. The burned tower was visited, Saturday morning, by large numbers of people. One can imagine the heat to which the men inside the tower were subjected when the large copperbionze bell melted over half away. All the work done was not on outside of the roof, where the people holes in the floor along the hall, and only thing that kept them alive was the others to let the water run the cooling effect of the streams playwas causing the trouble down stairs, was streading around when the fire-Chief Elmer and a handful of men, men got there, but they succeeded
