**GOOD LORD ROBERTS**  
WILL EXTEND HIS TRIP TO THE ROCKIES.

He Will Be in Kingston As He Wishes to See Some of the Institutions—Brief Sketch of His Career.

Lord Roberts has yielded to the solicitations of Sir James Shaughnessy and the C.P.R. and has consented to accept the use of a private train in which he will travel as far west as Banff in Alberta. He will leave here about the 29th and proceed to Montreal, where he will accept the city's hospitality. From Montreal he goes to Ottawa where elaborate arrangements have been made for his entertainment. From Ottawa Field Marshal Roberts will visit Toronto and Hamilton, then across Lake Ontario to Niagara Falls, returning to Toronto and continuing his journey westward over the broad and extensive plains and prairies of the far western country, where he will have a chance to see the country that produced such fine military specimens as the Stratford Horse, Banff at the eastern end of the towering and complex ranges of the Rockies will be the limit of his travel westward.

He will return to Kingston via C.P.R. and pass through the Thousand Islands, in all probability. He expressed a desire to see the Royal Military College, the training home of men of the stamp of Sir Percy Girouard. This will be our city's

opportunity to extend to him a hearty welcome and to place a boat at his service.

Lord Roberts must be back in Quebec on the 21st of August to embark for home on one of the C.P.R. steamers. Several distinguished soldiers will, no doubt, accompany him on his western trip. Lord Roberts is nearly seventy-six years of age—his years are beginning to tell on him, and he shows distinct signs of rapid fading. He is of that type which will wear uniform to the last and die with his spurs on. Little "Bobs," loved by soldier and civilian alike, will pass into the great beyond with his baton of authority gripped in his battle-stained hand.

Lord Roberts was born in 1832 and was educated at Eton and the Military College at Adiscombe. He joined the Bengal Artillery just a few years previous to the breaking out of the Indian mutiny, in which he won his Victoria Cross for his gallantry before Delhi. He was present at the capture of the city of Moguls. He next marched to Candapore and Agra. He was afterwards attached to the army of Sir Colin Campbell, and marched with him from Candapore to Lucknow, being in charge of the scouting service.

The Afghan war of 1875, caused by the schemes of Russia in Northern India, gave Roberts an opportunity to show his real military genius, which he did in a way that compelled world-wide recognition as a leader.

In 1879 he was put in charge of the advance on Yakoub Khan for his treachery in murdering Col. Cavagnari and his small escort after signing the "Scientific Frontier." After a hard march of 305 miles he reached Kabul, only to look upon the dead and mutilated bodies of Cavagnari and his men. This great march was completed in twenty days, including one rest day. With 10,000 selected men, composed of the 60th rifles, 72nd Highlanders and a native regiment he forced his way through a hostile and fanatical country and punished the unfaithful Afghans for their treachery. He was made commander-in-chief in India and when Wolsley was so long making his way up the Nile to save Gordon and relieve Khartoum a strong sentiment in the old land suggested sending Roberts to look for the unfaithful. Many believe had Roberts been put in charge of the Nile expedition he would have saved Gordon. Several brushes with hill tribes and a strenuous military career made his latter life in India full of incident and danger.

"When poor Buller was suffering delect on velvet and koppe endeavoring to reach Ladysmith, England sent Roberts to South Africa with a large army and a clever staff to subdue the consequential Boers and Free States. He accomplished his task, marched into Pretoria and unfurled Britain's flag to the breeze in the capital of the Boer country.

Lord Roberts held the position of field marshal and commander-in-chief for about fifteen or sixteen months when the position was abolished, very suddenly, and to the surprise of Lord Roberts and his admirers, a militia council took his place, whose head in styled inspector-general, and which is now held by General French. Following the example of the old land Canada has established a militia council on imperial lines, with General Otter as its chief staff officer.

The change was a blow to "Bobs" from which he has never recovered and the insult is felt keenly by both himself and admirers.

This is the man Kingston is going to have a chance to see and entertain

**THE SPORT REVIEW**  
BASEBALL BETWEEN PEELERS AND POSTIES.

The Cops Think They Will Win—Emeralds and Locos on Saturday—The Lacrosse Team is in Good Shape.

From appearances on Wednesday evening the ball game called for this afternoon between the postmen and the policemen was to be a hot contest. The men of letters were out in the afternoon while their opponents were keeping quiet, and had a fine practice. "Joe" Daley and "Eddie" Hiscock had a likely looking bunch out for a few throws. It is rumored that Daley, Hiscock & Co., have one or two new men that they are keeping in the dark until the game. Wilkerson, McCullough, Fairnie, Doherty, Hiscock, Daley, White, Little, Donnelly, and many more will be out on Wednesday.

The "cops" got a clue about four o'clock, that their enemies were at work, and the plain clothes men was at once despatched to the scene, and hiding himself in the long grass, near the new road on Park avenue, he succeeded in having a look at the practice, and when he saw the way the old ones handled the sphere, he began to feel a little bit afraid of the outcome, but remembering his duty, he stole silently back to the meeting place to tell his chums what he had discovered. The greatest pipe on earth piloted by Captain Auld is quite confident of the result, and when last seen were in the best of humor, as Pitcher Pilon has discovered that he has nine curves and only seven of them are the same.

**Emeralds and Locos.**

Two members of the Emeralds left on Wednesday for Toronto, to witness the big league games. Daniel Anderson and H. O'Rourke took in the trip.

The Emeralds and C. L. C. are both working hard for their game on Saturday, when they meet for the first time. The Emeralds are looked on to quite a few to change the standing of the league, and if they win this game they will be able to do it. The league stands now with the Locos leading, without being defeated, the Victorians and Irishmen are tied next, and the Emeralds are third. There may be a tight race yet, as only a very few points divide the teams.

A meeting of the league executive will be held before the first of the week, when the cups will be presented and it will be decided how they will be put up, and how often a team must win them to own them.

**Lacrosse Men At Work.**

The lacrosse team had another splendid practice on Wednesday evening. The players were all out early, when it was perfect daylight. Both nets were out to have a good game. The team is improving every day and if it keeps on it will be able to hand Belleville something when they come here on Civic holiday. One or two new players have come out during the past week or so and are showing up well.

**May Wax Still Wins.**

May Wax, the fast little trotter, owned by W. H. Carson, of Kingston, won the 2.20 class at Eganville, on Wednesday, in fine style. She took three straight heats. May Wax is certainly the best trotter Kingston has had in many a year. She has had a regular series of successes all season.

**The Liniment That Will.**

You can absolutely depend on Smith's White Liniment to do everything that an external application can do. Its action is prompt, certain and thorough. It stops pain, heals injuries to every contingent that comes every kind. It should be in your home for emergencies now. 25c. only at Wade's drug store.

and she should do it in a manner that will do her credit. Kingston gives to every contingent that comes to South Africa the first man to enlist being "Billy" Foden. On every battlefield our boys dropped their shimmering bayonets in the life's blood of their countrymen and wrote their patriotism in imperishable characters on the pages of history. Amid parents of peace and in the most delightfully situated city in Canada let, "Bobs" and the boys meet and indulge in a general rejoicing for the victories of the past and the prospect of the future.

**D. A. WEESE RETURNS**  
DESCRIBES CONDITIONS IN NEW ONTARIO.

Quieter Than a Year Ago—Never Hear of Those Who Lost in Their Mining Speculations—A Pull With Whitney.

D. A. Weese, Princess street, has just returned from a business trip to Cobalt Soo lumbering section, Manitoulin and the 10,000 islands. He reports the north is very quiet, this season comparing it with a year ago. Very few groups of prospectors are seen where last year trains were filled with them and a great dropping off in tourists is noticeable. In the mining district of Cobalt the mines show remarkable progress. Many stories, he says, are heard about Mr. So and So cleaned up dollars of various sums, while the names of the poor fellows who have thrown thousands in the pool and borrowed their way out, have been erased from the records.

Weese found the lumbering districts busy cutting, while sales are reported slow and few of the mills will shut down owing to over-production. A few are running twenty-four hours a day. "There has been a great change in the labor question also. Men seem to realize now that positions are scarce and over-though wages in some instances have been cut, yet there is an eagerness on the part of workmen to hold their jobs. An outsider looking at the lumber piles of John Island, Spanish Mills, Treslian, Spragg, etc., would naturally think they contained enough lumber to supply this continent for the next five years.

Mr. Weese drove over ninety miles of road on Manitoulin Island and decided that some one there must have had a "pull" with Sir James Whitney. He wishes that old Frontenac had all gates and not miss his share of the public road fund, before the good "pulls" are all gone. The scenery of the North channel, Georgian Bay, is admired by many tourists. But for scenery and beauty it is not to be compared with our St. Lawrence. The boat accommodation is very good. Some six large passenger boats run weekly each way, besides mail boats plying from the main shore.

**THESE ARE HOT DAYS.**

But Kingston Has Nothing to Complain About.

The heat since last Saturday has been quite severe, and a day of coolness would be very much welcomed at this stage. Of course, we're not having New York or Chicago weather, or even the heat of Montreal, Ottawa or Toronto, but still it has been warm enough to thoroughly thaw out the most cold-blooded in this city. The official temperature reported by Dr. Knight have been: Monday, 79 degrees; Tuesday, 81 degrees; Wednesday, 80.5 degrees. To-day is just as hot as yesterday, and the day before, and perhaps a trifle hotter. It feels some way, (downtown) the temperature is higher than in the residential parts—probably three or four degrees. The steady heat has kept the people much to their home plots, this week. Only those who require to do so, move about. In the evenings, the parks are well patronized, for the cool breeze of the street cars have done a heavy business for the past week. Kingston, however, has nothing to complain about. This is the coolest city in the province. In other cities, the people are fairly roasted. Yesterday Toronto people lived in an atmosphere of ninety degrees.

**Let Health Bound Upwards.**

If you are run down start taking up tonic sounds health. Debility means a loss of a portion of life itself. Vitality means new life, new energy, freedom from disease and the power to accomplish things. Wade's Iron Tonic Pills (Laxative) build health by supplying the system with rich vital blood.

They are a great nerve strengthener and blood maker. In boxes, 25c., at Wade's drug store. Money back if not satisfactory.

**Would Be A Good Sign.**

As an evidence of a spirit of unity between the Methodists and Presbyterians in this section, it is said that a proposal may be submitted to the respective bodies, the Methodist district meeting and the Presbyterian presbytery, to arrange the work on Wolfe and Amherst Islands, so that the two bodies on these islands might amalgamate and form good, strong churches, and release two men for much needed work at other points. It is suggested that the Presbyterians have Amherst Island and the Methodists Wolfe Island.

**Derangement of the liver, with constipation, injures the complexion, induces pimples, yellow skin. Remove the cause by using Carter's Little Liver Pills.—One a dose. Try them.**

**P. J. HUNT,**  
Headquarters for Camping Outfits.

**THE HAIR BRUSH.**  
Breeds Dandruff Which Causes Falling Hair and Finally Baldness.

Prof. Unna, Hamburg, Germany, European authority on skin diseases, says that dandruff is as contagious as any other malevolent disease, and that one common source of the spread of dandruff is the use of the same hair brush by different persons. The way to avoid catching dandruff or any other disease from another's brush, is to insist on the use of Newbro's Hairbrush. It not only kills the dandruff germ, but it is also an antiseptic that will prevent the catching of any disease whatever through contagion of another's brush. Sold by leading druggists. Send 10c. in stamps for sample to The Hairbrush Co., Detroit, Mich. Two sizes, 50c. and \$1. G. W. Mahood, special agent.

**DR. LITTLE'S FEMALE REGULATING PILLS**  
Best for Women's use, in irregularities or suppression, at all Druggists, or by mail, \$2. DR. LITTLE MEDICINE CO., Toronto, Ont.
