Tidings From Odessa.

Odessa, July 29.—A very quiet wedding was solemnized on Monday, by Rev. J. A. McCannus, at the Methodist parsonage. The contracting parties were Miss Louise Remond and John Atkins, of Niagara Falls South. They will reside at Niagara Falls. The funeral of Mrs. George Babcock, aged thirty-nine years, was held at the Free Methodist church, by Rev. C. Goodrich, on Monday afternoon. Mrs. Babcock died at Kingston General Hospital on Saturday. She was ill only six days. Sincere sympathy is felt for her husband and eleven children, who are left to mourn a kind and loving wife and mother, also her aged father and mother, Mr. and Mrs. George McFarlane, of this place. The Odessa football team went to Bath and played a friendly game with Adolphustown; score, 2 to 0, in favor of the latter. Several from here attended the lawn social at Wilton, on Monday evening. The Odessa Citizens' band was also present. A football match was played here, on Tuesday last, between Odessa and Sydenham teams. The latter won, 2 to 1.

Fair View Budget.

Fairview, July 29.—The recent heavy rains have improved the crops and the farmers are smiling once more. The intense heat for the past few days has caused quite a lot of sickness. Miss Lillian File has returned home after spending two very enjoyable weeks with friends in Tamworth. Mrs. Thompson is visiting her daughter, Mrs. S. Loucks. Athletic Sports.

Bath, July 30.—The Bath baseball team played an exciting game at Cressy. The home team won easily by a large score, but it was not an indication of the kind of ball played by the Cressy boys. The team here would like to play another series with the Cressy team, certainly lovers of true sport. The citizens of Bath witnessed a game of football, Adolphustown vs. Odessa. Score two to nothing in favor of the Adolphustown team. The Adolphustown boys played a clean-aggressive ball from start to finish, and had somewhat the advantage of their opponents. We should be pleased to see the final game played here in the near

future. Miss Diana Miller and Miss Jessie Bibb, Napane, are visiting at D. T. Rowse's. Miss Gertrude Enright of Kingston, is visiting at William E. Topliffe's. Miss Ethel Covert of Rochester, N.Y., is spending her holidays with her parents, Mr. and Mrs. H. Covert. Mrs. Rodger Johnston and son, George, of Rochester, N.Y., is visiting at Mrs. J. Johnston's. Our village is filled with visitors, the hot weather causing them to want to be near our beautiful bay.

Foot Apple Crop.

Bongard's, July 30.—Owing to the recent heavy rains, while damaging the pea and wheat crop, have done a vast amount of good to late sown grain and potatoes, pasture, etc. The apple crop will be a poor one in this vicinity, considerably below the average. GUARDING PAPER MONEY.**Checks Against Thiefs of Currency.**

Chicago Record-Herald.

The paper money of the government is brought in iron-bound chests, locked and sealed, from the Bureau of Engraving and Printing to the cash room of the treasury, and there delivered upon receipt to James A. Sample, chief of the division of issue, in sheets of four bills each. They are complete with signature and numbers, except for the seal, which is printed upon them with power pressed in a small apartment under the cash room.

These presses are worked by two people, usually a man pressman and a woman feeder or assistant. When the seal has been imprinted upon the bills, the paper, marked, signed by the persons who have handled them, are counted automatically, bound passed into the adjoining room, where the sheets are cut, the bills are re-counted and inspected, so that the imperfect ones may be thrown out. They are then bound into packages of equal amounts and taken to the drying vault, where they lie upon the shelves for several weeks, until the ink becomes perfectly dry.

Every safeguard that ingenuity can contrive is placed around these transactions, and the chief of division can tell which of his hundred or more subordinates has touched the different bills in the vaults. He knows who received them, who printed the seal, who wrapped and cut them, for every package is numbered and its history is recorded in an enormous book.

The combination of checks is so complete that Mr. Sample would know within twenty minutes if a single bill were missing, but he has never had occasion to test his knowledge except twice in fifteen years. Only two attempts have ever been made to steal the money of the government while it is in this stage of its history.

On one occasion many years ago a pressman passing a pile of notes upon the table of his neighbor slipped the top sheet under his blouse without being observed and carried it with him into the lavatory, where he succeeded in concealing it. The thief was discovered within five minutes, and it was clearly apparent that he alone could be guilty, although the evidence was purely circumstantial. No one saw him take the money. Therefore he was not arrested, and was never publicly charged with the crime. But he was dismissed from the service, and he knew the reason why. The bills were never recovered. He probably destroyed them, as they did not appear in circulation.

On another occasion, eight or ten years ago a colored messenger whose business was to haul the money about on a cart slipped a loose sheet into his pocket unnoticed while passing between the printing and counting rooms. This thief was also unbroken, but the responsibility was fastened upon him. The pile was complete when it left the printer, for it was counted and registered automatically in the press. When it reached the counting room one sheet was missing and the package had not been out of the possession of the colored messenger in the meantime. Therefore he alone was responsible, and as he could not offer any satisfactory explanation he too was dismissed from the service, but was not prosecuted because there was no direct proof of his guilt.

Take Care Of Your Teeth.

The greatest care should be taken of the teeth. They are organs of the body, and, the same as the other organs, are subject to the same laws. They are organs specialized to perform the work of mastication, and the strength is determined by their use. It is wrong to soften one's food or cut away crusts as is done in the case of children by foolish nurses and fond mothers. This creation of artificial conditions produces weak organs. One cannot wonder why teeth are bad, why there is so much toothache or why dentists' bills are so high. If man becomes a toothless race it will be his own fault.

Too much care cannot be taken with the teeth. They should be brushed at least once a day and periodically examined by a competent dentist, and anything wrong should at once be attended to. At the moment you may have fine healthy teeth, but neglect them over so little and then at sixty you will wish you had taken more care of them.

Turbulent Parisian Town.

London Chronicle.

The ancient city of Tabriz which has suddenly taken the place of Teheran as the centre of violence in the shah's dominions, can hardly be said to have enjoyed a quiet life. When Turk and Turcoman and Persian were not shaking the old walls with battering rams the earthquake was having its innings. The public buildings bear traces of this sort of violence—notably the Kabud Masjid—Blue Mosque—constructed of wonderfully arched blue tiles; while the citadel gapes at you with its earthquake-riven sides.

Although the Anglo-Indian telegraph runs through the city it is not as in the ancient days, when it was known as the glorious Tauris. The new rail sign railway has deprived it of much of its importance, and the leather merchants and silversmiths eke out a precarious livelihood by engaging in the little smuggling.

A Great Success.

Campbell Bros', slaughter sale of summer hats is proving a big success.
