**SAW HUSBAND FALL**
**SAD DEATH OF CHARLES DARLING, OF INVERARY.**

Was Up in His Barn Gathering Some Eggs When He Made False Step-Suffered Terrible Injuries.

Further particulars have been received regarding the sad death of Charles Darling, near Inverary, on Wednesday morning. Mr. Darling was out in the barn gathering eggs with his wife, and was not engaged in making repairs to the barn, as was at first stated. He was up around the rafters, when he missed his footing, and fell a distance of fourteen feet, alighting head first on a wagon tongue. Mrs. Darling happened to look up just at that time and she saw her husband fall. She screamed and ran to his assistance, but he was unconscious, and suffering from a terrible fracture of the skull. He struck the wagon tongue with terrible force, and the fracture was a complete one. A hurried call was given Dr. Robert Hanley, of Kingston, but the unfortunate man passed away a short time before Dr. Hanley arrived. His injuries were of such a nature that it would have been impossible for him to have survived had medical aid arrived in time. Dr. Hanley stated that the fracture was as bad as it could have been, and the case was without doubt the worst that ever came under his attention.

Deceased was fifty-four years of age and for the past five years had been living in that district. He formerly lived on the Washburn Road, Pittsburgh. He was well-known and highly respected by the whole community, and it was with deep regret that his many friends learned of his untimely end. He is survived by his wife, one stepdaughter, Mrs. John Gordon, and one son, also four brothers and three sisters. The brothers are Kilborn, of Almonte, Noble, the well-known blacksmith at Inverary, Sampson and Ira, both farmers, living near Inverary. In religion deceased was a Methodist and a regular attendant at the church at Inverary.

**CHEESE FACTORY BURNED.**

**Deafness Cannot Be Cured.**

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by a constitutional remedy. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you can hear nothing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken care of, the deafness will remain. Ear drops, ear drops to the normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is a swelling and inflammation of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that can be cured by our Starch Cure. Send for circulars, free.

**THE LIQUOR CASES.**

The Police Magistrate Had a Busy Time To-Day.

When the liquor cases were called in the police court this morning, the court room was crowded to overflowing, and a large number of citizens were unable to gain entrance. The court did not open until 10:30 o'clock, and long before that time a large crowd had gathered around the court room door, all very anxious to hear the proceedings. The crush was so great that the constables on duty had to close the doors.

John Ayerst, provincial inspector, Toronto, who lodged the information against the liquor men, appeared in court with Donald McIntyre, on behalf of the prosecution, and James Haweson, K.C., Toronto, and T. J. Rigney, appeared for the liquor men. The first charge taken up was that against the steamer Caspian, charged with selling liquor without a license on July 26th. Mr. Horsey appealed on behalf of the steamship company, and entered a plea of guilty.

Mr. McIntyre asked that the maximum fine be imposed, the prosecution undertaking not to lodge a second complaint.

The magistrate then imposed a fine of \$100 and costs, with the option of two months in jail.

The second charge up was that against the steamer North King, for selling without a license on July 25th. A plea of guilty was also registered in this case, and a fine of \$100 and costs, or two months was imposed.

D. A. Givens appeared on behalf of the steamer America, and pleaded guilty to two charges of selling without a license.

Mr. Givens pointed out to the magistrate the charges against the steamboats came under an entirely different category from the liquor dealers. In the case of a saloon-keeper, he was able to secure a license, but license had been refused the steamers on the great lakes and river St. Lawrence. In the United States steamboats were granted licenses, with the result that the other boats had to compete with those granted licenses. Mr. Givens asked that the court be not so severe in the charges against the steamboats, but that instead of a fine of \$100 that it be placed at \$50.

The magistrate said that the steamers had been deriving the benefit, and not paying a license.

Mr. McIntyre said that Mr. Givens' argument might be all right for a legislative body, but he considered that it was out of place in the court of justice.

The magistrate thereupon imposed a fine of \$50 and costs on each charge against the steamer America.

The charges against the hotelmen were then taken up. The following pleaded guilty, through counsel, the fine imposed in each case being given.

Counsel for the defence announced that they would withdraw the second charges against all the accused:

**A SPEED OF 50 MILES**
**NOT SATISFIED WITH PRESENT ATTAINMENTS.**

He Offers Bonus of \$100.00—A. E. Peacock, Ready to Give Fortune For Motor Boat That Can Make Half Hundred Miles An Hour.

Alexandria Bay, Aug. 4—Offering \$100.00 for motor boat designed for racing purposes which will attain a speed of fifty miles an hour. A. E. Peacock, the Pittsburg millionaire and one of the chief factors of the United States Steel corporation, has forged to the front as the greatest enthusiast of the day. The offer of Mr. Peacock was made to the Herreshoff, the well-known boat builders, whose craft sail the world over. Whether the firm will undertake to win the large bonus is an undecided question.

At the Thousand Islands Mr. Peacock and his sons have acquired the largest collection of motor racing boats on the St. Lawrence. The performances of the Pirat and the Dalmatian are well known to the sporting world. Only a day or so ago another new racing boat arrived here from the Peacocks by which more laurels are expected to their string. The present collection aggregates close to \$30,000.

**To Play On Saturday.**

The Victorians and Napanes baseball teams will play at the fair grounds Saturday afternoon, at the Driving Club's matinee. This game should really be one of the best games of the season, as both teams play fast ball.

The Napanes bunch was defeated by the Vics on Victoria day, and that is the only game they have lost this season. They have defeated Gananoque, Orillias, Belleville, Deseronto, and other teams easily. The Vics are in good shape and should give them a fine run. Four good races, one pace and three trots, will also be pulled off on the track.

**Hope To Do Well.**

The lacrosse team had a fairly good workout at the fair grounds, on Wednesday night. Both nets were put up and a good game was indulged in. Every man now knows his place and plays it well. They say they are going to defeat Belleville. These two teams have played twice and each game has ended in a tie, three goals each.

They gently stimulate the liver and regulate the bowels, but do not purge. They are sure to please. Try them.

A Toronto policeman blew out the gas and was nearly suffocated. Yet that overgrown hamlet has the nerve to yell "Reuben" and "jay" at the small fry cities every time it gets half an opportunity.

Every housekeeper who has used Campbell's Varnish Stain is delighted with the results obtained. Nothing else like it, they say. So easy to apply and so durable. W. A. Mitchell carries a full line of this popular stain.

**Sporting Notes.**

Napoleon LaJoie, Cleveland, last week registered his 2,000th hit in the American League.

A despatch from Trenton, N.J., states that Col. Louis Perrine, of the Tri-State League Club, of that place, is anxious to get an Eastern League franchise for next season, and is after the Montreal Club once more.

There are just five days before the arrival of the Olympic champion, "Bobby" Kerr, and "Jack" Caffery, long distance runner, and the Hamtram committee is employing every minute of the time in endeavor to make the reception a worthy one.

The system of identifying horses in their preliminary gallops at Forest Erie has made a hit with the visitors. The riders wear not only white jackets numbered on the front and back, but also red caps, so that attention is attracted to them. The moment horses come on the track to warm up.

Mort Culver, of the Ottawa detective force, won the trophy for the all round championship in the police tournament. By the first computation, Culver and McAlister, of Toronto, were tied for first place, each having fifteen points. The trophy was awarded to him.

The exact distance of the Olympic Marathon was 26 miles 355 yards, or 42,263 kilometers. The approximate time-table of all the authorities was based on an anticipation that the race would be run in two hours and thirty-five minutes, and intending competitors had run over the course pretty close to that time. Instead it took the winner nearly three hours, and there has been no explanation of the tremendous miscalculation involved.

Nobody has offered any intelligent suggestion to the reason that all the

receptions were given to the

groom. Miss Jessie Begg played Lovelock's Wedding March as the bride entered. Her gift from the groom was a handsome gold bangle.

After the ceremony the bridal party sat down to a recherche wedding spread. Mr. and Mrs. Harris received the congratulations of many friends.

The bride's going-away gown was of navy blue silk, tailor made.

With a train of 12 yards, a

blue straw hat trimmed with blue.

Mr. and Mrs. Harris left on the G.T.R. midnight train for Montreal, and Atlantic City, after which they will take up residence in Newark. Many costly

and beautiful presents were received by the bride from friends in and outside the city, including some beautiful pieces of cut glass and silverware and numerous cheques for good amounts.
