Arthur H. Grant-Cities Glad In a pamphlet issued under the title

A Danger Signal," and published here by the Municipal Ownership Publishing Bureau, Arthur Hastings Grant gives a list of the cities which have tried municipal ownership, and tells the story of what came of the

Of the cities which tried to manufacwrites that it has been found more economical to turn over the plants to of the city governments, he says, basing his statement on report of Mayors. ed to make municipal properties pay because of the lack of business enterprise and push and the care and attention which individuals with their own money at stake would exercise.

Mr. Grant says: In the census report pased upon the statistics of 1902, it was shown that the number of electrical plants which changed from private toare passing from municipal to private ownership than the reverse, the fourteen months ended February, 1908, having witnessed at least thirty such changes. Reports from various cities where the municipal ownership experireasons for change from municipal to private ownership.

cost of \$17,000, and in 1906 it was sold the air in both vintilating pipes was for \$3,500, the city then making a contract with the private owners for street lights at a figure under that at which it the house drains. was able to provide the lights.
At Ballard, Washington, the municipal

ownership plan was tried in 1897 with a similar plant. The original cost was plant to a company for fifty years get-ting only \$3,800 for the lease. Under the city's control the total income from the plant equalled only 30 per cent, of the cost of production.

600 in a lighting plant, and ten years Hall, later a private company came in with a new and up-to-date plant, and the city's outfit was not considered worth keeping up. The city advertised to lease it, and now the Berkeley Electric Lighting Company has charge of it, leasing it

The town clerk of Beverly, Ohio, writes that the municipality sold its plant there or the reason that the way it was managed resulted in unsatisfactory service. It was sold to local capi-Bowling Green, Ohio, tried it in 1889

he outht for one-tenth its cost. Some of the bonds are still unpaid. Brunswick, Mo., managed to get back 35 cepts on the dollar after it had tried municipal ownership. The Mayor wrote recently:

"Our city is beginning to crawl out of debt made by owning the water and light plant. You could not give Brunswick such a plant on consideration that the city operate it.'

The Mayor of Buena Vista, Va., gave the information that his town had dropped the municipal ownership business his lordship's license. because it was "too expensive." Christianburg, Va., also tried an electric plant in 1900, which was shut down

a year ago. The town is now buying Churubusco, Ind., saw its plant fall into the hands of a receiver when payent on the first issue of bonds came

city's plant cost \$25,000 in 1901, and East Portland, Ore., put up its plant | Portland, and on consolidation it was respectively.

A loss of \$100,000 was the cost of the xperiment at Elgin, Ill. The plant was eased to a company after a few years'

of because the lights could be had cheaper by contract with private operators. Findlay, Ohio, sold its gas plant in 1890, and it was \$60,000 in debt at ! time. The plant was originally chased from a private company 000, Its total debt amounted

The municipal plant installed by Gravesend before its consolidation into Greater New York cost \$120,000. It was never put into operation, and brought only \$31,000 when sold after consolida-

Hamilton, Ohio, spent ever \$221,000 for its plant, and when it was closed down in 1906 it was a total wreck, with bonds amounting to \$110,000 still unpaid. For some time before it was closed down Some Important Facts Which May the city bought most of its lights from a private plant.

In that city the grossest mismanage-

Mr. Grant cites the rubbish incinerator and electric plant established in this city in 1905. It was shut down in 1907 and the engineers in charge said that

could get from private parties. many cities which are running their delighted with its action.

BACTERIA IN DRAINS. Results of Some Recent Medical Experiments,

There is much suspicion of the sanitany condition of house drains and the result of some experiments to determine whether disease germs may be Facts and Figures Given By present in them are valuable as showing what conditions produce danger and what produce sanitary safety. The exto Get Rid of the Civic Plants. periments were made by Maj. W. H Horrocks, an English engineer, and are reported in the current number of Municipal Engineering Magazine, He first tried agitation of sewage in a closed jar and found no contamination of the air in the jar by the bacteria and disease germs in the sewage, but when the experiment was made in a ventilating trap with a current of air up thru ture and sell electricity, Mr. Grant the pipe from the surface of the agitated sewage the air was found to be contaminated at least nine feet above the private individuals for operation, Many likewise contains sewage bacteria. When material containing certain bacteria was city clerks and other officials, have fail- dried on the inside surface of the drain pipes a current of air though the ventilthem, even when this current was produced only by the flow of sewage through a horizontal pipe at the bottom of the line.

Sewage flowing into ordinary sewer pipes laid in the ordinary way but without trap was found to contaminat the municipal ownership greatly exceeded air in the vertical ventilating pipes even when the flow of sewage was as slow

Experiments made with specially prepared house drainage systems and also with actual house drainage systems in regular operation, having efficient traps to stop the flow of air from the sewer into the pipes in the house, showed that the air in the ventilating pipe on the ment was tried give facts, figures and house side of the trap was not contaminated by the bacteria. But if there was also a ventilating pipe on the sewer At Alexandria, Pa., an electric light the air in both ventilating pipes was contaminated. If the trap was removed contaminated. These experiments show
