**SUICIDE AT SYDENHAM.**

Franklin Guess Hanged Himself in His Barn.

Franklin Guess, over sixty years of age, storekeeper at Sydenham, hanged himself in his own barn, on Saturday. At noon his body was found by his son, Ross Guess. Deceased had been worrying a great deal of late, and took his life in a fit of despondency. Mr. Guess was a farmer, and for several years occupied a farm three miles from Sydenham. Two years ago he disposed of his farm, and started up a store in Sydenham. He had a most successful business, but worried over family matters, so it is stated. He intended going back to farm life again, as only just recently he made a purchase of his store, and rented another farm, about one mile and a quarter from Sydenham. He had not yet moved out, owing to the fact that all the business matters in connection with his store had not been settled. Deceased was widely known and very highly respected. He survived by his wife, one son, and two daughters. There was no inquest.

**ACCEPTED A DARE.**

Aeronaut Ascent That Thrilled Hundreds of People.

San Jose, Cal., Sept. 8.—Accepting a dare from a young woman, Frederick Biaggi, the eighteen-year-old son of a Prune rancher, yesterday made a daring and unheralded aeronautic ascent that thrilled hundreds of spectators. Running just as W. T. Warring, the professional parachute artist, cut loose from the ground, Biaggi sprang into the coracle at the mouth of the bag and was carried upward to a height estimated at 6,000 feet. Warning, with his parachute, cut loose at an elevation of 2,500 feet and with Biaggi as his solitary passenger the balloon drifted over the hills of the coast range until it was almost lost to view. His weight prevented the sudden escape of the gas, and after two hours of suspense from his friends he returned to town, having landed without injury.

**CADET MOVEMENTS**

**SIR FREDERICK BORDEN'S LATE ANNOUNCEMENT.**

In Reference to Arrangements Made With the Schools of Nova Scotia—Hope a Plan Will Become General.

Ottawa, Sept. 8.—An important announcement was made by the minister of militia at the luncheon given by Col. Sam Hughes, M.P., president of the Dominion Rifle association, at the Rockcliffe ranges. The president in proposing the health of the minister referred to the presence of cadets in this year's matches, and the encouragement which the minister was giving to the cadet movement.

Sir Frederick announced that an order-in-council had been passed approving of an agreement entered into by the department of militia and the government of Nova Scotia with reference to the schools of that province. This agreement provides that the department of militia will furnish, free of cost, from the permanent force, for service in the schools of Nova Scotia, instructors in drill, physical training and rifle shooting. In turn the educational authorities of Nova Scotia are required to adopt a complete regimen that a teacher, before securing his certificate to teach in the schools of the province, shall be compelled to pass an examination in physical training and drill.

The Nova Scotia government has agreed to this, and Sir Frederick regards it as a great step in advance. The minister further announced that another order-in-council, supplementary to the first, had been adopted giving the department of militia authority to make similar agreements with all the other provinces of the Dominion. Besides conferring benefit on the youth of the country, an arrangement of this kind would be beneficial to the men of the permanent force. No better work, he said, could be selected men of the permanent militia to instruct the boys in the schools of Canada. It was proposed that if the movement became general throughout the Dominion that the permanent force would be promoted largely to be a teaching corps, and instructors so sent out would of course receive better pay for their services.

**PEACE RESTORED.**

What is Proposed in Future By Textile Workers.

Montreal, Sept. 8.—Peace has been restored in the ranks of the Canadian textile workers and at the annual meeting of the permanent militia to instruct the boys in the schools of Canada. It was proposed that if the movement became general throughout the Dominion that the permanent force would be promoted largely to be a teaching corps, and instructors so sent out would of course receive better pay for their services.

**Noon Grain Letter.**

Chicago, Sept. 8.—Wheat commission houses sold some wheat on opening at the low prices. Offerings were scarce and demand heavy, resulting in a quick advance of one-half cent from opening prices before any quantity could be bought. North-West receipts less than expected. World's shipments \$100,000 less than estimated. Some complaint of lack of rain interfering with fall plowing in southwest.

Corn—Corn opened one-quarter cent higher. The demand was heavy and prices quickly advanced one-half cent.

Oats—Oats opened steady and quickly advanced in sympathy with wheat and corn. Buying was general and of good character.

Wheat—About mid-day the government report was issued, which was construed as bullish, giving the market a sharp rally of one cent. At the top figures heavy realizing was attempted, but the market proved overbought and lost all of its advance. We repeat again that wheat should sell lower before it would be safe to buy. Chicago December now at a premium over Canadian markets, which put it out of line for any export business.

Corn—Buy May when you buy, as it is the safest.

Oats—Would buy May oats around fifty cents.
