

WITH MAD CAT

Policeman Had Strenuous Battle With It.

IN TENEMENT HOUSE

IN NEW YORK A FEW DAYS AGO.

Feline, Which Was Pelted By Children, Does Them Great Injury—The Final Outcome of Desperate Struggle.

New York, Sept. 26.—P. C. Kram's uniform torn to threads, two four-year-old children victims of many scratches and a fifteen-year-old boy badly scratched on the neck was the work performed by an infuriated feline on the fourth floor of a tenement house at 129 Seventh street here, yesterday afternoon. The cat was killed after twenty shots had been fired, six having entered its body.

The animal was a pet in the family of Adolph Finkelstein and had been left in the flat with a child of their own and one of their neighbors, while the parents were out shopping. The pet gave birth to a litter of kittens about four weeks ago, which the children had incessantly fondled, it is said.

Yesterday afternoon while playing with the kittens, the mother, without a moment's warning, leaped at one of the girl's, lighting on her chest. Her garments protected her chest, but as the child fell to the floor, shrieking madly, the feline leaped her leg with its claws and dug its teeth into the flesh. The animal then turned on the other child and bit her on the hand.

With the blood streaming from their wounds and terribly frightened, the children ran from the flat and attracted the attention of some of the neighbors. Policeman Kram then appeared on the scene.

The policeman battled with the cat for several minutes, emptying his revolver many times. The cat then took refuge in another room. Kram stuck to the fight, beating the animal back with a broom and also using his revolver, and at last managed to get two shots into the animal's neck. With a yell the animal leaped from the window to the pavement below.

The street was now crowded to the limit, and great excitement prevailed. To the surprise of the policeman, when he looked out of the window, he found the cat crouched on the ground as game as ever.

With his clothes ripped into bits and out of ammunition he ran to another policeman for assistance. The two stalwarts were soon back and chased the cat into the yard and after another strenuous struggle managed to kill it.

The children are now in Bellevue hospital, where the wounds will be cauterized. The body of the cat will be examined to determine if it had rabies. If so, the children will be removed to the Pasteur Institute.

HASKELL HITS BACK.

Some of Charges "Joke on Roosevelt's Stupidity."

Guthrie, Okla., Sept. 26.—Governor Charles N. Haskell has issued a statement in reply to President Roosevelt's letter to William J. Bryan, dealing with four specific charges against Mr. Haskell, namely that he is subservient to the Standard Oil; that he vetoed a child labor bill; that he dealt extensively in Cree Indian lands, and that he had allowed politics to dominate him in the removal of members of the faculty of the state university, and the appointment of others to succeed him.

Governor Haskell took up the four charges as dwelt upon by President Roosevelt in turn, dealing with each in a characteristic manner.

The Prairie Oil and Gas company charges, Governor Haskell declared to be a "joke on Roosevelt's stupidity," asserting that he had done nothing which would confer upon the Standard Oil subsidiary company more authority than it already possessed under a franchise granted it by United States Secretary of the Interior Hitchcock.

HORSE DRIVEN OVER CLIFF.

Sacrificed to Get a Cinematograph Picture.

Paris, Sept. 26.—The French Society for the Prevention of Cruelty to Animals, has taken action against a cinematograph company for an act of unprecedented brutality to a horse.

In a series of pictures called "The Lover's Revenge," a carriage drawn by a horse was seen to rush over the edge of a cliff and be dashed to pieces. The pictures were not "fakes" as asserted. An old blind horse harnessed to a carriage was really driven over the edge of the cliffs near Boulogne to obtain them.

LONG DELAYED RESTITUTION.

Gets Dollar From Conscience-stricken Unknown.

Woodstock, Ont., Sept. 26.—Henry Schofield, Princess street, received a letter. It was unsigned, but the writer asked that Mr. Schofield forward one dollar, which was enclosed, to his father, whom the writer had wronged fifteen years ago by getting fifty cents from him wrongfully. The writer had recently come under religious conviction, and repenting of his misdeed of long ago, he desired to make restitution. Mr. Schofield has no idea from whom the letter came.

AN UNBROKEN LINE

HOLD PROPERTY GRANTED BY CROWN OF FRANCE.

Medals Struck For the Families and Some 225 Were Issued When the Supply of Money Gave Out.

Quebec, Sept. 26.—Three hundred families in this province claim to possess, in an unbroken line, the original grants of farm lands granted to them by the crown of France between two hundred and three hundred years ago. Headed by Cure Gosselin, of Charlesbourg, a committee was formed some months ago, under the auspices of the ten-centenary executive, to examine their claims and the title deeds of their lands. With the vote of money allowed by the executive, a medal was struck for each of the families in question, so far as the money went, numbered 225. A supply of the medals will be obtained. The first 225 were presented at a grand seance at Laval university, at which both Archbishop Begin and the other bishops were present, as well as Sir Alphonse Pelletier, lieutenant-governor. Both the Begin and Pelletier families are included in the list. The jewel, which was designed by Abbe Lafleur, of Paris, is a gold cross, with a green enamel shield at the intersection of the arms, bearing the motto, "Ense cruci aratro." It is suspended from a pink ribbon with two greenish-gold stripes. The name of each recipient is engraved on the back of the jewel.

SNOW STORM

Nineteen Lives Quickly Crushed Out.

RAILWAY COLLISION

ON THE NORTHERN PACIFIC RAILWAY IN MONTANA.

Flowing Through a Snow Storm and Express Train Crashed Into a Freight—The Smoking Car Was Swept By the Express Car.

Livingston, Mont., Sept. 26.—Flowing through a snow storm, eastward bound, a Chicago Burlington and Quincy passenger train, running over the Northern Pacific railway, yesterday, crashed head-on to a freight train, at Young's Point, where the trains were to pass, and in the demolition ensuing nineteen lives were crushed out and a score of other persons were injured, several probably fatally.

The freight flagman failed to signal the passenger train in time to prevent the collision, it is said, because of the blinding snow. The express car telescoped the smoking car and most of the fatalities and injuries were of persons in the latter car.

The express car was raised over the platform of the smoking car and the superstructure swept the seats away.

Not a passenger in the smoking car escaped death or injury. Passengers in other cars escaped with cuts and bruises.

Among the dead are: Col. Bronson, Utah. Charles E. Johnson, Denver, district passenger agent Nickle Plate railway.

BISPHAM GETS CHILDREN.

Mother on Knees When They Were Taken.

Philadelphia, Sept. 26.—David Bispham, the singer, has won the first battle in the legal war with his wife, Mrs. Caroline K. Bispham, over the custody of their two children, a girl of fourteen and a boy of ten. Judge Audenried adjudged Mrs. Bispham in contempt of court for disregarding a written agreement made three years ago when the Bisphams agreed as to who should have the children at different periods of the year. It is alleged that Mrs. Bispham took the children without permission from Mr. Bispham's home in Connecticut.

There was a dramatic scene in court when the judge issued his order. Clinging to the boy and girl Mrs. Bispham got on her knees, kissed them repeatedly, bade them good-bye, and was only parted from them when the lawyers for Mr. Bispham took them from the courtroom with instructions to have them in court again next Monday. On that day Judge Audenried will decide who is to have them permanently.

The Bisphams separated three years ago and the husband lost a suit for divorce.

DEPLORABLE STATE.

Due to the Bloodthirsty Militarism Extent.

Berlin, Sept. 26.—The social democratic executive committee has declared war on the government's financial schemes which involve increased taxation. In a published appeal the party contends that the deplorable state of the country's finances is the inevitable consequence of the bloodthirsty militarism of the dominant classes, who now seek to lay the burden on the working classes.

Bulgaria Asked to Yield Up Part of Railway.

Constantinople, Sept. 26.—The Porte has appealed to the Signatories to the treaty of Berlin to compel Bulgaria to restore the Eastern Roumanian section of the Orient railway, which the principality seized during a recent strike and now refuses to abandon. Bulgaria's attitude is supposed to be dictated by a determination to issue a proclamation shortly declaring her independence.

Bryan Asks Square Deal.

Cincinnati, Ohio, Sept. 26.—"All I ask of the president is that he put into practice for a month and a half what he has talked about for seven years, and that is a square deal."

Twice William J. Bryan, democratic candidate for president, gave expression to this utterance. It was not a square deal, he charged, for the president to pick out one republican and nominate him over other republicans, and it was not a square deal for the president to use his office, which belonged to all the people, as a party asset.

BLUNDER COSTS \$750,000.

Italian Workmen Render Work in Tunnel Useless.

Berlin, Sept. 26.—The government of the Grand Duchy of Baden has sustained a loss of \$750,000 by an extraordinary blunder in the construction of a railway tunnel near Forbach. According to the usual custom a hill was tunneled from both ends at the same time, but when both tunneled portions were complete they were found to be ten yards distant from each other. One half of the tunnel must, therefore, be returned. The error is ascribed to Italian workmen employed in the tunnel, who are accused of having deliberately removed a signpost erected by the engineers for the guidance of the navies.

BACKED BY PRESIDENT.

Think He Has Backing of the Party.

Governor Hughes.

The fact that Governor Hughes, New York, has been backed by President Roosevelt and the entire Taft organization, against certain leaders of the New York state organization, is taken as a sure sign that the big man in the republican party believe that Governor Hughes has the admiration and sympathy of the rank and file of his party. The governor is undoubtedly so sincere in his attitude on the question of race-track gambling, and public service corporations that only the bitterest personal enemies of the man ever question his honesty and ability. His re-nomination was considered absolutely essential to republican safety in New York state during the present campaign for the presidency.

John Lee, Brock street, has been confined to his home for the past few days seriously ill.

A well-known lady and gentleman of the town, while driving near Kyes' Corners, a few miles east of the town, had a narrow escape from serious injury on Thursday afternoon. The horse fell and in falling threw the buggy bottom side up, the occupants being pretty badly bruised and shaken but fortunately no bones were broken. Neighbors lent their assistance and they were soon able to return to town.

Archibald Gauthier, of Kingston, was in town, yesterday, in connection with the confirmation class of upwards of 100 young people of the town, in St. John's church, Sunday morning.

PARADOX OF JUSTICE.

Russian Officers Torture Old Woman.

St. Petersburg, Sept. 26.—The Riga justices have been engaged at Dorpat in trying six police officials, accused of torturing a peasant woman in November, 1907, in order to ascertain from her who had stolen a revolver belonging to one of them. It was proved that they had flogged her with neigalkas (loaded whips) and sticks, and had held her foot in the flame of a candle. The ringleader was sentenced to imprisonment for a year and a half, and the rest for a year.

When the horrors of the torture-chamber in the Riga prison were foisted abroad two years ago, the director of the department of police, one of Stolypin's subordinates, went to Riga to make an inquiry, and it was announced that the torturers were to be brought to justice. The trial has not taken place; instead, one of the accused has been transferred to an important position at Moscow, and, according to the provincial press, two others have been advanced in the service, one now occupying a position in the police service at Penza, and the other in one of the Volga towns.

Why torturers at Dorpat should be punished and torturers at Riga rewarded is inexplicable; it is merely another paradox of Russian justice, and an instance of the utter muddle of the present government's administration.

Called A Radical.

Milwaukee, Sept. 26.—Wisconsin had a political climax in the complete and emphatic manner in which United States Senator La Follette first declared W. R. Taft to be a radical in political ideas and then gave him his own unqualified indorsement.

The line is to go from the new observatory on the Col d'Allen, and will first connect with the Lombardy Valley, to be continued to the summit of Monte Rosa, 15,217 feet, where stands the Margherita Hut.

The Dowager Queen Margherita, who contributed largely to the erection of the observatory and hut, has been the chief supporter of the Alpine telephone line.

Notes Buried in Damp Soil Stick Together and Form a Solid Mass.

Rome, Sept. 26.—Yesterday a miser received a fine lesson in the sanctuary of the Madonna di Pompeii. This person, a certain Antonio Aceca, by submitting himself to all sorts of privations, and accumulating a large fortune, which he had hidden in a hole made in the floor of his dwelling at Mesagne, in the province of Lecce. But the money, if it was secure from thieves, was not safe from the ravages of damp.

One fine day, when Aceca was gloating over and caressing his treasure, he found to his dismay that the banknotes, by reason of the humidity of the soil, were stuck together and formed a solid mass. In despair he went to a money changer to see if he could change the solidified notes. He was advised to proceed to the office of the treasury, in Rome, where, possibly, new notes would be issued. Before repairing to the capital, however, he decided to pay a visit to Our Lady of Pompeii, to secure her intercession for the success of his enterprise.

The aspirants for the coming vacancy are John Birnie, K.C., of Collingwood; C. W. Plaxton, and C. E. Hewson, K.C., of Barrie. If a local man is appointed, the chances are Mr. Hewson will be the next judge, being a defeated parliamentary candidate.

COSTLY TO MARINE MEN.

Dollars Wasted Because Ships Are Stalled in River.

Montreal, Sept. 26.—No less than twenty-two ocean liners are now somewhere in the river between Montreal and Quebec, either outward or inward bound, and in addition to the larger craft there is a number of smaller vessels, such as coasting ships and colliers, which go to swell the total of ships delayed by the densest fog and smoke cloud which has ever visited the St. Lawrence.

The cost to the shipping companies is reckoned in the thousands, for it goes without saying that when a boat is anchored and does not reach her destination the cost of working her goes on just the same.

The average 5,000 ton ship which comes to Montreal costs \$600 a day for maintenance. One day's delay to the ships now in the river numbering twenty-two means approximately \$13,200. As some of them have been trying to make the port since Sunday last the loss to owners will be considerable.

WINNIPEG MAN SUICIDES.

Frederick Peete Fires Bullet Into Brain.

Winnipeg, Sept. 26.—Leaving only a pathetic note of explanation, Frederick Peete, seventy-five years of age, and one of the oldest business men of the city of Winnipeg, on Thursday evening the yard behind his residence at 90 Harriet street, raised a thirty-two caliber revolver to his right temple, and fired a bullet into the base of the brain, causing instant death. He had been under the care of a physician for ten years, but it was only recently that his health declined. He lost weight, however, and committed the deed. He leaves a widow and grown-up family.
