## MR. BORDEN SPEAKS

TORY LEADER WELCOMED BY SMALL GATHERING.

Sir Mackenzie Bowell Takes the Chair—The Halifax Platform Again Aired—Nothing Much New in Any of the Speeches.

Pictou, Sept. 26.—Somewhat disappointing in size was the crowd of less than a thousand people who assembled on the fair grounds, to-day, to hear the political questions of the hour discussed by R. L. Borden and Hon. R. P. Roblin, Prince Edward Island, and its member in the last parliament was G. O. Alcorn. On this occasion he has in Dr. J. Morley Currie, a strong candidate against him. Even conservatives admit that the fight will be a keen one, and Saturday's demonstration was arranged with the object of strengthening Mr. Alcorn.

The presence of Hon. R. P. Roblin attracted a number of the curious who were anxious to see an old Prince Edward county boy. Mr. Roblin was born within a few miles of Pictou, and was accompanied on the platform by his aged father.

The meeting had several interesting features. In the first place, the chair was occupied by that veteran statesman, Sir Mackenzie Bowell, and in the second, Mr. Borden for the first time for some months took occasion to mention the Halifax platform. He could hardly do otherwise, for facing him was a long board fence, plastered with the inscription, "Public Telephones and Public Telegraphs." Mr. Borden contented himself with saying that this was one of the planks of that structure which has been so much criticized, and that he was a believer in those utilities being owned by the people. How the desired end was to be brought about and at what cost the opposition leader did not choose to say.

Damaged An Auto.

Boys will be boys. Two lads bent on mischief endeavored to see what Richard Waldron's automobile was made of, and as a result, did damage to the extent of \$200, and the fine big auto is now undergoing repairs. The lads played with the machine while it was in front of Mr. Waldron's residence. They were caught in the act, but no prosecution will follow.

Burial On Sunday.

The funeral of the late Mrs. John McKim occurred on Sunday afternoon. The remains were conveyed to St. Mary's cathedral, where a solemn service was sung, Rev. Father Moscher officiating. The funeral cortege was very long, in which were many playmates and friends of the days long passed. The coffin was covered with handsome flowers. The remains were temporarily placed in the vault at St. Mary's cemetery.

Blasting Causes Trouble.

People on Montreal street, in the vicinity of the city quarry, have complained to the city engineer that the blasting operations by the city contractor, William Taylor, are dangerous to them, small stones flying all over. One resident says the stones come into his yard. The engineer has asked the contractor to take more care while blasting is being done, and see that the sections of stone to be blasted, are well covered.

Death Of H. C. Smith.

Henry C. Smith, eldest son of the late William Smith, of this city, passed away in Britton, Mich., on Sunday, after a short illness. The deceased was born in England, about sixty-five years ago, coming to this country with his parents when an infant. Mr. Smith learned the tin-smith's trade here, with the late John Shields, removing to the west about thirty years ago. He leaves a wife and two grown up sons, Frank and Edward, and six brothers, to mourn his loss. Among these are Charles, John and George, jewelers in this city, as well as three sisters, also resident here. Two brothers, Frederick, of Napanee, and Charles, of Kingston, left yesterday for Britton.

Wedded At St. George's.

On Thursday evening, September 24th, at St. George's cathedral, a quiet wedding took place, when Miss Edna May Crumley was united in marriage to Charles Macdonald, both of Kingston. Rev. Canon Grout officiated. The bride looked very pretty in a handsome navy chiffon broadcloth, with stylish hat to match. After the ceremony the bridal party returned to the bride's home, on Pine street, where supper was served. The guests numbered about seventy-five and a delightful evening was spent.

The popular bride received a large number of beautiful presents, including a cabinet of silver and many pieces of cut glass. A large clock from the employees of Livingston's establishment was highly prized by the receiver. The groom's gift to the bride was a handsome brooch.

Mr. and Mrs. Macdonald have taken up residence on Pine street, and their many friends wish them every happiness and prosperity.

MAY GO HIGHER.

Dean Farthing Mentioned For Vacant Bishopric.

Anglicans in this city deplored the probable removal of Very Rev. Dean Farthing, the popular and efficient rector of St. George's cathedral and prolocutor of the Anglican general synod to a higher place, his name being generally associated with the vacant bishopric of Montreal. Dean Farthing came here a year ago from Woodstock and has proven a strong man, progressive, thoughtful and distinctly conservative in administration. His business capacity has been quite marked.

Endeared To Both Sides.

Ottawa Journal. (Cons.) It is announced that Mr. Harty has reconsidered a former decision and will be again the liberal candidate in Kingston. Our liberal friends take this to mean that the election might as well be made unanimous. In any event, Mr. Harty would have been missed from parliament. He takes little part in the debates himself, but he is a model of faithful attendance and seems to radiate good humor of a sort which has plainly endeared him to both sides of the house.

## THE FOG HAS LIFTED

AND BOATS ABLE TO NAVIGATE THE RIVER.

Boats Are Put Once More Into Commission—Miss Marjory Robertson Injured—Struck By a Railway Train.

Montreal, Sept. 28.—Dense fog which has hung over the city and river, at this port, lifted, this morning, and things looked brighter. The Allan line's Victorian and Parisian, which were booked to leave Friday and Saturday, respectively, got away, as also did the Dominion liner, Ottawa, which was booked to sail, Saturday. The river boats of the R. & O. and Ottawa Navigation company have also been put into commission again.

Miss Marjory Robertson, daughter of James M. Robertson, a prominent manufacturer, of this city, was found in a dying condition, on Sunday morning, near her father's summer home at Beaconsfield. The young lady was addicted to the habit of walking in her sleep, and in that condition left her home about five o'clock. She was missed about an hour later and the family started in search of her. She was found lying beside the C.P.R. tracks, where she had been thrown by a passing freight train. She was found unconscious, and badly cut and bruised. She was hurried to the city hospital, where she lies in a dying condition. Her engagement to Charles Shearer, of this city, was only announced two weeks ago.

PROPOSED NEW HOTEL.

Rev. Dr. MacTavish's Reference in Sunday Sermon.

On Sunday evening, before a large congregation in Cooke's church, Rev. Dr. MacTavish made reference to the cost of the liquor traffic, and incidentally referred to the proposed new hotel. He spoke substantially as follows: According to the very conservative estimate of the last royal commission on the liquor traffic, the direct cost, to say nothing of the indirect, is a little over \$8 per capita. Multiply that by 20,000, our total population, and you find that it costs \$160,000 a year to maintain the traffic in this city. What an enormous drain upon our resources. One hundred and sixty thousand dollars worse than wasted. If a man had the money which is worse than wasted in intoxicants in this city, he could erect a magnificent temperance hotel, and present it as a free gift to the city, at the end of two years, and in the meantime he could pay the twenty-seven hotel license-holders one thousand dollars a year, each, to keep them out of mischief.

If all the bars in Kingston were closed, what would the result be? Women who now buy their hats and dresses at the rummage sales, would go to the milliners and dressmakers and order new goods, and they could afford to pay for them too. Men living in houses where they pay a very small rental, would move into larger dwellings, and as such houses are not available now, it would be necessary to erect them, and thus the building trades would be stimulated. Merchants would probably find, as merchants in West Toronto found, that debts long outstanding were paid.

KINGSTONIANS IN TROUBLE.

Summoned By Police For Automobile Accident.

As the result of an automobile accident at Napanee, on Saturday afternoon, two Kingstonians are in trouble, having received summonses to appear before the police magistrate at Napanee. According to the report received here, the Kingstonians ran into a carriage, at Napanee, and it is also reported that a lady who was sitting in the carriage, was seriously injured.

Chief Graham, of Napanee, got out on the war path, and succeeded in securing the number of the automobile. He learned that the auto came on through to Kingston, and the local police were notified. With the number of the auto, it was a very easy matter to secure the names of the men who were in the car, and they were held up here, upon their arrival, on Saturday night. Warrants had been taken out for their arrest, but on their promising to appear in the police court, at Napanee, they were not executed.

The auto that figured in the accident, is a new one, purchased by Dr. Woods, at Bowmanville. The doctor sent a couple of men to Bowmanville to bring it home.
