

## THE RESULTS

### Of The Recent Supplemental Examinations

## AT QUEEN'S COLLEGE

### WERE POSTED AT THE INSTITUTION THIS FORENOON.

#### Degrees of Master of Arts and Bachelor of Arts Were Granted

The Pass List is Quite Interesting and Extensive.

The following results were announced at Queen's university to-day: Bachelor of Pedagogy—T. E. Clarke, B.A., Ottawa. Master of Arts—A. Voaden, B.A., St. Thomas. Bachelor of Arts—J. A. Buchanan, The Grove, Ont.; J. W. Charlesworth, Guelph; Edith Compton, Kingston; W. H. Cook, Orton; J. D. Denny, Ottawa; Mina A. Ellis, Pakham; J. N. Gardner, Hespden; May B. Hiseock, Kingston; A. Letherland, Oxbow, Sask.; Mabel E. Nesbitt, Kingston; C. A. Paul, Marchmont, Sask.; J. A. Shaver, Kingston; Mabel A. Wilson, Alliston; G. W. Hoffer, Essex, Ont.; C. R. Macintosh, Perth.

The results of the following will be announced later: J. A. Anderson, Rossmore, Ont.; N. W. Campbell, Durham, Ont.

### Arts Examinations.

Junior Latin—Div. III, Ethelwynne W. Wellinger, S. M. Smith, W. S. Steele, D. L. Fee, R. M. Fisher, A. D. Colquhoun, S. Wightman, Lizzie C. Henry, Leila E. Arnold, Norman Macdonald, A. MacKay, Frances B. Roy, H. J. Scott, J. A. McEachern. Senior Latin—Div. II, Sister Estelle, J. G. Bennett, W. H. Burgess, Div. III, F. L. Macdonald, W. J. Cook, Mabel E. Nesbitt, J. A. Shaver, Sister M. Constantia, S. M. Miriam, D. M. Davidson, Mima A. Ellis, Lizzie Noonan. Junior German—Div. I, C. R. Macintosh, Div. II, Elizabeth Penon, Div. III, W. H. Sharpe, Ethel M. Lake, G. W. Hoffer, E. Hunter. Senior German—Div. III, Sister Estelle.

Junior French—Div. II, T. J. Dwyer, Winnifred Balfour, W. J. Kelly, Div. III, Ethelwynne W. Wellinger, Sister St. Thomas, A. White, W. S. Maguire, E. B. Hubbard, J. P. Kinahan, W. M. Crawford. Senior French—Div. I, Sister Estelle, Eva M. Coulter, Sister Bathilde, Div. III, Mary Nesmith, Phoebe R. McKechnie, A. C. DesBrisay, Madeline W. Henderson.

Junior English—Div. I, N. Macdonald, E. W. Noble, Sister Estelle, Div. III, J. W. E. McIsaac, Sister M. Carmel, Sister M. Carmelita, Norma Dunwoodie, Mabel McAuley, Bessie Wikler. Senior English—Div. I, D. J. Doyle, Eva M. Coulter, Winnifred Balfour, T. J. Dwyer, Jean C. Wilkie, Div. III, Sister M. Lucilla, Sister Bathilde, A. Sullivan, R. H. Leighton, A. S. Zitzvitz, T. W. F. McKnight.

Fourth Year Scientific French—Div. I, J. N. Gardiner, Div. III, A. Letherland. English History—Div. I, J. W. A. McIsaac, Mary Nesmith, Ethel M. Lake, R. H. Campbell, M. Richards, Div. III, Edith Hunter, J. D. Denny, S. European History—Div. I, W. K. Beech, Donald J. Dickie, James Bingay, W. T. Hall, May Blacklock, Sister Marguerite, A. E. Knight, Jean C. Wilkie, Div. III, E. Irene Dunlop, Victoria L. Hall.

Mental Philosophy—Div. I, G. H. Steer, T. J. Hughes, A. H. Lenke, Mary Nesmith, Sister M. Mt. Carmel.

## DECLINE IN EARNINGS

### BUT THE EXPENDITURE WAS REDUCED.

#### Canadian Government to Issue \$5,000,000 Loan at Par—In Eight Months of 1908, \$142,845,000 Was Supplied by England For Development in Canada.

London, Sept. 30.—It appears that both Sir Hiram Maxim and the Earl of Rosslyn are liable to prosecution for playing the game of roulette in England, even though a dummy money is used in the contest in which they have been engaged for the purpose of demonstrating their respective theories regarding the possibility of breaking the bank at Monte Carlo.

Roulette is one of the few games expressly declared illegal by statute, for there can be no question as to its identity with the "pernicious game called roulette" which is forbidden in an unrepented act of parliament of George II's time. The tenant of the room in Pica-nilly in which the contest is carried on is liable to a fine of £200, and each player could be legally mulcted in £50 as an "adventurer."

In view of what many persons are inclined to consider a pernicious fostering of the gambling spirit by the wide publicity given the so-called test, it is suggested that the attorney-general should intervene under this old statute, but there is, of course, little chance of his doing so. A remarkable demand for roulette tables has grown up as a result of the test. One large firm sold out and ordered a further supply from France.

At the end of six days' play, when 3,000 of the 5,000 coupons arranged for had been completed, Lord Rosslyn was not in the least discouraged by this result.

## A GOOD SUGGESTION

### OIL AS TRAIL FUEL IN TIMBER DISTRICTS.

#### Would Prevent Forest Fires—New York State Commission Urged to Enforce the Change.

Albany, Sept. 30.—That forest fires would be greatly reduced in number, and the danger from them practically eliminated were the railroads traversing timber lands to use oil instead of coal as fuel is the belief of James S. Whipple, of the state forest, fish and game commission.

Commissioner Whipple in a letter to-night to the public service commission in the second district, requests the commission, in view of the large number of fires, to compel the railroad companies operated through the state forest preserves in the Adirondacks and Catskill Mountains to use oil for fuel instead of coal, and has very devices and precautions against setting fires as the public interests require.

He discounts the practical utility from the railway point of view of spark arresters, which are suggested by H. V. Radford, ex-editor of Woods and Waters, who says railroads are setting fires faster than they can be extinguished.

## UNCONSCIOUS FROM PILLS.

### Negro at Brantford Knocked Out By Laudanum.

Brantford, Ont., Sept. 30.—William Bolla, a colored employee of the Warren Paving company who came here from Chatham, is lying at a hospital in a critical condition as a result of taking a dose of pills on Saturday. The preparation contained laudanum.

## WHEAT MOVING WELL.

### THOUSAND CARS A DAY NOW BEING MARKETED.

W. R. McInnes' Estimate of the Western Harvest—Valued at Over One Hundred and Thirty Million Dollars to the Country.

Montreal, Sept. 29.—W. R. McInnes, freight traffic manager of the C.P.R., has returned to Montreal after a six weeks' trip through the west, having gone over some of the Canadian Northern lines as well as those of the C.P.R. He was accompanied by W. E. Lammiman. "A week ago, to-day," said Mr. McInnes, "grain was moving very easily, averaging on the C.P.R. and C.N.R. 1,000 cars a day, this grain being taken chiefly from country elevators west of Winnipeg."

Mr. McInnes estimated the crop as follows: Six million acres of wheat, at eighteen bushels to the acre, giving a total of 108,000,000 bushels. The oat crop, estimated at 2,000,000 acres at thirty-five bushels to the acre, giving a total of 70,000,000 bushels. Barley has an average of 55,650,000 bushels at twenty-eight bushels to the acre, giving 24,000,000 bushels in all. The whole crop will, it is estimated, mean \$130,000,000 to \$135,000,000 to the country.

St. John's, Nfld., has been without electric light and street railway service several times during the last two weeks, because of the failure of the water supply. The drought has caused considerable hardship throughout the colony.

## ROSSLYN IN ROULETTE TEST.

### Earl Has Won \$2,500 in Dummy Money.

Sir Hiram Maxim

London, Sept. 30.—It appears that both Sir Hiram Maxim and the Earl of Rosslyn are liable to prosecution for playing the game of roulette in England, even though a dummy money is used in the contest in which they have been engaged for the purpose of demonstrating their respective theories regarding the possibility of breaking the bank at Monte Carlo.

Roulette is one of the few games expressly declared illegal by statute, for there can be no question as to its identity with the "pernicious game called roulette" which is forbidden in an unrepented act of parliament of George II's time.

The tenant of the room in Pica-nilly in which the contest is carried on is liable to a fine of £200, and each player could be legally mulcted in £50 as an "adventurer."

In view of what many persons are inclined to consider a pernicious fostering of the gambling spirit by the wide publicity given the so-called test, it is suggested that the attorney-general should intervene under this old statute, but there is, of course, little chance of his doing so.

A remarkable demand for roulette tables has grown up as a result of the test. One large firm sold out and ordered a further supply from France.

At the end of six days' play, when 3,000 of the 5,000 coupons arranged for had been completed, Lord Rosslyn was not in the least discouraged by this result.

## A GOOD SUGGESTION

### OIL AS TRAIL FUEL IN TIMBER DISTRICTS.

#### Would Prevent Forest Fires—New York State Commission Urged to Enforce the Change.

Albany, Sept. 30.—That forest fires would be greatly reduced in number, and the danger from them practically eliminated were the railroads traversing timber lands to use oil instead of coal as fuel is the belief of James S. Whipple, of the state forest, fish and game commission.

#### Matters That Interest Everybody

Notes From All Over—Little of Everything Easily Read and Remembered.

Stanley Turner was fatally shot while hunting near New Bridge, N.B. Mayor Funnell, Belleville, was nominated by the liberals of West Hastings.

Senator Hopkins predicts that Taft will carry Illinois by at least 100,000 plurality.

Great Britain is looking forward to a winter with more people out of work than in many years past.

Britain's foreign trade for the first six months of the present year aggregated £449,000,000.

Charles von Schwabach, controller of the Russian empire before Witte was made premier, is dead.

There were ninety-nine deaths from cholera in St. Petersburg fever, than any day since the plague reached its climax.

Vito Micoli was sentenced to hang in Montreal, on Nov. 27th, when "Crooked Neck" Smith also pays the penalty for murder.

There have been five hundred deaths from the bubonic plague at Tong Sha, China, since the outbreak of the epidemic.

Mackenzie, Mann & Co. have awarded the contract for the construction of the Canadian Northern Quebec railway extension to Rawdon, to J. P. Mullarkey, Ottawa, and, according to the terms of the contract, the line must be completed during the present year.

Dr. Unterberger, of St. Petersburg, speaking at the tuberculosis convention in Washington, said numerous autopsies showed that every man over thirty years of age had some remains of a tubercular infection. This proved how easily any tendency to the disease could be overcome by right food and healthful living.

## AGRICULTURAL EXPORTS.

Conservative rule—  
1892 ----- \$22,113,294  
1893 ----- 22,049,490  
1894 ----- 17,677,649  
1895 ----- 15,719,128  
1896 ----- 14,083,361

Total ----- \$91,642,912  
Liberal rule—  
1904 ----- \$37,138,875  
1905 ----- 29,994,150  
1906 ----- 54,062,337  
1907 (9 mo.) — 35,856,616  
1908 (15 mo.) — 77,429,467

Total ----- \$234,481,445

In this table the three months ending June, 1908, have been added to the fiscal year to complete the period of five years. The result is to show an increase of 155 per cent. for the period over that of 1892-96. But as under conservative rule, exports of agricultural products were consistently declining, while they are increasing under liberal rule, the Canadian farmer sold abroad in 1908 nearly five times more than he did during the corresponding twelve months of 1896.

## GATHERING THE GRAIN.

### The Cost of Saving Was 10c. a Bushel.

Spokane, Wash., Sept. 30.—Farmers in Washington, Oregon and Idaho paid \$6,000,000, this season, to 6,000 men to harvest a wheat crop estimated to reach 60,000,000 bushels. Twenty-two hundred and fifty combined harvester machines, operated by steam, gasoline and horses and mules, were required to denude the land, and the average cost of saving a bushel of grain was ten cents, not including the bags and haulage to the warehouses.

The average yield was a little more than twenty bushels to the acre, and of the total amount the ranchers in twelve counties in Eastern Washington produced about 20,000,000 bushels. The farmers are receiving better prices for their product this year than in previous seasons, and, as a consequence, they have more money. Conditions were better for the harvest hands, as they worked fewer hours and received good wages and their relations with the employers were more friendly than in the past.

## CHOLERA DECREASING

### And Relief For The Hospitals in Sight.

St. Petersburg, Sept. 30.—The cholera epidemic continues to decrease in numbers and severity. The report of the municipal hospitals for the twenty-four hours ended at noon, yesterday, gives 222 cases, 99 deaths and 127 recoveries. The new cases and deaths reported are the lowest since the climax of the epidemic. The number of deaths and patients discharged as cured is beginning to exceed the new cases, and as a result relief for the overcrowded municipal hospitals now is in sight.

## VISITS AFRICAN ESTATE.

### Off to Shoot Big Game in Rhodesia.

London, Sept. 30.—The Duke of Westminster, accompanied by Capt. J. F. Laycock, sailed by the Union Castle liner Saxon on Saturday for South Africa, the duke left London in the afternoon, travelling to Southampton in a saloon carriage attached to the train of mail vans. A few friends were at Waterloo to see him off.

It was while serving as A.D.C. to Lord Roberts in the advance through the Orange River Colony that the young duke conceived the idea of purchasing extensive tracts of agricultural land in that country. The first object of the present visit is to observe the progress and development of the estate.

"I was there two years ago," the duke said. "After I have had a look at the farms, Capt. Laycock and I are going on a little shooting expedition in North-west Rhodesia to the Kalahari river, where there is big game of every kind. We are expecting good sport there."

Capt. Laycock was looking forward to another agreeable incident of the expedition as well as to the big game shooting. That was a revisit to a spot where, during the war, he had a good deal of experience of being shot at. Capt. Laycock, who, as a yeoman, was serving in an honorary capacity upon Gen. French's staff, was with him throughout the important operations in front of Colesburg.

In front of Gen. French's central position was a steep hill known as Coleskop, to the top of which some guns were hoisted. It was a valuable lookout place, which was accessible from headquarters by two routes. One under cover, but a long way round, the other short and quick, but exposed to the Boer pom-poms and rifle fire. The young bloods of Gen. French's staff used to make a dash by the short road.

"I am going to find time to pay a visit to Colesburg again," said Capt. Laycock, "and to the old position in front of it, Rensburg, and the rest. And I want to look down from the top of Coleskop again. I have a great affection for that hill. I used to say that it ought to belong to me. I was the first man on the top of it, you know."

The expedition is not to be a very long one—a "couple of months or so," the duke said.

## C.P.R. Earnings.

Montreal, Sept. 30.—The gross earnings of the C.P.R. for the month of August amounted to \$6,385,956, as compared with \$7,010,177 during the same month last year, a decrease of \$624,220. But the working expenses of the system only amounted to \$3,807,067, as compared with \$4,439,902 during the same month last year.

As a result of this curbing of expenses the net profits showed an increase of \$8,623 for the month, the figures being \$2,578,889 for the past August, as compared with \$2,570,275 for the same month last year.

## DIRECT FROM COAL

### PROBLEM WHICH EDISON IS WORKING ON NOW.

#### He Hopes to Be Able to Do Away With the Use of Steam—Confident That Steam Railroads Will Be Novelty in Few Years.

Denver, Col., Sept. 30.—Thomas A. Edison arrived here from a tour of the west. In his spare hours, away from the laboratory, Mr. Edison is having to go through the mental crucible preparatory to physical experiments to be undertaken later, two inventions, the last of a commercial nature which he will undertake. One is the development of power direct from coal; the other, the artificial manufacture of black diamonds to be used for drilling purposes.

"If I do not reach it myself I will live to see the day when power will be utilized from coal without the aid of steam," said Mr. Edison. "We are working in that direction, and some morning the world will be informed that the discovery is a fact. Electricity is many times more effectual than steam. In a few years a steam railroad will be a novelty. I have been experimenting to get a black diamond which is better for drilling purposes than the white diamond. So far I have not succeeded, but have not given up. Imagine the impetus that would be given to the mining industry through the discovery of a cheap diamond for boring purposes. Not the hundredth part of one per cent. of the metals in the western mountains has been reached yet."

## 31 VOTES TO TAFT.

### Formerly Were Twenty-Four For Roosevelt.

South Bend, Ind., Sept. 30.—William H. Taft is to profit handsomely from the Potts family, of which William Potts of Mishawak is a member.

In the family are nine brothers, and these with the sons of two sisters, and sons of the brothers and those who have joined the Potts family by marriage will cast thirty-one votes for Taft.

This wonderful family of republicans cast fifteen votes for McKinley when he ran for president. On his second campaign the number of votes was increased to twenty. Roosevelt was favored with twenty-six votes.

The Potts family has brought to light William W. Potts of Norristown, Pa., who is in his seventieth year and who says he is related to President Roosevelt.

The autumn session of the British parliament will be preceded by a series of political demonstrations. The earliest will be the march of the liquor battalions in Hyde Park, to protest against the passage of the licensing bill.

## Probabilities

### Toronto, Sept. 30—Ottawa Valley and Upper St. Lawrence 10 a.m.

Fair to-day, followed during night by strong winds and gales.

southerly, with rain. Thursday, strong winds and gales, shifting to north westerly, showery.

## Honest Values

Coupled with the greatest assortment in this city of ready-made.

## Tailored Suits

Are making busy days in this section.

It's not the job lot of side-tracked style which may be underrated that appeals to the economy of intelligent buyers, but the fresh, clean, stylish and in every way reliable garments such as we offer you TO-DAY.

For want of space we draw your attention to one suit only.

## Our Special \$15 Tailored Suit

Made of fine Wool Cheviot, in Colors, Green, Navy, Brown, Semi-fitted, Single-breasted, length four lined throughout with Mercedized Satin, Velvet Collar and trimmed with self buttons. 11 pure bare skirt with deep fold and buttons, \$20 value at \$15 special.

## There Are Others

Just as good for the price asked, at \$20, \$25, \$30 to \$35. DON'T FAIL TO SEE OUR ASSORTMENT.

## Steacy's

### MARRIED.

SPRIGGS-LEMMON.—In Kingston, on September 29th, 1908, at the residence of the bride's parents, Miss Pearl Steacy, by the Rev. F. H. Sprout, Wm. A. Sprout, son of the late Major H. J. Spriggs, to Miss Pearl, only daughter of Mr. and Mrs. Joseph Lemmon.
