TIS A FINE DISTRICT

PROF. M. B. BAKER SPEAKS OF LAKE ABITIBI.

Spent Four Months There Making Geological Survey For Bureau of Mines—Indians Are Dying at an Alarming Rate.

Prof. M. B. Baker, of Queen's University, who has returned from a trip to Lake Abitibi district, where he spent four months, making a geological survey for the Bureau of Mines, has a glowing account to give of that district, from an agricultural standpoint. This part of the country is covered with evergreen bush, but is fairly level, and when cleared, the professor believes, will be just tip-top for agriculture. The country has no heavy hills, can be very easily drained, and is well watered.

The fact that this will turn out to be a great spot for agriculture comes as a great surprise, as from the various reports received from time to time, one would be led to believe that there would be nothing doing in this line. Such an idea of this kind is far away from the true state of affairs.

A most remarkable discovery was made by Prof. Baker, in that the Indians in that district are dying at an alarming rate. On the occasion of his first visit there, in 1900, there were 9000 Indians, working for the Hudson Bay trading post, and on his last visit there were only 450. The Indians are dying from consumption, as many as sixty-seven passing away in one summer.

Principal Gordon will be home tomorrow from Caledonia Springs, where he has been for some time for the benefit of his health. He is much improved, and hopes to be able to enter upon his university duties with his usual vigor.

Several clues given the police concerning the whereabouts of the man who is alleged to have attempted an assault upon a little girl, were followed up by the police, but he could not be located.

Backache is almost immediately relieved by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Try one and be free from pain. Price 25c.

It really does not help matters to think that the money paid for the suit case on the eve of vacation would have bought two tons of coal. "For lame back," Belladonna Plasters make weak backs strong. Sold at Gibson's Red Cross drug store.

WHAT IS TAG DAY? TAGS WILL BE OFFERED THE CITIZENS

On Behalf of the Ladies' Auxiliary of the Kingston General Hospital—The Noble Work of the Women.

Kingston, Oct. 1.—(To the Editor): What is Tag Day? No doubt citizens generally have wondered what the meaning of this is, after seeing notices of same in the press. This is what Tag Day means: In other cities, ladies interested in hospitals and other good works have realized many thousand dollars by this scheme. The Ladies' Auxiliary of the Kingston General Hospital, ever prominent in all good projects, are adopting the same scheme to assist the hospital in its splendid work.

The Ladies' Auxiliary of the Kingston General Hospital have done magnificent work towards the maintenance and proper equipment of the institution. During the last few months, from the proceeds of the Made-in-Canada exhibition, they have paid off the deficit of last year of some \$3,200, have equipped the laundry, placed fire escapes on the buildings, rebuilt the ice house, are at the present time putting new roof on the main building and erecting a root house, all of which have been essentially necessary repairs.

It has been arranged that the council meet this evening, at 7.30 o'clock, to consider the matter.

MAY INVITE LORD MILNER To Visit Queen's University and Give An Address.

The convocation at Queen's set for Oct. 16th may be withdrawn. The purpose of making the October convocation a big affair was to bring big men here to speak and let them see the university classes in full swing, instead of bringing them when it was about to put up its shutters, and when two-thirds of the students had gone to their homes and their summer work. It is proposed to postpone the convocation of the 16th till a later date, and try to secure Lord Milner, the distinguished high chief commissioner of South Africa during the Boer war. Lord Milner is now on a tour of Canada, and may be induced to pay Queen a visit.

TO DISCUSS SCHOOL BOARD REDUCTION.

Another Special City Council Meeting to Be Held This Evening—Matter Must Be Considered Before the Day is Out.

A special meeting of the city council was called for yesterday afternoon, to consider the petition of 400 ratepayers to reduce the number of school trustees from twenty-one to ten. A quorum of members failed to attend at the hour at which the meeting was called, and nothing could be done. A number of Board of Education members were present to hear the discussion.

The meeting was called for 4.30 o'clock. When the city clerk called the roll at 4.45, the following answered to their names: Aids. Carson, Craig, Free, Graham, Hoag, and Nickle. Mayor Ross was out of the city, and could not attend. Aids. Angrove, Chown, Givens, Hanley and Kent had waited till ten minutes after the hour of meeting and then left. At ten minutes of five, Ald. Rigney appeared, and there would then have been a quorum had the others stayed, but they had waited a reasonable time.

Ald. Nickle said he did not like to see the petition shelved in such a way, particularly when it must be considered by the council on or before October 1st. Only one day remained for the council to act on the petition, and he suggested that another special meeting be called for Wednesday evening.

Ald. Craig spoke along the same lines. The petition was from over 400 ratepayers and deserved consideration. If October 1st was allowed to pass, the petition would have to stand over till next year. Ald. Rigney also favored calling another meeting.

It has been arranged that the council meet this evening, at 7.30 o'clock, to consider the matter.
