ARE THEY SINCERE AS TO THE STATEMENTS THEY HAVE MADE?

Government Patronage to Locomotive Works Would Wound Under Conservatives—The Ross Party Trying to Fool the People.

Kingston, Oct. 15.—(To the Editor): In the remarks made by Dr. Ross at the Borden meeting he said that if his election would cost the city the locomotive works that he would resign his candidature immediately, and the Standard also declared that if it thought Mr. Hart's defeat would mean the overthrow of the locomotive company it would unhesitatingly express itself in favor of his reelection.

Are these gentlemen deliberately endeavoring to deceive the electors, or are they simply foolish?

Unless they are foolish they cannot but know that the return to power of the conservative government must, necessarily, result in a diminution of government patronage to the locomotive works.

During the period of conservative government up to 1896 the Kingston shops were the only locomotive works in Canada yet, notwithstanding that, the government orders went mostly to the United States, and the shops here were idle.

What then would happen now when there are in Canada two other locomotive shops, both of which are largely controlled by conservatives, whilst the Kingston shops are owned by grits?

Can anyone be foolish enough to imagine that under such circumstances any government orders will come to Kingston?

How much advertising does the Whig get from the conservative government in Toronto? None. Then how much work will a conservative government give a grit concern like the Canadian Locomotive Works?

No one knows this better than Dr. Ross and the editor of the Standard; then why try to deceive the people?

If these gentlemen are sincerely friends of Kingston they should, according to their published utterances, advocate the election of Hon. William Hart; but they are not; they are trying to fool the people, but the people are not fools, they know the prosperity of the locomotive works means the prosperity of Kingston, and will vote accordingly.

I am the owner of three houses, occupied by men working in the locomotive works, and I get my rent the first of every month, which I would not do if these men were idle. I have voted conservative many times, but not for myself and my own interests, and I will mark my ballot for Hon. William Hart, "Kingston's best friend."

—Yours, truly, INDEPENDENT.

NEW OFFICERS INSTALLED

At Meeting of Hope of Kingston Lodge, I.O.G.T.

A session of Hope of Kingston Lodge, International Order of Good Templars, was held on Thursday night in the newly-decorated and enlarged Sons of England hall, which the lodge has secured for its regular meeting place. The officers who were elected at the previous session were duly installed by Bro. H. F. Norman, the lodge deputy G.C.T., and a code of by-laws adopted, among which was the following: "That the regular meetings of this lodge shall be held on Thursday evening of each week from 8 till 10 p.m."

The usual standing committees were appointed, also a committee to confer with the superintendent of juvenile work, as to ways and means of forming a juvenile temple in connection with the lodge. Eight new members were initiated, and eight names were proposed for membership. A pleasing feature in this connection is the large percentage of old country people who are joining the lodge, which, it is hoped, will do much toward removing the discredit which attaches to newcomers, as a result of the actions of a very small, but very objectionable minority of those who come from Britain to make a new home in the land of the maple.

MEETINGS ARRANGED

In Connection With Laymen's Missionary Movement.

Last evening the general committee of the Laymen's Missionary Movement had an encouraging session at the hall of the First Congregational church. The programme of the great rally was planned: Wednesday, Oct. 28—Evening mass meeting at St. Andrew's Methodist church, to take place of mid-week meetings.

Thursday—Conferences in Sydenham street lecture hall, morning and afternoon, with missionary training and inspiring talks from four visiting clergymen. Mass meeting in the evening—outside—speakers—young workers especially invited.

Friday—Morning meetings of laymen—each denomination by itself—afternoon training institute by J. Campbell White, of New York, the inspiring secretary of the whole movement. Banquet in the evening.

The names of speakers and lecturers will be announced later, also the programme for Sunday, November 1st. The Queen's College and city Y.M.C.A.s, and the college mission association are all cordially invited to join their forces with the churches. The time is short. The Christian spirit of Kingston is on trial.

ROLLER HOCKEY MATCH.

At the roller rink on Thursday evening the C.L.C. hockey team won another game from the Maple Leafs by a narrow margin, the final score being 1 to 0. At half time neither team had scored. The game was one of the best of the season and was witnessed by a large number of spectators. The C.L.C. have not lost a game yet and it looks as if another cup would grace the halls of the locomotive works athletic association.

ANOTHER EMPTY YARN.

The Standard has another roorback regarding penitentiary and other government matters. It is printed as an Ottawa "special," but it sounds too amateurish and local for anyone to believe that either telegraph or postal tolls were paid upon it. In other words it is simply local campaign stuff, and intelligent people won't swallow it.

Both the minister of justice and Inspector Dawson deny that Warden Platt is to be removed from the penitentiary. That settles one roorback story.

The second joke that the Standard, the paper that was to be an example of high-class journalism, springs, is that Thomas Gallagher, inspector of weights and measures, has been dismissed. Mr. Gallagher denies the allegation. He is doing duty in his office, and he will continue there, until he dies or is promoted, or is dismissed by the Tories in the year 1927, at which time there may be some chance of the liberal government being defeated.

Capital is made of the appointment of W. Fraser, of Brockville, as assistant inspector of gas and electricity, which work Mr. Gallagher used to perform at Kingston. Mr. Fraser is a McGill graduate in electrical work, and his appointment was very natural. Inspector Johnston of Belleville, and Inspector Gallagher of Kingston, had too much work to do, and Mr. Fraser was appointed to relieve them. So that Mr. Gallagher is receiving the same salary as he did before, and has less work to do.

HELPED MARINE INTERESTS.

Kingstonians can testify to the interest and support they and the Dominion Marine Association have received from the Hon. William Hart, in urging the government to deepen the Holland canal. Much of the success so far accomplished has been due to his persistence. It was only last session Mr. Hart and Hon. Mr. Grayham secured a big grant to aid in removing obstructions to navigation between Kingston and Brockville, in the St. Lawrence, and for the first time in its history. The constant dredging in this port has been obtained through Mr. Hart's work. In the matter of keeping Kingston's transportation issues before the department Mr. Hart has made a record. His advocacy has done much to aid the St. Lawrence through navigation. On this score who would be better able to further advance Kingston's interests with a liberal government than Mr. Hart? What could Dr. A. E. Ross do in prevailing upon a department he was, perforce, sent to parliament to oppose and obstruct. Every sailor, be he captain or seaman, understands how zealous Mr. Hart has been for his interests.

KILLED AT THE MINES.

Tobias Megarry, of Kingston, Was the Victim.

On Thursday afternoon, Mrs. Joseph Lalonde, Earl street, received a telegram from Bedford announcing the death of her brother, Tobias Megarry, aged about twenty-one years. The telegram came as a great shock to Mrs. Lalonde, as she had not heard anything being the matter with her brother. She left for Bedford at five o'clock.

James Richardson and Sons received word, Friday morning, that a man had been killed on Thursday at their mines, but no name was given. The person was standing on one track watching the loaded cars go up, and did not see some empty ones coming towards him, he was knocked down and received injuries that caused his death. His name could not be learned, but from the circumstances it would seem that it was the same person.

The late Mr. Megarry had been employed with Edwin Chown & Co. for some time, but left there about eight weeks ago to go to Bedford.

Later—James Richardson & Sons were able to give further particulars just before going to press. The accident to Mr. Megarry happened on Wednesday. He was watching the loaded cars coming down the incline and did not see the others coming up. He was hit and received serious injuries. He was removed to his place of residence, where, a few hours later, he developed lock-jaw and passed away on Thursday.

TROUBLE ON A STEAMER

And Call Was Sent to the Police Station.

This morning there was some trouble on board the steamer Glenellah, at the M. T. Co's elevator, and a call was sent to the police station, which was responded to by Constables McAdoo and Naylor. It appears that one of the engineers and the captain had been at loggerheads on the trip down from Fort William, and that at Port Colborne, they engaged in a fist fight. This morning the trouble was renewed, and it was thought that the police should be notified. The engineer went to the police station with the constables, but no charges were laid. The matter was settled by the captain discharging the engineer, and paying his railway fare to Montreal.

BECAUSE HE'S A GRIT HE LOSES THE DIVISION COURT OFFICE.

Whitney Government Orders the Office Transferred from William Robinson's Building—This is One of Whitney's "Square Deals."

The Division court clerk's office is to be removed from Bagot street to Clarence street, in part of the stone building formerly used as the weights and measures office. It is being taken away from William Robinson's building on Bagot street, where it has been for years and years, just because Mr. Robinson is a grit.

"A square deal for all" is the conservative motto (in the windows at election time), but after election the grits get it in the neck. The Whitney administration promised all kinds of fair play, and this is the first sample of it.

It will be in order for W. F. Nickle, M. P., to see that his old friend, William Robinson, who is a staunch grit and supporter of Hon. William Hart, although he is one of the old-time Orangemen, gets a square deal even though he is a grit. Dr. Ross, the conservative candidate in this election, a president of the conservative association, and Hon. Loo, can say a word on behalf of his Orange brother, Mr. Robinson.

The superintendent will likely be instructed to get the new tank in working condition at once, as the gas supply from the old tank will fall short of the demand in a few days.

Tuberculosis Exhibit. The Ontario government tuberculosis exhibit has arrived, and the public are asked to visit Ontario hall to view it, as it is most instructive. The large exhibit is in charge of Dr. Ehrlington. The city council petitioned for the exhibit to be loaned to Kingston for a week.
