

Fur-Lined Coats

This is the Store for Fur-Lined Coats. We have so many to choose from you're sure of finding something to your taste. Every woman who has a thought of Furs should see this assortment, and anyone looking for desirable Gifts.

If price were the standard of quality in Furs, we'd fill the paper with Fur prices—but it isn't. In these days of imitations and careless statements it is some satisfaction to know that McKay Furs are absolutely reliable.

This Store has always represented the best, with a guarantee of perfection in quality, fit, style, and workmanship.

IF IT IS TO GET A SINK. Set up or a bath room installed. I can do it in first-class style and at the right price. Give me a trial.

DAVID HALL, Phone 335, 64 Brock St

France has accepted the offer made by Germany to refer to The Hague tribunal for settlement the question which has arisen between the two governments over the arrest at Casablanca of deserters from the French foreign legion, who, it was alleged, were under the protection of Germany.

THE 5 P.M. EDITION HOORAY FOR HARTY!

THE PEOPLE ARE AGAIN STRONG FOR HIM.

Good Times For the Workmen Assured—Good Wages and a Fine Plump Turkey, the Freeman Says.

Harty for Kingston.

Why, of course, he'll be elected.

The Laurier government has always helped Kingston.

Think of the good work done by the Laurier government.

The people want a man as representative who does things.

"What we've got we'll hold," say the 700 employees in the locomotive works.

The people haven't forgotten D. M. McIntyre's roorback of November 6th, 1900.

D. M. McIntyre and W. F. Nickle, M.P.P., are trying to belittle the locomotive works, but they can't stem the tide.

Funny, isn't it that Mayor Ross should accept appointment from a government as he thinks Sir Wilfrid's is?

Monday's nomination meeting showed how the wind is blowing. The people are with Harty, and they're going to elect him by a great majority.

Mayor Ross says the militia department has not been improved. Sorry, for he enjoys distinction as having been appointed head of the Army Medical Corps here by it.

Quite a few tories have been appointed to military positions by the federal government. Who ever heard of grits getting jobs in tory times?

Another wretched charge has been made against Hon. Sydney Fisher.

FIRM PRESIDENT.

Toronto, Oct. 20.—President Falconer of the University of Toronto, has written to the mayor, expressing regret for the occurrences of last week, in which the students did considerable damage to property and attacked street car men, as well as damaging cars. He has given warning to students that this kind of conduct will have to cease.

minister of agriculture. It is said he was caught wearing patent leather shoes while cutting the hay crop.

The tory speakers in the city hall, on Monday, forgot to read to the audience the Montreal Star's article upon the necessity of cleansing the tory party of its tainted leaders.

Gratitude should be extended to a defender of his country is the Standard's plea; then what should be given to a defamer of his country. His advice to his fellows should be cheerfully accepted?

Dr. Ross says he won't allow the Ontario government to put him in Cobourg asylum. Perhaps he would like Dr. Ryan's place at Rockwood, and have Dr. Ryan transferred to Cobourg.

Hon. W. Harty has always been assiduous in looking after local interests and in forwarding all measures and enterprises affecting the welfare and promoting the prosperity of Kingston.

Canadian Freeman: Vote for Harty, Laurier, a fall dinner and a fine plump turkey, which workmen have had since the advent of the Laurier government and the reopening of the locomotive works by Hon. William Harty.

A prominent river captain, and a lifelong conservative, intends next Monday to cast his first vote for Mr. Harty. He states that he has three houses in Frontenac ward, rented at the rate of \$10 per month, to men who work in the locomotive works, and it is to his interest to see that Mr. Harty is encouraged in building up Kingston as he has done during the past few years.

IN MARINE CIRCLES.

Arrivals and Departures of Vessels at This Port.

The steamer Kinriving arrived light from Smith's Falls. The steamer Dundurn passed on her way to Montreal on Monday night. The steamship Navajo will undergo some repairs at Davis' dry dock. Swift's: Steamer Althea, from bay points; steamer Belleville, due down to-day.

The steamship John Randall is making the Rideau trip but cannot get all the way down on account of the low water. The steamer Alexandria and steamship Waterbury, on the way to Montreal, discharged freight at Folger's wharf on Monday night.

At Richardson's elevator: The steamer Glenagarry, loaded with corn and oats, and cleared for Quebec; the steamer Cataract is loading grain for Montreal.

Mr. Hutchinson, purchaser of the steamer Argyle, is to take the steamer to Toronto, though until the liquidator is paid the vessel will remain in his hands.

At M. T. Co's. elevator: The steamer E. Monton, grain-laden, from Fort William, is due to-day; the tug Mary P. Hall arrived from Montreal with three barges, and will clear for that port with three barges.

AN ARTFUL DODGER.

When W. F. Nickle, M.P.P., stood up to address the electors in the city hall, yesterday, his first expression was a desire to answer any question from the audience, provided the questioner would rise to his feet and plainly state his question. In accordance with this promise, Mr. Nickle, with practical adroitness, did answer or evade one or two questions propounded, but when Mr. Bermingham arose and put a question to Mr. Nickle, no answer was granted. Why? Was it because Mr. Nickle knew it was a question that he could not dodge (as he did the question as to how much his election in June cost him), and to answer it truthfully would be to admit the disgraceful way in which the conservative government had treated a Canadian industry?

Mr. Nickle was boasting that the conservative government at Toronto had given some orders for locomotives for the Temiskaming and Northern Ontario railway, to the Kingston shops, because they were the lowest bidders, and claimed that a conservative government at Ottawa would always do the same. Mr. Bermingham's question was, "Did the conservative government, in ordering locomotives in 1893 and 1894, give the order to the lowest bidder?" As a matter of fact and of record, it did not do so, but ignored the bid of the Kingston shops, which was lowest, and gave the order to an American shop, which was high. Why? Perhaps Mr. Nickle knows, but dare not say; hence he ignored Mr. Bermingham's question. Very adroit, but not quite as manly as the opening part of the speech.

ONE-SIDED NOMINATION.

There never was at any time so marked a demonstration for a candidate at a nomination as that given Hon. William Harty yesterday. As to enthusiastic cheers it was a case of "before and after," whilst a contrast was painfully evident on the other side. Dr. Ross was practically deserted. In all there were on the platform, besides the candidate, the chairman, and two speakers, Messrs. Metcalfe, F. Hoag, F. Welch, John Henderson, W. F. Nickle and Contractors McFarlane and Graham. This was, again, a remarkable contrast to the crowded platforms at the last preceding and other nominations, that it is clear there is a very faint heart in the party to the local and general prospect. After the vigorous cheers for Harty a call was made for a similar greeting to Ross, but it was a complete failure. Messrs. McIntyre and Nickle aroused for a while the old-time fire of conservative feeling, nearly always louder than the liberals cultivate, but it was the flickering of a candle and died out ere the end. It is clearly not a field fight, but a newspaper skirmish.

Mr. McIntyre is singularly lacking in the gift of not seeing ourselves as others see us. He complimented Mr. Dewar upon his very excellent address and upon the high plane to which he had elevated the discussion. Then he descended himself to personal attack upon Harty, or rather resumed his own old embittered self. Ross, on the other hand, was good-humored while aggressive, and gained rather than lost in the good opinion which is an important element in campaign effects.

AWFUL DESTRUCTION.

Amoy, China, Oct. 20.—As the result of Thursday's typhoon in Chang Chow 3,000 houses, including the prefects, were destroyed and eleven hundred persons killed. In Lamcheng six hundred houses were destroyed and twelve hundred persons killed. Five years ago Lamcheng was flooded and 3,000 persons were drowned. Fifteen miles north of Chang Chow 333 houses were entirely destroyed in Thursday's storm, four hundred persons being killed.

Mr. Thompson pointed out that the board could not enforce vaccination. It could simply refuse to allow children to attend school if not vaccinated.

Mr. Meek said that the recommendation of the management committee was not harsh. It was simply a recommendation to the parents to have their children vaccinated. The board had an experience before in regard to refusing to allow unvaccinated children in the schools. Many parents would not allow their children to be vaccinated, and the result was that the school attendance was slim. What the board was now asked to do was to impress upon parents the advisability of having their children vaccinated. There was no compulsion advised.

Mr. Godwin said he was not opposed to vaccination. Lately he had been told by a nurse that she had more died of nursing consumption than small-pox.

Mr. Walkem pointed out that the recommendation of the management committee was one that could be adopted by the board without any trouble.

Dr. Anglin said there was no doubt that vaccination was a preventative of small-pox. He knew this from actual experience. He favored the committee's report, advising parents to have their children vaccinated.

Dr. Etherington, of the board of health, was present, and spoke at the request of the chairman. He stated that the city might be face to face with a serious condition if it did not take immediate action. It seemed strange that in Canada small-pox was allowed to appear and spread year after year. In Germany there was compulsory vaccination. The disease could be stamped out entirely. In Canada there should be compulsory vaccination, and it was a pity that the state did not make such a law as was in force in Germany.

Mr. Thompson asked Dr. Etherington if the three cases now isolated were really small-pox. Dr. Etherington stated that he had seen one, and that he was satisfied it was the real disease.

Mr. Thompson said that a board of the best physicians in the city should examine the cases now isolated, and report if they were small-pox. Dr. Etherington stated that Dr. Hodgetts, of Toronto, would be here this week to look at the cases.

F. R. Anglin was rather inclined to go a little further than the committee's recommendation and make the vaccination compulsory. Chairman Martin also thought it would be best to require all children in the schools to be vaccinated at present.

The board, after due deliberation, decided to adopt the committee's report and, accordingly, vaccination will only be recommended, and not enforced.

Late Marine Notes.

The steamer Corona passed on her way up from Montreal, this afternoon; the schooner Jamieson cleared for Oswego, to load coal for Anglin's; the steamer Kinriving cleared for Oswego, to load coal for Swift's; the steamer Ford River cleared for Fairhaven, to load coal for Richardson's.

Campbell Bros'. The store for reliable, well-made furs.

SCHOOL VACCINATION

IS ADVOCATED BY BOARD OF EDUCATION

But Will Not Be Enforced—It Will Be Left to the Discretion of Parents—Compulsion Failed Before.

The board of education will not force the school children to be vaccinated, but will seriously recommend vaccination to parents, and offer every opportunity for the carrying out of the same. This means that children who are not vaccinated will not be refused admittance to school. Some years ago, this provision of the law was tried, and it failed in its effect. A very large number of children would not be allowed by their parents to be vaccinated, and accordingly remained out of school.

At the board meeting last evening the following members were present: Trustees Martin (chairman), Thompson, Kenton, Dr. Anglin, Lyon, Craig, Meek, Godwin, Chown, Bennett, Anglin, Walkem and Metcalfe.

The management committee reported that there was need of prompt and effective action with regard to the enforcement of the act respecting vaccination. The board of health had information which warrants it in accepting the active co-operation of the board. The committee recommended that the board accept the city council's recommendation that parents who are able to pay the physician's fees of twenty-five cents do so; that the board pay for the vaccination of those unable to pay; that the chairman of the board name two physicians on the city council's list who shall attend the schools on certain specified days for the vaccination of children there with the parents' consent, the cost of vaccine and shields to be borne by the board; otherwise the children to call at the surgeries in the wards appointed for the purpose of vaccination, the cost in these cases to be borne by the board also.

Mr. Thompson pointed out that the board could not enforce vaccination. It could simply refuse to allow children to attend school if not vaccinated.

ONLY THREE CASES.

There are all kinds of rumors around about the number of contagious disease cases. Chairman S. S. Corbett, of the Board of Health, informed the Whig this afternoon that there are only three cases isolated. If there were others, they would at once be reported to the Medical Health Officer. No doctor would conceal a case he suspected.

Patrick And Raglan Road.

Regarding the concrete walks on Patrick and Raglan streets, about which Mr. Turkington complains, City Engineer Craig says that the board of works a week ago visited the walks and decided that they were all right. They are properly laid out, and the other residents are quite satisfied. Patrick street, he says, is now like what it should have been long ago. The rocky ledge on one side of Raglan road prohibits the building of a walk closer to the residences.

For Making Wine.

We have a few baskets of Concord grapes which we offer at 15c. others, at 20c. and 25c. Carnovsky's.

Two adjourned division court cases were argued to-day before Judge Price, the plaintiffs securing judgment in both cases. One case in which Chinamen were mixed up causing much trouble for the counsel.

Black Watch A new sensation. A real pleasure. The big black plug. Chewing Tobacco 2770

480 Stylish Coats

For Fall and Winter

To choose from. Every one new this fall. This collection of new Coats should be seen by every woman who appreciates value and the new styles.

\$10.50, 11.75, 8.75, 9.50, 7.13.75 and many others
