# THE SPORT REVIEW

## QUEEN'S III AND COLLEGIATES PLAY TO-DAY.

Queen's Juniors Expected to Win—Yacht Club Team Not Practising Enough—Queen's Seniors Preparing for McGill.

Queen's III and Collegiate will come together again, this afternoon, at the athletic grounds. Queen's were snowed under on Saturday, 22 to 10, but they claim they can win out to-day. "Curly" Campbell and "Ken" Grimshaw have been giving Queen's players a good course of sprouts, and they are greatly improved. On Tuesday night they worked out in the gymnasium for some time. The teams will line up as follows:

Queen's—Haffner, full-back; George, Goodwin, Macdonnell, halves; Kirkpatrick, quarter; Barker, Sherriff, Smith, scrum; Gibson, Omsory, outside wings; Shipman, De Brassy, middle wings; Losee, McLeash, outside wings.

Collegiate—Williams, full-back; Robertson, Dick, Twigg, halves; Reid, quarter; Ellis, Lockett, Cooke, scrum; Burns, Gairrigan, middle wings; Stewart, Slier, outside wings.

## Queen's Seniors At Work.

Queen's I had a short workout on Tuesday afternoon. Some of the players were feeling pretty sore, but none starting right down to work again, and, to-night, will have a fast practice in preparation for their battle on Saturday. The boys realize that they will have a hard fight and are preparing for it. They will be in excellent condition for the game. The second team is also keeping in trim until they hear from Toronto about their protest. If Queen's win the protest, the game will be replayed on Thursday.

## Yachtsmen Need Stirring Up.

The Yacht Club players are not getting out to practice as well as they might, and unless they have a few practices when every one is out, they may come out at the short end of the rope. They have a game with Gananoque in a few days, and the factory town have a good team, one that is trimmed Brockville, by a large score. The K.Y.C. have enough good players if they would only get out together.

## A Wrestling Challenge.

Tieborne, Oct. 20.—(To the Editor): Where is wrestler Elzebeck? I am prepared to make a match with any and all comers, but there is some Frontenac wrestler I would like to meet on the mat once again before I meet any outsiders. I am prepared to weigh at 155 pounds and am prepared to deposit a sum of money. I hope to hear from some one soon.

## Sporting Notes.

Arkansas sportsmen will organize and try to secure a new game and fish law.

McGill Herald: "Wicky" Wilson is of the opinion that McGill will triumph over Queen's.

The Canadian lacrosse team at the last moment abandoned their contemplated trip to Paris.

Barry refuses to row Darnan on Toronto Bay, but is willing to give him a match in England.

Two English rugby teams plan visits to California this fall to play Stanford and California university fixtures.

"Cy" Young's return to his home in Tuscarawas county, Ohio, at the close of the baseball season will be the occasion of a big reception at New Philadelphia, his county seat.

Ottawa Journal: There doesn't seem to be any "corner" in the Intercollegiate championship. The trophy moves around and refuses to anchor up with any one team for any length of time.

Joseph Mikulec, a long distance walker who started from Agram, Austria, February, 6th, 1906, to walk around the world on a wager, recently arrived in Mayville, having walked 14,000 miles.

"King" Chaney filed a formal protest against the Ottawa-Hamilton game on account of the Ryan trouble. If Ryan is declared to be in good standing as an amateur it is probable that the game will have to be played over again.

Dr. B. P. Rorer, of Seattle, who weighs 225 pounds, is about to take up fighting. He is six feet tall and Bob Fitzsimmons, who saw him training for his recent bout with Frank Gotch, in which he was defeated, said he would make a fighter.

Marathon Winner Hayes will present President Roosevelt with a "Big Stick," a gigantic Irish shillelagh out in Nenagh, Tipperary. It weighs twenty pounds, is about a foot and a half long, mounted in silver and inscribed "The Marathon Big Stick."

Ottawa Citizen: In tackling McGill will stand favorable comparison with Queen's, and Queen's, as most people who follow football are aware, tackle in a whole-hearted fashion regardless of consequence either to the tackler himself or to the man with the ball.

Through the purchase of the new ball park in Pittsburg, at the cost of \$800,000, Pittsburg National league ball club has effectually barred the doors of this city to the American association, which for more than a year past has been flirting with Pittsburg.

There will be many Marathon races throughout Ontario on Thanksgiving Day. What with outdoor meets last

10 CENTS PER PACKAGE.

winter, the Olympic trials from the Atlantic to the Pacific in the early spring and innumerable meets throughout the summer, track and field events have had a great year in Canada.

Hamilton Herald: The much-touted Kennedy brothers did not startle the natives of this great football city. They came heralded as the best backs the Ottawas ever had but most of them did as good work as Williams, who was the star of their back division. Fumbles were made by him, but he usually recovered himself.

Art Burn, the Calgary distance runner, was badly beaten Saturday afternoon in an eight-mile matched race at the Ottawa Varsity oval, by Hubert Tebo, a young Ottawa newspaper reporter, who only started running this year. Burn was 150 yards behind Tebo at the finish. Time 18:24.

Toronto Globe: Varsity are in no way discouraged by their defeat in Kingston Saturday, and expect to turn the tables when the Presbyterians play here on the 14th of November. Until "Moon" Lee and Hume were forced to retire through injuries the blue and white more than had their fair share of the play, and with good luck would have turned the trick.

Toronto Telegram: Rah! Rah! Rah! Higher education has developed a new trick in rugby. Queen's quarter on Saturday took advantage of the deepening dusk, passed his hat to one player and the ball to another, and while the man with the hat was tackled the one with the ball went over for a try. It has often been charged that college football players do not play with their heads, but this one certainly played with his hat.

# BENEFITS KINGSTON

## THURSDAY MARKET TRAIN OVER K. & P. RAILWAY.

Service to Be Given Another Trial, As Result of Matter Being Taken Up By the Board of Trade.

The announcement that the Thursday morning train over the Kingston and Pembroke railway would again be put into force, commencing on the 29th inst., was indeed welcome news, both to the merchants and citizens generally. Much credit is due the board of trade, for taking up the matter, for it is because of the agitation started by the board, that this action has been taken. This market train was removed over a year ago, on September 18th, 1907, much to the regret of the people living all along the line, and Kingston also offered a strong protest. The board of trade lost no time in the matter, but immediately took up the case. It took considerable time to have the train restored, but in such matters it always requires a good deal of time. But then it is a case of "better late than never." When the board of trade entered into the fight, the municipalities along the route were requested to join in an appeal to the company for the return of this train service, and all the replies were favorable. The county council also realized the great benefit to be derived by such a service, and also joined hands in the agitation.

Matters came to a head when Mr. Baker, the general manager, was in Kingston a few weeks ago, attending a meeting of the board of directors. The railway committee of the board of trade, under the chairmanship of Dr. E. Ryan, waited upon Mr. Baker, and set forth its case to him. He promised to give the matter due consideration, and the following letter, which came on from him later, brought the good news that the train service would be restored:

"Being very much impressed with the weight of the arguments advanced by the influential deputation of the board of trade, and the fact that I waited upon me on the 30th ult., to urge the restoration of the market railway for a very considerable time, but were recently withdrawn in accordance with the practice of other railway companies, I have given the matter careful consideration, and, although I am not entirely convinced that the arrangement is a favorable one for the railway company, I have decided to give it a further trial, and these rates will, therefore, be restored on Thursday, the 29th inst."

It must not be considered, however, as a permanent arrangement, although I hope it may prove, as you seemed so sanguine that it would, to the mutual advantage of the company and the merchants of the city of Kingston. Yours truly, W. R. Baker, vice-president and general manager."

That Kingston derives a benefit from this service, goes without saying. From seventy-five to close on to two hundred and fifty people come to the city, dispose of their produce, and then buy from the local merchants.

Kingston will be benefited greatly, and the board of trade has accomplished a signal service.

Craig-Hinch Wedding.

A very pleasant event took place in Kingston, on Sept. 29th, when Miss Gertrude E. Hinch, was united in marriage to William Edward Craig, Amherstburg. Rev. C. A. Sykes, of Sydenham street Methodist church, performed the ceremony. The only friends present were an uncle, W. Hinch, Ernestown, and Mrs. J. Bart, Millhaven. The bride, well and favorably known, was unattended and was prettily attired in a skirt of cream cashmere, with white liberty silk blouse and white velvet hat with white satin trimming and large white plume. After spending a few days with relatives at Ernestown and Morven the happy couple left, on Friday, for their future home at Amherstburg. Their friends wish them every happiness.

Big Values In Fine Furs.

It's a not big talk but big values in stylish, well-made furs that has made the large increase in our business this fall. Come in and examine the new styles in fur and fur-lined coats, neck pieces, muffs, etc. Any article selected now will be placed aside until wanted. Campbell Bros., the makers of fine furs.

# TUBERCULOSIS TALK

## GIVEN LAST EVENING BY DR. W. T. CONNELL

In Connection With the Government Exhibit in Ontario Hall—A Large Number of People Heard the Lecture.

On Tuesday evening the Ontario hall held a large number of people to view the tuberculosis exhibit of the provincial government and to listen to an illustrated lecture by Prof. W. T. Connell. The exhibit has been viewed by hundreds of people and all should see it some time during the week. Every step of the dread disease is put before the people telling the cause and how to fight it. Many pictures are shown in the hall of the treatment of the disease in England, Germany and the United States. On Tuesday afternoon Dr. Knight delivered an interesting lecture to the senior public school pupils.

In the evening Dr. W. T. Connell spoke on the course of tuberculosis. He stated that the tuberculosis germ was widespread and was breathed in from the dust, carried to the throat and then to the lungs. No one has lived to adult life without breathing in great numbers of these germs, yet not more than ten or twelve percent over develop tubercular disease. It is surprising how many people have harbored these germs, and yet destroyed them before they came to the disease. In post mortem examinations two-thirds of the people examined have shown that at some time they have had these germs in their lungs and had conquered them.

The doctor said that the disease was spreading and for the reason that those with it spread great numbers of the germ by expectorating. "The average consumptive," said Dr. Connell, "will spread five billion germs in a day. The bacillus will not live long in fresh air and sunlight." The speaker said that besides entering through dust germs are carried to the body through food, especially milk. Doctors had stated that tuberculosis in cattle and tuberculosis in humans were distinct diseases, but lately others report differently. They say that consumption in human beings will start from cattle. "Two per cent of the cattle in Ontario are consumptive," said Dr. Connell, "and yet no attempt has been made to inspect herds in the right way." He spoke of many cases where the disease was caught and nourished and how it was fought. After the lecture some lantern slides were shown and explained by Dr. Connell. They showed the development of the disease in the lungs.

Dr. Mundell will speak this evening. Dr. Third speaks on Thursday evening and Dean Farthing on Friday evening.

## DETAILS OF THE FIGHT

Between Medical Freshmen and Sophomores.

Special Correspondence.

Things were lively around the medical building, yesterday, it being the occasion of the Annual Initiation of Freshmen by the sophomores. At an early hour the sophomores secured about a hundred freshmen in the old medical building, where they bound and painted them. The remaining freshmen assembled near the mechanical laboratory to talk over the situation and make plans for the attack. They showed some reluctance in facing the stern realities of the situation.

## HAIR SLAUGHTER

Killed By Negligence.

Hair must have nourishment or die. If it does not have proper nourishment it will lose its vitality, grow weak and become easy prey to the ravages of the vicious and destructive germs of dandruff.

Parian Sage is a hair nourisher; it is the result of sincere study and experiment by one of the world's leading scientists.

It should be used regularly as a hair dressing by everyone with healthy hair, because it never fails to prevent dandruff, falling hair, or any scalp disease.

But Parian Sage is not only a preventive; it is a certain cure for dandruff; it stops itching of the scalp instantly; it makes hair grow thick and luxuriant. It is especially in demand by ladies, because it makes the hair beautiful, soft and fluffy. G. W. Wood, the druggist, sells it under a positive guarantee to do all that is claimed for it, or money back, 50 cents for a large bottle.

# NO TIME WAS FIXED

For Completing the Dome, So Some Aldermen Say.

Some of the members of the city property committee state that they cannot understand why the unsuccessful tenderers for the work of building the dome, are protesting about the time being extended, and further, why they should state that if they had known that they would have until May 1st, to complete the work, they would have put in a much lower figure than they did. These members of committee point out that when the tenders were put in, no time was mentioned in the specifications, the time having been fixed by the committee, after the tenders were in. The matter of time was discussed after the tender had been awarded.

Hunter & Harold say they tendered on the basis of the dome being completed by February 1st. The time was left to the architect, he being asked to get the work done "as soon as possible." He fixed Feb. 1st, and in regard to that date, Hunter & Harold figured. It was well known that the committee wanted the dome built by the end of the year. In the committee, three months was the time mentioned on more than one occasion. Mr. Graham stating that the work could easily be done in that time. No one ever thought of an extension of time till next May being made. The people wanted the dome erected at once, and Hunter & Harold were prepared to do this.

# AT THE GRAND.

To-Night "Our New Minister" Will Be Seen.

In "Our New Minister," the authors of "The Old Homestead," who wrote the comedy, are said to have about rounded up all there is to show in character realization, as it is to be found in a small cross-roads town. Of fifteen rustic types shown none are similar, the list embracing about all the principals of the settlement from the veteran postmaster to the town's last arrival, a city boy from New York, who drops in to get a job in a country store and grows up with the community. A carload of scenery and effects will be used with "Our New Minister" at the Grand to-night.

"Out In Idaho," a heart story of golden west, a tale of the joys, sorrows (and amusements) of the simple people of the early days in the far west, interpreted by a company of the plebe equipment of beautiful scenery serves to frame a series of stage pictures of great beauty and naturalness. This attraction will appear here at the Grand Opera House on Thursday, October 22nd.

Corns Between the Toes. Or on the soles of the feet, can be cured by a few applications of Putnam's Corn Extractor, which acts painlessly, quickly and with certainty. The genuine "Putnam's" always cures. Try it.
