

TWO HOCKEY TEAMS

TO BE HANDLED BY 14TH REGIMENT.

No Outsiders Will Be Imported.
The Gymnasium at the Armories Is Now in Readiness.

A meeting of the sports committee of the 14th Regiment was held Tuesday evening. An indoor basketball league was formed and a schedule drawn up, the games to start the first week in November. Teams will be entered by each company, one from the sergeants, one from the band and one from the officers.

The hockey club was reorganized and the club will likely be the same as last season, when it won the O.H.A. championship, and may be stronger. It was decided to enter two teams in the O.H.A.; a junior and a senior. All the members of the hockey team have been made members of the Y.M.C.A., so that they can enjoy the classes, and keep in condition all the time. The management are going after hockey in the right way again this year, and should retain the trophy they fought so hard for last year.

The new gymnasium at the armories is now in readiness and classes will be opened next Tuesday evening, under Instructor Palmer. Classes will be held every Tuesday and Thursday evening, throughout the winter. The new gymnasium is fitted out in the gun sheds at the end of the armories and is one of the finest in this district. It will be a great benefit to the men to have their own gymnasium to work in, and it will do great deal towards getting athletes in the regiment. The new gymnasium is a good start toward what may be an athletic association before many years have passed. The gallery ranges that were formerly situated in the gun sheds have been removed to the south gallery. In this way the men will have their baseball, shooting or gymnasium work all at once during the winter evenings.

In connection with the hockey this season the management have been in correspondence with several good men who are desirous of coming here to play hockey, but the locals absolutely refuse to have anything to do with such an arrangement. An all-Kingston team won the trophy and if such a team cannot hold it then it will have to go travelling again, as no men will be imported to play hockey under 14th colors.

This piece of information should be received with pleasure by the patrons of pure amateur sport in the city, as it shows that if Kingston has not always been well treated by the power

To Digest the Food

Bile in the intestines is as important to digestion as are the gastric juices in the stomach and bile is only supplied when the liver is in active condition.

The serious and chronic forms of indigestion are cured by Dr. A. W. Chase's Kidney-Liver Pills because of the influence on the liver, causing a good flow of bile to aid digestion and keep the bowels regular, thereby preventing fermentation of the food, the formation of gas and all the disagreeable symptoms of indigestion.

Long standing cases of chronic indigestion yield to Dr. A. W. Chase's Kidney-Liver Pills after all else has failed.

Here's the proof: "I was for many years troubled with indigestion and headache and derived no benefit from the many remedies I used. A friend advised the use of Dr. Chase's Kidney-Liver Pills and after taking four boxes the result is that I am once more in the full enjoyment of the blessings of good health."—Mr. Duncan McPherson, Consultant, Alta.
