DEFEAT THE ENEMY

TO KINGSTON AND ITS PROSPERITY.

By Voting For Hartly-Laurier Will Be Returned to Power—A Government Supported For Kingston.

Vote early. Mark your ballot for Hartly. Have we had a decent campaign?

See what you can do to bring out the vote. Every liberal should make it a point to vote.

No, Tommy, the Tories have no hopes of winning. The Whig predicts the return of the Laurier government.

The Laurier government gave you a one-cent city letter rate. Wanted—Five hundred workers for Mr. Hartly on Monday.

Go to church on Sunday and get out and plug the enemy on Monday. Hartly has been victorious in six elections. Make it his seventh victory.

Laurier is to be returned. Get into the hand wagon and the liberal procession.

Let every worker for Mr. Hartly work from the drop of the hat on Monday.

Do you want Foster as finance minister? Not much. Then vote against Ross.

Wanted—Two thousand five hundred ballots in the boxes on Monday marked for Hartly.

Every indication points to an increase in the number of liberal members from Ontario. J. H. Metcalfe has prophesied a victory for Hartly. "Mr. Hartly can't be beaten," were his words.

The only bet that a conservative leader would make was that Hartly would not have more than 200 majority.

Wouldn't it be nice for Kingston to send an opposition representative to Ottawa? Hartly is the man the Limestone City wants.

There are no national issues in this campaign. The prosperity of the locomotive works is a worthy issue in the Kingston campaign.

Come into the big procession that is following Hartly, and be on the winning side on Monday night. Hartly's side is the best side.

The ladies are strong for Mr. Hartly. He has been good to them in all their public ventures for church, hospital and poor relief, and they like him.

Over a thousand people witnessed the lantern pictures shown alongside the liberal campaign rooms, last evening, by Dr. Evans. The productions were good.

Get in line with the crowd and cast your vote for William Hartly, which means that you desire to retain in power a government which has done much for Canada—and for you.

The Tories are weeping because a nifty arrangement has not been made for this election. When the Tories ask for a "purity" agreement, it looks like

Tuberculosis Congress. You'll never develop consumption if you inhale Catarrhozone. Why it kills the germs instantly, cures catarrh and throat trouble like magic. For coughs and colds there is nothing equal to Catarrhozone. Used in hospitals, prescribed by doctors, endorsed by thousands. Catarrhozone never fails. "I suffered from nasal catarrh so badly that I couldn't breathe through my nostrils," writes G. K. Wilmot, of Meriden. "I used Catarrhozone for a few minutes and was relieved. It cured in a short time." No other remedy just like Catarrhozone—it's the best. The complete one dollar outfit is guaranteed to cure and costs \$1; sample size twenty-five cents; sold everywhere.

ORGANIZATION URGED

FOR THE STAMPING OUT OF TUBERCULOSIS.

Address By Dean Farthing Last Evening—Dr. Etherington Said That the School Children Would Aid Materially.

The last meeting in the anti-tuberculosis campaign brought out a big crowd to Ontario Hall on Friday evening. The chairman, Edw. J. R. Pense said the medical profession had lectured on the cause and treatment of the loathsome disease, and a couple of "laymen," had been called on to urge immediate organization to stamp out the plague.

In England this had been practically done in twenty-five years, and from the West Indies there was a like story, but in Canada it was still allowed to kill its tens of thousands. He advocated placing the proposed sanitarium back in the country, where the air is freer from dampness.

Dean Farthing spoke of the change of treatment in the last few years. When he was a boy they shut a consumptive up in a close room, stuffing up the chimney, even, lest one germ should escape. And the victim was made to wear a respirator for fear a breath of air might get in, uncontaminated, to his lungs. To-day, even in spite of doctors' warnings many keep sick folk in atmospheres guaranteed to kill. He knew people who regarded the suggestion that windows be opened as horrible. He strongly urged intelligent home treatment, believing that a patient stood far better chance of recovery in his home, where he was happy, than isolated and an exile. For those who could not supply the ammunition needed to fight the disease at home, he advocated a central supply bureau, where also instruction might be given on the early stages of the plague which works so insidiously.

Dr. Etherington said, when called on by Mr. Pense, that the best feature about the campaign, in his mind, had been the attendance of the school children, who would carry into all homes the news that there is such a thing as tuberculosis, and the fact that it can be cured. There had been, all along, the "what can't be cured must be endured" attitude. Consumption not being a spectacular disease, which killed its victim quickly, as diphtheria and another disease not to be mentioned just now, people neglected it. He said the first step must be compulsory notification, as of any other contagious disease, and they mustn't be afraid of the word "compulsory." Knowledge of the foe must come before you begin to fight him. The only dangerous consumptive is a careless one.

Pasteurized Milk. It is quite evident after all that we have heard, regarding tuberculosis, of the white plague (during the last year and particularly during this week), that milk should be properly cared for and freed from the germs of tuberculosis before being sold to the public. Pasteurizing is the only proper syphon of doing this. Therefore, pasteurized milk should be used in every home, and Kingstonians are fortunate in being able to secure pasteurized milk of this kind at the same price as that strained from all kinds and conditions of cows. Same is sold by Kirk & Lee.

Foster May Be Beaten. J. J. Harpell and Thomas Harpell, of Toronto, are in the city. Both are in the riding of North Toronto, where Hon. G. W. Foster is running against W. H. Shaw. They say the feeling against Foster is very strong and that there is a likelihood of his being defeated.

Hear The Returns Free. All liberals are invited to be the guests of the Reform association and the British Whig at the grand opera House on Monday night, when election returns from all Canada will be announced. All seats are free. Every liberal will be welcome.

DEFEAT THE ENEMY TO KINGSTON AND ITS PROSPERITY.

Even the Toronto World denounces Attorney-General Foy's attempt to interfere with the lawful order of the elections in the Algonquias. It declares that his course involves an important breach of principle which may lead to serious trouble.

A former Kingstonian, who resides in North Toronto, says that Shaw has a good chance to beat Foster. He thinks Robinson will beat Bristol in Centre Toronto, and O'Donoghue, the labor candidate, win in one of the other Toronto seats.

Sir James Whitney, in time, will learn the lesson, and will realize that he cannot carry his Ontario majority over to the conservative leader at Ottawa. The task that was too great for Sir John Macdonald is too great for the premier of Ontario.

The Standard editor announces that he is not and never was a citizen of the United States. He was just a resident. Good, but he's an awful "knocker." He has derided the locomotive works for two weeks, and his action won't be forgotten.

The president of the board of trade should call a special meeting of that organization, and send out a strong delegation to man the polls on Monday for Mr. Hartly. The election of Mr. Hartly is essential to Kingston's best interests and the board of trade knows this.

A government that turned a deficit over three-quarters of a million dollars in the post office department during the last year of the conservative administration into a surplus of over a million dollars, at the same time reducing rates on postage, is surely guided by sound business methods. This is what the Laurier government has done.

It's enough to make a fellow have a fit and the small-pox to hear Dr. Ross' fellow leaders calling for a pure election. The liberals wanted to conduct one last June, but the Tories wouldn't have it. Now Dr. Ross' friends say, we have no money; our treasury is empty; therefore, let us have a pure election. What do you think of that?

To show the kind of man Mr. Hartly is, an incident was lately told—before he accepted the liberal nomination—which, it is hoped, he will excuse being published. A certain gentleman in this city, a Protestant, was sick and it was necessary that he be sent away for a rest. Money was scarce in the household at the time, and his friends, unknown to the sick man, collected a purse. Mr. Hartly, who was not acquainted with the person in question, was called upon and responded cheerfully to the purse. He wrote out a cheque and handed it to the party who called upon him. Later in the day when the canvasser took the cheque to be cashed, he was most agreeably surprised, for the cheque which he had not read before, was for the sum of One Hundred Dollars.

SIR RICHARD CARTWRIGHT Speaks in the Grand Opera House This Evening.

SIR RICHARD CARTWRIGHT. Sir Richard Cartwright, who speaks in the Grand Opera House this evening, is one of Kingston's illustrious sons, being born on Dec. 14th, 1835. The Toronto Globe has dubbed him "the grand old Roman of the Liberal party."

Sir Richard is one of the few remaining members of the liberal old guard. He first entered parliament as member for Addington in 1863 and has been a member of the house of commons ever since. In November, 1873, Sir Richard became minister of finance, continuing until the defeat of the Mackenzie government. Himself defeated in that election he won in a by-election in Huron later in the year. In the general election of 1882 he again tasted defeat in Wellington county, but was returned by acclamation in South Huron in 1883. In 1887 he contested South Oxford and represented that constituency until his appointment to the senate in 1904. On the formation of the Laurier government in 1896 he became minister of trade and commerce, and continues as such. He is a member of the imperial privy council.

Sir Richard is one of Canada's greatest speakers, and though in his seventy-third year the fire of earlier years within him has not diminished. A great audience will greet the grand old knight at the theatre this evening.
