WILL PEOPLE NOTE

MORE MONEY FOR REBUILDING OF ROADS.

Twenty Blocks Rebuilt This Year—Gas Tank Foundation Can Be Repaired—Must Build Smallpox Hospital. Eighteen blocks of Kingston roads have so far been macadamized, this year, and two more are being rebuilt, making twenty in all. This is a pretty good amount of work, considering several handicaps. The city engineer thinks nearly half as much again can be done next year, if an early start is made. There will be a continuous supply of stone hereafter. However, the board of works must have more money if it is to proceed with road building throughout next year. There may be \$2,000 left of the sum voted by the people last January, but this will build probably only seven blocks.

That Leaky Gas Tank. The light, heat and power committee has yet to decide what is to be done about the defective concrete foundation of the gas tank. As no repairs can be made till next spring, the committee of 1908 will be able, if it pleases, to leave the matter as a legacy for next year's committee. The report of the Boston expert, that the foundation is beyond repair and fit only to be blasted to pieces, is laughed at by men of experience, who say that the leaks can be stopped. One engineer says that it is better for the tank to leak a little, so long as the water can be carried away by a drain.

Wants Council To Build. The Board of Health wants the city council to consider at once the question of securing a city smallpox hospital. It doesn't want the council to remain inactive, simply because temporary quarters in the fort have been secured, at a cost of \$800 or so. The fort, Col. Gordon says, may be retained by the city as long as it likes. It is certainly a fine place for an isolation hospital, but, of course, it hasn't the modern conveniences that a new building would have.

In Perfect Harmony. The cordiality produced amongst the members of differing communions in Kingston, is one of the triumphs of the Laymen's Movement. There never was a kinder brotherhood than has been exhibited. The Canadian council is composed of men of five denominations. N. W. Rowell, K.C., Toronto, chairman; E. J. B. Pense, Kingston, vice-chairman; Joseph N. Shennstone, Toronto; treasurer; J. Mackay, C. McElroy, N. W. Hoyle, K.C.; H. H. Padger, S. J. Moore, E. E. Hodgins, Toronto; Hon. W. H. Cushing, Calgary; T. S. Simms, St. John; George R. C. Crave, Winnipeg; W. M. Birks, A. O. Dawson, Montreal; H. A. Fleming, Halifax.

Rich Red Blood. The blood is the source of all mental, muscular and nervous power. If the blood is weak—you are weak. Have rich, red blood and you will not only have greater strength, but you will be able to resist disease. The best remedy to tone up health and enrich the blood is Wade's Iron Tonic Pills (laxative). They are a great nerve strengthener and blood maker. In boxes, 25c., at Wade's drug store. Money back if not satisfactory.

Begging On Street. Two middle-aged men, going around the streets yesterday, "asking alms," were looked upon as "fakes," by citizens whom they approached. The couple had a book which contained certain signatures of people they claimed gave them money, but there were many errors in the spelling, and this gave the impression that they were working a "fake" game. Late in the afternoon, they took their departure for fields unknown.

A Halloween Warning. Next Saturday will be Halloween and it will no doubt be necessary for the police commissioners to swear in an extra force of constables to attend to the small boys. The lads who go out on Saturday night for a merry time had better be careful not to damage property. This timely warning may have a good effect.

Hair Luxury. Hair may be made lustrous and beautiful and its growth be promoted at the same time by the use of Dr. Dawson's Hair Restorer. It is a toilet luxury and a remedy for all hair and scalp troubles. Restores gray hair to its natural color. In bottles 50c. at Wade's drug store.

Meets With Approval. The suggestion that Ald. Daniel Couper be a candidate for the mayoralty in January, meets with general approval. Ald. Couper can be elected, as he is everywhere popular. No doubt he will be prevailed upon to allow his name to be placed in nomination.

THE HALLS OF QUEEN'S THE DAY'S EPISODES

CROSS COUNTRY RUN FIXED FOR NOV. 7TH.

Meeting of Arts Society—The Dramatic Club Met Last Evening—The Examinations in Theology. The first regular meeting of the Arts Society was held on Tuesday. The attendance at the first meeting was not as large as it should be and it is to be hoped arts men will take a deeper interest in these meetings as they are important, not only to the arts faculty but also to individual students of the years. Mr. Knight's motion regarding the club room in the arts building was brought up and some discussion followed. A committee consisting of president of arts society, secretary of society, and A. B. Klugh was appointed and after investigation will report at some subsequent meeting on the place and cost of the proposed club room. The nomination for officers of Arts' society and Concursus Iniquitatis et Virtutis did not take place as they should have done owing to the postponement on the part of the various years. On this account the meeting was adjourned to meet next Tuesday evening at 5 p.m., when the nominations will be made. The elections will be held on Saturday morning, November 7th, from 9 a.m. till 12 noon.

The annual fall examinations in theology are being held this week. Three candidates are writing on the matriculation examinations: W. A. Dobson, A. Lang and A. D. Cornett, B.A. R. G. MacPherson will not be able to return to college on account of ill-health.

The cross-country run, in conjunction with the track club, will take place on Saturday, November 7th. It is expected that there will be a number of entries and the race will draw many to the athletic field, where it is proposed to finish. The details of the race are now being arranged by a committee of the track club and full particulars will be known in a few days. The finish will probably be before the grand stand just before the Ottawa-Queen's game. The distance will be six miles.

A mass meeting of science students is called for Friday evening in the engineering building. All the candidates, who are nominated for offices in Engineering Society and for various offices in vigilance committee will address the meeting. Messrs. M. N. Omond, and William Dobson, who for the past week have been attending the International Students' Bible conference, in Columbus, Ohio, have returned and report a very interesting and enjoyable, as well as profitable trip.

R. J. McDonald, M.A., president of Queen's University Missionary Association, and who spent the summer in England, Northern Ontario, has been returned to college halls to take final theology work. R. O. Sweeney, B.Sc., '08, ex-president of the Engineering Society, is around calling on old friends. R. S. Stevens, B.A., '08, and J. G. MacMahon, have come back to the Limestone City and have entered medicine. The Dramatic Club met in church history room, last evening, at eight o'clock. This was the final rehearsal before the critics and the trainer will be along soon. The cast this year is a strong one and the students await with interest the production of "Much Ado About Nothing," in the Grand Opera House in November.

WILL HAVE PRINTED LIST.

Of Citizens Who Have Been Placed on "Indian" List. License Inspector Wright has decided to have a printed list of the members of his "Indian" list, for the benefit of the hotel-keepers, and all others concerned. There are now seventy-six people registered and the printed list, which will be arranged alphabetically will be a great help to the bartenders. This scheme is following out the plan now in vogue in London, Ont., where there are no less than 140 people classed as "Indians." It has been given a fair test in the Forest city, and has been found to prove very beneficial. Every two months or so the list is revised, in order to get all the new names on, and then new slips are passed around to the hotelmen. In London a large number of the unfortunate have been placed on the list by the magistrate himself.

The light showers at night are gladly received by the farmers. They are now busy all over the country with their fall ploughing, and although a little behind time, they are getting the work done well. The cheapest tea to use is not the lowest priced. You can buy tea a few cents a pound cheaper that will make a drink, but if you want an absolutely pure, healthful, cleanly prepared tea use "Salada." It is infinitely more delicious and decidedly more economical than other teas, because it goes farther.

In closing, the doctor again spoke to those who thought of going to his country as missionaries. He told them that they would be well received by all sects, and that his countrymen would be glad to listen to them and learn.

A JAPANESE TEACHER TELLS HOW CHRISTIANITY IS WELCOMED

By His Countrymen—Christianity Entering Japan From West—America the Land of the Rising Sun.

About two hundred students and friends of Queen's University Y.M.C.A. assembled in Convocation hall, last evening, to listen to Dr. Danjo Ebina, the great religious teacher of Tokio, Japan. Principal Gordon presided. In introducing Dr. Ebina, Principal Gordon said: "We have been looking on the growth of Japan for some time with intense interest. I refer not to growth of territory, but to growth as a nation, and more especially do I refer to the growth which Japan has made in her religious and spiritual life. It is with much pleasure I am sure that we welcome Dr. Ebina to Queen's for we have come to look upon Japan as our nearest neighbors in the west, the Pacific Ocean alone separating us."

In rising to speak, Dr. Ebina thanked Principal Gordon for his kind remarks and in a very broken accent began to address the audience. Dr. Ebina began by explaining that the phrase so commonly used, "The Far East," was inclined to be misleading. He declared that he had come from Japan to be sure, but not from "far east," for he came from the west. After giving a very brief review of history of Christianity in Japan, and missionary work there, he spoke of the merits and virtues of the three religions of Japan—Shintoism, Buddhism and Confucianism. In each case, Dr. Ebina spoke of superiority of the Christian religion and closed his remarks by giving his audience a glance at the way in which his people—young men particularly—are seeking after the Christian religion and put forth a strong plea for assistance in the great work of evangelizing his country in which he, himself, is engaged. Dr. Ebina speaks English fairly well and is a very interesting speaker. His address was very much appreciated by those who heard him.

The speaker said that he knew all were interested in the religious welfare of his country, and that he was a worker among the workers that this country had sent out as missionaries. "Some of you may go to Japan and China to work for Christ," said Dr. Ebina, "and I want to bid you welcome." He stated that Christianity was entering Japan from the west, from the land of the rising sun, which Japan was sometimes called, but he thought America was the land of the rising sun. Many years ago the Japanese were worshippers of the sun, but always of the rising sun. Dr. Ebina said that the Christianity now introduced was giving new light and power to his country, much different from the kind of Christianity that was first introduced into it, and much of this downfall was due to the missionaries themselves. "The first Christianity was Roman Catholicism, and it failed," said the doctor. "Our ancestors expelled the Roman Catholics. The Japanese were always open, always humble to receive the teachings of others to aid them, but she was forced to exclude the Roman Catholic religion and close her doors for 250 years."

The speaker then went on to compare the truths of our religion, with those of the many religions sects in Japan, and how the truths of our religion affected the young and old of his own country. It was hard at first for them to grasp it, but when they did, they followed it diligently. "The highest honor a Japanese master for his did for his lord and master, and many ask, 'Why can I not be crucified with Christ?' and they also wished to know why the same spirit did not visit them as it visited the prophets of old."
