Facts · About the American Indian's Healthy Hair.

The American Indian accustomed time immemorial to go bareheaded in all kinds of weather is never troubled with falling hair or baldness. The close atmosphere caused by our "civilized" headgear is conducive to the breeding of infinitesimal germs, which dig into the scalp and thrive on the sap of the hair-root.

This true cause of baldness is of recent discovery and explains the nonsuccess of all hair-vigors which treated baldness as a functional disorder. Gillette, at Gibson's Red Cross drug Newbro's Herpicide is a direct ex- store. terminator of the germ. "It destroys the cause and permits the hair to grow as nature intended.

A far greater work was that which is so wonderously folded in the first chapter of the epistle to the Ephesians. Verse third of that chapter is the most wonderful doxology in the word of God and every child of God should be able to repeat it in faith and appropriate it to himself." The three persons of the Godhead are mentioned, first, God the Father, the author of blessing; second, the Lord Jesus, in whom we are blessed; third, here blessings are spiritual blessings, hence it is the Holy Spirit who pronounces them to the heart of the believer-all of which shows that the whole Godhead is engaged in the production of the great masterpiece of God, viz., the redemption of sinners and the creation of the body of the Lord Jesus Christ-the fulness of Him that filleth

In this great masterpiece that God the Father has planned, verse six of the first chapter of Ephesians tells us the Son's part. The Son of God came from the bosom of the Father to make salvation possible. He came to redeem the world He had created. The word "redemption" has a three-fold meaning: (1) It means going into the (2), it means buying the slaves, paying the price; (3), it means setting from the fact that practically every blood; He sets sin's captives free.
