

WHERE SAVAGES BEAT US

The ride, unprepared savage did not sit most of the day in a padded office chair, a carriage or car. His food was not prepared by a chef. He had to hunt for something to eat. And dinner, when he got it, was none too rich.

But the rude, uncultured savage did not suffer from indigestion, constipation, biliousness, headache, as we civilized beings do. Exercise and the amount of fruit and fresh vegetables in his diet kept liver, bowels and kidneys working right.

None of us want to go back to the days of wigwags and tomahawks but a lot of us certainly would like to have the digestion of the savages.

We can, by taking "Fruit-a-tives." "Fruit-a-tives" act directly on the stomach, liver, kidneys and skin, and keep these organs in perfect condition.

"Fruit-a-tives" bring back lost appetite and sound digestion to the Dyspeptic—regulate the bowels of those who suffer from Constipation—and build up the whole system. Trial size 2c. Regular size 50c, or 6 for \$2.50.

Everything She Ate SEEMED A BURDEN TO CARRY.

HAD STOMACH TROUBLE FOUR YEARS.

When your food has not been properly digested, your body has not received the benefit it should. The exertions of the gastric juice have been confined entirely to removing the unassimilated undigested portions of food which they cannot properly digest as speedily as possible from the body, thereby only giving the blood a small percentage of nourishment with which to feed the tissues.

Mrs. D. A. Francisco, Roseland, B.C., writes: "I was suffering from stomach trouble of the worst kind for about four years. Everything I ate seemed a burden to carry. I always arose in the morning with a sickening and feverish taste in my mouth and was also troubled with swellings in my hands and feet, which my physician said was due to the disordered state of my stomach. I tried everything that was purchasable, and also consulted two or three physicians, but could find no relief until one of my neighbors told me of a wonderful cure by Barlock Blood Bitters. I used altogether ten bottles and am now perfectly cured. I wish to recommend B.B. to anyone who may be so unfortunate as I was.

DOCTORS SAID 'CUT OFF'

The only thing I can do now is to take the finger completely off. It cannot otherwise be cured.

So said one of the leading doctors of Toronto to Mr. W. C. Edwards, P.D.C.R.A.O.F., P.G.M.I.O.O.F., of Peter Street, Toronto. Almost a year before, Mr. Edwards cut the middle finger of his left hand very badly and blood poison ensued. For two months the doctor had been treating him, but no good had resulted, and this was the final decision. A fifty-cent box of Zam-Buk saved Mr. Edwards from life-long mutilation which \$500 would not have compensated him for. He says: "The blood poison from the finger spread up my hand and arm and caused me terrible agony. After months' treatment the doctor said there was no cure, and amputation would have to take place if I intended to save the arm. My hand, at that time, was all swollen up and discolored, and I had to carry it in a sling. I left that doctor and consulted another.

After a few weeks' treatment he also told me that operation would be necessary, and the finger would have to be opened so that the bone could be scraped. I went away to consider when I would have the operation performed, and met a friend who advised me to try Zam-Buk. That night I bathed the wound and put on some Zam-Buk. I got a little sleep for the first time for many nights. In the morning the wound began to bleed instead of the foul discharging as in the past. This was a healthy sign so I went on with the Zam-Buk. Well, to cut a long story short, in a few days I put away the sling and in a few weeks the finger was healed completely. To-day that finger is as sound as a bell and I owe it to Zam-Buk."

A Fine Cantata. Hartington, Nov. 16.—A very successful Thanksgiving entertainment was held in the church here on the 9th inst., at which a choir of nearly forty voices rendered in an artistically pleasing manner the cantata "Under the Palms." The programme was opened by a patriotic song, "Soldiers of the King." Rev. T. Cornell then gave a short address. Part I of the cantata was then given after which refreshments were served. Wilkie Collins, Toronto, now in charge of Verona circuit, was called to the platform, and gave an interesting talk on Thanksgiving, which was very much enjoyed. Part II of cantata followed, concluding with a grand finale, "Marching Home." The programme throughout was of a varied and interesting character, and was fully appreciated by a large and attentive audience. Bert Campsall's sale was held on Thursday, 12th inst. Mr. and Mrs. Campsall intend visiting Niagara Falls before their return to Ottawa. F. Jeffrey has gone to Kingston General Hospital. Ross Freeman has returned from Peterboro. A fall of several inches of the beautiful has made sleighing possible, and many are enjoying the smooth and rapid transit.

THE STOLEN HORSE. An Old Proverb With a New Application. The woods are full of "so-called" remedies for baldness. You may call anything in creation a remedy, but to use them is like locking the stable after the horse is stolen. Baldness and dandruff are caused by a germ—if you don't kill the germ the germ will kill the hair. Scientists have labored with the problem of a preventative for baldness for many years. Herpicide is the product of a modern idea and will cure dandruff and prevent baldness because germs cannot exist when you apply Herpicide. Herpicide is a valuable hair dressing and scalp disinfectant as well as a cure for dandruff. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
