ECLIPSE OF THEIR SUN. The World is candid enough to tell of some of the places which the conservative party had in view with which vanished like a vapour with the last election. Who does not recall the boasting of Mr. Hanna, the dom-

All of this limber is located in the Willow River District on solid level ground, lies close beside good water for logging, and is mostly White Spruce of a superior quality. It averages 30 inches in diameter and ranges from 90 to 160 feet high. The limbs commence half way up. There is some good tall Pine and Balsam. The Grand Trunk Pacific and the Canadian Northern surveys both cross the Willow River lower down than our limits. The limits were cruised by James M.
