

AMBEROL RECORDS for The EDISON PHONOGRAPH

The greatest improvement in sound-reproducing instruments was made when Mr. Edison invented Amberol Records for the Edison Phonograph

No one thing has added so much to the pleasure of the Edison Phonograph as a Record which plays more than four minutes, and reproduces the melody or voice so clearly and perfectly that the illusion almost defies detection.

Edison Amberol Records are the same size as the ordinary Edison Records. They can be played upon any Edison Phonograph by the addition of an attachment which any dealer can supply and any dealer can affix.

Longer selections are now available for the Edison Phonograph than have ever been available before for any sound-reproducing machine, and these selections are better given.

No Edison Phonograph outfit is complete without the attachment to play Edison Amberol Records.

You can hear these new Records at any dealer's. Learn about the attachment and equip your Phonograph with it today. If you haven't an Edison Phonograph, you can now buy one which plays both styles of Records—the two-minute and four-minute.

We will be glad to send to anyone, however, a booklet describing the new attachment, describing the Amberol Records, giving a list of the music now available on these Records and giving all the other information necessary to make it possible for you to get more than twice as much enjoyment out of your Edison Phonograph as you are now getting.

We desire Good, Live Dealers to sell Edison Phonographs in every town where we are not now well represented. Dealers having established stores should write at once to National Phonograph Company, 100 Lakeside Avenue, Orange, N.J., U.S.A.

The sale of DEWAR'S "Special Liqueur" increases yearly!

No Stropping No Honing

NO more of that guilty hang-dog feeling with your hand to your chin, knowing that you are not shaved—but should be.

Five minutes every morning with the Gillette Safety Razor becomes an easy habit—no stropping, no honing—the one safety razor that is safe—cannot cut your face. The only razor that can be adjusted for a light or a close shave.

More than two million Gillette users. The marvellous Gillette Blade does the work.

Gillette Safety Razor

Stop at a store and buy a Gillette to-day. Standard Gillette Razor with 12 blades (by cutting edges) \$2.00. GILLETTE SAFETY RAZOR CO. OF CANADA LIMITED, MONTREAL.

Probably She Meant It. The Delinquent. Lucile, a carefully brought up little girl of five years, returned from her first party in great glee. "I was a good girl, mamma," she announced, "and talked nice all the time."

"Did you remember to say something pleasant to Mrs. Townsend just before leaving?" her mother asked. "Oh yes, I did," was the enthusiastic reply. "I smiled and said, 'I enjoyed myself, Mrs. Townsend; I had a lot of better dinner than I thought I'd have.'"

THE SPORT REVIEW

YANKEES SORE OVER HAYES' DEFEAT.

Campbell and McMahon, of Hamilton to Train 14th and Queen's Hockey Teams—Ottawa Will Get Phillips.

"Bud" Hamilton will play hockey at the Michigan Soo. Longboat's feet have given out, and several minor engagements have been called off.

Highland is the greatest centre half Varsity has developed since the days of Casey Baldwin.

Dorando does not drink whiskey at all, but he is said to be a fiend after the red wine from Italy.

Eastern Hockey League referees will be allowed \$25 for the Ottawa to Montreal trip, and \$35 to Quebec.

Longboat wants "Tom" Flanagan to be "best man" at his wedding, which takes place December 30th.

Ketchell knocked out Papke in the eleventh round for the world's middle-weight championship. Welsh, the Englishman, beat Abe Attell.

The hockey team now counted on by Ottawa is: Lesieur, goal; Taylor, point; Shore, cover; Stuart, rover; Walsh, centre; Phillips, left wing.

Wednesday was a great day for Italy. Dorando defeated Hayes, and an Italian car won an international automobile race at Savannah, Georgia.

Ottawa Citizen: "Tom" Longboat is going to marry an Indian maiden from the Deseronto reserve, and will no longer paddle his own canoe. It is to be hoped that he will allow her to steer.

To the Hamilton Spectator, "Dinky" Campbell, athletic trainer said: "Queen's could beat Varsity on a dry field at any stage of the game, but in the heavy going our wings cannot get up under Williams' long punts, and this is what beat us for the championship."

Ottawa will allow "Tom" Phillips to make his own terms if he will sign for the coming season. A diligent search for the player in Kenora, Winnipeg, Vancouver and elsewhere failed to locate him, but he has now been found and will likely play again for Ottawa.

Hamilton Spectator: Campbell and McMahon will return to Kingston on January 1st. McMahon to handle the 14th Regiment hockey team, and Campbell the university hockey team.

"The Queen's bunch expects to win the intercollegiate hockey championship this year. They are a great bunch of fellows down there, and certainly know how to treat chaps right," commented Campbell.

They do not take Johnny Hayes' defeat with good grace in some places across the line. What will it be when Longboat puts away Pietri on December 15th? Says the New York World: Men and women in the boxes leaped far over, screaming in admiration. Men who were present at the stadium last July, when Hayes was declared victor, wept as they witnessed his defeat. Richard Croker, who started the race, appeared inconsolable. The gate was \$18,000.

The New York Globe says: "The race was as much like the London Marathon as a game of soccer football compares with college football. The race was a very little test of the respective merits of Hayes and Dorando as real Marathon runners. Who ever heard of two Marathon racers going twenty-five miles of the twenty-six, shoulder to shoulder? Or who ever heard of a real Marathon race, which was undecided till within 325 yards of the finish? The struggle was essentially a track race. There was no doubt at any moment that the Italian was Hayes' master at this style."

Dumb Wife Talked Too Much. New York, Nov. 28.—Vice-Chancellor Stevens announced at Newark, N.J., yesterday, that he had advised that a decree of divorce be granted to James W. Nash, of No. 186 Orange street, Newark, against Sarah Louise Nash. Although Nash and his wife are deaf and dumb, one of the reasons alleged by the husband in justification of his petition was that his wife talked too much. He alleged that she continuously scolded him in the sign language.

In Christian England. For selling picture postcards inside St. Paul's cathedral, a hawker, named John Walker, was at the "fourteen days" hard labor. This in Christian England's first temple of worship of a Saviour who was all love and pity! Hard labor for two weeks for daring to sell cards is a cruel perversion of justice. In his strongest indignation and action, our Lord merely drove from the temple the money changers. He did not imprison them. He was corrective, but not cruel.

Coal And Prosperity. It has been computed that in 1840 the production and consumption of coal in the United States amounted to a quarter of a ton per head for the entire population; in 1860 the ratio had risen to half a ton per head; in 1880 it was one ton, and in 1900 five tons. As the population itself was increasing enormously all this time, the increase in the amount of coal produced and consumed was, of course, vastly greater than these ratios per head would indicate. The increase has gone hand in hand with the growth of manufacturers and industries.

Piles Cured In 6 To 14 Days. Pazo Ointment is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50c.

Rev. Charles Edward Stowe has resigned as pastor of the Congregational church at Brewster, Mass., and will seek Anglican orders. He is a son of Harriet Beecher Stowe, was confirmed by Bishop Eastburn, and after graduating from Harvard College in 1875, was never ordained was due to the steadfast opposition of his father, Rev. Dr. Calvin E. Stowe.

Mr. Fleming, formerly of the Church of Scotland, was confirmed in Wycliffe College recently by Bishop Stringer. After a year's preparation he will join Rev. E. Beck in the far north—further north than any other worker. Is such a sincere worker, or Rev. C. E. Stowe, to be impugned in the way a correspondent in this issue does, when challenging changes?

BROCKVILLE'S LIGHT PLANT.

Municipal Operation is Profitable Business.

Brockville, Nov. 28.—Brockville's light and power department has just closed its fiscal year. The statement shows that the gross profits for the past eight years were \$13,404.53, and the net profits for the same period \$9,977.35. During that period reductions to the consumer in the way of illuminating gas had been made from a rate of \$2 per thousand feet in 1900 to \$1.12 in 1908, and fuel gas was reduced from \$1.25 per thousand to \$1.25. The price of electric current per kilowatt-hour, net, was lowered from .20 to .19. Another feature of importance is the fact that every dollar due the department in the past year was collected, and that for the past eight years the budget sheets of the department were a mere bugaboo. The profit for the past year was \$8,331.55.

Which Foot Walks Faster? You make think this a very silly question to ask, but it isn't. It is a simple, demonstrable fact, which you can prove to your own satisfaction in a very few minutes. If you will take a pavement that is clear, so that there will be no interference, and walk briskly in the centre, you will find that before you have gone 50 yards you have veered very much to one side. You must not make any effort, of course, to keep in the centre, but if you will think of something and endeavor to walk naturally you cannot keep a direct line. The explanation of this lies in the propensity of one foot to walk faster than the other, or one leg takes a longer stride than the other, causing one to walk to one side. You can try an experiment in this way by placing two sticks about eight feet apart, then stand off about sixty feet, imitating yourself, and endeavor to walk between them. You will find it almost impossible.

Clerical Advice. London Tribune. A suffragette sneered at Mrs. Humphry Ward's queer logic the other day. "I know the prolix lady was against votes for women," she said. "At a lunch for suffragists in New York by means of a parade she pointed out her belief that the immediate home circle, not the distant polling booth or senate chamber, was the true feminine sphere of usefulness. We didn't applaud, I assure you."

She said an aged Scot told his minister that he was going to make a pilgrimage to the Holy Land. "Campbell, when I'm there," said the pilgrim, complacently, "I'll read the Ten Commandments aloud from the top of Mount Sinai."

"Saunders" said the minister, "take my advice. Bide at home and keep them."

Old Clock Begs. Many a passenger on the streets of Leicester, England, has stopped and stared at a novel sight outside the church of St. Nicholas, a huge old wooden clock-face. It does not tell the time, but it tells something else—that this church wants to pay for a new clock in the tower. In the middle of the face stands a contribution box, with this legend:

The old clock which has been in the tower for considerably over a century, being worn out and past repair, the vicar and churchwardens appeal with confidence to the general public to assist them to replace it. Contributions may be put into the box or forwarded for acknowledgment to Rev. E. Aitkens, the vicarage."

Well Informed. Philadelphia Ledger. Lord Avebury told a good story on the opening of the Moral Education Congress now sitting in London. Lord Avebury pleaded that education, as it is now, is too narrow, and quoted the words of Doctor Creighton that a man may get a degree without knowing the difference between a planet and a star.

"That reminds me," said Lord Avebury, "of how one beautiful moonlight night I was walking home from the House of Commons with a friend. He looked up at the moon and said: 'My dear Lubbock, I often wonder how it is that the moon changes its shape so often. I suppose it is one of those things we shall never find out.'"

Why China Has Few Trees. Frank N. Meyer, the scientific explorer for the government, in his recent penetration of China, saw farms that had been under irrigation since before Columbus discovered America. To the credit of the pagan priests, he it said, all forms of plant and tree growth were cherished and encouraged around the temples. The priests gave Meyer what information they could. The extent to which forest devastation has gone in China can be inferred from the fact that the Chinese have rooted and grubbed out every vestige of tree growth the size of your finger above the graves of their revered ancestors.

A Dentist's Child. Philadelphia Bulletin. Dr. Frank C. Bostwick, official dentist to the Sultan of Morocco, has been spending his vacation in Philadelphia, N.J., at a recent dinner he said, apropos of a bad child: "It is wise to punish children, but not corporally."

"I know a dentist in Gibraltar who got out a birch rod to punish his little son with one day."

The boy, looking at the rod, said, piteously: "Papa, would you mind giving me gas first?"

Divided In Death. The Bishop of Worcester, in consecrating a portion of a new cemetery at Atherstone, deplored the division of burial grounds between churchpeople and dissenters, and the line drawn between consecrated and unconsecrated portions, saying he did not like to see this division in death.

Men should look for this Tagon Chewing Tobacco. It guarantees the high quality of Black Watch The Big Black Plug.

Revive Your Hair. If your hair is dry, brittle, faded or lusterless, the hair glands lack vitality. Restore health and proper growth and vigor by toning up these glands by the use of Dr. Dawson's Hair Restorer. Restores gray hair to its natural color. In bottles, 50c., at Wado's drug store.

Will Re-Wed Boni. New York, Nov. 28.—The World's Paris correspondent cables Princess Gould, New York, will apply for a separation within two months and will sooner or later re-wed her first husband, Count Boni de Castellane. The World is informed on high authority.

The man on the political fence will soon take his tumble.

A lot of dependent individuals also get very independent.

If You Have Rheumatism

Read This Offer. A Fifty-Cent Box Mailed Free to All.

JOHN A. SMITH, Discoverer of the Great Rheumatism Remedy, "Gloria Tonic."

On the theory "that seeing is believing," John A. Smith of Windsor, Ont., wants everyone to try his remedy for the cure of rheumatism at his expense. For that reason he proposes to distribute fifty thousand 50 cent boxes among all persons sending him their address. Mr. Smith had suffered all the agony and torture from rheumatism, and tried all the remedies known and yet utterly failed to find relief.

At times he was so helpless that he had to take morphine and after considerable doctoring he gave up in despair. He began studying into the causes of rheumatism and after much experimenting, finally found a combination of drugs which completely cured him. The result was so beneficial to his entire system that he called his new remedy "Gloria Tonic." Those of his friends, relatives and neighbors suffering from rheumatism were next cured and Mr. Smith concluded to offer his remedy to the world. But he found the task a difficult one as nearly everybody had tried a hundred or more remedies and they couldn't be made to believe that there was such a thing as a cure for rheumatism. But an old gentleman from Seguin, Texas, wrote him saying if Mr. Smith would send him a sample he would try it, but as he had suffered over thirty years and wasted a fortune with doctors and advertised remedies, he wouldn't buy anything more, until he knew it was worth something. The sample was sent, he purchased more of it, and the result was astonishing. He was completely cured. This gave Mr. Smith a new idea, and ever since that time he has been sending out sample boxes to all who apply. At National Military Home, Kansas, it cured a veteran of rheumatism in hips and knees. In Hannaford, N. Dak., it cured a gentleman who writes: "Since taking 'Gloria Tonic' I am as supple as a boy."

Stayner, Ont., it enabled a lady to discard her crutches. In Westerly, R.I., R.R. No. 1, it cured a farmer, 72 years old. In Mountain City, Wis., it cured an old gentleman after suffering 33 years, and after seven physicians had tried in vain. In Hull, Que., it cured a gentleman of chronic inflammatory rheumatism which was so severe that he could not walk a block without sitting down. In Lee Valley, Ont., it cured a gentleman of lame back and Salt Rheum. In St. John, West N.B., it cured a case of Sciatic Rheumatism after other remedies had failed. In Oconto, Ont., it cured an old gentleman 80 years of age.

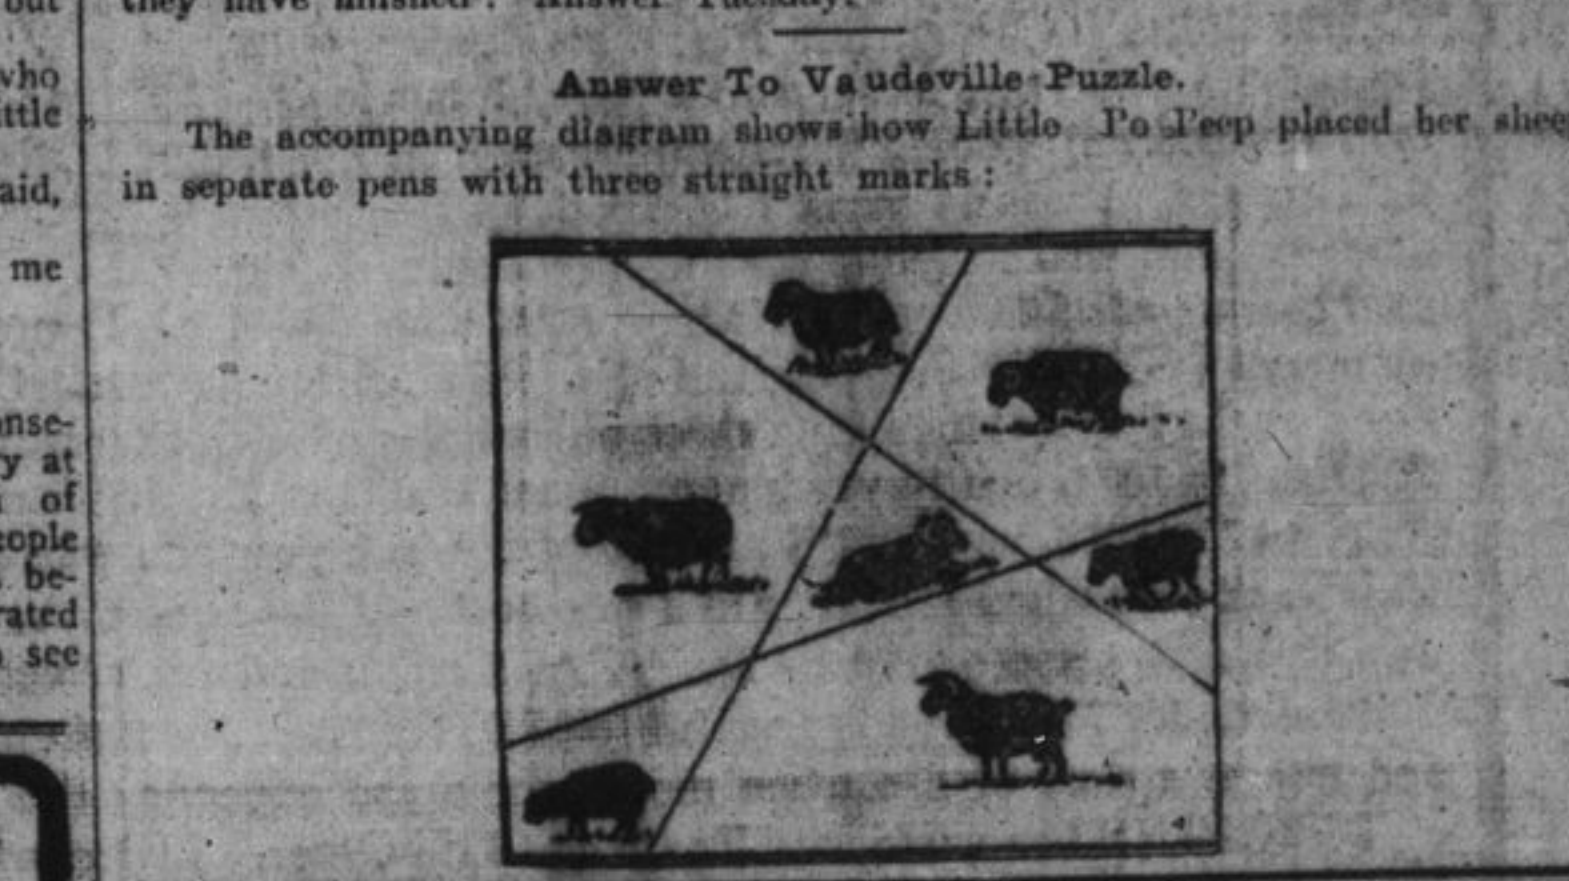

Mr. Smith will send a fifty cent box, also his illustrated book on rheumatism, absolutely free of charge to any reader of the British Whig, who will enclose the following coupon, for he is anxious that everybody should profit by his good fortune. Don't doubt, fill out coupon below and mail to-day:

COUPON FOR A FREE 50c. BOX OF "GLORIA TONIC" JOHN A. SMITH, 228 Laing Bldg., WINDSOR, ONT. I am a sufferer from rheumatism and I want to be cured. If you will send me a 50 cent box of "Gloria Tonic" Tablets free of cost and post paid, I will give it a trial and will let you know of the result. My name and address is: Name _____ Street No _____ City _____ State _____

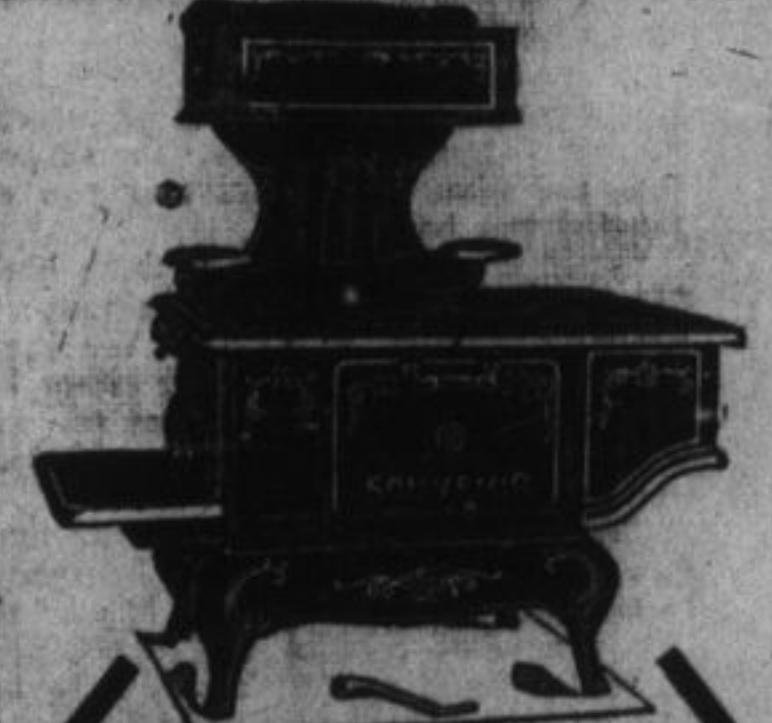

HORSE RACE PUZZLE.

Here is a puzzle picked up at the race track which, like all problems connected with the turf, is not as simple as it appears. Three horses—A, B and C—started and finished in a race. In how many different ways could they have finished? Answer Tuesday.

Answer To Vaudeville Puzzle. The accompanying diagram shows how Little Po'lop placed bet sheep in separate pens with three straight marks: [Diagram showing sheep in pens]

THE OVEN DOOR

It's insulated in a SOUVENIR RANGE—built like a refrigerator door.

The oven door has double walls, with 1 1/2 inches air space between. No oven heat is wasted.

Results—less fuel, even temperature.

That's the SOUVENIR RANGE

THE GURNEY, TILDEN CO., LIMITED. HAMILTON, ONT.

BRANCHES AT MONTREAL, WINNIPEG, VANCOUVER.

For Sale By S. J. Horsey, Kingston.

MEN AND WOMEN. Use Big 44 for unsaturated chlorophyll, indigestion, irritations or absorption of the blood, nervousness, faintness, and just generally of weakness. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for \$1.00. 25¢ per bottle. Circular sent on request.
