Push a Cork in if you can't pull it out

We can't escape the 35 per cent. duty the States impose on Canadian ammunition.

But we drive the cork in with quality.

Witness the 20,000,000 rounds of Dominion ammunition sold across the border in a single year, and not one complaint worthy of consideration.

For all makes of arms. Costs one-third to one-fifth less than duty paying ammunition. Our guarantee puts all risk on the Dominion Cartridge Co., Ltd., Montreal.

DOMINION AMMUNITION

CARTER'S LITTLE LIVER PILLS.

CURE

for Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all, sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold by druggists everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

UNNA DEFINES A CAUSE.

European Skin Specialist Says Dandruff is Caused By Parasites.

Upon that theory proved beyond a doubt, a cure for dandruff was sought after. Scientists, chemists, druggists and physicians all "took a hand," and the successful issue is the present product known as "Newbro's Herpicide."

This remedy actually kills the parasites that infest the hair, then does its work most effective and contains not an atom of substance injurious to anything else than the germ alone. Herpicide causes the hair to grow as nature intended it should, soft and abundant.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and $1. C. W. Baholt, special agent.

"CAN I GET WELL?"

If Your Trouble comes from the Kidneys, or from Kidney Poisons in the Blood,

YES!

And if you have been ailing a long time don't lose your courage. It takes a little time—takes some constitutions longer than others. But Doan's Kidney Pills will gradually drain the poisons out of your system; the pain in your back will stop; the sediment in the urine will cease; there will be no rheumatic pains; you will feel freer and brighter, and when the last of the poisons have gone you will be well.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effective in taking them out as Doan's Kidney Pills.

Mr. W. Perkins, South Maitland, N.S., writes: "I feel it my duty to let you know of the great cure I have obtained by using Doan's Kidney Pills. For six months I could not obtain a good night's rest, had to get up four or five times to urinate, and the urine was very thick and red. I commenced using Doan's Kidney Pills and in a very short time I was right and fit again. I am very thankful to have found so speedy a cure."

Price 50 cents per box, 3 boxes for $1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."

THE SPORT REVIEW

THE CANADA'S CUP YACHT CONTROVERSY.

Johnson is Not Hitting Hard Enough to Beat Burns—Flanagan Will Bet $1,000 That Longboat Beats Dorando.

An age limit in junior rugby would certainly help the game in the cities.

Edmonton has arranged for an excursion to Montreal. The return fare will be about $58.

Boxing is becoming very popular at Calgary. Attell and Merino may fight there shortly.

Battling Nelson declares he will not defend his title of lightweight champion before March next.

The University of Washington, of Seattle, will introduce modern rowing methods into Japan.

Longboat's friends say he was "shamming" in that race against Smallwood at Philadelphia.

Manager Flanagan wants to bet $1,000 that Longboat will beat Dorando a lap in the coming race.

Sculling Champion Frank B. Greer, of Boston, may go to England or Australia for professional races.

A race in which Longboat, Shrubb, Hayes and Dorando are to start, is proposed for New Year's eve in New York.

Young Corbett, the former featherweight champion, is on his way to New Orleans, where he is to fight Phil Brock on Dec. 15th.

Pittsburg Despatch: Alf. Smith, the demon hockey player, is now starring in a thrilling sketch entitled, "Who and Why is Smith?"

Toronto Telegram: December 26th is Boxing Day, but it wasn't so named first because the Burns-Johnson fight is fixed for that date.

At a meeting of the Athletic directorate of Toronto university it was decided to make a contribution of $200 to wipe out the deficit of the Canadian Olympic committee.

Ice racing is likely to be one of the leading sports of the winter season in Winnipeg. An association with two tracks has been formed, and individual as well as joint meets will be held.

Madoc, Marmora, Stirling, Norwood and Warkworth will be in the Trent Valley league this season, and in all probability Havelock and other teams. Madoc was the winner of the league last season.

"Jem" Driscoll, featherweight champion of England, knocked out Charles Griffin, featerweight of Australia, in the eleventh round of a bout which proved the best boxing exhibition seen in Boston in many years.

London Advertiser: Regina is going to challenge for the Minto cup. To this end they are hiring all the demon lacrosse players between Ottawa and Edmonton. Times must really be good in that country. This across business will separate them from a little.

What is believed to be the oldest baseball in the world will be shipped to the National commission by Ed. Laughlin, of Jackson, Miss. It was used November 3rd, 1865, in a game played at Williamsport, Pa., for the state championship, which ended 61 to 35 in favor of Williamsport.

The Rochester yacht club is weakening on its own proposal and does not want to have the Canada's cup rules considered in connection with Seneca's eligibility as a Canada's cup competitor. The Royal Canadian club, of Toronto, will insist on Rochester holding to its own suggestion.

Toronto Telegram: "Will we feed or decorate the Tigers?" That is the question that is agitating all Hamilton, and it has grown so interesting that it threatens to interfere with the checker game that is the Ambitious City's winter sport. Why not settle it all by passing out to each of them a Christmas turkey?

Cables from Melbourne state that Johnson will have to develop his hitting powers if he expects to win from "Tommy" Burns on Dec. 26th. Australian sporting men, who have sized up the pair carefully, have publicly expressed the opinion that Johnson is the cleverer boxer of the pair, but that Burns is the harder hitter.

Cy Young says that next season will wind up his career on the diamond. Young also has induced the Boston American league club to retain his old side partner, Catcher Criger, for whom Chicago, Detroit and St. Louis recently made flattering offers. Young and Criger have been one of baseball's greatest batteries.

Toronto World: To race or not to race, is the situation as to the Canada's cup. Rochester wants to use the Seneca, now a salt-water yacht, and the R.C.Y.C., of this city, say it is against the spirit of the rule. Or, rather, the R.Y.C. people say they want to defend with the old boat now owned by Capt. Hanan, of New York, to which some local sailors retort that it is an indirect method of refusal. No thought of any fear of the Seneca, for it is Toronto's idea to build a boat on improved and faster lines to bring back the cup, no matter if the defender is knots faster than the Seneca.

"Brewster's Millions."

"Brewster's Millions," the most successful farce-comedy of recent years, will be the attraction at the Grand on Wednesday, December 16th. Edward Abeles will be seen as "Monty" Brewster, which he plays so well that one forgets the absurdity of the thing and sympathizes with the young millionaire in his desperate effort to get rid of one million within a year in order to be eligible for a second inheritance. The other characters are in practically the same capable hands identified with the play during its long run.

Banqueted Him.

Montreal, Dec. 11.—Last night a banquet was tendered to Honore Gervais, K.C., by the citizens of St. James Division of the city, at the Place Viger Hotel. The function was well attended, and the representative of the division was received with every sign of enthusiasm.

Notice.

Legal forms, customs entry blanks, etc., for sale at Whig office, the cheapest and best place to buy printing.

WHY WOMEN TALK LITTLE.

Compared With Stupidity Loquacity Is a Joy.

Can it be that nature is re-asserting her authority? We may not deny that upon the all females, except those politely considered as human, she did and does enjoin submissive, silence. It is the cock that crows, the gander that honks, the father bird that sings, the bullfrog that gulps, and even the masculine grasshopper that stridently rasps his wings. So to-day, in conformity with barbaric custom, quietude is imposed upon the harem of the Turk as upon that of a chanticleer, but how long since not without cause did we suppose we perceived the reappearance of the habit among civilized peoples!

Are we not, then, driven to the conclusion that women of to-day are beginning to talk less in the hope of thus better pleasing men? If so, while commending the motive we would unhesitatingly question the method. American women err grievously in assuming that their actual or would-be lords dislike to hear them converse upon suitable occasions. The mere music of their voices as contrasted with the raucous male more easily counterbalances any possible disparity in the ideas expressed.

And compared with sheer stupidity or studied sulkiness, loquacity is a joy to all mankind. Upon all grounds therefore—in the interest of progress and enlightenment, for the unburdening of the spirit, to enchance cheerfulness, to discourage care, to brighten the home, for sincerity's sake no less than for circumspection's, even for the preservation of peace and quiet within and without the American family—we cry out for a loosening of the delicate tongues now so strangely and so suspiciously stilled.

LEVELLING TRACKS.

Working of Whitewash Car—New Scientific Method.

Curiosity is often displayed by travellers over the method employed in making mile after mile of trackage so level that scarcely an undulation can be felt as the whizzing train reels off the laps. This levelness is maintained by the "whitewash" car.

The "whitewash" car is an ordinary vehicle fitted out with a sort of whitewash magazine. As the cars run over the rails at a moderate gait the developed sense of the division officials notes any individualities, and at each one a valve is pressed, whereat a dash of whitewash falls on the tracks at the points where later the working gangs get busy to make things even.

This homely "whitewash" car is giving way rapidly, however, to a more modern and scientific arrangement in the way of a handsome coach elegantly fitted out with many comforts, and in which is to be found a delicate instrument. This latter is so constructed that it registers all unevenness in the tracks on paper, which has indicated on it the mileage and names of stations along the way so that when a run is completed it will be shown just where repairing needs to be done. The indicating sheet is sent to the proper department heads of the company, and by them the work of making the roadbed level is prosecuted.

EDUCATION IN GASOLINE.

It Cost Standard Oil $250,000 For Promotion.

New York, N.Y., Dec. 11.—Branching off into a new line of testimony, which will be introduced to show economic development leading to the growth of the business of the Standard Oil company, counsel for that corporation put L. T. Drake on the stand in the hearing of the government suit for its dissolution. Mr. Drake for many years was engaged in the marketing of Standard Oil products. He said the sum of $250,000 had been spent in educating the people in the advantages of using gasoline.

"The work was so successful, that in 1907 and 1906, the demand for gasoline equaled the supply," said the witness.

"We employed at one time 185 agents to go about the country teaching the people to use gasoline stoves and gasoline power engines," said Mr. Drake. Mr. Kellogg asked if the price of gasoline had not increased three or four times in the last few years. The witness said it had not, but possibly the price had doubled since 1897.

PARTRIDGES IN MAINE.

Abundance of Birds in Maine Woods.

A feature of this year's hunting season in the Maine woods has been the abundance of partridge. Commenting on the matter, the Kennebec Journal says: "A well-known eastern Maine guide claims that the hedge-hog law passed by the legislature four years ago and repealed last season has had the indirect effect of giving the partridge a chance to multiply. This law authorized the payment of a bounty on hedgehogs, and while it was in force resulted in killing off the porcupine almost to the point of extinction. This man says that the hedgehogs eat the eggs of the partridge, and now that there are so few of them many more eggs have a chance to hatch."

Your Neighbor's Cough Remedy.

The general judgment of a community can be relied upon in matters of experience. A large share of the people of this community have for years used the Diamond Cough Remedy to cure their coughs and colds. In bottles 25c. and 50c., at Wade's drug store.

In Case Of Emergency.

Bridget O'Flynn: I'm livin' out with Mrs. Greene, wan o' the foinest ladies in the town, and nawthin' would induce me to l'ave her.

Mrs. Perry: Mrs. Gillet is looking for a cook, and has only two in the family.

Bridget O'Flynn: Ye don't say. Will ye be after givin' me her address?

Feminine Logic.

"George, you seem to be losing all control over Jimmie."

"What makes you think so?"

"Why, he won't do a thing I tell him to do."

A WARM TRIBUTE PAID

By An English Paper to the Late Mrs. Joseph Baker.

The Gazette, of Acton, Eng., contains a three column account of the late Mrs. Sarah A. Baker, who died there on October 21th last. Pictures of Mrs. Baker and of her old home in Elginburg, Frontenac, are published. Mrs. Baker was an aunt of the Misses Hewton, Alfred street, Kingston. Mrs. Baker's great grandfather was a captain under Lord Nelson, and emigrated to Canada early in the nineteenth century. Her father, Philip Brewer, was a United Empire Loyalist, and a Quaker. At the age of eighteen years he settled on a farm at Elginburg, and became one of Frontenac's pioneers. He married a daughter of Captain King, who was wounded in the battle of Trafalgar, and afterwards settled in Canada. The marriage of Sarah Brewer to Joseph Baker was solemnized in Quaker fashion. The couple moved to the head of the Bay of Quinte. Later, Mr. Baker engaged in business in Trenton.

The Gazette says:

"Not long after, although Mr. Baker was well past the prime of middle life, the distinct taste for invention, afterwards manifested, was awakened, and some machines were invented and patented by him which laid the foundation of the business in Canada, the United States, and now carried on at Willesden Junction.

"It was, however, only after a number of years of arduous effort, and with the aid of his four sons by his second marriage, who have since been associated with the original firm and the present company of Joseph Baker and Sons, that the business took a firm hold both in Canada and the Old Country. Soon after Mr. Baker, sr., and his son, J. Allen Baker, M.P., had paid a personal visit to England, and the latter was joined by his brother, King Baker, thirty odd years since, it was decided to remove the headquarters to London, as the best centre for a world-wide trade. Mr. Baker's death took place in Acton shortly after his coming to reside here some sixteen years ago, and it was only last year that Mrs. Baker, sr., returned to Acton from Willesden on account of the greater dryness of the soil.

Essentially feminine and retiring in her tastes and disposition, she was of warm sympathy, strong courageous character, and very active even up to the last, witnessed by the fact that at the age of seventy-six years she took a journey unattended across the American continent to the Pacific coast on a visit to her brother, Dr. Brewer, of San Francisco. Some four months ago the first alarming intimation came of her advancing years when she had a slight stroke. She had again gradually recovered her strength and had been gratified only a fortnight before her death in being able to visit the Franco-British exhibition, where the engineering company, of which her four sons are directors, had some of the largest private exhibits. She was also able to attend the meeting for worship of the Society of Friends at Avenue Road, Acton, on the Sunday previous to her last seizure, which occurred on Friday morning, the 23rd ult. Never regaining consciousness, the end came on Saturday, the 24th, and of her end it can be said, as it was of her father, who died at the same advanced age thirty years ago, her decease was as painless—as her life had been to others.

"The funeral was largely attended, the Meeting House of the Society of Friends at Stoke Newington being filled, although the day was very wet. Eloquent witness was borne to the warm esteem in which Mrs. Baker was held, affectionate allusion being made to her as 'Mother Baker,' by both friends and old employees of the original firm."

Will Be Ready Next Year.

Montreal, Dec. 10.—It is expected that by next fall the Grand Trunk will have no less than twelve hundred miles of railway ready for trains—and have trains ready for the rails. In fact, by the time next year's wheat is ready for shipment, an official of the G.T.P., stated yesterday afternoon, that the G.T.P. would have their line ready straight through from Edmonton to Port Arthur, which will mean an enormous improvement for the farmers of the west in getting their wheat to the great lakes, and will probably make it necessary to add a good many boats to the lake service to take care of the grain which will be delivered at Fort William and Port Arthur.

The Whig on Saturday will be full of Christmas themes. The advertisements will set forth the places to get good goods and good service.

Undoubtedly some June brides have considered duplicate gifts in the light of possible Christmas presents.

"Wild Cherry" cough cure. Regular price 25c. each; 2 for 25c., at Wade's drug store.
