

GIRL IS GROWING

THYROID EXTRACT HELPS UNDEVELOPED CHILD.

Remarkable Results of Experiment Adopted by London Physician—A Change Has Been Wrought.

New York, Dec. 24.—A London cable to the Sun says: The experiment of treating with thyroid extract a girl physically and mentally undeveloped has had remarkable success. The patient, Mildred Hart, although twenty-three years old, had the development of a child of only five years, and was thirty-three inches tall. Her teeth were the same as a child's, her skin cold and harsh and her features were undeveloped. The soft spot on the top of a baby's head could be felt on hers. She had no appetite and was mentally unobservant. This continued to October last. A physician then, diagnosing the absence of the thyroid secretion, took charge of the case. He administered twelve and a half grains of extract of the thyroid glands daily. The patient has now grown two and a half inches. Her skin is moist and warm, her face is considerably developed and she has cut several new teeth. She is constantly hungry.

HERO OF THE RANCH.

Caught an Eagle—It Will Go to Roosevelt.

Spokane, Wash., Dec. 24.—Jimmie Harris, thirteen years of age, is the hero of the ranchers in the Clear Lake district, twenty miles west of Spokane, today, and he is proud of the honor. He captured the largest bald eagle ever seen in this part of the Northwest in a steel trap set for coyotes on the bank of Clear Lake, and as soon as the bird recovers from its injuries the youngster will send it to President Roosevelt as a New Year's gift. One of the eagle's feet was caught in the trap, and when the boy attempted to find its wing there was a lively struggle. The bird sank its talons into Jimmie's thigh, but the boy was game, walking nearly a mile to his home, where he was released. The eagle has no spread of wings of eight feet and is in good condition, barring the scratches it sustained while endeavoring to free itself from the jaws of the trap. It has been sent to Spokane for treatment at the bird house in Manito Park, where the keeper said the bird will be sent to Washington in a few days with the compliments of Jimmie Harris.

THREW ACID IN EYES.

Deed of Woman Thought to Be Insane.

Washington, N. J., Dec. 24.—Dr. Charles B. Smith, mayor of this city, who has held office for nine years, and is considered the most popular man in town, was nearly blinded yesterday by a woman patient who threw carbolic acid in his eyes after trying to kill him with a revolver. The woman was Mrs. Alice Castner, a widow of means, living in the country a mile from Washington. Dr. Smith says she is suffering from insanity. It was the first time that the woman tried to swallow carbolic acid in her home two months ago while Dr. Smith was attending her, and in frustrating her attempt on her life, he spilled acid on his neck causing a serious burn which he could not explain until now. Dr. Smith is about forty-two years old. He has long been the family physician of John Bowers, a wealthy farmer, who is Mrs. Castner's father. Her husband died ten years ago and she has four children.

WILL NOT RETURN.

Former President Castro No Longer Wanted.

Berlin, Dec. 24.—The foreign office has received advices from Caracas, confirming the press reports of the overthrow of President Castro. "The whole country rose against Castro," the communication said. The government of Juan Vicente Gomez has been greeted with much sympathy by the native population and a large proportion of the foreign residents. A good impression has been created by the fact that Gomez already has taken steps to re-establish good relations with the powers. The foreign office has other information that Castro's return to Venezuela is regarded as out of the question.

Back to Native Land.

New York, Dec. 24.—Beaming with joy and in a particularly jubilant mood, Mary Anderson de Navarro, "Our Mary," returned to the United States on the White Star liner Baltic. It was the first time in nearly eight years that the former queen of the American stage has visited her country.

Disappointment in Store.

London Argonaut. It is related that when Stevenson was told of the death of Matthew Arnold he paused, then said, dubiously, "He won't like God."

ANALYTICAL CHEMIST TELLS OF PATENT MEDICINES

A graduate in organic chemistry, who has made a study of many of the best-known patent medicines on the market, states that many have virtue, but as a rule people have to pay for a lot of unnecessary expense. The following is the recipe of a well-known secret preparation, and is known by authority to be one of the best stomach and liver tonics. It is prescribed by many of the best physicians. This mixture cures constipation and biliousness. The recipe: Fluid Extract Cascara..... 1/2 oz. Syrup Rhubarb..... 1 oz. Compound Syrup Sarsaparilla 5 oz. Take a teaspoonful after each meal and at bedtime. An eminent authority, who has made a careful and scientific study of the relative values of drugs having specific action on the kidneys, bladder, and liver, pronounces this an excellent combination. You can buy the ingredients separately and mix at home. Cut this formula out and save it.

14,806 LIVING GRADUATES.

Of These 14,211 Live in United States.

Boston, Dec. 24.—The quadrennial directory of living graduates of Yale University shows that the total number of living graduates is 14,806, as compared with 12,665 four years ago. Of the graduates, 14,211 live in the United States. The directory calls attention to the fact that the percentages of increase in four years have been in the South Atlantic states, about 20 per cent.; in South Central States, about 21 per cent.; and in the western division of states, about 25 per cent. These percentages compare with only about 17 per cent. increase in New England and about 14 per cent. in North Atlantic states. The statistics of occupation of Yale graduates show only a slight increase in the ministry, a considerable increase in Yale lawyers, and a large increase of men who are going into mercantile professions, finance and manufacturing.

Sham Law Reform.

Montreal Star. Goldwin Smith's cynical remark that we might as well expect a tiger to clear the jungle in which it hides as to look to lawyers for law reform, still stands. It is not exactly for an increase of fees in any particular court that the laity are agitating. Readily enough will they agree with the bar that promotions to the bench should never be affected by political influences; but that is a political reform, still stands. What the laity want is simpler law, less red tape, less expense when they seek justice, no rich man's privilege of appealing and appealing a case until the poor man must submit, no carrying of cases which are neither constitutional nor abnormally intricate across the Atlantic.

Rushing The Result.

Belleville Ontario. La Patrie, Montreal, is inclined to regard the action of the Montreal woolen mills in closing down, as premature. It thinks that action might have been postponed till the report of the special commission on the subject of the effects of the preference, which he is now investigating in the old country, is presented. At the banquet of the Canadian manufacturers, held at the Windsor Hotel, Montreal, Sir Wilfrid Laurier said that if the report of the special commissioner established the fact that the complaints of the Canadian woolen manufacturers were well founded, an immediate remedy would be proposed to parliament.

A Word For Women.

Hamilton Herald. The Herald doesn't believe in woman suffrage in national and political elections, but it believes that women should not only vote in school elections, but should also serve as public representatives on school boards. We heartily endorse the opinion of Mr. Hoodless that the efficiency of our local board of education would be considerably increased if four or five progressive women were members of it—such women, for example, as Mrs. Hoodless.

Death Of Mrs. J. Devine.

In Kingston on December 18th, a highly esteemed lady, in the person of Mrs. James Devine, passed away after a long illness. Her funeral was held on Tuesday, and was well attended, to St. Mary's cemetery. She leaves behind a husband, three daughters and five sons. One son is married and two daughters, Mrs. Mary Richburg, Boston, Mass., and Mrs. Agnes Corcoran, of this city.

He Will Not Resign.

Ald. Givens will follow the precedent set by Mayor Ross and Ald. Toye's year ago, and will not resign his aldermanic seat for St. Lawrence ward, as he has another year to serve. So he'll be in the council, win or lose. Ald. Toye, however, resigned after the majority contest, but the council refused to accept his resignation.

William Clugston In Rideau.

William Clugston is an aldermanic candidate in Rideau ward, to fill the vacancy caused by Ald. Couper's term being up. He is making a canvass of the ward, and should be elected by a large majority, no matter who is in the field against him. He would make a capable alderman.

Cocaine Victim Sentenced.

Toronto, Dec. 24.—Frederick Presnail, who pleaded guilty to the charges of obtaining money while under the influence of cocaine, was sentenced to six months' imprisonment. With good behavior he may be released after serving three months.

"Christmas morning delivery"

was started in Kingston by Gibson's Red Cross Drug Store. It is the original Santa Claus delivery of McConkey's and Huyler's choice of royalty sweets. If a Canadian lacrosse team goes to Australia next year it will go in the autumn, not in the spring, and the team will be the Tecumseh lacrosse club, not a picked team.

CAUSED SENSATION

RAN AFLAME THROUGH DOCTOR'S HOUSE.

The Fire Was Quenched By the Fire Brigade—A Lamp Exploded Covering Her Clothing With Blazing Oil.

Quebec, Dec. 24.—With her garments a mass of flame, and, seemingly, crazed by the fearful pains which the blaze of her burning clothes caused, Regina Moran, twenty years of age, ran wildly through the residence of Dr. Jolicoeur, the city coroner, St. Louis street, last evening, creating a sensation that was only quenched by the arrival of the fire brigade in answer to an alarm from box No. 6. It appeared that the unfortunate young girl, who comes from Ste. Anne de Beaupre, was descending to the basement with a lamp in her hand. She also carried a vessel containing some gasoline. Suddenly the lamp exploded which communicated with gasoline and her clothing was in a moment a mass of flames. The young woman immediately became bewildered and ran through the residence of the coroner with her clothing on fire, communicating the flame to the rooms through which she passed. The fire alarm was at once sounded. She was badly burned about the arms, body and hands. The doctors all honour the young girl's injuries as serious.

BATTERSEA BUDGET.

Millhaven Happenings.

Millhaven, Dec. 23.—Miss Madeline Bradley, who is staying with Mrs. B. Franklin, was severely scalded with boiling water on Tuesday. She is under the doctor's care. A number from here attended the Christmas tree entertainment at the Union church on Monday night. B. Franklin has returned from Mountain Grove, where he spent the last week. Miss Hackney, Chatham, is visiting her sister, Mrs. F. Wemp.

His Ankle Sprained.

David Dowsley, head clerk for E. P. Jenkins, suffered a severe accident while at work on Thursday morning. He was in the window of the store securing an article when a lady customer came in and laid her hand bag on the window ledge. When Mr. Dowsley went to descend from the window he stepped on the bag and laid heavily to the floor. He was unable to rise and when he was assisted to his feet it was found that his left ankle was severely sprained.

A Serious Fire.

Lima, Ohio, Dec. 24.—A fire, which seems to have been of incendiary origin, started just before midnight and for a time threatened to destroy the business portion of the city. The flames, which are not yet under control, have consumed the A. Davis & Son livery barn, a business block containing several stores and the office of the Pacific Express company, and four residences.

At Toledo, Ohio, Harvey Hazel,

a seventeen-year-old boy, on trial for the killing of his mother, was found guilty of murder in the second degree. He was accused of beating his mother to death with a hammer. Robbery was assigned as the cause. The boy's defence was that he was a victim of adolescent insanity. According to a statement issued from the census and statistics office of an area of 27,905,663 acres of field crops has yielded a harvest which, computed at average local market prices, has a value of \$432,333,000. Alexander McCall, M.P., elect for Norfolk, has filed a cross petition against H. B. Donly, who protested McCall's recent election. All neck scarfs and silk handkerchiefs refused at Livingston's to-night.

Beautifully Decorated Bar.

One of the finest decorated establishments in the city is the Club hotel, conducted by Peter Thompson. The bar is one of the finest in the city and with the decorations the effects are grand. At either end two nice trees are set and these hold a large number of small colored electric lights, small bottles and other articles used for Christmas decorations. The lights are turned on the tree effect is beautiful, especially with the large mirrors directly behind. Large streamers of different colors are strung around the bar and in the centre a giant candy cane swings on two pieces of ribbon. The words of praise from patrons on his elaborate decorations.

DEAFNESS CANNOT BE CURED

in local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. No case out of ten are caused by Catarrh, which is nothing but a runny nose. Deafness is a local condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
