

ROUNDING "THE CAPE OF ALL THE STORMS."

THE LIST OF H.M.S. DEVONSHIRE
During the passage of Sir Percy Scott's squadron from Simons Town to Cape Town, according to the Sphere, the ship rolled heavily in the long swell while rounding the Cape of Good Hope. This picture shows the twin screw armored cruiser Devonshire (10,850 tons) heeling over twenty degrees beyond her in the Carnarvon, for the moment comparatively steady. When Bartholomew Diaz discovered the cape in 1498 he called it "the Cape of all the Storms." Sir Percy Scott found that it has not lost that character.

A pleasing incident took place near the close, when the organist of the church, Miss Lois Galfinford, was presented with a secretary, by the church members, as a small token of regard for her faithful discharge of her duties. Anty Drudge's Washing Test.

Anty Drudge—"This basket of clothes was boiled and rubbed the old-fashioned way but ten times, yet the fibre has been so weakened that they're full of holes. The other basket was washed the same number of times the Fels-Naptha way, and there is not a break in them—fabric as strong apparently as when it came off the loom."

Does Monday morning find your kitchen like a Turkish bath and steam filtering into every room? If you enjoy the odor of boiling clothes, well and good. If you don't, then use Fels-Naptha soap. Fels-Naptha will cleanse your clothes in cold or lukewarm water—no boiling—in half the time it takes by the old-fashioned way. Hard-rubbing and all the other disagreeable features of wash-day done away with.

Use it according to directions on the red and green wrapper.
