ACCEPT FRENCH TERMS.

Said a Speech Was Made to Affect

Paris, Jan. 7 .- The protracted negotiations over the new Russian loan have ended in an agreement that the loan will be made on January 22nd at a price of 89.90. The amount will be 1.200,000,000 francs and the rate four and one-half per cent. It is stated here that one of the chief causes of Russia consenting to the French terms was the disturbed feeling aroused by the recent speech of M. Milovanovitch, the Servian minister of foreign affairs, which, it is alleged, was stigated by Exench financial agents with the view of bringing pressure to bear on Russia.
