

WEALTH OF FARMS
VALUES OF LAND, ANIMALS
AND AVERAGE WAGES.

British Columbia Land Value Highest—Due to Growing of Fruit—Total Value of Farm Animals Placed at \$530,000,000.

Ottawa, Jan. 16.—The census and statistics bureau has issued the results of a report for the year ended December 31st, on farm land values in the dominion, the values of farm animals, and the averages of farm and domestic wages.

The average value of farm land for all the provinces is \$35.70 per acre. In five of the provinces it is under \$30, being \$27.30 in Manitoba, \$25 in Nova Scotia, \$21.40 in New Brunswick, \$20.40 in Saskatchewan and \$18.20 in Alberta. In Prince Edward Island the average is \$33.70 per acre, in Quebec, \$41.90, in Ontario, \$47.30, and in British Columbia, \$76.10. Values are high in the last-named province owing to the comparatively large extent of farm land there in orchard and small fruits.

The average value of horses at the end of the year is \$16 for ones under one year, \$100 for ones of one to under three years, and \$143 for ones of three years and over. Horses of the last class are below an average of \$120 in Prince Edward Island, Nova Scotia and Alberta; in New Brunswick, Quebec and Ontario they are about \$140, and in Manitoba and in Saskatchewan they are \$170 to \$176.

Milk cows have an average value in the dominion of \$34, ranging from \$29 in Prince Edward Island and New Brunswick to \$36 in Ontario, and \$37 in Saskatchewan, but in British Columbia the average is \$48. Other horned cattle have an average value over the dominion of \$3 for ones under one year, \$21 for ones of one to under three years, and \$32 for ones of three years and over. These averages are generally close for all the provinces, but the highest values are given for Ontario and the western provinces.

The average value of swine is given as \$5.86 per 100 pounds, live weight, being lowest in Manitoba, Saskatchewan and Alberta, and highest in Quebec, Ontario, and British Columbia.

Sheep are given an average value of \$5.23 per head for the dominion, and are below the average in the maritime provinces, Quebec and Saskatchewan. The total value of farm animals computed on the foregoing averages, and the number of animals on farms in June was \$330,000,000.

The June price of wool for the dominion was 15 cents per pound. The average wages of farm and domestic help for the dominion per month is \$24.00 for males and \$13.50 for females, and per year \$288 for males and \$162 for females. The highest averages are reported for the western provinces, where they reach about \$300 per year for males, and \$160 for females in Ontario and Quebec the average for males is about \$240, and for females \$120 per year.

Charcoal Removes
Stomach Poisons

Pure Charcoal Will Absorb One Hundred Times Its Volume in Poisonous Gases.

Charcoal was made famous by the old monks of Spain, who cured all manner of stomach, liver, blood and bowel troubles by this simple remedy.

One little nervous Frenchman held forth his view before a famous convention of European physicians, and surgeons. Secheyron was his name. He was odd, quaint and very determined. His brothers in medicine laughed at his claims. Thereupon he swallowed two grains of strychnine, enough to kill three men, and ate some charcoal. The doctors thought him mad, but he did not even have to go to bed. The charcoal killed the effects of the strychnine and Secheyron was famous. Ever since that day physicians have used it. Run impure water through charcoal and you have a pure, delicious drink.

Bad breath, gastritis, bowel gases, torpid liver, impure blood, etc., give way before the action of charcoal. It is really a wonderful adjunct to nature and is a most inexhaustible storehouse of health to the man or woman who suffers from gases or impurities of any kind.

Stuart's Charcoal Lozenges are made of pure willow charcoal, sweetened to a palatable state with honey. Two or three of them cure an ordinary case of bad breath. They should be used after every meal, especially if one's breath is prone to be impure.

These little lozenges have nothing to do with medicine. They are just sweet, fresh willow, burned to a nicety for charcoal making and fragrant honey, the product of the bee. Thus every ingredient comes to man from the lap of nature.

The only secret lies in the Stuart process of compressing these simple substances into a hard tablet or lozenge, so that age, evaporation, or decay may not assail their curative qualities.

You may take as many of them as you wish, and the more you take the quicker will you remove the effects of bad breath and impurities arising from a decayed or decaying meal. They assist digestion, purify the blood and help the intestines and bowels to throw off all waste matter.

Go to your druggist, at once and buy a package of Stuart's Charcoal Lozenges, price 25c. You will soon be told by your friends that your breath is not so bad as it was. Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

"The genuine Castoria." The kind you have always bought is sold at Gibson's Red Cross Drug Store. See Bibby's \$10 black overcoats.

REFUSE TO GIVE A GRANT
To the Medical Health Officer For His Service.

The civic finance committee met last evening, and the chief matter considered was the application of Medical Health Officer Bell for extra remuneration for the services he performed in connection with the recent epidemic, which took root in the city over a month, and interfered with his practice. The committee decided to recommend no action to the city council, on the ground that the health officer was paid a fixed salary and was expected to take "the fat with the lean." Some years there would be little to do beyond routine work, and in other years there might be a busy time. The committee didn't feel that it would be justified in making a grant, even though the board of health, at its last regular meeting, voted the health officer \$1,000, which, however, was not paid, the ex-mayor instructing the city treasurer not to pay the amount until the finance committee had taken action. The city solicitor reported the grant illegal, in so far as it was voted by the board of health. Such a grant could be given only by the city council, whose appointee the health officer is.

It is reported that Dr. Bell intended resigning his position. If a vacancy should occur, the city council, with its deadlock, would have a merry time making an appointment to fill the vacancy, with which the names of Dr. Ross, Dr. Bogart, Dr. Richardson and Dr. William Gibson are mentioned.

St. Petersburg, Jan. 16.—John W. Riddle, the American ambassador, attended the emperor's New Year's reception of diplomatic corps at Tsarsko-Selo to-day. The emperor chatted pleasantly with Mr. Riddle regarding President Roosevelt's African trip and regretted that he could not have a similar release from the cares of state.

Teas grown at high altitudes on the mountain slopes of Ceylon, where the growth is slower and cultivation more careful than in the warm, humid climate of the valleys, are used in "Salada" tea. High-grown tea, like "Salada" is not only of a finer quality, but contains more of the essential oil in the leaf than valley-grown tea. This is easily proved by comparing a drawing of "Salada" tea with any other.
