

LET KINGSTON PROSPER

And Towards This End, Let Every Loyal Citizen Do His Part.

The reason why we don't progress faster, why business concerns are not tumbling over each other to locate in Kingston, is not very difficult to explain. Few cities can offer such facilities and advantages as Kingston, and in fact of this fact, we are clearly not in running when it comes to securing new enterprises that will swell our revenues and increase our population.

In no manner can the truth of the foregoing remarks be better exemplified than in connection with the recent vote on the Wormwith by-law. The rank and file of the entire business community of the city were strongly convinced that to lose such a responsible and enterprising concern would be a distinct loss, and a step in the wrong direction. But indifference had been vitally imparted to the contest, if the men who might have swayed the votes of the electors had been imbued by a lofty patriotism to their city's best interest.

Can we spare eighty families from Kingston? We are afforded to lose the prestige given us by this important manufacturing concern, distributing its high class product from coast to coast, everywhere keeping the name of Kingston to the front? Will it be wise to convey the impression that, when disaster overtakes one of our most valuable manufactures, the spirit and sympathy of the community will be so much lessened?

Very good news and very distressing news has come to Mrs. J. C. Paterson, University avenue. Blood Troubles And Skin Diseases

Quickly Succumb to the Beneficial Effects of Stuart's Calcium Wafers.

Science has proven Calcium Sulphide to be the most powerful blood purifier known. Stuart's process of giving the system this great cleaner for the blood, has been called the best for preserving the full strength of Calcium Sulphide.

Children may take it with freedom and their delicate organisms thrive with its use. Skin diseases flee when the blood is charged with its great eradicator.

No matter what degree of eruptive skin trouble you may have, Stuart's Calcium Wafers will purify and enrich the blood. These little wafers go into the stomach just like the skin impurities get in. They tone up this organ, enter the intestines, are absorbed by the lacteals and lymphatics, are drawn into the blood, course quickly to every organ and attack of the body, and remove secretions and quickly. The lungs are assisted, the liver is aided, the stomach re-inforced, and skin diseases are assailed from their source.

TROUBLE WITH A TRUANT.

He Was Rounded Up By Truant Officer Arnie. Constable Arnie, the truant officer, to-day rounded up a lad who has been playing "hooky" from school for several days. The lad has promised to resume the studies at Frontenac school, where he is enrolled, and so long as he keeps at his desk, there will be no further trouble.

The police have had very few cases of truancy to deal with, for some time past, and the report of the attendance at the schools has been very good, considering the fact that quite a large number were barred from their classrooms, owing to the fact that they were not vaccinated. A great many of these children have been noticed around the streets, and some citizens were of the opinion that there were many children guilty of truancy.

Just yesterday a prominent citizen interested himself in one case, when he asked the lad why he was not at school, received the reply: "Please, sir, I can't go to school, because I am not vaccinated."
