MADE STRONG APPEAL

TEMPERANCE MEETINGS WERE HELD SUNDAY.

Some Stirring Addresses Were Delivered in the Grand Opera House—"Banish the Bar," is the Slogan of the Workers.

One of the strongest appeals ever made in the city in support of the temperance cause, was that given in the Grand Opera House, Sunday night, by Mrs. Owen Hitchcox, of Toronto, at the temperance meeting of the Y.M.C.A. Two meetings were held, one in the afternoon, and the other in the evening, and both were well attended, the audience in the evening, filling the ground floor to overflowing, with a very large number in the balcony and gallery. Mrs. Hitchcox is an eloquent speaker, and her half hour address was listened to with keen interest by the large gathering. A song service was held before the meeting opened, led by R. B. Nelles, secretary of the Y.M.C.A., and everyone joined heartily in the singing. The hymns were produced on lantern slides. Dr. Anglin occupied the chair, and opened the meeting with a few appropriate remarks, and Rev. H. D. Whitmore, followed with prayer. The quartettes of Bethel, Princess and Queen street churches, rendered several numbers, and William Evans sang, "Throw Out The Life Line," in splendid voice.

Mrs. Hitchcox, in her opening remarks, said that she was very glad to have the third opportunity of speaking to the people of Kingston. She felt sure that there must be considerable enthusiasm in Kingston along temperance lines, judging by the large audience, with such inclement weather.

"I have come to the conclusion that the temperance sentiment must be on the rise in this city," she said. Continuing the speaker said that she would have nothing to say about the hotel business, as this itself was all right. Her slogan would be "banish the bar." All over the province, there was a movement on foot to banish the bar as soon as possible, and it was hoped that, in Kingston, this great fight would be taken up, in order to save the young men. The speaker felt sure that the temperance cause would win out. Reference was made to the gallant fight of the temperance people in Toronto. Toronto had set the pace for the rest of the province.

"And why should we not banish the bar and save our young men?" asked the speaker. "Why is the liquor traffic allowed to exist in our Christian country? Simply because Christian people are not feeling the responsibility which rests upon them. But I am glad to say that the temperance people are rising up against this evil. Our fight is against the bar-room, and we will win out."

Mrs. Hitchcox then referred to the good work accomplished for the temperance cause in the United States, in Georgia, Sam Jones' great field, Alabama, Tennessee, Missouri and Illinois.

"Ann take Chicago," added the speaker. "Has anything been done there? Chicago is a beautiful city, but there are too many wicked people there, but there are also many wicked people in Kingston, and Toronto, too. In both Toronto and Chicago, just recently the temperance cause had been taken up with great enthusiasm. In the great parade of temperance workers in Chicago, the slogan was 'Chicago going dry.' Liquor was the great destroyer of the home. The fight for its downfall had just commenced, but would not stop until the temperance people won out."

"At Goderich, the work of the temperance people had failed owing to the three-fifths clause. The temperance workers were now moving to have this clause removed, so as there might be British fair play in the fight. There was victory all along the line. Even the great railroads of the country were helping along the work, by refusing to employ men who indulged in strong drink. The officials of the roads had discovered that a great many accidents had been caused by men who used liquor. In many cases loss of life was due to drunken operators. The railways realized that they must have sober men. Big departmental stores, including Eaton's, of Toronto, also conducted business on a similar basis, refusing to employ men who were not temperate. Medical men also assisted in the campaign, refusing to use alcohol as a medicine, claiming that it was no good. President-elect Taft, at a banquet, left his glass turned down, and declared that during his term as president he would

WHY SUFFER?

Breathe Hyomei and Kill the Leathsome Catarrh Germs.

Just as long as you have catarrh your nose will itch, your breath will be foul, you will hawk and spit and you will do other disgusting things because you can't help yourself. The germs of catarrh have not you in their power; they are continually and persistently digging into and irritating the mucous membrane of your nose and throat. They are now making your life miserable; in time they will sap your entire system of its energy, its strength, its vigor and vitality.

But there is one remedy that will kill the germs, and cure catarrh, and that is Hyomei, the Australian dry air treatment.

Joseph Dural, of Woodstock street, Givenshoe, Ont., says: "Catarrh had given me all kinds of suffering for a long time. There was a swelling of the glands under the eyes and adjacent to my nose and the discharges would drop into my throat. I used several remedies, but never got the relief that I did from Booth's Hyomei. I have been so pleased with Hyomei results that I highly recommend its use to catarrh sufferers."

G. W. Mahood, the druggist, will guarantee Hyomei to cure catarrh or money back. Don't delay this pleasant antiseptic treatment. Breathe in Hyomei and kill the germs. G. W. Mahood will sell you a complete Hyomei outfit, including inhaler, for only \$1. It is also guaranteed to cure bronchitis, asthma, coughs, colds, hay fever and croup.

be a total abstainer. Everyone appeared to be in line with the temperance people. Governor Hughes, who accomplished so much for New York, along reform lines, stated that the next card he would play would be to introduce local option for New York.

"The tide is rising," declared the speaker, "and will not stop until every bar is closed." In Owen Sound local option had been sustained, and even more than that, a temperance council had been elected to see that the law was carried out. In Toronto Mayor Oliver, an advocate of the temperance cause, had been re-elected to office by the largest majority ever given a mayoralty candidate in that city.

"It pays to be on the Lord's side," said Mrs. Hitchcox, in the closing remarks of her stirring appeal. "We are bound to win out. We are fighting with a leader who has never lost a battle. I cannot say just when the battle will be won, but it will not be long."

Rev. Mr. Spence, one of the speakers for the Dominion Alliance, followed Mrs. Hitchcox, with an illustrated address on the evils of the liquor traffic, referring particularly to the evils of the trading system. It was up to the Christian people to make it easy for the young men to live a good life, and this could be accomplished by abolishing the bar. It was the duty of the church to lift this great burden. In towns where local option was in force there was found to be a large increase in cash payments at the stores.

At the afternoon meeting, which was for men, Rev. Joseph Gibson, president of the Dominion Alliance, and Rev. T. E. Burke delivered stirring addresses, and the chairman, D. A. Sidlay, also gave a brief address. At this service there was also special music, with a service of song.

At the morning class for boys, held at the Y.M.C.A., Mrs. D. McAllum gave a fine temperance talk.

PECULIAR WEATHER

Handed Out on Sunday—Thunder Rumbled.

Sunday was a gloomy day and the weather conditions were notable. During the early morning it became colder. A light drizzling rain fell towards noon and froze as soon as it hit the roads and walks, making the "boondog" very slippery. At eleven o'clock in the morning there were rumblings of thunder, apparently denoting coming cold weather. About one o'clock in the evening a heavy fog enveloped the city. The walking was particularly bad at night, Princess street being probably the most difficult thoroughfare to navigate, especially coming down. A sprinkling of sand would have done the walks out, but the Sabbath is so diligently kept in civic circles that corporation laborers are not put to work on hot days, even to shovel snow. The rider weather Monday morning was not looked for.

Obituary Notice.

Mrs. Henrietta Jones, wife of Charles Jones, formerly of Tanworth, Ont., died at Black River, N.Y., on January 21st, after quite a long illness. Besides her husband, Mrs. Jones leaves four daughters and three sons, Mrs. Wagar and Mrs. Deal, Tanworth; Mrs. Wafar and Mrs. Graves, Black River; and Mrs. Edmond, Black River, as well as four brothers and two sisters, Luke and George Shier, Northbrook, Ont.; Calvin Shier, Clayton, N.Y.; Robert Shier, Brownville, N.Y.; Mrs. Norris Hill, Edenville, Mich.; and Mrs. Orrin Reek, Black River, N.Y.

Mrs. Jones' funeral was held from the Methodist Episcopal church, of Black River, to which she belonged, on the 23rd, Rev. Mr. Holland, Pelts fills, N.Y., officiating. The interment was at Black River.

"A Man And His Mate." Where is your mate? There is one gently stalking this earth—and sooner or later you would find each other just as "Betty Breckenbridge" (Hilda Spang) does in "A Man And His Mate." The way may not be easy when fate reveals your mate to you, but if you see Miss Spang in this, or greatest success, you cannot fail to enjoy living over with this delightful creature the vicissitudes that make the finding so hard and yet so sweet. "A Man And His Mate" reveals Miss Spang in an entirely new and best work is winning, untainted praise from critics and public alike. At the Grand on Thursday, Jan. 25th.

Where They Come From.

It is interesting to note that, out of the 488 prisoners in Kingston penitentiary at the time of the report, twenty had been sent from Oxford county, being nineteen men and one woman. York county, which includes Toronto, sent 97; Middlesex, which includes London, sent 34; Wentworth, which includes Hamilton, sent 27, and Oxford came fourth in the list, with 30. Brant had contributed seven, Elgin six, Norfolk one, Perth one, Waterloo thirteen, etc.

THE HALLS OF QUEEN'S

Y. M. C. A. CONFERENCE AT THE WEEK-END.

Rev. Dr. Pringle to Address Missionary Association—R. E. Young, Ottawa, Unable to Address A. M. S.

The Queen's University Missionary Association had a very successful meeting on Saturday morning, when R. C. Jackson, B.A., addressed the association on "New Mexico." Mr. Jackson spent last summer in that territory, and gave the members of the society and those present a very interesting account of the history and people of that district. The speaker also referred to the way in which the church in the United States is endeavoring to reach the people through the establishment of schools. R. J. McDonald, M.A., president of the association, is still in the hospital, but is doing well, and hopes to be out in the course of a week.

Rev. Dr. Pringle, of Yukon, will be present at the next meeting of the Queen's University Missionary Association, and will give an address. It is hoped that as many as can will avail themselves of this opportunity of hearing Dr. Pringle. James Urquhart, of the final year divinity class, has been extended a call to Merrickville.

The members of the Alma Mater Society were disappointed, last Saturday night, in not having R. E. Young to deliver his address on "Canada's Fertile Northland." Mr. Young telegraphed the secretary of the society to the effect that on account of illness in his family it would be impossible for him to attend. It is expected, however, that in the course of two or three weeks, Mr. Young will be able to address the society on the above subject.

On Saturday and Sunday next the annual Y.M.C.A. conference will be held at Queen's. The executive has been very fortunate in securing Prof. Shriber Mathews, D.D., Dean of Divinity School, University of Chicago, to be present at the conference. On account of this conference, at which many delegates from Quebec and Ontario are expected, the Alma Mater Society will meet in convocation hall at 7 p.m., instead of 7.30 p.m., next

CORRIGAN'S.

Saturday, Prof. Shriber Mathews will address the students at 8 p.m. Next Sunday's service will be held in Grant Hall, if weather is favorable, at 3 p.m. Prof. Mathews, of Chicago, will preach.

The students' rink, which took part in the bonspiel of last week, are to be congratulated on the showing they made. To be sure they lost two games and got no sight of the prizes, but the rinks which defeated them won by a very small margin. Skip Burns and his quartette play a good game, and Queen's will have her curling club strengthened next year.

THE JUDGMENT OF GOD

Is By General Trend of Men's Life.

A large congregation assembled in Convocation hall yesterday afternoon to listen to the sermon delivered by Rev. Dr. Ramsay, of Ottawa. The speaker chose his text from St. Matthew xxv:32: "And before Him shall be gathered all nations, and He shall separate them one from another, as a shepherd divideth his sheep from the goats."

The Saviour tells us here that all people in the end fall into two classes called here by figurative names, but are even now as distinct from one another as the sheep are from the goats, according to the character which they have. Men do not seem to be so easily separable into two classes. Into what class are the alpacas to fall which are neither sheep nor goats? So, too, we have men who are called saints and others whom we term bad, but what of the great mass of mankind, neither good nor bad—the alpacas of the world? Upon these touches of morality and the best-often grievously disappoint us. Are there in the great field of the world only two kinds of growth—wheat and tares? Does the net of the gospel bring into the church only good fish and bad fish?

The Bible judges by the general trend of a man's life. Life is always moving. A man's worth in the world is estimated by the direction. The question is not, What am I, but whether am I going? What is the tendency of my life? Again the Bible traces the trend of our lives to the source of man's attitude to God. Sweet and bitter waters do not come from the same spring, neither do immorality and religion. Esau was a man devoted to worldly pursuits. Jacob set a high value on his birthright and hence had many transactions with God. Peter truly loved Christ and bowed to him as the Son of the Living God and on that night of denial wept bitterly yet hopeful tears. Pilate was the typical man of the world, having no conception of Christ. It was Jacob's religion and his devotion that made him the man that he was. As the heart is so will the life be. The seed must be planted before the tree can grow. Even as virtue comes from Christ so must He communicate the new life. Penitents who cast themselves on Him are righteous and are already justified by faith.

Of our generation and our land we must not ask if we are more virtuous than other generations, but what is our attitude to Christ, the Son of God. Many of us may be called Esaus, occupied with the pursuits of the present time, but in our lives we should be careful to ascertain in what direction are the forces set. What are we doing with Jesus, which is called Christ? Turning away is simply a degeneration, carrying us away downward into utter destruction. Let a man be in very truth under the leadership of Christ. The Holy One will not lead him towards wickedness and the trend of our life will surely be upward and not downward.
