YOU SHOULD OWN A HOME

The ultimate aim of every man should be to own the home he occupies.
 The country dweller rents a farm only until such time as he can afford to buy one. There is no reason why the city man should not do the same.
 If Kingston real estate were unreasonably high and rents were low, it might pay to rent, but conditions here are quite the reverse.
 Rents are high, while I can sell you a place at an inside figure.
 Here you are:
 \$1,700 Brick 6 rooms, B. & C.
 1,600 Brick 7 rooms, B. & C.
 \$2,500 Frame 8 rooms, furnace.
 2,850 Brick 8 rooms, B. & C.
 All centrally located.

McCann,

51 Brock St.

THE SOCIETY CIRCUS PRODUCED BY A LOCAL COMPANY

In The Grand Opera House Last Evening—The Performance Was Clever, and Was Much Enjoyed.

Those who attended the Society Circus at the Grand Opera House, on Tuesday evening were delightfully surprised and those that missed seeing it will regret it. One would not credit that local amateurs could put on such a performance, and few would believe that the city has so many young men who are quite finished artists in so many different lines.

The first scene was called "Dixie Days," opening with some good old-time southern moon songs that were delightful. Some new and original jokes were cracked by the clever and men, and then a few more songs were rendered. After this came the programme proper, and it contained a vaudeville bill that would do any house in Canada credit. On the programme no names were used, but it is only fair that the people should know who one or two of the star performers were.

Wilson and West were first on the bill with an up-to-date specialty, filled with good, live dope, many good ones being dealt out. "Snooze Boy" the impersonation strong man followed, and he was really very clever. He is without doubt a very powerful man, and is of splendid physique.

The main acts during the piece were a high wire turn, acrobats and the Lilliputian family. The first act was put on by Minco, who, in private life, is George Howe, one of Kingston's best known all-round athletes and who carried a great surprise. The acts that Mr. Bows does on the high wire were never excelled by any performer in this city. He goes over the wire, doing all his tricks with the utmost grace and ease. His act would make good on any circuit.

The Society Circus has also one of the best musical comedies, one of the best seen here in some time. Leo Singleton, Brock street, who makes one of the best clowns "on the road." His performance was a great surprise to the large audience. He was ably assisted by Lolo, another clever fun maker.

Many other fine acts, including Prof. Light, in his marvellously illuminated club act, were well received and received great applause. The Society Circus could go on tour at any time and play to packed houses.

B. A. Hotel Arrivals.

Mrs. S. B. Brown, New Orleans; U. J. Bodley, John H. Dyas, Toronto; S. E. Waffle, Montreal; W. W. Cole, R. B. Mastin, James C. Mulham, Toronto; George W. Goddard, Montreal; George B. Meadows, Charles S. Meek, J. B. Easson, Toronto; Harry F. Cole, Montreal; F. G. Perrin, Oakwood; A. E. Sherwood, Hamilton; Walter Z. Boak, Ottawa; George E. White, London; A. F. Dillinger, Ottawa; D. Merdman, Toronto; F. A. Monk, Montreal; F. D. M. Brophy, Belleville; I. Widmer Nelles, Montreal; Frederick Halstead, Waterloo; F. R. Penelation, New York; W. S. Byers, Niagara Falls, George King, Cornwall; F. H. Higgins, Toronto; F. W. Burston, Belleville; H. T. P. Maddlark, Cayton, N.I.

A Decided Success.

Perhaps the most enjoyable event of the season took place, last Friday evening, when all the young people of the island and many outsiders from Wolfe Island and Kingston, gathered at the well-known residence of Patrick Kane, where a jolly little dance was held, the music being supplied by the Wolfe Island orchestra. In spite of the disagreeable weather the evening was a decided success and was greatly enjoyed by all.

STOMACH COMFORT.

When the Stomach Rebels, Headache, Indigestion and Nerve Pain Follows—Mi-o-na Brings Relief.

Just as soon as you are done eating the healthy stomach commences to churn the food around and mixes it thoroughly with the juices of the stomach.
 If the food is not churned, it lays heavily on your stomach, turns sour and causes all kinds of distressing symptoms, such as headache, indigestion, stomach pain and dyspepsia. Mi-o-na helps the stomach to properly mix the food.
 John S. May, of Isabella street, Belleville, Ont., says: "For over seven months I was in constant agony with a case of nervous dyspepsia and indigestion that medical skill could not relieve. I was weak and had lost much weight through loss of appetite and suffering. My meals would fill me with gas and a feeling of oppression across the stomach and all up the left side, left me in a miserable condition. I was restless at night and as tired and unrefreshed in the morning as on going to bed. A choking sensation in my throat was always constant when lying down, and my heart seemed to flutter and pound as though it were coming out through my side. I was benefited from the first two days' use of Mi-o-na. I began to feel like myself again, my appetite returned and the depressive feeling left me. I can enjoy my meals without the least worry of after suffering. I have gained in weight and can sleep the night through in comfort.
 Go to G. W. Mahood, the druggist, and get a 50c. box of Mi-o-na Tablets. Money back if Mi-o-na does not cure.

STUDENTS OF QUEEN'S YIELDED A SURPLUS

Number 1,402 This Session, a Big Increase.
 Registrar G. Y. Chouh to-day issued a statement showing that there are 1,402 students registered at Queen's university this season. Of this number about 1,100 are in actual attendance. The increase registration over last season is 103. The following are the figures:
 Arts, Intra-mural 424 437
 Arts, Extra-mural 390 336
 Education 42 81
 Medicine 213 297
 Science 284 292
 Theology 58 39
 Total 1,399 1,402
 Increase over 1926-7 215
 Increase over 1925-6 112
 It is not too much to predict that within five years Queen's will have a registration of 2,000 students.

HAD THRILLING EXPERIENCE.

Kingstonians in Ice Boat Dumped Into the Water.

To be travelling along in an ice boat, at a very high rate of speed, and then be dumped into the water, would form quite a "thriller." Such was the experience, on Monday afternoon, of James Norris, the well-known hotelman of this city, and a friend who accompanied him. They had been spending a couple of hours on Howe Island, and were on their way home. They were travelling along at a lively clip, and everything appeared to be all right. All of a sudden they plunged into an open space, and, besides receiving a cold bath, were put to much inconvenience in their endeavor to get out. However, being men of experience, in this line of business, they were soon on their feet again, and reached the city without further mishap.

TENDERED A RECEPTION.

Pleasant Affair in School Room at St. James' Church.

A pleasant affair was held in the school room of St. James' church, last evening, when the members of the congregation tendered a reception to the new vicar, Rev. T. W. Savary, and his wife. Notwithstanding the inclement weather, there was a very large attendance, and the evening proved a most profitable one. Francis King was the chairman of the evening, and addresses were welcome were given by Bishop Mills, Rev. F. Fitzgerald, Rev. R. S. Fornari, Rev. W. Lewis, Canon Starr, Canon Grant and Canon Loucks. Miss Muriel King favored with several fine piano selections, and the members of the choir served refreshments.

HELD "SOCIAL EVENING."

Fine Affair Given By Court Stanley, C.O.F.

The members of Court Stanley, Canadian Order of Foresters, held a "social evening," last night, and the lodge room was well filled with members, their relatives and friends. Dr. Bogart filled the duties of chairman in an able manner, and a programme of music and recitations was rendered. Addresses were given by Rev. Dr. MacFavish and Organizer Currie. Twenty-five members have been added to the order since Mr. Currie arrived in the city, a few weeks ago, and the court is in a most flourishing condition. At the regular meeting on Wednesday evening next, right new members will be initiated.

Inverary Wedding.

At the home of W. J. Arthur, Inverary, on Wednesday evening, February 3rd, his only daughter, Beatrice, was wedded to Ferdinand Holmes, by Rev. Mr. Roadhouse. The wedding march was played by Mrs. F. Ferguson, Frederick Ferguson, the four-year-old daughter of Major Ferguson was the charming flower girl. The bride was attired in cream crepe de chene trimmed with all-over lace, and cream sash. The bridesmaids wore pink tulle and asparagus fern. About twenty guests were entertained at supper, with Major Ferguson as toastmaster. The presents were many, including cheques from a pair of well-pleased fathers. After a round of visits the happy couple will settle at their home in Inverary about march 1st.

Ice Boat Accident.

It happened on Monday evening at Oak Point, seven miles from the city. Three young men received a cold bath, one they will not soon forget. P. Quinn, Howe Island; J. Norris and B. McLeve, of the city, were returning from Howe Island at a fast speed when one of the skates dropped through, throwing McLeve heavily to the ice, injuring him quite badly. The boys went to Mrs. Murphy's nearby, and stayed for the night, driving to the city next afternoon. Hadn't the boys showed presence of mind they would have had difficulty in escaping from the thin ice. Mr. Quinn was quite ill after being in the water so long.

Sad Case Of Destitution.

A case of extreme destitution was discovered last night of a family living near the corner of Division and Elliot streets. On investigation, it was found that there was neither food nor fire in the house. The saddest part of the discovery was the finding of a baby eighteen months old, without shoes or stockings. Charitable persons have no conception of the suffering there is in the city at present. There are poor but proud people who will not tell of their condition until it is found out by accident.

The Lake Levels.

The United States lake survey reports that during the month of January Lake Ontario fell 3 1/2 inches. It is 18 1/2 inches lower than in January last year, and 2 inches lower than the average January stage for the past ten years. In 1862, it was 23 1/2 inches higher, and in 1886 29 1/2 inches higher. In January, 1906, it was 16 1/2 inches lower. During January the lake is expected to rise 2 1/2 inches.

Headache and Neuralgia From Colds.

Laxative Bromo Quinine, the world-wide cold and gripe remedy, removes cause. Call for full name. Look for signature, E. W. Grove, 35c.

THE LIGHT PLANT DID WELL IN 1928.

City Solicitor Says J. M. Campbell is Liable For Defective Gas Tank—Report Given on the Bostridge Damage Case.

It was made known to the light, heat and power committee yesterday afternoon, that the plant operations during the year 1928 would yield a revenue of over \$4,500 as compared with \$1,400 in 1927. Of this amount \$4,024 was profit on electricity. Gas showed a deficit of \$908. Thus, the net revenue of gas and electricity combined was \$3,516, and this, notwithstanding the much criticized reduction in rates made by A. Toye in 1927. The year 1928 was recognized as the most critical in the history of the light plant as a civic utility. Now that it has turned out so well, the present year should be a most profitable one, as there will be a greater increase of consumers in proportion to street extensions. However, it is certain that no further reduction in rates will be made for some time, at least so far as gas is concerned.

The committee held over the financial report till next meeting for consideration, and gave out only the actual result of the year's operations. City Solicitor Melvorne has recently reported in the case of Charles Bostridge against the city for damages for the death of his fifteen-year-old son, who was killed on the night of October 25th last, by grasping the guy rope of the arc lamp at the corner of Centre and Union streets. It is supposed that the trouble arose by contact between the electric wire and a large tree through which it passed. The manager said that the light department should have authority to do any tree trimming it deems necessary for the safe conduct of its wires. However, trees could not be touched by the department. Ald. Rigney said he certainly thought that the city council would give the department authority to cut trees where danger existed. The department was carrying dead wires through the city and it should not be hesitated in any way in securing a safe passage.

The committee gave the solicitor certain instructions in regard to the Bostridge case. So far a preliminary examination has taken place.

At the request of the chairman, the city solicitor gave his opinion as to the liability of J. M. Campbell to the city in regard to the defective gas tank. He said that after going carefully into the question, he had come to the conclusion that Mr. Campbell was liable.

The solicitor recommended that steps be taken to repair or replace the tank, reserving the right of action against Mr. Campbell, and that Mr. Campbell be supplied with a report of Expert McKay, and also informed that the city was going to hold him responsible.

Ald. Rigney wanted to know if the committee should not give Mr. Campbell a chance to make the tank good, instead of proceeding itself to do so. The solicitor said that could be done, but the city should not give him a free hand to make some tawdry repairs. If he is given such a chance, he should be notified that the repairs are to be subject to the satisfaction of the city's expert.

The solicitor was instructed to draw out a statement of the matter for submission to the city council. He said that the council should not be asked to pay for a lower rate, but an action was recommended. The sub-committee reported that the regulations of the department would not admit of a lower rate. The Whig, the chairman reported, paid \$1,396 last year for gas and electricity.

The committee decided to purchase

"Kingston's Famous Fur Store."

More Surprises in White Furs at The Fur Sale.

White Furs are more fashionable now than ever, and our assortment is still quite large. Fox, Ermine, Thibet, etc., are extremely popular. Come in and look at these:
