

THE MARRIAGE RECORD

JUSTICE HAS JOINED 10,000 HEARTS IN MATRIMONY.

Many Unique Weddings—Has Married Couples in Balloons, in Lions' Dens, and on Top of a Lofty Standpipe.

Bloomington, Ill., Feb. 10.—Justice W. B. Hendryx this week married his five thousandth couple, and now holds the world's record, uniting more persons than any other marrying officer, he be parson or justice, bishop or judge. His famous marriage parlors, known all over the United States, have been made more pretentious than ever, a magnificent mirror, which cost him \$500, being added last week, occupying one entire side of the apartment known as Cupid's domain. This mirror, which has a heavy frame of gold, was manufactured especially for the marriage parlors, and it is needless to say, it is the delight of blushing brides who wish to see that their hair is on straight, and also to see a reflection of the entire marital party just before the binding words are uttered.

The marriage parlors are attracting more attention than ever before, and they are absolutely unlike anything else in existence. They are strictly in a class by themselves. Mirrors calculated to promote matrimony adorn the walls, such as "Perfect Union," "Wedded for Life," "Cupid's Headquarters," and the like. Costly paintings adorn the walls. An organ for the rendition of a wedding march occupied one corner. There are fresh flowers every day to be presented to happy brides. There is a marriage certificate, which in its elaborate get-up adds dignity to the marriage tie, and is richly prized by every recipient. This document, like the marriage parlors, is original with the marrying justice, and always produces an instantaneous and effective hit with the matrimonially inclined.

Cupids and hearts are numerous and there is a factious guarantee that every knot tied is indissoluble. The fame of Squire Hendryx extends the country over. He has married couples from every state in the union. Not only has he the remarkable distinction of marrying more couples than any other parson, but he has officiated at more unique weddings. He recently married a couple in a den of performing lions brought here by a carnival company.

Twenty-five tawny beasts held in subjugation by their keeper surrounded the little wedding party in a nerve-testing circle. Another couple wished to be married in a balloon, and the squire assented, the knot being performed several hundred feet in the air. A third chose the lofty stannopie of the Bloomington water works here, and were made one, while on a narrow platform 250 feet above the earth. He has married numerous couples on the stage of theatres, while others were made one on rapidly moving railway trains while running away from an irate parent.

Squire Hendryx has brought fame to Bloomington through his unique marriage parlors, and this city has become a Gretina Green that probably has no superior on earth. The justice opened his marriage parlors in 1871, when he was first in the line of the peace. He was a gallant soldier of the civil war, and was badly wounded. It was five years before he recovered. He is now marrying the children of couples that he married twenty and thirty years ago. He is now averaging 500 couples annually.

Must not be confounded with common cathartic or purgative pills. Carter's Little Liver Pills are entirely unlike them in every respect. One trial will prove their superiority. The hat features in Danbury, Conn., which had been closed since the strike of the United Hatters, in defence of the union label, was declared nearly a month ago, were opened, this morning, to receive applications for employment from individuals, but no applications were received.

Stomach Derangement

Her Limbs Ached. Worn Out—Tired. Headaches, Dizziness.

Mrs. Scholes' case like that of thousands cured by the celebrated tonic Ferrozone.

This is but one example of the sickness, the dull aching weariness that afflicts so many homes to-day.

Hundreds of women, single and married, will recognize in Mrs. Scholes' statement symptoms from which they suffer continually.

Almost instant in its wonderful results, better than any other tonic in the world is Ferrozone. All other medical discoveries seem as naught compared with the vital bracing health Ferrozone so surely brings.

Proof Of Cure.

"People in ordinary circumstances find sickness the greatest burden of all," writes Mrs. W. S. Scholes, the wife of a well-known citizen in Russell. "But the mother with young children must keep going whether sick or well. This was my plight just before my third child was weaned. I became weak and pale, and at night I was so weary that I ached all over. I slept poorly, suffered with indigestion and headaches that almost blinded me."

"At last, when thin, wrinkled and hollow-cheeked, I was urged to use Ferrozone. For the first time in years I enjoyed freedom from headaches, my appetite picked up, I grew stronger, felt better and slept soundly. You can't imagine my joy in seeing my strength, color and spirits returning. Week by week I improved, gained eleven pounds and have been robust ever since."

Because Ferrozone invigorates—braces—builds up—because it will give you comfort, energy, sound lasting health, these are a few of the reasons why you should use Ferrozone. Sold by all dealers, 50c. per box, or six boxes for \$2.50. Try Ferrozone. Do it to-day.

DON'T STOP CHILD.

May Be Budding Inventive Genius According to Educator.

New York, Feb. 11.—In future, do not punish your child for demolishing any beautiful and attractive toy you have presented to him. If you do, you will be nipping the budding genius of your imaginative child before it starts. That is, according to Harold E. Gorst, who has come over from London to tell how modern education is at fault. He explained to the members of the Women's University Club, New York, yesterday afternoon. What makes the child break his toy, according to Mr. Gorst, is not the instinct to destroy but rather the craving to discover what is inside and further the desire of the young producer to utilize its component parts by exerting ideas of his own.

The whole trouble with education, both on this side and in England, Mr. Gorst declared, is that the talents and virtues which nature has bestowed are interfered with by an artificial method of stuffing the intellect with a lot of useless rules and dates which do nothing toward fitting the average person for the place he is intended to fill.

"Remember this," admonished Mr. Gorst, "every time you drive a fact into a child's head you drive out an idea of his imagination."

Just when the child's thinking machine is starting to work, he maintained, the school steps in and crams into his head a lot of arithmetic, history, French and what not, stopping his natural development and inclination to think for himself, and jamming into his head a lot of stuff which he promptly forgets. Also it steps the working of a genius, as witness the dearth of geniuses nowadays as compared with times when education had not been carried so far.

To remedy matters, Mr. Gorst's idea is to send a child to a school of selection at the age of seven. This is to be a place where his individuality is fostered and his productive activity continued under proficient direction. It is to replace the schoolhouse with a workshop made up of many smaller workshops, such as elemental laboratories, gardens, kitchens, and if possible a model farm. There he said the task of discovering the individual bent of the child would be comparatively easy. It would be divided into departments devoted to scholarship and scientific investigation, engineering and its related subjects, art and the decorative trades, agriculture and finance.

ARE SITTING UP.

The C.P.R. Has Secured Very Valuable Space.

Seattle, Wash., Feb. 11.—Representatives of the big American Transcontinental railroads are beginning to sit up and take notice of the almost scandalous manner in which the Canadian Pacific railway is flirting with the Alaska-Kuloo-Pacific exposition. It has recently become known that the C.P.R. has quietly bargained for 14,000 square feet of space in the agricultural building and will install there an exhibit a whole lot bigger and more comprehensive than many of the leading countries on this side of the line.

Although the railroad has been rather stingy with details, it is known to be its plan to demonstrate fully the tremendous productivity of the soil along the western half of its lines. It is going to make clear why it is; it is spending millions of money for new feeders and tap lines into districts of British Columbia, Alberta and Saskatchewan that down to now, have never heard a locomotive whistle.

Just why it is the C.P.R. is doing so splendidly by the exposition, unless it is conspiring to tempt away another forty or fifty thousand of Uncle Sam's subjects with its wonderful wheat fields, is what has the local railroad men guessing.

DEATH ENDED RIVALRY.

Aspirants For Widow's Hand Killed Each Other.

Deelege, Mo., Feb. 11.—John Hughes and George Ketcherside aimed each other in a revolver duel at Leadwood Springs, near here, last night, while Mrs. Adams, a widow with whom both were infatuated, looked on from a window of her home.

Through friends a truce was arranged, each agreeing not to meet the other socially, while both were to pay court to Mrs. Adams. The truce ended last night, and Ketcherside went to Mrs. Adams' home and found Hughes and the widow in the doorway talking. The two men quarrelled, but the widow pacified them. Hughes went away and armed himself, and returned to meet his rival coming away.

Without a word both men drew and opened fire. They were so close that their clothes were powder-burned. Each emptied five chambers of his revolver at arm's length. Both fell dead almost simultaneously, one across the body of the other.

OPPOSE FREE LUMBER.

Advocates Said to Have Canadian Stumpage.

Detroit, Mich., Feb. 10.—A Washington despatch says an interesting state of affairs has developed in the committee on ways and means over the lumber schedule in the tariff now in course of preparation. A delegation of lumber men who recently appeared here, strongly urged that lumber be placed on the free list. It has since been discovered that the men in question are the directors of a company that owns considerable stumpage in British Columbia. Their interest in free lumber is obvious. Representatives of the lumber industry from the west, who arrived here, on Tuesday, insist that it would be unwise to place lumber on the free list. They do not advocate the retention of the present rate of \$2 per thousand feet, but ask that a part of this rate be retained.

Frederick and Albert Kelley, sons of the caretaker of St. Clair Avenue Methodist church in Toronto, pleaded guilty to robbing the collection boxes. During the past week \$14 is said to have been taken. Nevada has passed a law barring Japanese and other Asiatics from holding land in the state. In the douma this week a bill for the abolition of the death penalty was tabled.

SORE THROAT. COLDS ON THE CHEST, & CATARRH.

Wherever there is soreness, irritation, inflammation, Zam-Buk will give you ease. In cases of sore throat it is without equal. Place a layer of Zam-Buk on the sides of the throat as near the seat of pain as possible, and then gently rub it well in. Don't press too hard, but rub with a circular motion of the fingers. The healing essences will sink into the tissues, become absorbed, and then commences at once a soothing, healing process. Next, spread on a piece of undyed flannel another layer of Zam-Buk and wrap this round the throat, taking care that while it sits well on the neck it is not too tight. Mothers who do this as soon as the children complain of sore throat, will be amply paid for their trouble. The little ones get ease very speedily, and generally when this treatment is followed at night, by next morning the sore throat will be amply cured. In stubborn cases two or three applications of Zam-Buk should be made.

For Catarrh also, Zam-Buk is a perfect cure, as the following cases illustrate. Every home should have its box of Zam-Buk always handy for there is nothing like it for the diseases of and injuries to the skin and subjunctive tissue.

ZAM-BUK IS A SURE CURE FOR CATARRH.

If the rheumatic pains to which I was a prey, in 3 days from the time I first began applying Zam-Buk I was free from the cold in throat and chest, and afterwards the rheumatism was driven by it from my limbs. I have the greatest faith in Zam-Buk and will always use it to prevent colds getting deep-seated."

"I recently had a sore on the inside of my nostril, and at the same time was suffering with catarrh. I put some Zam-Buk inside my nose to cure the sore, and was surprised how the evaporating healing essences gave me ease from the catarrh."

WHAT ZAM-BUK CURES.

Zam-Buk is a certain cure for piles, fevers, sore blood poisoning, cuts, burns, bruises, ulcers, scalds, chapped hands, cracked, eczema, scalp sores, ringworm, bad leg, and all skin injuries and diseases. Rubbed well into the parts affected, it cures neuralgia, rheumatism, and sciatica. All druggists and stores sell it. Six boxes three for \$1.25, or post free from Zam-Buk Co., Toronto.

Voices from many Homes.

Here are a few expressions from homes in various parts of the Dominion showing how universal is the adoption of Zam-Buk, and how wide its uses. Keep a box always handy!

"My hand was crushed by a heavy mould falling on to it, and for some days I could not use it. We bandaged it in Zam-Buk, which reduced the swelling and healed the serious wounds." So says Mr. Wm. Burdett, of 198, Simcoe Street, Hamilton (Ont.).

Mr. E. Jasper, of Hartney (Man.), says: "I had some very troublesome cold-sores, which defied all ordinary treatment. Zam-Buk healed them." Mrs. Plastow, of High River (Alta.), says: "Zam-Buk healed my hands, which were frost-bitten and covered with cold-cracks." Similar testimony is borne by Mr. A. Redmond, of Kimberley (B.C.).

Mr. J. Parkinson, of East Clifton (Que.), says: "I had an ulcerated leg for six years. All the remedies I tried during that period proved unable to heal the sore, but I am delighted to say the Zam-Buk proved successful!"

Mr. Alf W. Orth, of Shipley (Ont.), ran a rusty nail into his finger. Blood poisoning ensued, and he had it frightfully bad. "I was told nothing would do me good but Zam-Buk," he said, "so I tried this balm. The advice was sound enough, and in a week my hand was quite cured. I think Zam-Buk a really wonderful healer."

DID YOU KNOW THIS?

That Zam-Buk is now used as the leading family balm throughout four continents, and that the majority of the population of the globe use it, and prefer it! Surely, to gain this eminence, it must have unusual merit! That unusual excellence lies in the fact that it is nothing more nor less than Nature's own healer. Compounded as it is of pure herbal extracts and juices, it may be said to be independent of human knowledge. The human element in Zam-Buk is merely the putting together of the component parts. Nature merely provides the curative properties. The proprietors of Zam-Buk merely hand them out in concentrated handy form. In using Zam-Buk, therefore, you are "going back to mother Nature"—the kindest, wisest, and the only "never-failing nurse" in creation.
